This data report provides statistics about the number and percentage of Maryland community college students who earned a bachelor's degree from a public four-year campus in the state within a specified period of years.

- **Community college students who transferred during the 2000-2001 academic year who received a bachelor's degree within five years after transferring.**
- **Community college students who transferred during the 2001-2002 academic year who received a bachelor's degree within four years after transferring.**
- **Community college students who transferred during the 2002-2003 academic year who received a bachelor's degree within three years after transferring.**
- **Community college students who transferred during the 2003-2004 academic year who received a bachelor's degree within two years after transferring.**
- **The cumulative grade point average earned by community college transfer students (2004-2005) at their four-year institution in their first year after transferring.**

For each of the above cohorts, figures are supplied for all transfer students and by certain racial breakdowns (whites, African-Americans, and all minorities combined).

The figures in this report may understate the number and percentage of students who actually have earned a bachelor's degree, since they reflect only those students who graduated from the first institution to which they transferred. Students who transferred more than once, and earned a degree from a subsequent campus, are not reflected in the graduation totals.
