

# LOYOLA UNIVERSITY MARYLAND

— 1852 —

Office of the Provost

May 12, 2020

James D. Fielder, Ph.D. Secretary of Higher Education Maryland Higher Education Commission

via email (acadprop.mhec@maryland.gov)

Dear Secretary Fielder:

The Rev. Joseph A. Sellinger, S.J., School of Business and Management proposes to create a discrete major of its existing concentration in finance. The proposal results from university wide curricular review and renewal and a commitment to innovation. On behalf of the university, I write to ask for your recommendation to implement the Bachelor of Science in Finance, CIP code: 52.0801. The proposal has my support and approval and that of Loyola's faculty, Board of Trustees, and president.

Please find attached to this email a scanned copy of the check for the substantial fee of \$850.

We trust you will find the proposal packet to be complete, and we eagerly await your recommendation.

Sincerely,

amando M. Frankly

Amanda M. Thomas, PhD Provost and Vice President for Academic Affairs

Revised 3/2019

# LOYOLA UNIVERSITY MARYLAND

Proposal: BS in Finance

## Introduction

Loyola University Maryland has offered undergraduate business and accounting programs since the early 1940s and began its MBA in 1967. The programs are well-established and have educated generations of business leaders. Since the early 1990s, Loyola has offered concentrations continuously in Business Economics, Finance, Information Systems, International Business, Management, and Marketing. Loyola University Maryland seeks to establish these programs as standalone undergraduate majors. These proposals are the result of university-wide curricular review and renewal.

Loyola's faculty engaged in a review of its core curriculum (the curricular requirements common among all Loyola undergraduate students) and made modest changes to it in concert with the request for modest changes to major programs of study that have extensive course requirements. The faculty's goals for the curricular changes aimed to provide students more flexibility in course-taking and more curricular innovation while upholding Loyola's distinctive identity as a Jesuit liberal arts institution. The Undergraduate Curriculum Committee (UCC) set forward its mission-centered vision for the core curriculum and conducted a thorough review of student outcomes and satisfaction. Among several other findings, the UCC's analysis demonstrated that students would benefit from a greater number of electives, especially students in STEM, education, and business majors because it would allow them to accommodate a greater variety of minors.

The Sellinger School of Business and Management worked diligently to meet this recommendation from the Undergraduate Curriculum Committee. Some discussions began as early as fall 2018, the Sellinger academic departments worked on curricular review and deliberations spring-fall 2019, and faculty began school-wide engagement in spring 2019. A table in each proposal displays the extensive review and consultation that the Sellinger School used for gathering input from its many constituents, including advisory boards for each program, students, and alumni.

Ultimately, the Undergraduate Curriculum Committee, Loyola's Academic Senate, and its Board of Trustees reviewed and approved recommendations to establish discrete majors and create the curricular change desired to prepare Sellinger students better for their first professional positions and for eventual promotions. These changes result in required course and credit reductions, increased opportunities for a variety of high-impact teaching practices, and the availability of more elective courses so that students will now be able to pursue a variety of minors, explore an area of interest in depth, or explore several areas of interest with breadth. The curricular changes will invigorate Loyola's business offerings and update them to meet the needs of businesses and demands of students.

The Maryland Higher Education Commission (MHEC) was aware of the existence of these concentrations, beginning in the early 1990s, as part of annual catalogue reviews and audits for veterans' benefits. Loyola has since attempted to work with MHEC to correct the omission of these concentrations from MHEC's academic program inventory (API) through the MHEC API

reconciliation process.<sup>1</sup> The omission of these concentrations from MHEC's official academic program inventory is not reflective of Loyola's business program offerings. Unfortunately, at this time, the discrepancy in the inventory makes these submissions appear as though they propose brand new programs when, in reality, we wish to make discrete majors from concentrations that have existed for three decades as we work to meet the demands of a changing higher education landscape and to embrace curricular innovation, such as expansion of high-impact teaching practices. Loyola asks that the Secretary approve these discrete majors to serve student and business community needs and to allow Loyola to meet its obligation to continuously improve in fulfilling its academic mission.

# A. Centrality to Institutional Mission and Planning Priorities:

1. Provide a description of the program, including each area of concentration (if applicable), and how it relates to the institution's approved mission.

Loyola University Maryland's mission statement makes clear its commitment to the educational and spiritual traditions of the Society of Jesus and to the ideals of liberal education and the development of the whole person, as a Jesuit, Catholic university. Accordingly, it states, the University will inspire students to learn, lead, and serve in a diverse and changing world.

Loyola, established in 1852, has been serving students and the Baltimore business community for more than 75 years. The Sellinger School of Business and Management focuses on inspiring and preparing students to become responsible business leaders who make their companies and their communities stronger. The Sellinger School earned initial AACSB accreditation in 1988 and now maintains dual AACSB accreditation for accounting and business administration programs.

The finance department at Loyola offers a Bachelor of Business Administration with a concentration in Finance, one of the most popular undergraduate concentrations in the Sellinger School of Business, and the largest concentration in the graduate programs—Loyola offers an MBA degree with a specialization in finance. This proposal seeks to establish the Finance concentration as a discrete Bachelor of Science degree program.

Finance is a vital area of American business. Current trends and ethical dimensions of the world of high finance make the liberal arts background that Loyola offers an essential part of any strong finance education.

All finance students have access to the Sellinger Experiential Learning Lab (SELL) located in Sellinger Hall. The SELL is an innovative trading room managed by faculty that provides practical knowledge and awareness of financial markets, incorporating the latest investment technologies for a real-world trading experience.

By providing a strong background in finance theory and application, the Bachelor of Science in Finance (BSF) will prepare students to take prestigious professional certification exams, such as the Chartered Financial Analyst (CFA). By choosing the "Path to Wall Street," students can proceed on an academic path that enables finance-related internship opportunities early in their academic career. The proposed BS in Finance will be reduced from the current concentration

<sup>&</sup>lt;sup>1</sup> Regulation of "area of concentration" does not appear in COMAR until 1996 and is not defined as we understand it today until 2012, so Loyola understood the pre-existing concentrations as "grandfathered" in the inventory.

requirement of 17 courses/51 credits to 16 courses/48 credits. The Finance department aspires to become a Chartered Financial Analyst (CFA) endorsed program. To achieve that goal, it will need to offer greater depth in the discipline than the concentration of the BBA program can currently afford. The proposed revision provides that depth.

2. Explain how the proposed program supports the institution's strategic goals and provide evidence that affirms it is an institutional priority.

The introduction to Loyola's several business program proposals explains how the proposed establishment of discrete majors fits within the much larger context of curricular renewal at Loyola and how these proposals work in concert with modest changes to Loyola's core curriculum to allow students more agency in their studies and flexibility in providing more elective courses to students.

In addition, the proposals support the University's strategic plan goals for Educational Innovation and embrace the academic division's goals to increase student academic engagement through high-impact teaching practices, to promote inclusive academic excellence, and to broaden the impact of innovation. More specifically, the proposals support the University's strategic goals in the following ways.

- Consistent with the Sellinger School's theme of *Building a Better World Through Business*, each proposed business major program focuses on enhancing the Loyola experience through understanding the role of business in creating economic opportunity for all – including the marginalized – while preparing students for 21st century career opportunities.
- Through course-embedded high-impact practices, an array of co-curricular opportunities, and deliberate mentoring, business students are encouraged to understand and be able to articulate the importance of the liberal arts to excellence in business leadership.
- Through the business foundations courses, students learn to integrate knowledge and skills across the business disciplines. This curriculum, building on and combined with the Loyola core curriculum, prepares students to identify market and societal needs and address contemporary challenges.
- Each proposed business major program includes a required capstone course which will connect general business and major-specific knowledge with the Loyola core curriculum. These capstone courses demonstrate to students the power that Jesuit values will have as they advance to leadership roles and work to build a better world through business.
- Each proposed business major program incorporates several course-embedded high impact practices (HIPs) and a number of co-curricular opportunities to enhance each student's sense of belonging and to promote inclusive academic excellence.
- Each proposed business major program adds a new learning outcome related to Diversity, Equity, and Inclusion.
- The revisions to Sellinger's undergraduate curriculum are innovative:
  - The proposed structure of Business Foundations courses reflects a different way of meeting AACSB accreditation requirements than the approaches employed by peer, competitor, and aspirational schools. Most of those schools meet accreditation requirements by establishing independent courses to teach each area of business

knowledge, whereas the proposed program integrates some business topics (e.g., international business and global awareness) across the curriculum.

- Each proposed major explicitly integrates High Impact Practices to assure that all students experience multiple HIPs. This ensures that each student has those experiences.
- A few of the proposed majors incorporate Loyola College of Arts and Sciences courses as opportunities to fulfill major requirements (e.g., BBA-Marketing).
- Many business courses, with or without embedded High Impact Practices, and many cocurricular opportunities help students to develop creative and optimistic habits of mind to enhance their ability to recognize and define problems and seek solutions to those problems (e.g. IS251 and Capstone Courses, and the annual *Building a Better World Through Business* pitch competition).
- **3**. Provide a brief narrative of how the proposed program will be adequately funded for at least the first five years of program implementation. (Additional related information is required in section L.

The Sellinger School of Business already supports the program as a concentration. The academic department, faculty with disciplinary expertise, instructional facilities, and academic supports already exist at Loyola and are supported as institutional priorities. The budget and resources for the program already exist and will continue to be provided.

- 4. Provide a description of the institution's a commitment to:
  - a) ongoing administrative, financial, and technical support of the proposed program

The Sellinger School's academic associate dean and department chairs will be responsible for academic leadership. For administrative matters, they will be assisted by the assistant dean for programs and the undergraduate program assistant. Advising responsibilities will be shared by faculty in the department and, if necessary, by other Sellinger faculty who do not have major-specific advising responsibilities.

No additional faculty, administrator, or staff resources are required to support the program.

b) continuation of the program for a period of time sufficient to allow enrolled students to complete the program.

Loyola University Maryland has established its commitment to the program over decades. The finance department has existed since the establishment of the Rev. Joseph A. Sellinger, S.J., School of Business and Management in 1980. Instruction in finance within the BBA degree has existed since the early 1980s, and the concentration has been offered continuously since first published in Loyola's 1990-91 catalogue. Loyola's business programs are important to the University, and Loyola's commitment will continue, unabated.

# B. Critical and Compelling Regional or Statewide Need as Identified in the State Plan:

1. Demonstrate demand and need for the program in terms of meeting present and future needs of the region and the State in general based on one or more of the following:

Loyola's current finance concentration of the BBA degree program has produced 539 graduates in the last five years. This demonstrates existing demand and the potential success for the proposed major. We project a similar size for our major. Loyola anticipates no net new enrollments as it expects a redistribution of enrollment from the existing concentration.

Table DT. 1. Graddated Concentration Trends from 2013-2013							
Concentration	2015	2016	2017	2018	2019	Total	Average
Finance	90	69	121	122	137	539	108

# Table B1.1. Graduated Concentration Trends from 2015-2019

(Source: Loyola University Maryland Office of Institutional Research)

# Table B1.2. Enrollment Projections – Proposed BS in Finance

	Enrollment Projections*					
Proposed major	Year 1 Year 2 Year 3 Year 4 Year 5					
Finance B.S.	108	216	324	324	324	

\*Enrollment projections for the major are based on the average graduation numbers of the existing concentration.

As one of the most popular undergraduate programs at Loyola, it is important to maintain the finance degree's relevance and desirability. Of the schools in the Washington/Baltimore metropolitan area that compete in the annual CFA Challenge (Chartered Financial Analyst), Loyola is the only program not affiliated with the CFA. CFA-affiliated programs must assure that their curriculum includes at least 70% of CFA topics. The current curriculum does not have sufficient depth or breadth to meet this benchmark, due to the limited number of finance courses our students can take. The proposed BS in Finance will meet the benchmark. Once the program is fully approved, the department will apply to become an affiliated university; approval is expected because the CFA topic coverage will be met.

In addition to the importance of becoming CFA affiliated, the finance department has heard from several stakeholders (the finance advisory board, members of Loyola's Board of Trustees, current students and alumni) that a major in finance from Loyola would be more beneficial than a concentration in finance. This proposal outlines a B.S. in Finance that addresses this desire and better prepares our students for careers in finance.

The National Association of Colleges and Employers (NACE) reports high demand for business majors, including in some of Maryland's strongest industries.

MAJOR	# OF RESPONDENTS THAT WILL HIRE		% OF RESPONDENTS THAT WILL HIRE
Finance		86	65.2%

# Table B1.3. Top Bachelor's Degrees in Demand, 2018

(Source: National Association of Colleges and Employers)

MAJOR	MOST INTERESTED INDUSTRIES	% OF INDUSTRY RESPONDENTS
	Finance, insurance, and real estate	100%
Finance	Government	80%
	Retail trade	80%

# Table B1.4. Who is Hiring by Industry, Bachelor's Degree Level, 2019

(Source: National Association of Colleges and Employers)

2. Provide evidence that the perceived need is consistent with the <u>Maryland State</u> <u>Plan for Postsecondary Education</u>.

The Maryland State Plan for Postsecondary Education focuses on three overarching goals: access, success, and innovation. Loyola University Maryland's proposals to create discrete majors from existing business administration concentrations increase the transparency of the offerings and result from a university-wide curricular renewal initiative. The university's strategic goals emphasize educational innovation, through the incorporation of high-impact teaching practices endorsed by the American Association of Colleges and Universities (AAC&U). The faculty's efforts for curricular renewal aim to provide students greater flexibility of course requirements and opportunities to explore academic areas of interest with more agency and self-efficacy. These changes are all designed toward building greater success for students through inclusive academic excellence.

- C. Quantifiable and Reliable Evidence and Documentation of Market Supply and Demand in the Region and State:
  - 1. Describe potential industry or industries, employment opportunities, and expected level of entry (*ex: mid-level management*) for graduates of the proposed program.

By providing a strong background in finance theory and application, the Bachelor of Science in Finance (BSF) prepares students to take prestigious professional certification exams, such as the Chartered Financial Analyst (CFA). The finance major focuses on a vital area of American business. Loyola's finance department stresses practical issues and the procedures of finance. Graduates might pursue employment opportunities with titles such as analysts, advisors, appraisers, or associates in finance, accounting, and sales among other areas.

2. Present data and analysis projecting market demand and the availability of openings in a job market to be served by the new program.

Strong growth is projected in related fields, according to Bureau of Labor Statistics data.

	Nation/	Employment		%	Projected Annual	
Occupation	State	2016	2026	Change	Job Openings	
General and Operations	United States	2,263,100	2,468,300	9%	210,700	
Managers	Maryland	48,160	51,490	7%	4,310	
Financial Managers	United States	580,400	689,000	19%	56,900	
	Maryland	10,920	11,580	6%	860	

# Table C.2. Workforce Need Projections

	Nation/	Employment		%	Projected Annual
Occupation	State	2016	2026	Change	Job Openings
Budget Analysts	United States	58,400	62,200	7%	4,800
	Maryland	2,280	2,360	4%	180
Credit Analysts	United States	73,800	79,900	8%	6,800
-	Maryland	980	1,040	6%	90
Financial Analysts	United States	296,100	328,200	11%	29,000
	Maryland	6,440	6,950	8%	590
Personal Financial Advisors	United States	271,900	312,300	15%	25,500
	Maryland	6,470	6,910	7%	420
Loan Officers	United States	318,600	354,900	11%	30,400
	Maryland	4,420	4,580	4%	370
Financial Quantitative Analysts, Risk Management Specialists,	United States	135,900	149,000	10%	13,100
Investment Underwriters, Fraud Examiners	Maryland	5,000	5,070	2%	400
Business Teachers,	United States	104,200	123,000	18%	10,400
Postsecondary	Maryland	690	740	8%	60

	Total Maryland
national	Projected Annual Job Openings
387,600	7.280

**3**. Discuss and provide evidence of market surveys that clearly provide quantifiable and reliable data on the educational and training needs and the anticipated number of vacancies expected over the next 5 years.

As shown above, strong job growth is projected with large numbers of annual job openings at the state and national levels in fields related to a finance major.

4. Provide data showing the current and projected supply of prospective graduates.

The following degree trends data provide analysis of bachelor's degrees in finance in Maryland. It does not include analysis of business programs with concentrations, tracks, specializations, or minors in finance because MHEC does not track enrollment or degree data at those levels.

TUDIC 0.4. Degree I								
	Degree	Program						
School Name	Level	Name	2015	2016	2017	2018	2019

		Subtotal:	447	519	553	533	539	518

# Table C.4. Degree Trends

Source: MHEC Degree Trends data

# D. Reasonableness of Program Duplication:

1. Identify similar programs in the State and/or same geographical area. Discuss similarities and differences between the proposed program and others in the same degree to be awarded.

As shown above, several Maryland institutions have a finance major. This is the case for most AACSB-accredited business schools of the size of Loyola's Sellinger School of Business and Management. Of note regarding finance degree programs offered in Maryland, students do not currently have an option for a bachelor's in finance from a Maryland independent institution. Student choice is limited to public institutions. Loyola's proposed program would expand student options to include a private, independent liberal arts institution within the State of Maryland.

2. Provide justification for the proposed program.

A finance degree program is commonly offered by accredited business schools. Much as humanities programs are treated within the liberal arts, some traditional business programs are expected to be part of the portfolio of business schools. Loyola is not attempting to establish a whole-cloth new program, but instead, seeks to make the offering transparent among the Maryland higher education community while addressing the curricular renewal that has resulted from internal review, deliberation, and planning for the success of our students in changing higher education and business community landscapes.

# E. Relevance to High-demand Programs at Historically Black Institutions (HBIs)

1. Discuss the program's potential impact on the implementation or maintenance of highdemand programs at HBI's.

Loyola does not anticipate any impact on the implementation or maintenance of high-demand programs at HBIs in Maryland. However, prior to making these proposals to MHEC, Loyola's president, the Rev. Brian F. Linnane, S.J., reached out to Dr. David Wilson, president of Morgan State University, which is Loyola's neighbor. Fr. Linnane wished to inform Dr. Wilson of Loyola's plans to submit the proposals, after the proposals were approved by Loyola's Board of Trustees in February 2020. As a result of the call, Loyola hopes to continue conversations with

Morgan State University. The amount of time for conversations prior to submission to MHEC was curtailed by the necessary campus responses to the COVID-19 State of Emergency.

The proposals have been submitted at this time with the hope to receive the Secretary's recommendation for implementation in time for inclusion in the 2020-21 catalogue.

# F. Relevance to the identity of Historically Black Institutions (HBIs)

1. Discuss the program's potential impact on the uniqueness and institutional identities and missions of HBIs.

Loyola proposes to make discrete majors from existing areas of concentration. These undergraduate business programs should not have any impact on the uniqueness and institutional identities and missions of HBIs because the programs are typical of business schools across the state and across the nation.

- **G.** Adequacy of Curriculum Design, Program Modality, and Related Learning Outcomes (as outlined in COMAR 13B.02.03.10):
  - 1. Describe how the proposed program was established, and also describe the faculty who will oversee the program.

As stated earlier, the study of finance has existed at Loyola for decades. However, the proposal to create a discrete major for the program results from university-wide discussions about student success, continuous improvement, and curricular renewal. Loyola's faculty asked large programs to engage in a reduction of course requirements in concert with minor reductions to the core curriculum so that students could benefit from greater flexibility in the degree programs and have more autonomy in exploring academic areas of interest. Students desired the academic flexibility, faculty sought to provide them that flexibility, and the campus engaged in deep, serial conversations at the university, school, department, and program levels.

The finance department and faculty discussed the curricular changes and the proposal from March-October 2019. Program stakeholders and constituents, including the board of sponsors, the board of advisors, students, and alumni, provided input along the way through a transparent and collaborative process. The Undergraduate Curriculum Committee endorsed the program proposal, and the Academic Senate and the Board of Trustees each approved the program proposal. The table below depicts the many conversations held about business foundational courses and the advanced course of the discipline.

Body/Action	Foundational Courses	Advanced Courses
	Date	Date
Sellinger Leadership Team timeline discussion	12/5/18	12/5/18

# Faculty

James (Jay) Brown, Associate Professor of Operations Management, will teach (OM260) Supply Chain & Operation Management. Dr. Brown earned a BBA in Operations Management, an MBA and a PhD in Operations Management from Kent State University. He joined Loyola in 2013.

Christy DeVader, Associate Professor of Management, will teach (MG201) Management. Dr. DeVader has a BS in Psychology from Fort Hayes State University and a PhD from the University of Akron in Industrial/Organizational Psychology. She joined Loyola in 1987.

D. Scott Emge, Executive in Residence of Finance, will teach (FI320) Financial Management, (FI440) Financial Analysis & Valuation and (FI441) Advanced Financial Management. Mr. Emge earned a BS in Accounting from Towson State University and an MBA from the University of Maryland. He joined Loyola in 2017.

Elizabeth Kennedy, Associate Professor of Law & Social Responsibility, will teach (LW305) Law & Social Responsibility. Ms. Kennedy has two degrees, a BA from Smith College and a JD from the University of California, Berkeley. She joined Loyola in 2007.

John Krahel, Associate Professor of Accounting, will teach (AC201) Financial Accounting. Dr. Krahel received his BA and MAcc from Rider University and his PhD in Accounting from Rutgers University. He joined Loyola in 2012.

Marie Yeh, Associate Professor of Marketing, will teach (MK240) Marketing Principles. Dr. Yeh has a PhD in Marketing with a minor in Economics/Applied Science from Kent State University,

an MSEd in Counseling from Old Dominion University and a BS in School Health Education from the University of Maryland, College Park. She joined Loyola in 2013.

Dobin Yim, Assistant Professor of Information Systems, will teach (IS251) Data Analytics & Information Systems. Dr. Yim earned several degrees. He received a BS and MS from Brown University, an MBA and a MA from the University of California, Irvine. He received his PhD in Information Systems from the University of Maryland, College Park. He joined Loyola in 2019.

Tuugi Chuluun, Associate Professor of Finance, will teach (FI330) Junior Analyst Class and (FI340) Global Financial Management. Dr. Chuluun has a BA in Economics and an MA in Financial Economies from Ohio University and a PhD in Finance from the Georgia Institute of Technology. Dr. Chuluun joined Loyola in 2009.

Frank D'Souza, Professor of Finance, will teach (FI434) Stu Mngd Slngr App Port Fund. Dr. D'Souza earned a BS in Accounting from the University of Bombay an MBA from St. Cloud State University and a PhD in Finance from Oklahoma State University. Dr. D'Souza joined Loyola in 2008.

Lisa Fairchild, Professor of Finance, will teach (FI322) Investments and (FI381) Equity Secur: Valuation & Market. Dr. Fairchild earned a BBA from East Tennessee State and a PhD from the University of South Carolina, both in Finance. Dr. Fairchild joined Loyola in 1991.

Walter Reinhart, Professor of Finance, will teach (FI320) Financial Management, (FI433) Portfolio Management and (FI499) Finance Internship. Dr. Reinhart received a BS and an MBA from Oklahoma State University before earning a PhD in Finance from the University of North Carolina, Chapel Hill. Dr. Reinhart joined Loyola in 1984.

Yoon Shin. Associate Professor of Finance will teach (FI350) Financial Modeling and (FI380) Fixed Income Securities: Valuations & Markets. Dr. Shin earned a BBA from Kookmin University, an MS in Finance and Economics from Texas A&M University, and a PhD in Finance from University of South Carolina. Dr. Shin joined Loyola in 2002.

2. Describe educational objectives and learning outcomes appropriate to the rigor, breadth, and (modality) of the program.

The BS in Finance aligns its program learning outcomes to the University's undergraduate learning aims, particularly those related to Intellectual Excellence and Critical Understanding. The Finance learning outcomes follow:

- Students will identify the fundamental financial management decisions in the corporate setting.
- Students will understand the process of financial statement analysis and conduct financial ratio analysis.
- Students will understand the fundamentals of equity and debt valuation and conduct discounted cash flow valuation.
- Students will learn the process of capital budgeting and apply it to make informed investment decisions.

- 3. Explain how the institution will:
  - a) provide for assessment of student achievement of learning outcomes in the program

The Finance program will follow the usual assessment practices of the Sellinger School. The Sellinger School of Business has employed a continuous improvement process to assess its learning goals of effective communication, analytical and critical thinking, knowledge and integration of functional area content, ethical leadership, global awareness, and (forthcoming) equity, diversity, and inclusion. Accredited by the AACSB, the five-year assessment cycle is accomplished at the program level through evaluation of both direct and indirect methodologies.

The direct methodology involves collecting student artifacts in key BBA foundational courses and assessing them using faculty created rubrics and an overall capstone examination (the ALBA). Outcomes from those assessments are forwarded to either the Sellinger Curriculum Committee or a related program partner group that in turn presents recommendations for curricular updates at the Sellinger Assembly and then ultimately university governance. The indirect methodology involves collecting feedback from our external constituencies (mainly advisory boards and hiring firm representatives) and evaluating that feedback by the Sellinger Leadership Team (SLT). This feedback then is forwarded to the Sellinger Assembly and university governance when warranted.

b) document student achievement of learning outcomes in the program

All BBA programs at Loyola fulfill an extensive list of learning outcomes from the business foundation courses. Those learning outcomes and the assessment map are included in an appendix.

The same methodology, described above in 3a., will be adopted for assessment of majorspecific learning outcomes. Student achievement will be documented in key assessment courses.

Program Learning Outcome	Loyola Learning Aim	Assessment Course
Students will identify the fundamental financial management decisions in the corporate setting.	Intellectual Excellence	FI 320
Students will understand the process of financial statement analysis and conduct financial ratio analysis.	Intellectual Excellence Critical Understanding	FI 440
Students will understand the fundamentals of equity and debt valuation and conduct discounted cash flow valuation.	Intellectual Excellence	FI 322
Students will learn the process of capital budgeting and apply it to make informed investment decisions.	Intellectual Excellence	FI 441

# Table G3.b. Assessment Map for Finance

4. Provide a list of courses with title, semester credit hours and course descriptions, along with a description of program requirements

The program requires 48 credits beyond the Loyola core. Course titles, credit hours, and descriptions follow in an attachment to the proposal.

Course	New, Revised, Existing Course	Required or Optional	Includes High- Impact Practice?			
Business Foundation Courses						
AC 201 Financial Accounting	Existing	Required	No			
IS 251 Data Analytics & Information Systems	Existing	Required	Yes			
MG 201 Management Principles	Existing	Required	No			
MK 240 Marketing Principles	Existing	Required	No			
LW 305 Legal Environment of Business	Existing	Required	Yes			
FI 320 Financial Management	Existing	Required	No			
OM 260 Introduction to Supply Chain Management	Existing	Required	Yes

FI Elective	Existing	Required	No			
FI Elective	Existing	Required	No			
FI / EC / AC Elective	Existing	Required	No			
FI / EC / AC Elective	Existing	Required	No			
CAPSTONE (FI441)	Existing	Required	Yes			
	Electives					
Non-Departmental Elective (or Graduate AC	C course)					
Non-Departmental Elective (or Graduate AC	C course)					
Non-Departmental Elective						
Free Electives (6 courses)						

 Table G4. Curriculum: BS Finance

5. Discuss how general education requirements will be met, if applicable.

At Loyola, all undergraduate students are required to complete Loyola's Core Curriculum. The Core Curriculum comprises the foundations of a liberal arts education in the Jesuit tradition. Courses span areas in the humanities, social sciences and natural sciences/mathematics. They include disciplines such as writing, English, history, fine arts, theology, philosophy, and ethics. The diversity core course focuses on domestic diversity, global diversity, or justice.

6. Identify any specialized accreditation or graduate certification requirements for this program and its students.

N/A

7. If contracting with another institution or non-collegiate organization, provide a copy of the written contract.

# N/A

8. Provide assurance and any appropriate evidence that the proposed program will provide students with clear, complete, and timely information on the curriculum, course, and degree requirements, nature of faculty/student interaction, assumptions about technology competence and skills, technical equipment requirements, learning management system, availability of academic support services and financial aid resources, and costs and payment policies.

All program requirements, including pre-requisites, curriculum, administration, financial aid, and any other relevant information will be maintained on the program's website and in the undergraduate catalogue. The department chair will be responsible for ensuring that the webpage is current and that students are informed of any changes. Individual course requirements will be clearly delineated on syllabi, as well as in catalogue descriptions prior to registration. The department chair will also be available to discuss program/course requirements and university services during office hours or by appointment.

Loyola provides support services that include an Office of Technology Services, Counseling Center, Disability Support Services, Financial Aid Office, a National Fellowships Office, and many other support services to assist students for success. As mentioned above, Loyola's website provides the appropriate program costs and student support resources, including required consumer information disclosures.

9. Provide assurance and any appropriate evidence that advertising, recruiting, and admissions materials will clearly and accurately represent the proposed program and the services available.

Loyola University has a dedicated Office of Marketing and Communications. Loyola endorses and adheres to ethical principles and codes of conduct published by various national organizations. These include the Public Relations Society of America (PRSA) Code of Ethics, the National Association for College Admission Counseling (NACAC) Statement of Principles of Good Practice, the National Association of Student Financial Aid Administrators (NASFAA) Statement of Ethical Principles and Code of Conduct for Institutional Financial Aid Professionals, American Association of Collegiate Registrars and Admissions Officers (AACRAO) Professional Practices and Ethical Standards, the NAFSA: Association of International Educators Statement of Ethical Principles, and the Association for Institutional Research (AIR) Code of Ethics, which are followed by the University Communications team, Admissions Offices, the Office of Financial Aid, the Records Office, the Office of International Programs, and the Office of Institutional Research, respectively.

# H. Adequacy of Articulation

1. If applicable, discuss how the program supports articulation with programs at partner institutions. Provide all relevant articulation agreements.

N/A

- I. Adequacy of Faculty Resources (as outlined in COMAR 13B.02.03.11).
  - Provide a brief narrative demonstrating the quality of program faculty. Include a summary list of faculty with appointment type, <u>terminal degree title and field</u>, academic title/rank, status (full-time, part-time, adjunct) and the course(s) each faulty member will teach in the proposed program.

The business faculty teaching in this program includes four tenured full professors, six tenured associate professors, one tenure-track assistant professor, all with terminal degrees in business; one Executives-in-Residence with a terminal business\_degree; and one full-time lecturer who has a master's degree in business administration. The table below indicates the highest degree for each faculty member, and the courses that the faculty members would likely teach in the program.

Name	Status	Title	Highest Degree/ Field	Course(s)		
Business Foundation Courses						
Brown, Jay	Full-time	Associate Professor of Operations Management	PhD in Operations Management	OM260		
DeVader, Christy	Full-Time	Associate Professor of Management	PhD in Industrial/Organizational Psychology	MG201		
Emge, Scott	Full-time	Executive in Residence of Finance	MBA, The University of Maryland	FI320		
Kennedy, Elizabeth	Full-time	Associate Professor of Law & Social Responsibility	JD from the University of California, Berkeley, Boalt Hall School of Law	LW305		

Name	Status	Title	Highest Degree/ Field	Course(s)
Krahel, John	Full-time	Associate Professor of Accounting	PhD in Accounting	AC201
Yeh, Marie	Full-time	Associate Professor of Marketing	PhD in Marketing	MK240
Yim, Dobin	Full-time	Assistant Professor of Information Systems	PhD in Information Systems	IS251
	ŀ	Advanced Courses in the	e Major	
Chuluun, Tuugi	Full-time	Associate Professor of Finance	PhD in Finance	FI330, FI340
D'Souza, Frank	Full-time	Professor of Finance	PhD in Finance	FI434
Emge, Scott	Full-time	Executive in Residence of Finance	MBA, The University of Maryland	FI440, FI441
Fairchild, Lisa	Full-time	Professor of Finance	PhD in Finance	FI322, FI381
Reinhart, Walter	Full-time	Professor of Finance	PhD in Finance	FI320, FI433, FI499
Shin, Yoon	Full-time	Associate Professor of Finance	PhD in Finance	FI350, FI380

- 2. Demonstrate how the institution will provide ongoing pedagogy training for faculty in evidenced-based best practices, including training in:
  - a) Pedagogy that meets the needs of the students

Loyola currently offers two formal university-wide teaching enhancement workshops each year for all faculty, as well as numerous less formal pedagogical opportunities throughout the year. Several workshop sessions are dedicated to pedagogical training for faculty and instructors, including discussions of best practices for promoting student learning. In 2018 Loyola established Teaching Fellows who research and then incorporate into their courses high-impact practices. The Fellows disseminate their findings and experiences to the faculty.

b) The learning management system

Loyola uses the Moodle learning management system and support from the Office of Technology Services. Support includes a help line for faculty, several Moodle specialists, and Moodle training workshops to help faculty use Moodle effectively. The institution also provides an Office of Digital Teaching & Learning that provides additional support and training for face-toface courses that supplement learning with digitally enhanced supports. c) Evidenced-based best practices for distance education, if distance education is offered.

This program is not a distance education program. However, the Office of Digital Teaching and Learning instructional designers are available to develop on-line classes. Loyola follows Quality Assurance Standards for Online Education Programs, including adhering to C-RAC guidelines.

- J. Adequacy of Library Resources (as outlined in COMAR 13B.02.03.12).
  - 1. Describe the library resources available and/or the measures to be taken to ensure resources are adequate to support the proposed program.

The library resources for this program already exist because they are in place for the existing concentration. The president's signature on the proposal coversheet indicates his support for library resources to meet the program's needs.

**K.** Adequacy of Physical Facilities, Infrastructure and Instructional Equipment (as outlined in COMAR 13B.02.03.13)

1. Provide an assurance that physical facilities, infrastructure and instruction equipment are adequate to initiate the program, particularly as related to spaces for classrooms, staff and faculty offices, and laboratories for studies in the technologies and sciences.

Loyola currently possesses the necessary classroom and laboratory space, the appropriate instructional resources, and faculty offices to support the proposed program. The president's signature on the proposal coversheet indicates his support for adequate physical facilities, infrastructure, and instructional equipment for the program.

- 2. Provide assurance and any appropriate evidence that the institution will ensure students enrolled in and faculty teaching in distance education will have adequate access to:
  - a) An institutional electronic mailing system, and

Students are provided with an electronic mailing system and other technological tools upon enrollment. Loyola has several computer labs and uses a learning management system.

c) A learning management system that provides the necessary technological support for distance education

All students enrolled in the program are provided access to the university's learning management system. The Office of Technology Services provides technical support for all student email accounts and for those using the learning management system. The Office of Digital Teaching and Learning provides additional support to students and faculty specifically for distance education courses.

- L. Adequacy of Financial Resources with Documentation (as outlined in COMAR 13B.02.03.14)
  - 1. Complete <u>**Table 1: Resources and Narrative Rationale**</u>. Provide finance data for the first five years of program implementation. Enter figures into each cell and provide a total for each year. Also provide a narrative rationale for each resource category. If resources have been or will be reallocated to support the proposed program, briefly discuss the sources of those funds.

The program resources already exist because this major is being established from an existing area of concentration within the business administration bachelor's program.

Resource Categories	Year 1	Year 2	Year 3	Year 4	Year 5
1. Reallocated Funds	0	0	0	0	0
2. Tuition/Fee Revenue (c + g below)	\$0	\$0	\$0	\$0	\$0
a. Number of F/T Students	0	0	0	0	0
b. Annual Tuition/Fee Rate	0	0	0	0	0
c. Total F/T Revenue (a x b)	0	0	0	0	0
d. Number of P/T Students	0	0	0	0	0
e. Credit Hour Rate	0	0	0	0	0
f. Annual Credit Hour Rate	0	0	0	0	0
g. Total P/T Revenue (d x e x f)	0	0	0	0	0
3. Grants, Contracts & Other External Sources	0	0	0	0	0
4. Other Sources (-Scholarship & Discounts)	0	0	0	0	0
TOTAL (Add 1-4)	\$0	\$0	\$0	\$0	\$0
Notes:					

# TABLE L1: PROGRAM RESOURCES

2. Complete <u>Table 2: Program Expenditures and Narrative Rationale</u>. Provide finance data for the first five years of program implementation. Enter figures into each cell and provide a total for each year. Also provide a narrative rationale for each expenditure category.

The program resources already exist because this major is being established from an existing area of concentration within the business administration bachelor's program.

TABLE L2: PROGRAM EXPENDITURES

Expenditure Categories	Year 1	Year 2	Year 3	Year 4	Year 5
1. Faculty (b + c below)	0	0	0	0	C
a. Number of FTE	0	0	0	0	C
b. Total Salary	0	0	0	0	C
c. Total Benefits	0	0	0	0	C
2. Admin. Staff (b + c below)	0	0	0	0	C
a. Number of FTE	0	0	0	0	C
b. Total Salary	0	0	0	0	C
c. Total Benefits	0	0	0	0	C
3. Support Staff (b + c below)	0	0	0	0	C
a. Number of FTE	0	0	0	0	C
b. Total Salary	0	0	0	0	C
c. Total Benefits	0	0	0	0	(
4. Technical Support and Equipment	0	0	0	0	C
5. Library	0	0	0	0	(
6. New or Renovated Space	0	0	0	0	C
7. Other Expenses	0	0	0	0	(
TOTAL (Add 1-7)	\$0	\$0	\$0	\$0	\$0
Notes:					

# M. Adequacy of Provisions for Evaluation of Program (as outlined in COMAR 13B.02.03.15).

1. Discuss procedures for evaluating courses, faculty and student learning outcomes.

Loyola University Maryland uses several mechanisms for evaluating courses, including student course evaluations, faculty peer evaluations, and faculty annual updates. The latter require faculty to perform self-evaluation of courses and teaching effectiveness, and to provide evidence of student learning achievement. Faculty evaluations occur through annual faculty updates with their supervisors. Student learning outcomes are evaluated in alignment with university practice, as described above.

2. Explain how the institution will evaluate the proposed program's educational effectiveness, including assessments of student learning outcomes, student retention, student and faculty satisfaction, and cost-effectiveness.

The Sellinger School of Business adheres to AACSB accreditation standards and is made accountable through its periodic accreditation reviews. The proposed program's educational effectiveness will be monitored through the usual annual processes within the Sellinger School and the academic division. The School's course-based assessment of student learning is collected centrally, and reports are made to the Sellinger Curriculum Committee. The associate dean holds responsibility for oversight of assessment in Sellinger and sits on the university-wide assessment committee, where he shares the School's findings on student learning achievement. Findings are used for the continuous improvement of academic programs.

Institutional evaluation will occur in accordance with the university's and the academic division's protocols, including reviews of student retention, student and faculty satisfaction, and cost effectiveness, reviewed annually by the dean.

# N. Consistency with the State's Minority Student Achievement Goals (as outlined in COMAR

13B.02.03.05).

1. Discuss how the proposed program addresses minority student access & success, and the institution's cultural diversity goals and initiatives.

Loyola University Maryland has a strategic focus on enhancing equity and inclusion for the university community. The university is committed, through its mission and core values, to creating a community that recognizes the inherent value and dignity of each person. The strategic plan goal to enhance equity and inclusion guides faculty and administrators' work toward promoting inclusive academic excellence. Specifically, teaching practices identified by AAC&U as highly impactful for the success of all students are being incorporated more fully in academic and co-curricular programs across the university. The provost has invested in related professional development by funding new cohorts of faculty fellows each year to explore, employ, disseminate, and support high-impact teaching strategies. Faculty Fellows for High-Impact Practices (HIPs) are represented in all three schools, including the Sellinger Business School. Following a similar model, a cohort for Equity & Inclusion Fellows is forthcoming.

Regarding access at the undergraduate level, there are institutionally-funded academic scholarships, need-based grants, and athletic grants, in addition to participation in the major federal and state student aid programs. Parents may also consider additional financing alternatives through the Federal Parent Loan Program (PLUS) and the TMS monthly payment plan. Loyola has been recognized as a top School for Value by Kiplinger's, Forbes, Money Magazine, Payscale.com, and the Princeton Review.

# **O.** Relationship to Low Productivity Programs Identified by the Commission:

1. If the proposed program is directly related to an identified low productivity program, discuss how the fiscal resources (including faculty, administration, library resources and general operating expenses) may be redistributed to this program.

The proposed program is not a low productivity program.

## **P.** Adequacy of Distance Education Programs (as outlined in COMAR 13B.02.03.22)

- 1. Provide affirmation and any appropriate evidence that the institution is eligible to provide Distance Education.
- 2. Provide assurance and any appropriate evidence that the institution complies with the C-RAC guidelines, particularly as it relates to the proposed program.

The proposed program is not a distance education program.

# Accounting Course Descriptions

# AC 201 - Financial Accounting

**(3.00 cr.)** Focuses on introducing financial accounting which provides information for decision makers outside the entity primarily by means of general-purpose financial statements. Students acquire a basic knowledge of the language of business. Topics include the application of accounting theory and generally accepted accounting principles to business transactions encountered by corporations during the accounting cycle.

## **Business Economics Course Descriptions**

## EC 102 - Microeconomic Principles

(3.00 cr.) Investigates how individuals in market economies make decisions about what goods will be produced, how they will be produced, and for whom they will be produced. Students learn to analyze the impacts of changes in markets; illustrate the concepts of consumer demand and production; and explain the process of profit maximization under various market structures. Topics include the laws of supply and demand; behavior of firms in competitive and noncompetitive markets; functioning of labor and capital markets; poverty and income inequality; economics and the environment; economic systems in other countries.

## EC 103 - Macroeconomic Principles

(3.00 cr.) *Prerequisite: EC 102.* Introduces macroeconomic equilibrium, its impact on unemployment and inflation, and the effect of economic policy initiatives on that equilibrium. Students learn to predict the qualitative effect on changes in economic aggregates on each other and on GDP. Topics include the business cycle; national income and product accounting; equilibrium in the aggregate demand-aggregate supply model; the multiplier; the national debt; financial intermediaries; money and its creation; fiscal and monetary policy; comparative advantage and the gains from international trade; commercial policy; foreign exchange markets; and the balance of payments. Effects of international transactions are incorporated with each topic.

## EC 220 - Business Statistics

**(3.00 cr.)** *Prerequisite: MA 151* or MA 251 *or equivalent*. MA 151 or MA 251 may be taken concurrently. Introduces the concepts and application of statistics in management. Students learn to apply estimation and hypothesis testing to univariate and multivariate business problems. Topics include descriptive statistics and statistical inference; multiple regression; correlation; and trend and seasonal time series analysis.

## \*EC 102, EC 103, and EC 220 are taken as part of the Loyola Core Curriculum, as fulfilled by business majors.

#### Finance Course Descriptions

#### FI 320 - Financial Management

(3.00 cr.) *Prerequisite: AC 201, EC 102; EC 220 (may be taken concurrently).* Studies the theory and practice of financial analysis and management in the corporate setting and its role in the larger economic environment. Students discuss what specific assets a firm should acquire, what total volume of funds should commit, and how the required funds of the firm should be financed. Topics include time value of money, risk and return relationships, fundamental valuation theories, financial markets, capital investment decisions, cost of capital, capital structure, dividend policy, and international finance.

## FI 322 – Investments

**(3.00 cr.)** *Prerequisite: FI 320.* Provides students with an introduction to the organization and functionality of securities markets with an emphasis on fundamental analysis. Topics include bonds, equities, risk definition and measurement, return analysis, and models of derivative securities such as options and futures.

# FI 330 - Junior Analyst Class

**(3.00 cr.)** *Prerequisite: FI 320.* Provides students with an introduction to the necessary tools and best practices to be a financial analyst. Key topics include how to utilize popular financial databases, reading and understanding financial statements, financial modelling, stock valuation using multiple techniques, how to prepare analyst reports, as well as how to present financial market research.

## FI 335 - International Finance: Study Tour

(3.00 cr.) *Prerequisite: FI 320 may be taken concurrently.* In a global market place, the need for a deep understanding of how to manage and account for transactions in various currencies and to protect against the fluctuations in the exchange rate is real for any sizable firm. This course provides an opportunity for students to gain a better understanding of topics such as the foreign exchange market, risk management and foreign currency hedging, financial accounting for derivatives instruments, and foreign currencies transactions and translation accounting. A 10-day study tour to China with site visits to global companies in Beijing and Shanghai is included.

## FI 340 - Global Financial Management

**(3.00 cr.)** *Prerequisite: FI 320. Corequisite: IB 282.* Provides students with a fundamental understanding of the international dimensions of corporate finance function. Students apply the concepts, approaches, and technology to support financial management in a multinational business environment. Topics include a detailed examination of foreign exchange markets, foreign exchange risk and its management, and international financial markets.

## FI 350 – Financial Modeling

**(3.00 cr.)** *Prerequisite: FI 320.* Provides students with the understanding of how to build financial models using Excel. Topics include forecasting financial statements, capital structure, capital budgeting, stock and bond valuations, portfolio management, and financial planning. Students also learn Bloomberg API in Excel for the topics such as equity, fixed income, and foreign currencies.

## FI 380 - Fixed Income Securities: Valuation and Markets

(3.00 cr.) *Prerequisite: FI 320.* Provides students with a fundamental understanding of the pricing of bonds and operation of the bond market. Emphasis is placed on the various types of bonds and their characteristics and the risks associated with bonds. The mathematics of bond pricing and duration are also explored. The determination of interest rates, the behavior of interest rates, and the risk and term structure of interest rates are integral parts of the course. Additional topics include covenants, the effects of monetary policy, bond derivatives, and embedded options such as puts, calls, and conversion features.

## FI 381 - Equity Securities: Valuation and Markets

**(3.00 cr.)** *Prerequisite: FI 320.* Provides students with an introduction to the organization and functioning of equity markets, equity risk definition and measurement, financial theory, and models of equity valuation. The application of valuation models to market series, industries, and individual firms is also included.

# FI 426 - Special Topics in Finance

(3.00 cr.) *Prerequisite: Varies with topic.* Provides students with specific seminars and/or research projects which address the outstanding topics in a particular field of finance. Students discuss the particular topics at an in-depth level. Potential topics encompass investments, real estate finance, international finance, financial management, capital markets, financial institutions, and financial modeling. Depending upon the topic, critical reviews of selected journal articles, guest lectures, empirical research, research projects and papers, as well as student presentations may be an integral part of the course. *May be repeated for credit with different topics*.

## FI 430 - Financial Services Firms and Their Environments

(3.00 cr.) *Prerequisite: FI 380, FI 381.* Provides an overview of financial services firms including commercial banks, savings banks, credit unions, insurance companies, mutual funds, securities firms, investment banks, and finance companies. Addresses operational issues within the financial services environment. Develops a framework for analyzing and measuring the risks faced by financial institutions by considering the environment in which these firms operate. Strategies and appropriate techniques that financial institutions can use to manage risk are also emphasized.

# FI 431 - Derivative Securities and Markets

(3.00 cr.) *Prerequisite: FI 380, FI 381.* Designed for students' understanding of derivative-related financial instruments such as forwards, futures, and options and the use of derivatives in investment and corporate financial management. An introduction to derivative security markets, the valuation of derivatives, derivative trading strategies, and the management of corporate risk with derivatives are covered.

## FI 433 - Portfolio Management

**(3.00 cr.)** *Prerequisite: FI 380, FI 381.* An introduction to portfolio theory and management in the practical world that integrates students' knowledge of equity and fixed income valuation. Topics include portfolio strategies, futures and options, commodities, the Internet, and portfolio management under live market conditions.

## FI 434 - Student Managed Sellinger Applied Portfolio Fund

(3.00 cr.) *Prerequisite: FI 380, FI 381.* Exposes students to the portfolio management process through experiential learning. Students serve as portfolio and investment managers charged with managing the Sellinger Applied Portfolio Fund in a manner consistent with the core goals and philosophy of the Loyola University Maryland Endowment. Topics include asset valuation, constraint setting, asset allocation, asset selection, risk management, and performance evaluation. The behavioral aspects of finance are also considered. Students also gain experience with databases used by finance professionals. *Written or electronic permission of the instructor.* 

## FI 440 - Financial Analysis and Valuation

(3.00 cr.) *Prerequisite: FI 380, FI 381 (may be taken concurrently).* The assessment of business financial performance and valuation from the point of view of equity and credit analysts. Students learn to analyze a firm's profitability and risk by applying both financial and strategic analysis, prepare pro forma financial statements, ascertain the intrinsic value of a business, and apply spreadsheet models for financial decision making. (*Fall only*)

## FI 441 - Advanced Financial Management

(3.00 cr.) *Prerequisite: FI 380, FI 381.* The implementation of financial decisions and policies by using actual case situations. Students learn to apply the concepts and decision-making tools employed in effective financial decision making and increase their knowledge and understanding of the underlying theories of financial management. Through team case analysis and presentation, students develop analytical, communication, and interpersonal skills including the ability to identify and frame problems, recognize assumptions, and identify solution strategies. Students also develop the ability to speak effectively and persuasively, the capability to lead and motivate others, and the capacity to work effectively within a team. *(Spring only)* 

## FI 499 - Finance Internship

(3.00 cr.) *Prerequisite: FI 320.* Provides students with preparation for careers in finance through practical work experience, in-class personal development, and career planning. Through the onsite work requirement, students learn the application of financial theory to actual business problems. Additionally, in-class projects, on-site work requirements, an internship portfolio, and class presentations are an integral part of the course.

## Information Systems Course Descriptions

## IS 251 - Data Analytics and Information Systems

(3.00 cr.) Prerequisite: CS 105 or CS 111 or CS 115 or CS 117 or CS 118 or CS 151 or CS 201 or CS 218. Students examine the strategic role of information systems in organizations and the integration of data analytics into business activities enabling quality, timeliness, and competitive advantage. They are immersed in the collection, exploration, visualization and application of data to make informed business decisions. Students apply database, spreadsheet, and visualization skills to solve real world business challenges. *Recommended completion during sophomore year*.

## Law and Social Responsibility/Business Law Course Descriptions

## LW 305 - Legal Environment of Business

(3.00 cr.) *Prerequisite: 60 credits.* Examines the legal environment of business activity. Students learn to explain basic legal terms; articulate legal rights and requirements in the managerial setting; identify how a particular legal issue fits into the legal system and how law develops and changes; and discuss managing an organization's legal matters, including ethical use of the law. Topics include classifications and sources of law, dispute resolution, agency, business associations, corporate governance, contracts, torts, product liability, securities, equal employment opportunity; and intellectual property.

#### **Operations Management Course Descriptions**

#### OM 260 – Introductions to Supply Chain Management

(3.00 cr.) Operations management develops the processes by which organizations create value. Students develop an overview of the planning and operation of systems to convert resources to goods and services. Topics include operations strategy, design of processes, product and process quality, global competition and supply chain issues, productivity of operating systems, impact on societal and physical environment, and both qualitative and quantitative methods to improve decision making.

#### Management Course Descriptions

#### MG 201 – Management Principles

(3.00 cr.) Develops knowledge and skills in the management of organizational behavior. Topics include wealth creation, personality, motivation, leadership, planning, teamwork, ethics, and employee development. Teaching methods may include lectures, cases, team decisions, and discussion. Testing methods may include exams, papers, and team projects.

#### Marketing Course Descriptions

#### MK 240 – Marketing Principles

(3.00 cr.) Students acquire an understanding of marketing's role in helping an organization create value. Students learn to identify the elements of the marketing mix, recognize how these elements can be integrated to achieve organizational objectives, and describe a product's marketing plan. Topics include market research, consumer behavior, market segmentation, targeting, positioning, and the marketing mix-product, promotion, pricing, and distribution.
