

OOS RENEWAL

MARYLAND HIGHER EDUCATION COMMISSION Application for Renewal Approval for Out-of-State Degree-Granting Institutions to Operate in Maryland

Please Note: A separate application form must be completed and submitted with all supporting documentation for each proposed location in Maryland. If an additional, new location is being proposed, an *Application for Initial Approval* must be submitted for that location.

PREVIOUSLY APPROVED LOCATION IN MARYLAND.

Please provide the complete mailing address.

Rye Street Market, 301 Mission Boulevard, Baltimore, MD 21230

PROPOSED START DATE OF CONTINUED OPERATION.

Applications must be submitted at least 5 months prior to the proposed start date.

NAME AND ADDRESS OF INSTITUTION APPLYING FOR APPROVAL.

Name of Institution: Strayer University - Baltimore

Web Address: www.strayer.edu

OPEID Code: 00145900

U.S. Department of Education, Office of Postsecondary Education, ID Code -- Title IV eligibility.

Chief Executives Officer: Dr. Antoinette Farmer-Thompson, President

Mailing Address: 901 15th Street, Suite 200, NW, Washington, DC 20005

Telephone:

Email: presidentoffice@strayer.edu

Institutional Liaison: Name and title of the individual who will serve as liaison to the Maryland Higher Education Commission:

Name: Lisa Sincere

Title: Associate General Counsel

Mailing Address: 2303 Dulles Station Blvd., 6th Floor, Herndon VA 20171

Telephone: [REDACTED]

Email: Lisa.Sincere@strategiced.com

***** CERTIFICATION*****

I hereby affirm that the answers given in this application and its attachments are accurate and complete and further agree to comply with the *Annotated Code of Maryland* and State regulations governing the operation of out-of-State degree-granting institutions (COMAR 13B.02.01).

<u>3/19/2026</u> Date	<u>Dr. Antoinette Farmer-Thompson</u> Print Name of Chief Executive Officer
 _____ Signature of Chief Executive Officer	

Electronic applications are preferred for initial and renewal applications. You can send your application to oosauthorization.mhec@maryland.gov

All payments should be mailed to:
Maryland Higher Education Commission
Director of Academic Affairs
Institution Review
217 East Redwood St., Suite 2100
Baltimore, Maryland 21202

A copy of these regulations can be found on the [Maryland Higher Education Commission's web site \(mhec.maryland.gov\)](http://mhec.maryland.gov) along with an application form.

I. DURATION OF APPROVAL

Approval to operate at a previously approved location in Maryland must be renewed annually. However, "during or after the fifth year of operation in Maryland and during any subsequent renewal cycle, an out-of- State institution may apply for approval to operate in Maryland for an extended period of time up to 5 years." COMAR 13B.02.01.08C(1)

If the location for which you are applying has been annually approved for at least five years, do you wish to seek Extended Operation in Maryland for a period of time of up to 5 years?

- Yes, we wish to seek extended renewal for 5 years.
- No

II. SUPPORTING DOCUMENTATION

Only a complete application can be acted upon. While separate application forms must be completed and submitted for each approved location, the following Supporting Documentation needs to be included only once for each entire package of applications. **CHECK EACH ITEM AS ATTACHED.**

- Cover letter from the Chief Academic Officer addressed to the Secretary of Higher Education requesting renewal/extended renewal of the site and the approval of any new programs.

- Catalogs and Other Institutional Publications. COMAR 13B.02.01.20A(1)

Submit a copy of the institution's home campus catalog or other publication (graduate and undergraduate as applicable) that contains information on: academic progress standards, curricular content of the proposed programs, student services information, credit for prior learning as well as credit for practica, clinical experience, internships, and cooperative work experiences.

- Application Fee. (Must accompany all renewals) COMAR 13B.02.01.08B(2)

The institution shall submit a non-refundable application fee in the amount of (a) \$7,500 for up to two degree programs and (b) an additional \$850 for each degree program over two programs. The institution's check should be made payable to: Maryland Higher Education Commission. **The application renewal fee will be waived for renewals of out-of-state institutions operating at Regional Maryland Higher Education Center.**

- Accreditation. (Must accompany all renewals) COMAR 13B.02.01.08B(4)(g)

Provide a copy of the most recent letter of approval (notification) from an organization recognized as an accrediting agency by the U.S. Department of Education. Along with your most recent notification of institutional accreditation, please provide evidence that you are in compliance with that organization's policies and procedures related to off-campus educational activities. If any of your proposed programs require program accreditation provide evidence of that accreditation.

- Registration as an Out-of-State Corporation. (Must accompany all renewals)
COMAR 13B.02.01.08B(4)(f)

To transact interstate business in Maryland, the institution must qualify with the State Department of Assessments and Taxation by making the certification required in the Corporations and Associations Article, §7-202, Annotated Code of Maryland. A public institution is not required to qualify as a foreign corporation. However, a business entity affiliated with a public institution or a private institution (profit or non-profit) must qualify as a foreign corporation. The Foreign Corporation Qualification Form may be obtained from the Maryland Department of Assessments and Taxation, Room 809, 301 West Preston Street, Baltimore, Maryland 21201 or on-line at: <https://dat.maryland.gov/Pages/default.aspx>. Once qualified, the institution must provide a copy of the certificate of good standing issued by the State Department of Assessments and Taxation.

- Certificate of Compliance with Fire and Safety Codes (Must accompany all renewals)
COMAR 13B.02.01.08B(4)(o)

Please provide a certificate for each approved location for indicating that the proposed facility has been inspected and is found in compliance with local and State ordinances pertaining to fire and safety.

- Board of Trustees Resolution of Financial Solvency (Must accompany all renewals)
COMAR 13B.02.01.08B(4)(e)

Please provide a resolution from your Board of Trustees addressed to the Secretary of Higher Education stating that your institution is financially solvent.

- Advertisements COMAR 13B.02.01.07D(3)(p)

Please provide copies of the promotional materials including social media accounts, websites and printed materials.

- Enrollment Data as Prescribed by the Secretary (Must accompany all renewals) COMAR 13B.02.01.08B(4)(q)

Please provide the information requested on the Student Enrollment Data Form found at the end of this application.

- Faculty Compliance Report for each program (Must accompany all renewals) COMAR 13B.02.01.16C

At least 1/3 of the classes offered shall be taught by full-time faculty of the parent institution. Submit a Faculty Compliance Report¹ for each previously approved and newly proposed program.

- Teach-out Plan (Must accompany all renewals) COMAR 13B.02.01.08B(4)(j)(iv)

The institution must provide a copy of its teach-out plan² allowing enrolled students to complete their programs if the institution decides to cease operation in Maryland. This plan may vary by program.

¹ Requirements and forms for a Faculty Compliance Report are available on the Out-of-State Degree Granting Institutions page of our website: mhec.maryland.gov

² A teach-out plan is an institution's written plan to ensure its students are treated fairly with regard to finishing their programs of study. Minimum requirements for a teach-out plan are available on the Out-of-State Degree Granting Institutions page of our website: mhec.maryland.gov

III. APPLICATION QUESTIONNAIRE

This questionnaire, properly completed with supporting documentation, shall serve as an application for approval to operate in Maryland under the *Code of Maryland Regulations (COMAR) 13B.02.01*. It must be completed for each proposed location.

SECTION 1: Institutional Information

1. Administrative Staff. The out-of-State institution shall provide for an on-site administrative staff responsible for overall administrative operation of educational activities including counseling, advising, testing orientation, financial aid services, and maintenance of academic records. In addition to being responsible for the administration of the policies and procedures of the parent institution, the designated administrators are responsible for meeting the expectations set forth in this chapter [of the Regulatory Standards of the State of Maryland for Out-of-State Institutions]. The duties and size of the staff shall be adequate for the size of the educational activities offered. COMAR 13B.02.01.15

INSTRUCTIONS: Has any previously reported Administrative Staff information changed since your last approval at this location? Yes No

If yes, please enter the requested information in the spaces provided below, or create an attachment labeled (labeled "A-3: Administrative Staff Changes") to this application with any changes to the following questions:

(a) How are you planning to meet the above standard on Administrative Staff?

No changes since August 2025 submission.

(b) Who will be assigned to carry-out each of these duties? Please include a curriculum vitae/resume for each administrator.

No change since August 2025 submission.

2. Library Resources. Out-of-State Institutions offering programs or courses, or both, in Maryland, shall provide adequate and appropriate library resources within State boundaries and within reasonable distance of the instructional site. Usage statistics shall be kept to determine to what extent these resources are available and accessible. COMAR 13B.02.01.17A

INSTRUCTIONS: Has any previously reported library information changed since your last approval at this location? Yes No

If yes, please enter the requested information in the spaces provided below, or create an attachment (labeled "A-5: Library Changes") to this application with any changes to the following questions.

(a) How are you planning to meet this standard on Library Resources? Briefly describe the types of materials and titles that you will make available to your students and how they will access them. Will there be provision for technical assistance or IT/support for library resources?

No changes since the August 2025 submission.

3. Student Services. COMAR 13B.02.01.18 concerns student services and activities. These shall realistically reflect the stated objectives, purposes, and philosophy of the out-of-State institution. Further, an out-of-State institution shall ensure that all students have access to a well-developed program of counseling, testing, advisement, orientation, financial aid, career development, and placement. The institution may determine the specific organization of services, as well as the resources and staffing provided, as long as provisions for these services are made. Student activities that complement the instructional program are particularly encouraged. COMAR Section .18 also requires that the out-of-State institutions keep complete and accurate records of admission, enrollment, grades, scholarships, transfer of credits, transcripts, graduates, and other essentials in accordance with standard practice. This includes the physical security and confidentiality of such records. The Section requires as well, a published statement of student rights, privileges, and responsibilities and the school's adherence to its student grievance procedures.

(a) How do you plan to implement the requirements for Student Services cited above?

See attached responses.

(b) Regarding student records describe the security measures the institution takes to ensure the confidentiality, physical, and electronic security of your record-keeping system.

See attached responses.

(c) Does the institution have a published statement of rights, privileges, and responsibilities of students?

Yes No

How will it make this available to its students at the proposed instructional site? _____

If this statement is in the Catalog you submitted with the application, please indicate the page number:
If not in the Catalog you submitted, please provide us with a copy of the statement.

(d) Does the institution have a published student grievance procedure? Yes No

If this procedure is in the Catalog you submitted with the application, please indicate the page number 63-67

If your policy is on your website or electronically, please provide a link and a copy of the student grievance policy.

If not in the Catalog you submitted, please provide us with a copy of the grievance procedure and the name of the administrator (name, title, contact information).

4. Facilities. (See COMAR 13B.02.01.19).

INSTRUCTIONS: Has any previously reported Facilities information changed since your last approval at this location? Yes No

If yes to either question, please enter the requested information in the spaces provided below, or create an attachment (labeled "A-7: Facilities") to this application with any changes to the following questions.

(a) Has a specific facility been inspected and approved for use as a classroom/laboratory space and been found in compliance with local and State ordinance pertaining to fire and safety? Yes No

(1) If yes, please provide a copy of the Certificate of Compliance.

(2) If no, the Certificate of Compliance must be submitted at least 30 days prior to the start of classes.

(b) Describe any special instructional facilities and equipment (computers, audio-visual equipment, etc.) that will be used and available to students in this location.

N/A

(c) Describe what provisions are being made for periodic repair and maintenance of buildings and grounds. What measures are being taken for campus security and fire protection? If dangerous or toxic materials are being handled, what provisions are being made for safe storage, handling and disposal?

N/A

(d) Describe the office (and conference) space available to full and part-time faculty and administrators.

N/A

5. Distance Education. COMAR 13B.02.01.03(8). “Distance education” means education that uses one or more of the following technologies to deliver instruction to students who are separated from the instructor, and to support regular and substantive interaction between the students and the instructor synchronously or asynchronously:

- (a) Internet;
- (b) One-way and two-way transmissions through open broadcasts, closed circuit, cable, microwave, broadband lines, fiber optics, satellite or wireless communication devices;
- (c) Audio conferencing; and
- (d) Video cassette, DVDs, and CD-ROMs, if the cassette, DVDs, and CD-ROMs are used in a course in conjunction with a technology listed in (a) – (c).

An institution operating in Maryland and delivering instruction in Maryland by distance education shall provide evidence to the Secretary of compliance with the standards of good practice found in COMAR 13B.02.01.21.

INSTRUCTIONS. Is the institution providing distance education as defined above? Yes No
If yes, please contact the staff at the Maryland Higher Education Commission for a copy of the Standards of Good Practice and provide evidence of compliance as an attachment (labeled “A-8: Distance Education”) to this application

SECTION 2: Program Information

CURRENTLY OFFERED PROGRAMS.

1. Programs.

INSTRUCTIONS. Please enter the requested information on your **CURRENTLY OFFERED PROGRAMS** in the spaces provided below, or create an attachment (labeled “A-1: Current Programs”) to this application with the required information.

Provide a list of your currently offered programs at this location. For each program provide the following information: (1) the full title of the program; (2) the degree or certificate to be awarded; (3) the mode of instructional delivery; (4) the number of credit hours (semester or quarter); and (5) whether they are offered at the parent campus.

Program Title	Degree	Mode of Instruction	Total Credit Hours	Offered on Main Campus Yes / No
<i>Example: Organizational Management</i>	<i>M.S.</i>	<i>Classroom</i>	<i>36 sem</i>	<i>Yes</i>
<i>Example: Business Administration</i>	<i>B.S.B</i>	<i>Distance Ed.</i>	<i>120 sem</i>	<i>Yes</i>
See attached Application Questionnaire Responses				

NEW PROGRAMS

2. Programs

INSTRUCTIONS. Is the institution proposing any new programs at this location? Yes No
 (Including any new Areas of Concentration)
If yes, please enter the requested information in the spaces provided below, or create an attachment (labeled “A-1: New Programs”) to this information with your responses to the following for each new program:

Provide a list of the new programs at this location. For each new program provide the following information: (1) the full title of the program; (2) the degree or certificate to be awarded; (3) the mode of instructional delivery; (4) the number of credit hours (semester or quarter); and (5) whether they are offered at the parent campus.

Program Title	Degree	Mode of Instruction	Total Credit Hours	Offered on Main Campus Yes / No
<i>Example: Organizational Management</i>	<i>M.S.</i>	<i>Classroom</i>	<i>36 sem</i>	<i>Yes</i>
<i>Example: Business Administration</i>	<i>B.S.B</i>	<i>Distance Ed.</i>	<i>120 sem</i>	<i>Yes</i>
Not applicable.				

For each new program complete an Out-of-State New Program and Sub Mod Cover Sheet with all required signatures and an Out-of-State New Program Application with required documentation.

A-3: ADMINISTRATIVE STAFF

II. Application Questionnaire

Section 1: Institutional Information

1. Administrative Staff

No changes have occurred to the administrative staff at the Baltimore location since Strayer's last approval. It is our understanding that section 1 only needs to be completed if there has been any change.

A-5: LIBRARY RESOURCES

II. Application Questionnaire

Section 1: Institutional Information

2. Library Resources

No changes have occurred to the library resources related to the Baltimore location since Strayer's last approval. It is our understanding that section 2 only needs to be completed if there has been any change.

A-6: STUDENT SERVICES

II. Application Questionnaire

Section 1: Institutional Information

3. Student Services

(a) How do you plan to implement the requirements for Student Services cited above?

As previously noted, student's experience with Strayer begins with their first interaction with one of Strayer's admissions officers. Admissions officers counsel Strayer's prospective students, educating them about online degree programs, financing, and satisfying academic prerequisites while helping to clarify key decision-points and providing alternative solutions that align with needs of each individual student.

Once a prospective student completes their admissions process, Strayer's student onboarding experience, Strayer Strong, is designed to support new students throughout their first year at the university. There are three main components to the onboarding process to set new students up for success:

1. Students complete an online orientation and receive information they need to be prepared for their first day of class.

2. Students attend our Strayer Strong webinars. Strayer offers a variety of live webinars both before and after the start of the quarter, designed to help students prepare for their journey ahead. If a student misses a live webcast, they are able to view a previous recording and connect with Strayer staff regarding any questions they may have.

3. Students connect with a mentor. Strayer offers a peer-to-peer mentoring program where a student further along in their journey is paired with a new student to offer encouragement, provide advice based on their experience, and help new students navigate Strayer.

As students progress through their academic journey, their Academic/Student Services Coach is their primary point contact from their first courses through their degree completion. Their Coach provides coaching, motivation, and mentoring, along with helping students register for their next courses in sequence (or students can register online through the iCampus student portal), navigate any issues they may encounter, and provide them with strategies for completion and progress. Coaches orient students to critical university policies and procedures to help them achieve academic success and complete their program in a timely manner. Coaches work with students through curriculum-related issues, provide education on alternative credit options, and address transfer credit related issues. Coaches also help students clarify key decision points and identify solutions and alternatives that align with their motivation and goals.

As most of Strayer's students are working adults, we recognize that students bring more than just their academic brain to classes, they bring their whole person. Students are routinely balancing work, family, community, or social commitments, while also managing their education and coursework. The university provides admissions officers, academic coaches, and faculty,

A-6: STUDENT SERVICES

robust career services, campus resources and coaching to prepare students for the classroom, workplace, and other challenges related to physical, emotional, and financial well-being through its Center for Well-Being. The Center for Well-Being provides online resources and support for six dimensions of well-being in educational environments: academics, career, essential needs, financials, mind and body, and social connection. Students in need of disability services are connected with Strayer's Office of Disability Services and Strayer's ADA Coordinator. Through the Officer of Disability Services, our ADA Coordinator assists students with appropriate academic adjustments and the provision of auxiliary aids and services.

The financial aid process may be daunting for some students, especially first-time students. Strayer's Student Financial Aid Support Team provides personalized support and works closely with students and their coaches to navigate the process. The university utilizes an active financial aid acceptance model which helps students decide how much they should borrow based on their estimated cost of attendance - taking into account direct costs, indirect costs, and grants and scholarships - instead of a passive approach that provided students decision-making authority in how much to borrow, but would automatically default to the maximum loan amount for which they were eligible. Students also have access to an overview of the process which provides them with information on what they need to provide (including action items), what steps the university handles, and what items students should be on the lookout for. Students also have access to their financial aid dashboard within iCampus to keep track of where they are in the process and open action items. The coaches also help students identify which scholarships or discounts they may be eligible for.

At any point during the educational journey, including post-graduation, students and alumni may avail themselves of the services provided by Strayer's Career Center. The Career Center offers support to actively engage students in the career development process, as well as providing professional development resources. These services include fundamental instruction about resumes, job searching, interviews, and cover letters. The Career Center also offers innovative tools such as an online job board, an interactive mock interview tool, and on-demand career advice videos. Strayer's student population is largely comprised of working adults who already have jobs; therefore, Strayer University does not provide placement services and does not track student job placement.

Although an adult-oriented, non-resident institution, social activity at Strayer is an integral part of student life and an important aspect of college education. Participation in extracurricular activities enables students to get to know other students as well as faculty and staff. Activities also provide opportunities for students to develop and to demonstrate leadership skills and special talents. Students also develop connections to their fellow students through participation in regional student advisory boards and by serving as Peer Mentors. [Honor societies](#) are open to all Strayer University students who meet the eligibility criteria. Membership in honor societies is by invitation only. Strayer offers the following honor societies:

- Alpha Chi National Honor Society, D.C., Gamma Chapter 283
- Alpha Sigma Lambda National Honor Society
- National Society of Collegiate Scholars
- Delta Alpha Pi International Honor Society

A-6: STUDENT SERVICES

- Golden Key International Honor Society
- Phi Theta Kappa Honor Society
- The Society for Collegiate Leadership & Achievement (SCLA)

Strayer also utilizes a University Student Advisory Board, designed to enhance communication between the student body and senior academic leaders at the university. The University Student Advisory Board provides an opportunity for senior academic leaders to have a direct dialogue with the student body, and they offer an opportunity for students to provide feedback about their experiences, Strayer successes, opportunities for improvement and new ideas for consideration, and to gain broad-based institutional knowledge about program additions, curriculum changes and services and facility enhancements that the university has undertaken. The University Student Advisory Boards generally meet quarterly.

- (b) Regarding student records describe the security measures the institution takes to ensure the confidentiality, physical, and electronic security of your record-keeping system.

All academic records are maintained centrally at the Office of the University Registrar located in Virginia. Documents maintained in the student's admissions file include the application for admission, the basis of admission, and other documents pertaining to the student's acceptance by Strayer University. Each student's original admissions file is maintained electronically, with a regular back-up of this system.

Academic files for each Strayer student, including attendance, grades, grade point average, enrollment status, and academic transcript are also maintained. All student academic records are kept for five years, except for transcripts (which are kept indefinitely). Strayer University is subject to the Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. 1232g. Pursuant to FERPA, student records will not be released without written consent from the student.

Students may request official transcripts in the following ways: 1) Visit www.strayer.edu, scroll down to the Quick Links section at the bottom, and select "Request my Transcript" or 2) via the iCampus student portal.

- (c) Strayer University publishes the Student Rights and Responsibilities in the Strayer Student Handbook: <https://strayer.smartcatalogiq.com/en/current/student-handbook/student-rights-and-responsibilities>

- (d) Strayer University publishes the student grievance procedures in the Strayer Catalog: <https://strayer.smartcatalogiq.com/en/2025-2026/catalog/policies-and-procedures/student-problem-resolution>

A-7: FACILITIES

II. Application Questionnaire

Section 1: Institutional Information

4. Facilities

No changes have occurred to the Baltimore location since Strayer's last approval at this location. It is our understanding that sections 4(a) through 4(d) only need to be completed if there has been any change.

STATEMENT OF ACCREDITATION STATUS

The Statement of Accreditation Status (SAS) is the official statement of the Middle States Commission on Higher Education (MSCHE) about each institution's current accreditation status and scope of accreditation. The SAS also provides a brief history of the actions taken by the Commission.

Institution: STRAYER UNIVERSITY
Washington, DC

Address: 1133 15th Street, N.W.
Washington, DC 20005

Phone: (202) 419-0400

Accreditation Liaison Officer (ALO): Dr. Heather Martinez

Commission Staff Liaison: Kathy Feith, Vice President

Accreditation Summary

For more information, see the Commission's [Accreditation Actions Policy and Procedures](#).

Phase: Accredited

Status: Accreditation Reaffirmed

Accreditation Granted: 1981

Last Reaffirmation: 2026

Next Self-Study Evaluation: 2032-2033

Alternative Delivery Methods

The following represents approved alternative delivery methods included in the scope of the institution's accreditation:

Distance Education

Approved to offer programs by this delivery method

Correspondence Education

Not approved for this delivery method

Credential Levels

☑ Approved Credential Levels

The following represents credential levels included in the scope of the institution's accreditation:

- **Postsecondary award (1-2 years)**
Included within the scope
- **Associate's Degree or Equivalent**
Included within the scope
- **Bachelor's Degree or Equivalent**
Included within the scope
- **Post-baccalaureate Certificate**
Included within the scope
- **Master's Degree or Equivalent**
Included within the scope

Locations

The following represents branch campuses, additional locations, and other instructional sites that are included within the scope of the institution's accreditation:

Accreditation Actions

The following represents the MSCHE accreditation actions taken in the last ten (10) years. For more information, see the Commission's Accreditation Actions Policy and Procedures and the Substantive Change Policy and Procedures.

March 12, 2026

To acknowledge receipt of the self-study report. To reaffirm accreditation. To note the on-site evaluation visit by Commission representatives to the main campus at 1133 15th Street, N.W., Washington, DC 20005 on October 26-29, 2025. To note the following additional locations were visited: (1) 1601 Cherry Street, Suite 100, Philadelphia, PA 19102; (2) 9101 Kings Parade Boulevard, Charlotte, NC 28273; and (3) 2121 15th Street North, Arlington, VA 22201. To note the Commission action of August 28, 2025, to include Strayer University's acquisition of the Media Design School within the scope of the institution's accreditation and to request a complex substantive change supplemental information report due November 3, 2025. To acknowledge receipt of the complex substantive change supplemental information report and to note it remains under review by the Commission. The next evaluation visit is scheduled for 2032-2033.

February 26, 2026

To acknowledge receipt of the substantive change request. To include the relocation of the additional location from 2965 Flowers Road South, Chamblee, GA 30341 to 715 Peachtree Street, Atlanta, GA 30308 within the institution's scope of accreditation. To require immediate notification when instruction commences at the new location and of the date that instruction ceases at the former location by email to substantivechange@msche.org. To require written evidence of review, including but not limited to required approvals from all necessary licensing, regulatory, or other legal entities, including the Georgia Nonpublic Postsecondary Education Commission by email to substantivechange@msche.org. To require the submission of the updated Eligibility and Certification Approval Report (ECAR) reflecting the substantive change as soon as it is available by email to substantivechange@msche.org. To note the Commission may rescind this action if instruction does not commence within one calendar year from the date of this action.

February 26, 2026

To acknowledge receipt of the substantive change request. To note the reclassification of the other instructional site at 1900 Ballpark Way, Arlington, TX 76006 to an additional location within the institution's scope

of accreditation. To include the relocation of the additional location from 2711 Lyndon B. Johnson Freeway, Suite 450, Farmers Branch, TX 75234 to 1900 Ballpark Way, Arlington, TX 76006 within the institution's scope of accreditation. To require immediate notification of the date when instruction ceases at the former location by email to substantivechange@msche.org. To require written evidence of review, including but not limited to required approvals from all necessary licensing, regulatory, or other legal entities, including the Texas Higher Education Coordinating Board by email to substantivechange@msche.org. To require the submission of the updated Eligibility and Certification Approval Report (ECAR) reflecting the substantive change as soon as it is available by email to substantivechange@msche.org. To note the Commission may rescind this action if instruction does not commence within one calendar year from the date of this action. The next evaluation visit is scheduled for 2025-2026.

October 30, 2025

To acknowledge receipt of the substantive change request. To note the institution's decision to close the additional location at 2730 Eisenhower Avenue, Alexandria, VA 22314 that will cease operations effective December 15, 2025. To require immediate notification when instruction ceases at the additional location by email to substantivechange@msche.org. To require written evidence of approvals from all necessary licensing, regulatory, or other legal entities as necessary, including United States Department of Education (USDE) and the State Council of Higher Education for Virginia. To note that the Commission may rescind this action if the requested substantive change is not implemented within one calendar year from the date of this action.

October 30, 2025

To acknowledge receipt of the substantive change request. To include the relocation of the additional location from 1601 Cherry Street, Suite 100, Philadelphia, PA 19102 to 1601 Market Street, Philadelphia, PA 19103 within the institution's scope of accreditation. To require immediate notification when instruction commences at the new location and of the date that instruction ceases at the former location by email to substantivechange@msche.org. To require written evidence of approvals from all necessary licensing, regulatory, or other legal entities as necessary, including United States Department of Education (USDE) and the Pennsylvania Department of Education. To note the Commission may rescind this action if instruction does not commence within one calendar year from the date of this action.

October 30, 2025

To acknowledge receipt of the substantive change request. To include the relocation of the main campus from 1133 15th Street, N.W. Washington, DC 20005 to 901 15th Street, N.W., Washington, D.C. 20005 within the institution's scope of accreditation. To require immediate notification when the change is implemented by email to substantivechange@msche.org. To direct a substantive change site visit as soon as practicable but no later than six months after the commencement of instruction at the new main campus. To require written evidence of approvals from all necessary licensing, regulatory, or other legal entities as necessary, including United States Department of Education (USDE) and the District of Columbia Higher Education Licensure Commission. To note the Commission may rescind this action if instruction at the new location does not commence within one calendar year from the date of this action. The next evaluation visit is scheduled for 2025-2026.

September 11, 2025

Staff acted on behalf of the Commission to acknowledge receipt of the notification that the transaction to include the change in legal status, form of control, or ownership within the institution's scope of accreditation, occurred on September 8, 2025. To remind the institution of the Commission's action of August 28, 2025, and the complex substantive change supplemental information report due November 3, 2025. To remind the institution of its obligation to inform the Commission about any and all developments relevant to this action. The next evaluation visit is scheduled for 2025-2026.

August 28, 2025

To acknowledge receipt of the complex substantive change request. To include the change in legal status, form of control, and ownership within the institution's scope of accreditation, effective September 8, 2025. To note that the complex substantive change request includes Strayer University's acquisition, through stock transfer, of the Media Design School (MDS). To note that MDS will become an international additional location of Strayer University in New Zealand. To include Media Design School 92 Albert Street, Auckland, 1010, New Zealand, as an additional location within the institution's scope of accreditation. To require notification of the date of the closing of the transaction within five calendar days of the transaction, or immediate notification if there is any delay of the date of the closing of the transaction, by email to substantivechange@msche.org. To require immediate notification by email to substantivechange@msche.org if there are any material changes to the information provided in the substantive

change request prior to the closing of the transaction. To request a complex substantive change supplemental information report, due November 3, 2025, providing (1) an updated status of the implementation of the complex substantive change (Substantive Change Policy and Complex Substantive Change Procedures); (2) written evidence of review or approval of the transaction from all required licensing, regulatory, or legal entities, including but not limited to: the United States Department of Education, any applicable state licensing or authorization bodies in the United States, and any applicable New Zealand regulatory entities overseeing private training establishments, including the New Zealand Qualifications Authority (NZQA) (Standard II); (3) material updates to corporate governance or board structure, including but not limited to submission of an updated governance organizational chart and any applicable conflict-of-interest policies (Standard VII); (4) written evidence of the institution's updated Eligibility and Certification Approval Report (ECAR) reflecting the inclusion of the additional location; and (5) documentation of the design, delivery, and assessment of student learning experiences at the international additional location (Standard III and Standard V). To direct a complex substantive change site visit to the main campus at 1133 15th Street, North West, Washington, DC, 20005, as soon as practicable but no later than six months after September 8, 2025, the anticipated date of the transaction. To further direct that the complex substantive change site visit include the international additional location at Media Design School 92 Albert Street, Auckland, 1010, New Zealand. To remind the institution of its obligation to inform the Commission about any and all developments relevant to this action. To note that the Commission may rescind this action if any developments reveal additional information that might have affected the Commission's decision or if the complex substantive change is not implemented within one year of this action. A new comprehensive visit is not required because the institution is currently in self-study in anticipation of an evaluation visit in 2025-2026.

June 6, 2025

Staff acted on behalf of the Commission to acknowledge receipt of the supplemental Information report requested by the Commission action of January 16, 2025, providing information on key data indicators (student achievement and enrollment - FTE) from the 2024 Annual Institutional Update in accordance with federal regulation 34 CFR 602.19 (b) and (c). The next evaluation visit is scheduled for 2025-2026.

- January 16, 2025** Staff acted on behalf of the Commission to request a supplemental information report, due February 14, 2025, providing information on key data indicators (student achievement and enrollment – FTE) from the 2024 Annual Institutional Update in accordance with federal regulation 34 CFR § 602.19 (b) and (c). The next evaluation visit is scheduled for 2025-2026.
- December 19, 2024** To acknowledge receipt of the substantive change request. To include the reclassification of the additional location at 1330 Augusta West Parkway, Augusta, GA 30909 to an other instructional site within the institution's scope of accreditation. To require immediate notification when the change is implemented by email to substantivechange@msche.org. To note that the Commission may rescind this action if the requested substantive change is not implemented within one calendar year from the date of this action. The next evaluation visit is scheduled for 2025-2026.
- December 19, 2024** To acknowledge receipt of the substantive change request. To include the reclassification of the additional location at 3120 Stonecrest Boulevard, Lithonia, GA 30038 to an other instructional site within the institution's scope of accreditation. To require immediate notification when the change is implemented by email to substantivechange@msche.org. To note that the Commission may rescind this action if the requested substantive change is not implemented within one calendar year from the date of this action.
- December 19, 2024** To acknowledge receipt of the substantive change request. To include the reclassification of the additional location at 408 12th Street Columbus, GA 31901 to an other instructional site within the institution's scope of accreditation. To require immediate notification when the change is implemented by email to substantivechange@msche.org. To note that the Commission may rescind this action if the requested substantive change is not implemented within one calendar year from the date of this action.
- December 19, 2024** To acknowledge receipt of the substantive change request. To include the reclassification of the additional location at 3101 Towercreek Parkway, Suite 700, Atlanta, GA 30339 to an other instructional site within the institution's scope of accreditation. To require immediate notification when the change is implemented by email to substantivechange@msche.org. To note that the Commission may rescind this action if the requested substantive change is not implemented within one calendar year from the date of this action.

- December 19, 2024** To acknowledge receipt of the substantive change request. To note the institution's decision to close the additional location at 8529 South Park Circle Suite 180 and 310, Orlando, FL 32819 that ceased operations effective February 28, 2009. To remove the additional location from the institution's scope of accreditation. To note that the Commission reserves the right to rescind this action if any developments reveal additional information that might have affected the Commission's decision.
- December 19, 2024** To acknowledge receipt of the substantive change request. To include the reclassification of the additional location at 3000 Corporate Center, Suite 100, Morrow, GA 30260 to an other instructional site within the institution's scope of accreditation. To require immediate notification when the change is implemented by email to substantivechange@msche.org. To note that the Commission may rescind this action if the requested substantive change is not implemented within one calendar year from the date of this action.
- December 19, 2024** To acknowledge receipt of the substantive change request. To include the reclassification of the additional location at 7275 Appling Farms Parkway Memphis, TN 38133 to an other instructional site within the institution's scope of accreditation. To require immediate notification when the change is implemented by email to substantivechange@msche.org. To note that the Commission may rescind this action if the requested substantive change is not implemented within one calendar year from the date of this action.
- December 19, 2024** To acknowledge receipt of the substantive change request. To include the reclassification of the additional location at 5110 Auth Way, Suitland, MD 20746 to an other instructional site within the institution's scope of accreditation. To require immediate notification when the change is implemented by email to substantivechange@msche.org. To note that the Commission may rescind this action if the requested substantive change is not implemented within one calendar year from the date of this action.
- December 19, 2024** To acknowledge receipt of the substantive change request. To include the reclassification of the additional location at 11805 Fountain Way Newport News, VA 23602 to an other instructional site within the institution's scope of accreditation. To require immediate notification when the change is implemented by email to substantivechange@msche.org. To note that the Commission may rescind this action if the requested substantive change is not implemented within one calendar year from the date of this action.

- December 19, 2024** To acknowledge receipt of the substantive change request. To include the reclassification of the additional location at 222 Central Park Avenue, Suite 210, Virginia Beach, VA 23462 to an other instructional site within the institution's scope of accreditation. To require immediate notification when the change is implemented by email to substantivechange@msche.org. To note that the Commission may rescind this action if the requested substantive change is not implemented within one calendar year from the date of this action.
- October 24, 2024** To acknowledge receipt of the substantive change request. To include the reclassification of the additional location at 9920 Franklin Square Drive, 2nd floor, Baltimore, MD 21236 to an other instructional site within the institution's scope of accreditation. To require immediate notification when the change is implemented by email to substantivechange@msche.org. To note that the Commission may rescind this action if the requested substantive change is not implemented within one calendar year from the date of this action.
- October 24, 2024** To acknowledge receipt of the substantive change request. To include the reclassification of the additional location at 3421 Olympia Drive, Raleigh, NC 27603 to an other instructional site within the institution's scope of accreditation. To require immediate notification when the change is implemented by email to substantivechange@msche.org. To note that the Commission may rescind this action if the requested substantive change is not implemented within one calendar year from the date of this action.
- October 24, 2024** To acknowledge receipt of the substantive change request. To include the reclassification of the other instructional site at 5221 Capitol Boulevard, Raleigh, NC 27616 to an additional location within the institution's scope of accreditation. To require immediate notification when the change is implemented by email to substantivechange@msche.org. To note that the Commission may rescind this action if the requested substantive change is not implemented within one calendar year from the date of this action. The next evaluation visit is scheduled for 2025-2026.
- June 26, 2024** To acknowledge receipt of the substantive change request. To include the reclassification of the other instructional site at 3421 Olympia Drive, Raleigh, NC 27603 to an additional location within the institution's scope of accreditation. To require immediate notification when the change is

implemented by email to substantivechange@msche.org. To note that the Commission may rescind this action if the requested substantive change is not implemented within one calendar year from the date of this action.

June 26, 2024

To acknowledge receipt of the substantive change request. To include the reclassification of the other instructional site at 9101 Kings Parade Boulevard, Charlotte, NC 28273 to an additional location within the institution's scope of accreditation. In the event that operations at these additional locations do not commence within one calendar year from the approval of this action, approval will lapse. To reclassify the following instructional sites as an additional locations and to include these additional locations within the scope of the institution's accreditation: (1) Verizon Wireless, 6550 W. Hillsborough Ave., Tampa, FL 33634; (2) Verizon Wireless, 7401 Coca-Cola Dr., Hanover, MD 21076; (3) Verizon Wireless, 11950 Don Haskins Dr., El Paso, TX 79936; and (4) Verizon Wireless, 5959 Corporate Dr., Suite 1600, Houston, TX 77036. To remind the institution that the Commission previously requested that the Periodic Review Report, due on June 1, 2012, document additional developments in the assessment of student learning outcomes and institutional effectiveness, further implementation of the faculty hiring plan relative to enrollment at all campuses, as well as an assessment of the overall impact of pre-admissions placement testing. The Commission notes that Strayer University is required to seek prior approval, in accordance with the Substantive Change policy, for all additional locations and other relevant changes, and requests that the institution continue to provide regular updates regarding its plans for expansion to new locations.

February 25, 2011

To acknowledge receipt of notification from the institution of its decision not to proceed with the opening of the Frederick, MD Campus at 7211 Bank Court, Frederick, Maryland 21703 and Indianapolis Campus, 201 South Capitol Avenue, Indianapolis, IN, 46225 and to remove the sites from the institution's accreditation.

January 3, 2011

To acknowledge receipt of the substantive change request and to include the additional location at 8111 LBJ Freeway, 15th Floor, Dallas, TX 75251 within the scope of the institution's accreditation. To further include within the scope of the institution's accreditation the relocation of the following additional locations: (1) Cranberry Woods Campus from 850 Cranberry Woods Drive, Suite 2241, Cranberry Township, PA 16066 to 800

Warrendale Village Drive, Warrendale, PA 15086; (2) Shelby Oaks Campus from 6211 Shelby Oaks Drive, Suite 100, Memphis, TN, 38134 to 7275 Appling Farms Parkway, Memphis, TN, 38133; and (3) Chesapeake Campus from 700 Independence Parkway, Suite 400, Chesapeake, VA, 23320 to 676 Independence Parkway, Suite 300, Chesapeake, VA, 23320. The Commission requires written notification within thirty days of the commencement of operations at the additional locations. In the event that operations at the additional locations do not commence within one calendar year from the approval of this action, approval will lapse. To remind the institution that the Commission previously requested that the Periodic Review Report, due on June 1, 2012, document additional developments in the assessment of student learning outcomes and institutional effectiveness, further implementation of the faculty hiring plan relative to enrollment at all campuses, as well as an assessment of the overall impact of pre-admissions placement testing. The Commission notes that Strayer University is required to seek prior approval, in accordance with the Substantive Change policy, for all additional locations and other relevant changes, and requests that the institution continue to provide regular updates regarding its plans for expansion to new locations.

June 28, 2007

To accept the supplemental information report and thank the institution for receiving the Commission's representatives. To reaffirm accreditation, and request a progress letter, due by April 1, 2009, documenting: (1) further development and implementation of sustainable assessment plans and processes to evaluate student learning outcomes, the full range of programs and services offered by the institution, and evidence that results are being used to improve teaching and learning as well as institutional effectiveness; and, (2) further implementation of the faculty hiring plan relative to enrollment at all campuses. To further request that the Periodic Review Report, due on June 1, 2012, document additional developments in the areas noted above, as well as an assessment of the overall impact of pre-admissions placement testing. The Commission notes that Strayer University is required to seek prior approval, in accordance with the Substantive Change policy, for all additional locations and other relevant changes, and requests that the institution continue to provide regular updates regarding its plans for expansion to new locations.

November 16, 2006

To thank the institution for receiving the Commission's representatives, to further postpone a decision on reaffirmation of accreditation, and to request

an additional monitoring report, due by March 1, 2007. The monitoring report must include: (1) evidence illustrating the impact of the recently adopted by-laws changes on institutional governance, and further evidence that the institution's governing body is an independent policy-making body that is capable of reflecting constituent and public interest; (2) evidence that the institution is implementing its faculty hiring plan; that fulltime faculty at each location are sufficiently numerous to oversee academic programs offered; and baseline evidence indicating student satisfaction with access to program faculty; and, (3) evidence that the institution is developing and will fully implement, no later than the winter 2008 term, procedures to appropriately evaluate core competencies of incoming students; including development of a plan to assess the effectiveness of these new policies. A visit will follow submission of the monitoring report. The Commission also acted to provisionally include within the scope of the institution's accreditation the additional locations at 2650 Eastpoint Parkway, Suite 100, Louisville, KY 40223 and at 220 Lexington Green Circle, Suite 550, Lexington, KY 40503 as well as locations at 2200 North Alafaya Trail, Suite 500, Orlando, FL 32826 and at 850 Trafalgar Court, Suite 360, Maitland, FL 32752, pending reaffirmation of institutional accreditation. The Commission advises the institution that it will not approve further additional locations until accreditation has been reaffirmed and sufficient action has been taken relative to faculty hiring and implementation of procedures to evaluate core competencies of incoming students.

June 28, 2006

To postpone a decision on accreditation and request a supplemental information report, due September 1, 2006 on eight areas, which have been conveyed to the institution. A visit will follow submission of the report. The Commission further directed an early staff visit for the purpose of discussing the Commission's expectations regarding reporting. In addition, to note that the Commission has affirmed inclusion of the master's degree programs in Education, Health Services Administration, and Public Administration within the scope of the institution's accreditation.

June 22, 2006

To postpone a decision on accreditation and to request a supplemental information report, due by September 1, 2006, documenting: (1) evidence that the institution's governing body is an independent policy-making body, capable of reflecting constituent and public interest, and including the institution's position as to why there is not an inherent conflict of interest when the same individual serves as both the CEO of the University's parent

corporation and Chair of the University's Board; (2) evidence of how the institution is admitting undergraduate students whose interests, goals, and abilities are congruent with its mission and the extent to which the institution retains these students; (3) the status of development and implementation of an organized and sustainable assessment process and plan to evaluate student learning at appropriate levels of academic rigor and including distance learning modalities, as well as to evaluate the total range of programs and services offered by the institution; (4) evidence that results from assessments are used to improve teaching and learning and institutional effectiveness; (5) evidence that planning and improvement processes are clearly communicated, provide for constituent participation, and incorporate the use of assessment results; (6) status of efforts to strengthen the institutional research capability to support assessment activities and institutional decision-making, (7) evidence that there are a sufficient number of appropriately qualified faculty and administrators to deliver academic programs and institutional services throughout the Strayer system; and, (8) status of implementation of the comprehensive general education program, as outlined in the institution's response to the team report, including elements that will address "at risk" students with remedial needs and specification of a date certain when the institution will no longer offer academic credit for pre-collegiate level courses, and including elements directed at improving information literacy education and training. A visit will follow submission of the supplemental information report. The Commission further directed an early staff visit for the purpose of discussing the Commission's expectations regarding reporting. In addition, to note that the Commission has affirmed inclusion of the master's degree programs in Education, Health Services Administration, and Public Administration within the scope of the institution's accreditation.

Information about the Middle States Commission on Higher Education

The Middle States Commission on Higher Education (MSCHE) is a global institutional accreditor recognized since 1952 by the United States Secretary of Education. As an institutional accreditor and member of the regulatory triad, MSCHE assures students and the public of the educational quality for its over 500 institutions of higher education.

MSCHE accreditation applies to an institution as a whole rather than the specific programs within an institution. MSCHE does not approve or accredit individual programs. Each institution is regularly and consistently evaluated and monitored in accordance with the Commission's policies and procedures.

An institution maintains its accreditation unless it is voluntarily surrendered, whether through institutional closure or otherwise, or it is denied or withdrawn by the Commission. For more information, visit [msche.org](https://www.msche.org).

FELLOWS SCHOLARSHIP

Grow as a community leader with a full scholarship

We're proud to offer Strayer University's Brian Jones Fellows Scholarship to help students build talent and leadership skills they can use to solve the problems we face in our society today.

Successful applicants will receive a **full-tuition scholarship** applicable to select bachelor's degree in accounting, business administration, criminal justice and information technology or any Strayer University master's degree (excluding the Jack Welch Management Institute).

Newly admitted first-time bachelor's and master's students are eligible for this scholarship. A student may not receive a second Fellows scholarship at any degree level.

Selection criteria include previous work or interest in **improving the applicant's surrounding community**.

Scholarship recipients will **join others in this program** to share their experiences, discuss current social and economic issues and create positive action through professional development.

As a Strayer Fellow, you'll

- Receive invitations to networking events with Strayer University leadership, community leaders and other members of the Brian Jones Fellows Scholarship
- Conduct a research project in collaboration with a Strayer faculty advisor
- Have access to professional coaching and development opportunities and peer-to-peer engagement

See full scholarship details

Brian Jones Fellows Scholarship Application

DIRECTIONS

Save a copy of this application and complete all the fields.

Email your completed form to Fellows@strayer.edu.

Please include:

- Your most recent transcript
 - Bachelor's applicants: high school transcript
 - Master's applicants: undergraduate degree transcript
- Two letters of recommendation on official letterhead from people who can comment on your commitment to community engagement

PERSONAL INFO

All fields required

How did you hear about the Brian Jones Fellows Scholarship:

REVIEW ELIGIBILITY REQUIREMENTS

Before you apply, confirm that you:

- Can begin the program in spring 2026
- Can commit to completing degree coursework and fellowship requirements without taking off more than one quarter at a time
- Meet **Strayer University admission requirements**
- Newly admitted first-time bachelor's and master's students are eligible for this scholarship. A student may not receive a second Fellows scholarship at any degree level.
- Bachelor's applicants only:
 - Are a high school graduate or equivalent
 - Graduated with a 3.0 or higher GPA
- Master's applicants only:
 - Successfully completed a bachelor's degree from a regionally accredited institution
 - Graduated with a 3.5 or higher GPA

This application is due **Friday, March 6, 2026, by 11:59 p.m. Eastern Time**. You will be notified by Friday, March 20, 2026. If you are receiving this scholarship, the Fellowship program begins spring 2026 quarter on Monday, April 6, 2026.

ESSAY :

Choose from one of the three following essay questions below, using up to 500 words for your answer.

Essay question 1

If you could select an area of research that is important to you, what would you select and why is this area of focus important?

Essay question 2

If you could change one thing within your community, what would it be? Why?

Essay question 3

How would participation in this fellowship program impact your life?

LETTERS OF RECOMMENDATION

Directions to applicant: Provide this page or this information to someone who can speak to your commitment to leadership and creating positive action.

Directions to recommendation provider: The applicant is applying for the Brian Jones Fellows Scholarship at Strayer University. See the first page of this document for program details.

Please provide a letter of recommendation on official letterhead and include your email address, your phone number, how you know the applicant and how they have demonstrated a commitment to social justice.

Strayer University is certified to operate in Virginia by SCHEV and has many campuses, including one at 2121 15th St. N. in Arlington, VA.

Student Enrollment Data Form

Out-of- State Degree Granting Institutions Operating in Maryland

Please utilize a new form per location

Name of Institution: Strayer University – Baltimore

Location of Institution: 301 Mission Blvd., Suite 1110, Baltimore MD 21230

Date Completed: 3/27/2026

For each program at this location please provide the Total Student Enrollment and Number of Graduates for the past academic year; September 1, 2025 to **March 27, 2026**. *(Please duplicate the form as needed)*

Subject: SARA Participation Confirmation Letter for Strayer University
Date: Friday, November 28, 2025 4:16:13 PM

Letterhead_NCSARA

November 28, 2025

Strayer University
1133 15th St NW
Washington, District of Columbia 20005
United States

On behalf of the National Council for State Authorization Reciprocity Agreements (NC-SARA), we are pleased to welcome Strayer University as an institutional participant in SARA for the current participation period 12/4/2025-12/4/2026. We are happy that you are part of the SARA community, and we look forward to working with you!

Your institution will be listed on our [website](#) as a SARA-participating institution. The attached [Institution Welcome Kit](#) walks you through important information such as:

- Who to contact
- The [SARA Policy Manual](#) and [Administrative Forms](#)
- Completing required annual data reporting
- Paying annual participation fees and billing
- Renewal details
- About SARA and NC-SARA
- And so much more

While the Institution Welcome Kit is a quick guide resource, the [SARA Policy Manual](#) contains all applicable SARA policies for participating institutions. Institutions are responsible for becoming familiar with SARA policy.

NC-SARA Website Listing and Use of SARA Institution Seal of Participation

Your institution will be listed on our [website](#) as a SARA participating institution.

Institutions are encouraged to use the State Authorization Reciprocity Agreements (SARA) Institution Seal of Participation as a simple way to inform students of participation in SARA. The seal is available in two versions: one with a light background and the other with a dark background. The institution seal may be downloaded at <https://nc-sara.org/seal-of-participation>.

Because the seal is an official symbol of SARA, the following language must always be

used with the SARA Institution Seal of Participation:

(Name of institution) participates in the State Authorization Reciprocity Agreements.

There are several additional guidelines for using the seal that can be found at <https://nc-sara.org/seal-of-participation>.

If you have questions for your home state, your State Portal Entity (SPE) contact information can be found on the [State Portal Entity Contact page](#) of the NC-SARA website. If you have questions for NC-SARA staff please reach out to info@nc-sara.org.

Thank you for joining us in this work, and best wishes for your continued success.

Sincerely,

MB_Signature

Dr. Marianne Boeke
President, NC-SARA

A degree for life

- Undergraduate Certificate, Python Programming

¹Enrollment in this program requires an Associate of Science degree, or at least 54 quarter credits (or the equivalent) in a single technical, science, technology, engineering or math-related field. Subject to review of transfer credit by the Registrar Office. Additional restrictions apply.

²This program is not available at Maryland campuses and is available in an online-only format to Maryland students. Students enrolled in this program in Arkansas and New Jersey must follow the requirements as set forth in the catalog section applicable to their state.

³For students in New Jersey, this concentration is available only online.

⁴Available online only.

⁵Arkansas and New Jersey students enrolled in the Bachelor of Business Administration program must follow the program requirements as set forth in the state-specific sections of the catalog.

⁶Accounting Concentration is not available in Arkansas.

⁷Health Services Administration is not available in Maryland campuses. This concentration is offered online only to students in Maryland.

⁸Hospitality and Tourism Management Concentration is not available in Arkansas or Delaware.

⁹This program is not available in Arkansas or North Carolina. This program is not available at the Mississippi, New Jersey or South Carolina campuses and is available in an online-only format to Mississippi, New Jersey and South Carolina students. This program is not available to any student residing in New Hampshire or Oklahoma.

State restrictions and policies

Some concentrations are only available online. State restrictions and policies may apply. See the Strayer University Course Catalog for concentration details and any policies or restrictions that may apply.

Not all programs are available in all modalities in all states. Depending on the state, your program of choice may only be available in an online-only version or not at all. Please check www.strayer.edu for the most up-to-date information on program availability. All courses within a program will not be available for on-ground delivery at most campus locations. Due to availability, students are required to take at least some (and in certain cases, all) courses in an online format in order to complete a degree program. If you have any questions about availability of programs or courses, please contact your admissions officer, coach or dean. Strayer University has been certified in Virginia by SCHEV. Strayer University has locations in Arlington at 2121 15th Street North, Arlington, VA 22201. Strayer University's Chamblee campus is located at 2965 Flowers Road S, Suite 100, Chamblee, Georgia 30341, and we have six other campuses in the State of Georgia.

Strayer University

Accreditation

Strayer University is an accredited institution and a member of the Middle States Commission on Higher Education (MSCHE or the Commission) www.msche.org. Strayer University's accreditation status is Accreditation Reaffirmed. The Commission's most recent action on the institution's accreditation status on June 22, 2017 was to reaffirm accreditation. MSCHE is recognized by the U.S. Secretary of Education to conduct accreditation and pre-accreditation (candidate status) activities for institutions of higher education including distance, correspondence education, and direct assessment programs offered at those institutions. The Commission's geographic area of accrediting activities is throughout the United States. Strayer University is undergoing Self-Study Evaluation with the Commission and will host an evaluation visit for reaffirmation of accreditation in Fall 2025. The Commission "seeks to provide a meaningful opportunity for interested parties to provide information about an institution while it is under review." The Commission offers the opportunity to submit third-party comments regarding Strayer University's compliance with standards for accreditation, requirements of affiliation, policies and procedures, and applicable federal regulatory requirements. To submit Comments, visit the Commission's Third-Party Comments page. Strayer University's current Statement of Accreditation Status is also available on the Commission website.

Title IX Notice of Nondiscrimination

Title IX Notice of Nondiscrimination

Strayer University does not discriminate on the basis of sex and prohibits sex discrimination in any education program or activity that it operates, as required by Title IX and its regulations, including in admission and employment.

Inquiries about Title IX may be referred to Strayer's Title IX Coordinator, the U.S. Department of Education's Office for Civil Rights, or both. Strayer's Title IX Coordinator can be contacted through the Office of Student Affairs as follows:

1. Email: studentaffairs@strayer.edu
2. U.S. Postal Service: 1133 15th St NW, Suite #200, Washington, DC 20005
3. Phone: 1-877-261-6908
4. By submitting a report online (including anonymous reports) through <http://titleix.cusu.ethicspoint.com/>

Strayer's nondiscrimination policy can be located by clicking [here](#) (p. 59), and Strayer's grievance procedures can be located by clicking [here](#).

To report information about conduct that may constitute sex discrimination or make a complaint of sex discrimination under Title IX, please refer to the Office of Student Affairs contact methods described above.

Change Notice

The information in the catalog is accurate as of July 2025 and contains information relating to the 2025 and 2026 academic year. Strayer University reserves the right to make corrections and changes affecting policies, fees, curricula or any other matters contained in this and subsequent issues of the catalog or in any of its other publications. Students will be notified of any changes made at the institution. For the most current version of the catalog, please see the online version at catalog.strayer.edu.

Fall Quarter Begins	Monday, October 6
Add/Drop Period	Monday, October 6–Monday, October 13
Financial Aid Census Date*	Monday, October 27
Veteran's Day (No Classes)	Tuesday, November 11
Last Day to Drop without Academic Penalty	Friday, November 21
Thanksgiving (Observed – University Closed)	Thursday, November 27–Sunday, November 30
Fall Quarter Ends	Monday, December 22
Mini-Session I	Monday, October 6–Monday, November 10
Mini-Session II	Monday, November 17–Monday, December 22

**The census date is the date the university uses to determine enrollment status when either recalculating Federal Pell Grant awards or assessing satisfactory academic progress (SAP).*

Note: President's Day and Columbus Day are not Strayer University holidays. Any scheduled classes will be held on those days.

Please visit commencement.strayer.edu for commencement dates and deadlines.

2026 Academic Calendar

Winter Quarter

Winter Quarter Begins	Monday, January 5
Add/Drop Period	Monday, January 5 – Monday, January 12
Martin Luther King, Jr. Day (University Closed)	Monday, January 19
Financial Aid Census Date*	Monday, January 26
Last Day to Drop without Academic Penalty	Friday, February 20
Winter Quarter Ends	Monday, March 23
Mini-Session I	Monday, January 5 – Monday, February 9
Mini-Session II	Monday, February 16 – Monday, March 23

Spring Quarter

Spring Quarter Begins	Monday, April 6
Add/Drop Period	Monday, April 6 – Monday, April 13
Financial Aid Census Date*	Monday, April 27
Last Day to Drop without Academic Penalty	Friday, May 22
Memorial Day (Observed - University Closed)	Saturday, May 23 – Monday, May 25
Juneteenth (University Closed)	Friday, June 19
Spring Quarter Ends	Monday, June 22
Mini-Session I	Monday, April 6 – Monday, May 11
Mini-Session II	Monday, May 18 – Monday, June 22

Summer Quarter

Summer Quarter Begins	Monday, July 6
Independence Day (Observed - University Closed)	Friday, July 3 – Saturday, July 4
Add/Drop Period	Monday, July 6 – Monday, July 13
Financial Aid Census Date*	Monday, July 27
Last Day to Drop without Academic Penalty	Friday, August 21
Labor Day (Observed - University Closed)	Saturday, September 5 – Monday, September 7
Summer Quarter Ends	Monday, September 21
Mini-Session I	Monday, July 6 – Monday, August 10
Mini-Session II	Monday, August 17 – Monday, September 21

Fall Quarter

Fall Quarter Begins	Monday, October 5
Add/Drop Period:	Monday, October 5 – Monday, October 12
Financial Aid Census Date*	Monday, October 26
Veteran's Day (No Classes)	Wednesday, November 11
Last Day to Drop without Academic Penalty	Friday, November 20
Thanksgiving (Observed - University Closed)	Thursday, November 26 – Sunday, November 29
Fall Quarter Ends	Monday, December 21
Mini-Session I	Monday, October 5 – Monday November 9
Mini-Session II	Monday, November 16 – Monday, December 21

**The census date is the date used by the University to determine enrollment status when either recalculating Federal Pell Grant awards or assessing satisfactory academic progress (SAP).*

Note: President's Day and Columbus Day are not Strayer holidays. Any scheduled classes will be held on those days.

General Information

Mission

Through Strayer University's innovative approach to an exceptional educational experience and our commitment to student success, we empower our students to achieve their personal and professional aspirations.

The core values of our institution include:

- **Educational Access:** We provide affordable postsecondary educational opportunities to a dynamic population of eligible learners using multiple modalities and flexible approaches to enable students to earn credentials and degrees.
- **Academic Quality:** We provide innovative, engaging and professionally relevant academic programs and experiences for our students.
- **Stakeholder Success:** We provide opportunities and supportive learning environments to equip students, alumni and the Strayer University community with the tools to achieve academic, personal and professional success.

University Core Competencies

Core competencies are the learning outcomes that all Strayer University graduates are expected to demonstrate. These competencies align with the university's mission, central values and the program goals and course objectives of all Strayer University degree offerings. By providing adult learners with the core competencies needed to enhance their lives and their places of work, the university contributes to the intellectual, social, cultural and economic well-being of its graduates.

Among the outcomes expected for student learning are the following core competencies:

- **Professional competence** – the ability to apply the knowledge and skills of their disciplines to real-world settings for the benefit of their professions;
- **Communication skills** – the ability to effectively interpret, compose and articulate ideas and information in a variety of formats and presentation methods;
- **Critical thinking** – the ability to analyze, evaluate and construct arguments based on their merits;
- **Analytical reasoning** – the ability to identify, evaluate and solve problems using quantitative and qualitative information;
- **Information literacy** – the ability to locate, critically evaluate and effectively use information for purposes intended to include decision-making and problem-solving;

- **Ethical behavior** – the ability to evaluate complex issues and situations and make informed ethical choices.

Institutional Philosophy

Strayer University aspires to offer high-quality and relevant academic programs, certificates and degrees to students and learners so that they may be successful in their chosen professions. Strayer University opens the doors of higher education and future opportunities to its learners, most of whom are working adults who study part-time.

The university is focused on providing a supportive learning environment and cutting-edge technology to enable students to acquire the knowledge and skills needed in the workplace in convenient online or classroom-based courses. Faculty are experienced in their fields and dedicated to ensuring student academic success. Staff provide exceptional personal support, guidance and assistance to every Strayer University student.

Committed to continuous improvement and to the applicability of the content we teach, Strayer's academic offerings are rigorously evaluated and benchmarked to industry standards. Understanding the dynamic nature of education in a global environment, Strayer University completes periodic evaluations of its courses and program offerings, as well as the university's progress toward achieving its mission and goals.

Since its founding in 1892, Strayer University has focused on helping our students build their futures. We create innovative academic programs and services that will serve as the foundation for the personal and professional growth of our alumni.

History

As the business world began to expand toward the end of the nineteenth century, Dr. S. Irving Strayer opened the doors of Strayer Business College in Baltimore, MD, in 1892. He was joined in this endeavor by Thomas W. Donoho.

The institution quickly became popular and, in 1904, Dr. Strayer and Mr. Donoho opened a second location in Washington, D.C. With the passage of federal income tax laws in 1913 and the resulting growth in the accounting field, the Washington branch of Strayer Business College assumed a leading role in graduating qualified professionals.

After World War I, the Strayer College of Accountancy was established as a separate institution in 1928, and the emphasis of study shifted to preparation for the Certified Public Accountant examination. By 1959, Strayer began to incorporate the new accounting curriculum with various courses offered by the business college. Consequently, Strayer was licensed to grant the Bachelor of Science degree 10 years later and was renamed Strayer College.

Strayer continued offering more program options and, by 1987,

the school received permission to confer master's degrees. In 1996, the university launched a groundbreaking online learning program that remains popular among working adults. The school's name officially changed to Strayer University in 1998.

In 2011, the Jack Welch Management Institute became a part of Strayer University to offer executive education programs based on the leadership principles of Jack Welch, the former chairman and chief executive officer of General Electric.

In 2019, Devmountain became part of Strayer University to offer high quality, accessible and affordable non-credit/non-degree coding programs. Devmountain's non-credit/non-degree coding programs are offered online and at the Lehi, UT campus. Through Devmountain non-credit/non-degree programs, Strayer University brings hands-on education focused on the technical skills needed for today's fast-paced high-tech industries.

In 2021, Hackbright Academy became part of Strayer University. Hackbright Academy was founded in 2012 with the mission to advance educational opportunities in the engineering and technology industry. Since its founding, Hackbright has continued to focus on empowering students to master the skills and knowledge they need to begin a new career in tech.

With students enrolling at conveniently located campuses in more than 15 states and Washington, D.C., or via the internet, Strayer University is now one of the most well-known adult-focused universities in America.

Accreditation

Accreditation assures that the university meets specified standards for accreditation, requirements of affiliation, policies and procedures, and applicable federal regulatory requirements in areas that include, but are not limited to, courses of study, competent faculty and staff, adequate facilities and equipment, and an appropriate and stable organizational structure.

Strayer University is an accredited institution and a member of the Middle States Commission on Higher Education (MSCHE or the Commission) www.msche.org. Strayer University's accreditation status is Accreditation Reaffirmed. The Commission's most recent action on the institution's accreditation status on June 22, 2017 was to reaffirm accreditation. MSCHE is recognized by the U.S. Secretary of Education to conduct accreditation and pre-accreditation (candidate status) activities for institutions of higher education including distance, correspondence education, and direct assessment programs offered at those institutions. The Commission's geographic area of accrediting activities is throughout the United States. Strayer University is undergoing Self-Study Evaluation with the Commission and will host an evaluation visit for reaffirmation of accreditation in Fall 2025. The Commission "seeks to provide a meaningful opportunity for interested parties to provide information about an institution while it is under review." The Commission offers the opportunity to submit third-party comments regarding Strayer University's compliance with standards for accreditation, requirements of affiliation, policies and procedures, and applicable federal regulatory requirements. To submit Comments, visit the Commission's Third-Party Comments page. Strayer University's current Statement of Accreditation Status is

also available on the Commission website.

Designated Strayer University business degree programs are accredited by the Accreditation Council for Business Schools and Programs (ACBSP), 11520 West 119th Street, Overland Park, KS 66213, 913.339.9356.

State Licensure and Approvals

District of Columbia

Strayer University's main campus is located in the District of Columbia. Strayer University is licensed by the Higher Education Licensure Commission of the District of Columbia (DCHELC). DCHELC has granted approval for Strayer University to offer all the courses and degree, diploma and certificate programs currently listed in the Strayer University Catalog. DCHELC does not object to Strayer University offering these courses and degree, diploma and certificate programs outside of the District of Columbia and, in particular, in the Commonwealth of Virginia. Credits for courses taken at any Strayer University campus, including its Virginia campuses, may be transferred to any other Strayer University location, including those in the District of Columbia, or to the online campus, as part of an existing degree, diploma or certificate program. The District of Columbia also serves as our home state for participation in the State Authorization Reciprocity Agreement (SARA) (p. 14), as outlined in the subsequent section.

State Authorization Reciprocity Agreement (SARA)

Strayer University is an institutional participant in the State Authorization Reciprocity Agreement (SARA), a voluntary and regional method that oversees distance education. Strayer University is also approved to participate in SARA by its home state, the District of Columbia. As a result of Strayer's participation in SARA and approval by its home state, Strayer may offer distance education programs in SARA member states without further approval from the individual state. SARA only applies to distance education and does not cover instruction provided on-ground at any Strayer campus.

Alabama

Strayer University is licensed to do business in Alabama by the Private School Licensure Division of the Alabama Community College System and is exempt from programmatic review by the Alabama Commission on Higher Education.

Arkansas

Those programs offered by Strayer University in Arkansas have been certified by the Arkansas Higher Education Coordinating Board. Arkansas Higher Education Coordinating Board certification does not constitute an endorsement of any institution or program. Such certification merely indicates that certain criteria have been met as required under the rules and regulations implementing institutional and program certification as defined in Arkansas Code §6-61-301.

California

Strayer University is registered with the California Bureau for Private Postsecondary Education (BPPE) as an out-of-state private postsecondary educational institution; however, Strayer University's online programs are not subject to the jurisdiction of the California BPPE.

Delaware

Strayer University is authorized by the Delaware Department of Education to operate in the state of Delaware.

Florida

Strayer University is licensed in Florida by the Commission for Independent Education, Florida Department of Education. Additional information may be obtained by contacting the Commission at:

325 West Gaines Street, Suite 1414
Tallahassee, FL 32399-0400
Toll-free telephone: 888.224.6684

Georgia

Strayer University is authorized to operate in the state of Georgia by the Georgia Nonpublic Postsecondary Education Commission.

Maryland

Strayer University is authorized by the Maryland Higher Education Commission (MHEC) to offer programs at its Maryland locations and is registered with MHEC to enroll Maryland students in its fully online distance education programs.

Massachusetts

Strayer University's online programs are not subject to the jurisdiction of the Massachusetts Board of Higher Education. However, at this time, Strayer University is not permitting new enrollments into its online programs for Massachusetts with the exception of students who are part of the FCA partnerships. For FCA employees who reside in Massachusetts, please navigate to https://www.strayer.edu/content/dam/strayer/pdf/Massachusetts_Disclosures.pdf for required Massachusetts disclosures.

New Jersey

Strayer University is licensed by the New Jersey Secretary of Higher Education to offer programs in New Jersey.

North Carolina

Strayer University is approved by the North Carolina Board of Governors to offer programs in North Carolina.

Oklahoma

Strayer University is authorized as a degree granting institution in Oklahoma by the Oklahoma State Regents for Higher Education.

Pennsylvania

Strayer University is approved by the Pennsylvania Department of Education to offer programs in Pennsylvania.

South Carolina

Strayer University is licensed by:

South Carolina Commission on Higher Education
1122 Lady Street, Suite 400
Columbia, SC 29201
803.737.2260
www.che.sc.gov

Licensure by this commission indicates only that minimum standards have been met, and it is not an endorsement or guarantee of quality. Licensure is not equivalent to or synonymous with accreditation by an accrediting agency recognized by the U.S. Department of Education.

Tennessee

Strayer University is authorized by the Tennessee Higher Education Commission. This authorization must be renewed each year and is based on an evaluation of minimum standards concerning quality of education, ethical business practices, health and safety and fiscal responsibility.

Texas

Strayer University maintains a Certificate of Authorization in Texas from the Texas Higher Education Coordinating Board.

Utah

Strayer University has been issued a Certificate of Postsecondary State Authorization by the Utah Division of Consumer Protection.

Virginia

Strayer University is certified to operate campuses in Virginia by the State Council of Higher Education for Virginia. Each course and all degree, diploma and certificate programs that Strayer University offers in Virginia have been approved by the Strayer University Board of Trustees.

Neutrality Policy

Strayer University is committed to maintaining institutional neutrality on complex and controversial social or political issues. The university recognizes the importance of preserving an academic environment that promotes open dialogue and intellectual exploration. In extraordinary circumstances, the University President may authorize an official statement on behalf of the university addressing issues directly pertinent to the university's foundational mission and educational purpose, following a rigorous review process.

While individual members of the university community are encouraged to engage in meaningful discourse and form their own perspectives, the institution itself will refrain from taking partisan positions on broader social and political debates.

Transfer of Credit and Articulation

Although Strayer University is an institutionally accredited institution of higher education, Strayer University, like any other college or university, cannot guarantee that credit earned will transfer to another institution. Transfer of credit is regulated by the criteria established by the receiving institution. It is the student's responsibility to confirm whether credits will be accepted by another institution of the student's choice. All Strayer University officials are required to accurately represent the transferability of any courses, programs, diplomas and certificates offered by Strayer University. None of the associate degrees offered by Strayer University are considered terminal degrees.

Students enrolled in the associate degree programs in North Carolina should be aware that the University of North Carolina and the North Carolina Community College System have developed a Comprehensive Articulation Agreement to guide the transfer of students from associate programs to upper-division university programs within the state. Strayer University does not currently meet the requirements for transfer under this Articulation Agreement. For more information, please visit www.ncccs.cc.nc.us/Articulation.

A complete list of articulation agreements by state can be found under the Admissions section (p. 29) of this catalog.

Other Approvals

Veterans

Strayer University is approved for the enrollment of students using veterans education benefits. Strayer University programs may not be approved for use of VA education benefits at every Strayer campus. Please review the VA's approved programs list to determine if a particular program is currently approved for the use of VA education benefits at a particular campus.

Strayer University participates in the Yellow Ribbon program under the Post 9/11 GI Bill®* (Chapter 33). Contact your local campus for more information.

* GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website.

International Students

Most of the programs offered by Strayer University and most campus locations are authorized by the Student Exchange Visitor Program (SEVP) of the Department of Homeland Security to host F-1 visa holders as international students. Please visit www.strayer.edu/admissions/international for more information.

American Council on Education (ACE)

Strayer University is a member of the American Council on Education.

Guaranty Bonds

Tuition guaranty bonds are on file with various state government authorities as required under applicable state law.

Ownership

Strayer University is a wholly owned subsidiary of Strategic Education, Inc.: 703.247.2500, www.strategiceducation.com. The principal office of Strategic Education, Inc. is located at 2303 Dulles Station Boulevard, Herndon, VA 20171. The following persons are currently members of the Board of Directors of Strategic Education, Inc.: Robert S. Silberman (Chairman), Karl McDonnell, Charlotte F. Beason, Ed.D., Rita D. Brogley, John T. Casteen III, Ph.D., Robert R. Grusky, Jerry L. Johnson, Michael A. McRobbie, Ph.D., William J. Slocum, Michael J. Thawley, and G. Thomas Waite III.

Principal Office of the University

The principal office of the university is located at:

Washington Campus
1133 15th Street NW, Suite 201
Washington, D.C. 20005
202.408.2400
washington@strayer.edu
www.strayer.edu

Revisions

The university reserves the right to revise tuition rates and fees without advance notice and to make other necessary changes in the catalog, the student handbook, and the curricula. The most current version of the university's publications, tuition and other policies can be found on the university website, located at www.strayer.edu.

The Learning Environment

At Strayer University, we pride ourselves on ensuring that students are central to learning. We also recognize that interactions between a professor and student are critical to the student's success. In such an atmosphere, where questions are encouraged and ideas are valued, a person learns not only technical skills, but also respect for ideas and for individuals.

Learning at Strayer University is not restricted to formal instruction within the classroom. Strayer University students can enjoy a wide variety of activities, ranging from membership in a number of nationally recognized honor societies and student clubs, as well as participation in student chapters of professional associations. Learn more about clubs and associations in the Student Services and Activities (p. 68) section of the catalog.

In addition, we recognize that Strayer students come to the

classroom with a wide variety of experiences that can help inform the learning process. We encourage a rich exchange so that students learn as much from each other as they do from the faculty and the content.

Faculty

The criteria for faculty selection at Strayer University includes academic credentials, professional competence in the area of instruction, proven ability as a teacher, a passion for teaching and learning and a true commitment to the educational aspirations of a dynamic student body.

Strayer University faculty possess academic expertise and years of professional experience, including many currently working in the fields they teach. They are dedicated to the mission, philosophy and core competencies of Strayer University, knowledgeable in various fields and interested in teaching relevant, professional skills to their students. Faculty teach courses in their major or minor fields of specialization and competence. Quarterly student evaluations of instructors, university observations, and tools used to measure faculty performance all assist Strayer University in maintaining a world-class faculty, as does the university's emphasis on continued professional development.

Program Design and Development

Strayer University offers academic programs consistent with its mission and core competencies: professional competence, communication skills, critical thinking, analytic reasoning, information literacy and ethical behavior.

The University Policy and Curriculum Committee reviews new academic program proposals and presents them to the board of trustees. New academic program proposals approved by the Board of Trustees are then reviewed externally by state licensing agencies and accreditors.

General Education

Strayer University's general education curriculum was designed to ensure students learn and demonstrate essential employability skills within the context of a traditional general education curriculum. Through engagement with employer partners and evaluating years of employer-trend research, Strayer recognized ten skills consistently identified as those that employers value across any industry. These skills were embedded into Strayer University's general education curriculum, providing a solid foundation of behaviors and knowledge that are essential for academic and professional success.

The ten skills taught within the general education curriculum are: agility, communication, initiative, innovation, productivity, problem-solving, relationship building, results-driven, self and social awareness, and technology.

Strayer University's 10 essential employability skills:

- **Agility**

Embrace change and adapt effectively in a continually evolving environment.

- **Communication**

Listen effectively, seek and deliver information and get ideas and concepts across to others clearly and persuasively.

- **Initiative**

See what needs to be done and take action to improve an existing project or start a new one. Be willing to take a leading role.

- **Innovation**

Rather than simply doing what's always been done, you'll think in creative ways and generate unique ideas and solutions outside routine perspectives.

- **Productivity**

Strategize, organize and plan to manage priorities and time effectively and efficiently. Work hard and smart.

- **Problem-solving**

Identify and frame problems, explore ideas and create effective, ethical evidence-based solutions.

- **Results-driven**

Act with a sense of urgency and focus to reach outcomes and goals, without compromising integrity or quality.

- **Relationship-building**

Work effectively with others to create social networks over time. Develop successful teamwork through trust and respect.

- **Self and social awareness**

Recognize, understand and manage emotions – your own and those of others. Work to build on strengths and overcome weaknesses.

- **Technology**

Understand and use technologies to be productive, complete tasks, reach goals and maintain competitive advantages.

Academic Program Review

The university regularly reviews all degree-granting programs to ensure quality, effectiveness and relevance, as well as develop plans for future enhancements. Faculty, students and alumni play an important role in shaping the curriculum by participating in academic program review, surveys and focus groups, and by providing individual feedback.

Student Learning Outcomes Assessment

We measure mastery of student learning outcomes on a regular cycle using direct and indirect measures that are designed to gauge student learning against the outcomes. These measures are tightly aligned to the knowledge, skills and abilities that are

implicit in the student learning outcomes statements. The methods used are chosen to provide both breadth and depth of measurement to the student learning outcomes. Student learning outcomes assessment empowers us to make changes that enhance student learning and improve our programs.

Class Size

Class size varies based on the objectives of the course being taught and the teaching demands on faculty. Strayer University aims to provide an exceptional educational experience for our students and faculty using innovative approaches to empower our students to achieve success.

Student Body Composition

The student body at Strayer University represents the metropolitan areas where the campuses are located. Through its online program, the university attracts students across the United States and worldwide.

As of fall quarter 2023, the university's student body was 71% female, 68% students of color, and the average age was 37. Additionally, 92% of students were enrolled part-time and approximately three quarters of students were receiving financial aid.

Active Duty Military and Veteran Students

Strayer University, including the Jack Welch Management Institute, values its service member and veteran student population. As such, the university is fully committed to compliance with the Principles of Excellence for Educational Institutions Serving Service Members, Veterans, Spouses, and Other Family Members established by executive order of the President of the United States, the rules and regulations listed in the Department of Defense Voluntary Education Partnership Memorandum of Understanding, and all applicable instructions and directives issued by the Department of Defense, the different service branches and state regulatory agencies regarding voluntary education programs.

Strayer University's comprehensive sets of services and resources are available to all Strayer students, including active duty service members, veterans, spouses and other family members. In further fulfillment of the university's commitment to the military families who choose Strayer for their higher education, Strayer has implemented the following veteran and service member-specific policies that can be found throughout the catalog:

General Information

Veterans (p. 16): *Veterans educational benefits and university enrollment approvals*

Admission to the University

Undeclared Program Admission (p. 22): *Veterans educational benefits and undeclared program status*

Awarding of Transfer Credit – Undergraduate Programs (p. 24)
Service School Credit (p. 25)

Financial Information

Books and Fees (p. 36)

Add/Drop Policy and Course Withdrawal (p. 38): *Notes included for processes impacting ArmyIgnitEd, veteran and Iowa military student spouses*

Special Refund Notice (p. 41)

Veteran and Military Benefits Programs (p. 44): *Educational benefits for veteran and active duty military students*

Policies and Procedures

Registration (p. 45): *Note for Active Duty Army, Army Reservist, and Army National Guard students*

Absences from Campus and Online Classes (p. 45)

Absences for Military Service Deployment (p. 46): *Policies regarding military deployment*

Veterans Educational Benefits Eligibility – Attendance Auditing (p. 45)

Academic Warning and Suspension – Undergraduate (p. 51)

Academic Warning and Suspension – Graduate (p. 51)

Repeating Courses – Undergraduate (p. 48)

Repeating Courses – Graduate (p. 49)

Student Problem Resolution (p. 62)

Student Services and Activities

Student Services (p. 68): *Advising (recertification and continued eligibility) Veterans' Advising*

Facilities

As the university's general student population is composed of working adults attending college on a part-time basis at night and/or on the weekend, Strayer University does not provide on-campus housing. However, campuses are designed with space for appropriate academic services and administrative support and most include, but are not limited to, a quiet study area, classrooms, consultation space, and a student collaboration area that includes online learning resource center resources and mobile computing space.

Mobile computing is increasing, and the university is evolving its campuses for mobile computing. The university is making noticeable, qualitative improvements in our students' learning experience, including modernizing the learning environment and style of various campuses. Mobile computing campuses have a modern look and feel, including:

- Ample meeting and collaboration spaces
- Mobile furniture for more configurable space
- Wi-Fi to help you connect to your online resources and with instructors and fellow students
- Plenty of USB and power outlets to plug in your mobile devices and laptop computers

As our mobile computing campuses evolve, they won't contain a traditional classroom computer lab or an open computer lab. On-site class offerings vary by location; however, students attending classes at a mobile computing campus with a computer lab component will need to bring their own personal laptops.

All facilities, including mobile computing campuses, are

specifically designed to support the educational mission and objectives of the educational programs offered by the university. On-ground campuses in Florida are substantially similar to most of the other on-ground campuses operated by Strayer University.

Credit Designation

Strayer University credits are expressed in quarter hours. One quarter hour of credit is the amount of credit granted for the successful completion of 10 contact hours per course. Quarter hours apply to both regular and mini-session courses.

Courses range from 1.5 to 7.0 credits; however, most courses are 4.5 credits. For example, for a 4.5 credit hour course, students are expected to dedicate 13.5 hours per week to course work, encompassing both in-classroom and out-of-classroom activities, regardless of delivery mode. Each week of the quarter includes one hour of classroom or online course activity and at least two hours of outside study or preparation time per credit hour are built into the design of each course. Consequently, a 4.5 quarter credit course amounts to 45 contact hours over the duration of a quarter. Using this formula, Strayer course design meets applicable regulatory standards. This includes preparation, activities and evaluation over the number of weeks in the course.

Quarter System

Strayer University operates on a quarter system, providing courses for students on a year-round basis. There are four quarters of classes offered during the year: fall, winter, spring and summer. Each quarter is approximately 11 weeks long. Courses vary in the number of class meetings per week but generally meet at least once a week.

	Quarter Hour Credits	Semester Equivalent
One Course	4.5	3.0
Diploma (excluding LPN)	54.0	36.0
LPN Diploma	49.0	32.7
Associate Degree	90.0	60.0
Bachelor's Degree	180.0	120.0
Undergraduate Certificate (3-course)	13.5	9.0
Undergraduate Certificate (5-course)	22.5	15.0
12-Course Master's Degree	54.0	36.0
10-Course Master's Degree	45.0	30.0
Graduate Certificate	13.5	9.0

Some courses may be offered as mini-sessions. A course taught in a mini-session is compressed into a five-week period. Mini-session courses are equivalent to regular quarter courses in regard to the number of class hours students attend and the number of credits awarded for completion of each course. Mini-sessions generally have more class meetings per week than regular quarter classes. There are two mini-session terms available per quarter. Students receiving federal financial aid should refer to the Student Handbook regarding mini-session courses and Title IV funds.

The word "term," as used in this catalog, is defined as the period of time that covers the beginning to the end of a course and is used interchangeably with the word "quarter."

Course Numbering System

Courses numbered 100–499 denote undergraduate-level courses. Courses designated by 100–199 indicate introductory level coursework. Coursework and concepts progress at each subsequent 100-level sequence. Courses numbered 499 are the baccalaureate-level capstone for the designated program. Courses numbered 500 or above denote a graduate or master's-level course. Courses numbered 599 identify the master's-level capstone for the designated program.

International Programs

Strayer University prepares graduates to think critically and adapt to an ever-changing world. Currently, hundreds of international students from around the world are pursuing master's, bachelor's and associate degrees in programs that are in demand in the workplace, such as business administration, information technology and more. Students may be able to attend class either from their home country through our online program or at one of Strayer's campus locations. See Additional Admission Requirements for International Students (p. 28) under the Admission to the University (p. 22) section of the catalog at catalog.strayer.edu.

Classes

Students enrolled at Strayer University in undergraduate or graduate academic programs may choose to take courses online, in a classroom, or in a hybrid model.

Students must have access to the appropriate hardware, software, and Internet connections that are compatible with Strayer's online environment to take any course at Strayer. All course modalities have the same academic requirements and are taught by Strayer faculty. During a course, faculty assess students, respond to inquiries, and interact with the students to support their learning efforts. Student assessment typically includes discussions, videos, written exams, quizzes, projects, presentations, research papers and case studies.

Students are able to contact their instructors outside the scheduled online sessions by email, telephone or by scheduling personal meetings. A constant academic dialogue is maintained as students submit their assignments throughout the quarter and receive feedback from the instructor.

Students who live in states where Strayer has a campus and who enroll online must follow the curriculum requirements and policies of their home state unless otherwise indicated. Students should check with virtualadvisingcenter@strayer.edu for confirmation on program availability.

Students studying in all modalities must meet the same academic, admission and financial aid requirements; must observe the same policies and procedures; and must have the same access to student services and activities.

Online Classes

Synchronous and asynchronous courses are taught online and begin and end on the same dates as ground-based classes, as shown in the Strayer University academic calendar. Synchronous real-time courses are conducted through regular class meetings, where instructors and students are online at the same time. During the scheduled class periods offered synchronously, each class member accesses the university's learning management system and is online in a conversational mode with the instructor and other class members. Students in synchronous classes must meet during the posted time in order to post attendance.

Asynchronous courses use a delivery platform that allows independent online study within weekly modules, where students can access course content and interact with the instructor at different times. During asynchronous courses, each class member accesses the university's learning management system and completes weekly work. There are no specific real-time class meeting times. Students should refer to the attendance policy regarding posting attendance for asynchronous classes.

Hybrid Classes

Strayer offers hybrid classes that include two hours of classroom time at a campus each week during the quarter with the remaining class content taught online.

For hybrid courses with discussion question requirements, the discussion and review of difficult concepts should occur in the physical classroom or synchronous method in addition to other learning activities the faculty member has planned. Students should complete all other coursework online (e.g., lectures, readings, content viewing, etc.).

For hybrid courses that do not have discussion question requirements, in-class time should be spent covering difficult concepts, joining class discussions around the topics, spending time in the lab environment (if applicable), and participating in group activities (if applicable).

Attendance in hybrid classes is based on weekly in-person attendance. Students should refer to the attendance policy (p. 46) for more information.

Additionally, for F-1 students, hybrid classes do not count toward the distance-learning limit on credits that are counted toward the full course of study requirement. So, for purposes of the full course of study requirement, hybrid classes will be treated similarly to any traditional on-ground classes.

Effective August 15, 2019, for students using veteran's benefits to pay tuition costs, hybrid classes do meet the requirements to be classified as in-residence training for purposes of meeting the

requirements for the full monthly housing allowance.

Ground Classes

Ground classes meet each week for four hours of classroom time at a campus, during which students will participate in discussions and instruction.

Attendance is based on in-person attendance. Students should refer to the attendance policy (p. 46) for more information.

Independent Study Classes

An independent study class is one that offers a student an individualized education experience for the same academic credit as offered in a hybrid or online version of the class. Academic credit is awarded when the student demonstrates mastery of the course outcomes through satisfactory fulfillment of requirements set by the academic department. The amount of work completed by the student must be equivalent to the amount of work completed in a class with the same amount of credit hours. To satisfy attendance requirements in hybrid independent studies, the student must attend all weekly pre-scheduled meetings with their assigned instructor on campus. Similarly, in online independent studies, students must, each week and as determined by their instructor, submit an academic assignment, submit a quiz or exam, or actively participate in a posted online academic discussion.

Practicum Classes

A practicum class is a supervised, practical application course monitored by an on-site supervisor as well as a class instructor. Students complete a minimum of 6.5–8 hours per week of practicum work, 3 hours and 45 minutes per week of classroom time, and a minimum of 4–6 hours per week of outside assignments.

Technical Requirements

Strayer students can connect and learn on desktops, laptops, and multiple mobile devices. Before you begin your first course, review the following technical requirements to make sure you have full access to Strayer's learning tools. A desktop or laptop in addition to the appropriate software and an Internet connection are the primary means of participating in courses and thus are significant contributors to academic success. Strayer students should make sure that hardware, software, and Internet connections are compatible with Strayer's online environment. Strayer provides students with the opportunity to purchase Microsoft Office products at a significant discount (see Software, Discounts and Downloads section in iCampus for exact pricing). These requirements are subject to change at any time.

Internet connection: Strayer University's technical support staff strongly recommends a broadband (Cable or DSL) Internet connection. Other high-speed and broadband connections, such as a satellite connection, hotspot, or a shared/community Internet connection, may work but may not provide the best performance of the tools and resources used in Strayer University courses.

Mobile: Mobile devices may also be used with Strayer sites but for most academic programs, unless otherwise noted, a desktop or

laptop with a full operating system like Windows or Mac will be needed to ensure access to all sites, tools, and resources used by Strayer University and Strayer courses.

iCampus Student Portal

Looking for iCampus?

Visit iCampus at icampus.strayer.edu.

Strayer University maintains iCampus, an interactive student portal that is available to all enrolled students and alumni. iCampus offers academic and account dashboards, support resources, and connections to the Strayer community, student services and more.

Students can also use iCampus to perform a number of important functions, such as:

- Registering for classes
- Checking grades
- Connecting with your coach and other Strayer support teams
- Applying for financial assistance and scholarships
- Accessing career services and resources
- Accessing the Strayer Library and online research portal
- Registering for university events
- Getting support through tutoring, mentorship, and wellness resources
- Applying for a degree or diploma
- Registering for commencement ceremonies
- Reading motivational and inspiring content
- Connecting with other students in student communities

Career Services

The Strayer University Career Center website offers support and professional development resources to all students and alumni. The site can be accessed directly at careercenter.strayer.edu or through the iCampus portal. These resources include fundamental instruction about resumes, job searching, interviews and cover letters. The Career Center also offers innovative tools that include an interactive career and education planning tool, AI resume review tool and on-demand career advice videos. We focus on providing support to actively engage students in the career development process. For 1:1 support, you also have access to schedule a consultation with one of our experienced Career Coaches.

Participation in the career activities and/or completion of any Strayer program does not guarantee a student will find employment.

Center for Well-Being

Strayer's Center for Well-Being (CFW) is a virtual space for students providing tools and resources to support the whole you. Whether you need academic support, financial resources, mind and body resources, social connection, basic needs resources, or career exploration tools, we've got you covered. Visit CFW in iCampus to discover resources to help you unlock your full potential at Strayer and beyond.

Strayer University Alumni

You are a student today, a graduate next, and Strayer alumni forever! Our commitment to you doesn't end at graduation. The Strayer University Alumni Association seeks to enhance the personal and professional lives of alumni through engagement, education and empowerment.

Visit the Alumni Association website to discover:

- Lifetime access to the Career Center where you can search job listings; get help with your resume, cover letter, and LinkedIn profile; and attend career development workshops and webinars;
- Networking and event opportunities, both in-person and online (Join the Facebook alumni group);
- Alumni success stories on the Scholar Stories blog; and
- Resources for transcripts, diplomas and scholarships.

Admission to the University

General Admission Information

Strayer University seeks students who have a desire for education in the fields of business, accounting, criminal justice, education, healthcare administration, human resource management, management, information technology or public administration. The university is committed to a policy of equal opportunity in the recruitment and admission of students, access to student financial assistance and other student services and activities. Strayer University does not discriminate on the basis of age, sex, gender identity, race, color, religion, disability, sexual orientation, marital status, veteran status, national origin or any other basis, as specified by federal, state or local laws and regulations.

Prospective students are encouraged to contact the university to speak with an admissions officer.

At Strayer University, safeguarding student account information is a top priority. To enhance security, students are required to verify their identity during the admissions process and at various intervals throughout their enrollment. Strayer University also utilizes multifactor authentication along with advanced security technologies to ensure that your account remains secure. Multifactor authentication (MFA) is a security protocol which requires another device in addition to your email and password to verify your identity. Strayer University requires MFA on all accounts for access to iCampus, Canvas, and other related online resources.

Undeclared Program Admission

A student who wishes to take selected courses for personal and/or professional improvement may apply as a nondegree-seeking student with an undeclared major at the undergraduate or graduate level. Every effort will be made to accommodate such students, subject to prerequisites and enrollment limitations. Undeclared undergraduate program students may not enroll in English or math courses unless they meet the proficiency requirements (outlined in the Undergraduate Admissions section). An academic administrator will determine, based on a personal interview with the student, whether students who wish to take courses at the graduate level have the potential to meet the course learning outcomes.

Undeclared program students are not eligible to participate in federal financial aid programs. F-1 visa students are not eligible to enroll with an undeclared program status. Per Strayer University policy, veterans enrolling in undergraduate courses in an undeclared program status are entitled to receive veteran's educational benefits for no more than one academic year. Undeclared program students may apply later for declared program status according to the admissions procedures and must satisfy all admission requirements.

Credit earned by an undeclared program student may be applied toward a degree, subject to the academic policies governing such degree programs effective at the time they are accepted into a

degree program. Undeclared program students seeking to transfer credits to another institution must meet the admission requirements of that institution. Students may not remain in an undeclared program status for more than one academic year.

Undergraduate Admission

In order to fulfill its mission, Strayer University is an open access university, and therefore the basic requirement for admission to an undergraduate degree or diploma program is a standard high school diploma that meets the state minimum high school completion standards from an approved high school or its equivalent.

In addition to the basic requirements for admission to an undergraduate program, additional admission requirements to the Bachelor of Applied Science in Management (BASM) program include documentation of an associate of science degree (AS or AAS) in a technical, science, technology, engineering, or math area or a transcript showing at least 54 quarter hours of transferable credit in a technical, science, technology, engineering, or math-related field. The applied science credits must be from a single area of study. An AS or AAS in General Studies is not eligible for the BASM program (however, students with these degrees may enroll in another Strayer program).

In addition to the basis requirements for admission to an undergraduate program, additional admission requirements to the Licensed Practical Nurse (LPN) diploma include the following:

- Students must be 18 years or older as shown on the government-issued photo ID.
- Affidavit of high school completion
- Current CNA certification or equivalent. If the applicant does not have a CNA certification, the admissions officer should consult with the program dean to determine if what the applicant provides is sufficient for equivalency.
- Current CPR certification.
- Criminal background check.
- Immunization requirements (HepB, MMR, Varicella, Tdap).
- ACT score of 22 or minimum SAT score of 530 in the English and Math sections.

Note: Additional information may be requested by clinical faculty as may be required by law in certain states.

For each academic quarter, the deadline for applying to Strayer is the end of the add/drop period as published in the Academic Calendar.

Strayer requires a student's correct identifying number to file certain information returns with the IRS and to furnish a statement to the student. This will be a Social Security number

(SSN) or, if not eligible to obtain an SSN, an individual taxpayer identification number. Nonresident aliens who do not have income that is subject to tax are not required to supply this information. Failure to provide the correct identifying number could result in a penalty from the IRS imposed on each incorrect document.

All student applicants must submit to the admissions office:

- Completed application form (<https://application.strayer.edu/>) available on www.strayer.edu and an enrollment agreement as applicable (varies by state);
- At the time of admission, a valid, current, legible, color, government-issued photo identification; and
- Documentation of high school graduation or high school equivalence. Acceptable forms of documentation of high school graduation or high school equivalence for undergraduate admission must include *one* of the following:
 - Copy of a high school transcript indicating the graduation date or a copy of a high school diploma from an approved high school that is recognized by an agency recognized by the U.S. Department of Education and/or certified by the state board of education. (Special rule for South Carolina: applicants in this state must provide an official high school transcript from an approved high school that is recognized by an agency recognized by the U.S. Department of Education and/or certified by the state board of education.)
 - Copy of a GED certificate. (Special rule for South Carolina: applicants in this state must provide an official GED certificate.)
 - Evidence of enrollment in an eligible Title IV program *prior to July 1, 2012*, and evidence that the applicant successfully completed at least 6 semester hours/9 quarter hours eligible for credit toward a degree or certificate offered by the prior institution (not applicable in South Carolina or in the LPN diploma program).
 - Proof of home school completion equivalent to high school level graduation and the Home School Completion certificate, (if the home school state issues a completion credential), diploma, or transcript. The home school curriculum must satisfy any home school state laws or requirements. Self-reported credentials, including a home school completion certificate, diploma, or transcript are subject to verification.
 - Copy of an associate/bachelor's degree or transcript showing degree completion from an institution accredited by an agency recognized by the U.S. Department of Education. (Special rule for South Carolina: applicants in this state must provide an official college or university transcript indicating the award of an associate/bachelor's degree from an institution accredited by an agency recognized by the U.S. Department of Education.)
- Additional admission requirements apply to International Students. Please refer to the Additional Admission Requirements for International Students (p. 28) section of this catalog.

Application materials submitted become the property of Strayer University. These materials will not be returned to students or forwarded to another university. If unexplained discrepancies appear between statements or documents provided to Strayer University as part of the admission materials and information otherwise obtained, applicants may be rejected for admission, admission may be revoked, or students may be dismissed.

Extraordinary circumstances: In the event that a student's official high school and/or college records are unable to be obtained from the issuing agency due to extraordinary circumstances, including but not limited to, flooding, fire, other natural disaster, pandemic, documented cyberattack (including ransomware attack) affecting the school/school system/institution that is independently verified by the school/institution, or in the case of foreign credentials, if there was governmental failure, civil war or social unrest, the student must provide to the University Registrar for a final admission decision: a copy of the Students With Extraordinary Circumstances Form for Basis of Admission Due to School Closure (Exception Form) or other similar form signed by the student and supporting documentation from the state department of education or other governmental agency verifying the information provided by the student, or documentation that the school/school system/institution is unable to process any requests due to the documented cyberattack. Where possible, students should submit other documentation to support what they select on the Exception Form.

All undergraduate students, excluding students in a stand-alone undergraduate certificate or diploma program*, must enroll in WRK 100 (p. 179) in their first term, where they will be assessed for English proficiency. Students who do not earn the university-determined passing algorithmic score on the writing assessment or who do not meet one of the criteria below, must enroll in ENG 090 (p. 159) for their second term. The university's English proficiency standards must be taken/satisfied prior to COM 100 (p. 153) or COM 101 (p. 153), ENG 115 (p. 159) or ENG 116 (p. 160), or any higher-level English course. Proficiency in English must be documented by one of the following methods in accordance with the Developmental English and Foundational Skills Requirements:

1. Score above established minimum level (93 or greater) on the McCann English placement assessment;
2. Passing algorithmic score on the WRK 100 written assessment;
3. Scholastic Aptitude Test (SAT) score of 530 or above in the written/verbal section;
4. American College Test (ACT) score of 22 or above in English;
5. Approved transfer credit for collegiate-level English comparable to ENG 115 (p. 159), ENG 116 (p. 160), COM 100 (p. 153), or COM 101 (p. 153) or higher;
6. Earning 70% or higher in the Sophia Writing Fundamentals (ENG 0001) course;
7. Proof of completion of an equivalent U.S. undergraduate or graduate degree conferred prior to the

start of term admittance; or

8. Successful completion of ENG 090 (p. 159) (with a minimum grade of C) at Strayer University.

*Students enrolled in a stand-alone undergraduate certificate or diploma program may satisfy developmental English requirements by meeting any of the above criteria.

Mathematics proficiency is a requirement for continued course registration. Mathematics proficiency must be documented by one of the following methods in accordance with the Developmental English and Foundational Skills requirements:

1. SAT score of 530 or above for Math;
2. ACT score of 21 or above for Math;
3. Approved transfer credits for collegiate-level Math;
4. Proof of completion of an equivalent U.S. undergraduate or graduate degree conferred prior to the start of term admittance; or
5. Successful completion of MAT 104 (p. 171)/MAT 110 (p. 171) (with a minimum grade of C) at Strayer University.

Note: Students in a stand-alone certificate program do not need to complete MAT 104 or MAT 110 unless it is in the certificate program or unless and until the student enrolls in another program at Strayer University which includes MAT 104 or MAT 110 in the curriculum.

Readmission – Undergraduate

Except for LPN students, a student who has previously attended Strayer University and whose study is interrupted for three or more consecutive quarters must apply for readmission and is subject to basis and other requirements at the time of readmission. Students may be subject to the curriculum and other academic requirements and regulations in effect at the time of readmission. Students should seek academic advising prior to registration. Students who have been dismissed/expelled are not eligible for readmission, or admission to a new program at Strayer, unless the dismissal/expulsion was overturned via the appeal process as described in the Student Handbook.

Readmitting students seeking to re-enroll in the LPN program must return to the most current version of their program, subject to all current program requirements. LPN coursework must be successfully completed within five years from the student's initial term of attendance.

Awarding of Transfer Credit – Undergraduate Programs

Students who have attended other post-secondary educational institutions and transfer to Strayer University may be eligible to receive transfer credit in one of Strayer's degree, diploma or certificate programs, if appropriate. All applicants are considered on their individual merit. All students are required to meet Strayer's academic requirements to be awarded a degree. Transfer students should follow the application procedures outlined in this catalog. Evaluation of transcripts and academic experience is

conducted in accordance with university policy.

No more than 126 quarter hours of transfer credit from all sources may be applied toward a bachelor's degree; no more than 63 quarter hours of transfer credit from all sources may be applied toward an associate degree; no more than 22.5 quarter hours of transfer credit from all sources may be applied toward a diploma program*; no more than 4.5 quarter hours of transfer credit from all sources may be applied toward an undergraduate certificate program. Credits from courses in accounting and computer-related areas are subject to a 10-year limitation when being evaluated (except for a class equivalent to CIS101, which does not have a 10-year limitation). Students should request evaluation of transcripts and other previous learning immediately following acceptance to Strayer to avoid possible duplication of courses. An official transcript must be submitted prior to evaluation.

*No more than 12 quarter hours of transfer credit may apply to the LPN diploma program, and only the general studies courses within the program may transfer. No nursing courses may transfer to Strayer University.

For students receiving VA education benefits, all prior transcripts must be on file and evaluated by their second term. VA students may not enroll in or receive credit at Strayer for a course in which they have earned credit at another institution.

Notwithstanding the foregoing, no more than 30% of credit in a student's degree program may be awarded from life or work experience, as follows: No more than 54 quarter hours of credit for a bachelor's degree; no more than 27 quarter hours for an associate degree; no more than 13.5 quarter hours of credit for a diploma program (excluding the LPN); and no more than 4.5 quarter hours of credit for a certificate program. No more than 18 quarter hours of transfer credit from the Skills Advantage Program may be applied toward a bachelor's degree and no more than 4.5 quarter hours of credit from the Skills Advantage Program may be applied to an associate degree.

Incoming courses must be equivalent in content and outcomes to courses at Strayer. Strayer University will examine the content, outcomes and clock/credit hours for each incoming course. Incoming undergraduate courses must meet the following basic criteria in addition to those outlined above:

- For the Major, Concentration, and General Education Core, earned a grade of C or higher, Satisfactory (S), or Pass (P), in the course. A grade of D or higher will be accepted if the student has earned an associate degree from the same institution as the proposed transfer course(s). Must be a minimum of 4.5 quarter hours/3.0 semester hours in length.
- For the Elective area, earned a grade of C or higher, Satisfactory (S), or Pass (P), in the course. A grade of D or higher will be accepted if the student has earned an associate degree from the same institution as the proposed transfer course(s). Must be at least .5 quarter hours/.33 semester hours in length and may be up to 45.0 quarter hours/30 semester hours in length*.
- Come from an institution that is accredited by the U.S. Department of Education, or recognized by the American Council on Education, or be a Strayer-

approved corporate training course.

*This does not apply to Arkansas which has different requirements. Residents of Arkansas who enroll through the Little Rock campus will have transfer credit evaluated and applied ensuring there are a minimum of three upper-level elective courses (13.5 credits at the 300 or 400 level).

Strayer works closely with various employers and their employees to determine if specific corporate or military educational training or other professional credentials can be articulated toward college credit at Strayer. When evaluating previous corporate or military educational training, the university requires that the employer provide the name and description of the course, information about the course duration, learning objectives, learning outcomes, and student assessment. An eligible transfer course must be equivalent to 45 contact hours per 4.5 quarter credit hour course and be similar in content and outcomes to courses offered at Strayer. For elective credit, the course being transferred must be the equivalent number of contact hours for credit awarded. Strayer uses guidelines set forth by the American Council on Education, Council for Adult and Educational Learning, American Association of Collegiate Registrars and Admissions Officers, and other recognized agencies to evaluate corporate and military educational training. Specifically, Strayer examines the course content for subject matter and collegiate level work, course outcomes and outcomes measurements.

Strayer's non-credit/non-degree programs, including but not limited to the non-credit DevMountain and Hackbright bootcamps do not qualify for transfer to Strayer degree programs.

Students in residence at Strayer who choose to take a course at another institution in order to transfer those credits into their program are required to submit a Request to Pursue Courses form to an academic administrator prior to enrolling at the outside institution.

Duplicate transfer credit is not permitted and will not be posted. If a student submits transcripts from two institutions or sources that include credit for the same or similar course, credit from only one source will be posted.

Strayer accepts transfer credit from international institutions that is deemed equivalent to coursework in the United States. All international education documents must be reviewed by an approved third-party evaluation provider that is a National Association of Credential and Evaluation Services member and must meet the same criteria as listed above.

Strayer accepts credits from acceptable organizations that have been reviewed by the American Council on Education, National College Credit Recommendation Service, California Law Enforcement Agency or other review bodies deemed appropriate by the university. Students are encouraged to submit transcripts from these organizations for review of credit.

If a student is on disciplinary suspension at Strayer University, any courses taken during the period of suspension at one of Strayer University's affiliates, or at any other institution, will not be accepted as transfer credit towards any Strayer University academic program.

CLEP/DSST

CLEP scores and DSST exams are evaluated for credit toward diplomas and undergraduate degree programs. CLEP and DSST credits do not fulfill residency requirements.

Advanced Placement Program (AP)

Students may submit Advance Placement (AP) exam scores for evaluation for undergraduate college credit in a degree program. AP credit does not fulfill residency requirements. AP exams are given an overall grade of 1, 2, 3, 4 or 5, with 5 indicating a student who is extremely qualified to receive college credit and/or advanced placement based on an AP exam grade. Strayer University does not accept any score lower than 3 for academic credit. Students seeking college credit for AP exams should refer to the Advanced Placement Equivalency Chart located at www.strayer.edu.

Students may request that scores be sent to Strayer directly from the College Board website: <https://apstudents.collegeboard.org/score-reporting-services>.

To have scores sent to Strayer, students should use school code 5632.

Service School Credit

Strayer University is in partnership with the following institutions:

- Air University Associate to Baccalaureate Cooperative
- American Council on Education
- College of the American Soldier
- Defense Acquisition University
- Defense Activity for Non-Traditional Education Support

Strayer University is a member of:

- American Association of Collegiate Registrars and Admissions Officers
- Association of Veterans Education Certifying Officials
- Council of College and Military Educators
- National Association of Veterans' Program Administrators
- Western Association of Veterans Education Specialists

Challenge Exam

Strayer University offers active and enrolled students the

opportunity to obtain credit through its Challenge Exam program. Students are encouraged to meet with a coach or advisor to discuss credit options, which may include CLEP/DSST examinations among other options. Students must pass the undergraduate challenge exam by scoring at least 70% on the exam and are allowed only one retake. Challenge exam credits do not fulfill residency requirements. See the Books and Fees section (p. 36) for applicable charges.

Skills Advantage Program

The Skills Advantage Program consists of a one-day assessment that allows undergraduate students enrolled in an associate or bachelor's degree program to participate in an online experience utilizing a video-conferencing platform. Each participant is assessed on their performance against a specific predefined rubric for the various competencies. If a student shows proficiency in at least one competency, they may earn elective transfer credit. Students have the opportunity to earn up to a maximum of 4.5 quarter credit hours if in an associate degree program and 18 quarter credit hours if in a bachelor's degree program that can only be used to satisfy available undergraduate elective requirements for their undergraduate degree at Strayer. If a student in an Associate degree program earns more than 4.5 credits and later enrolls in a Bachelor's degree program, they may use any additional credits earned to satisfy available undergraduate elective requirements in their bachelor's degree program. Credits earned through the Skills Advantage Program do not fulfill residency requirements.

Graduate Admission

The basic requirement for admission to a Strayer University graduate certificate or master's degree program is completion of a baccalaureate degree with a cumulative GPA of 2.50 from an accredited institution. Where the degree has not yet been issued due to institutions only conferring degrees at certain times during the year, a letter from the registrar of the institution confirming that the degree requirements were completed prior to the start of the graduate degree will need to be presented and followed by submission of the degree or transcript showing degree conferral when available. International students applying for graduate admission must hold, at a minimum, the equivalent of a United States baccalaureate degree.

Strayer strives to maintain a multi-faceted student body; all undergraduate academic majors will be considered. Candidates who have not earned degrees from appropriate fields of study or who do not meet professional experience requirements may be required to take additional coursework (undergraduate/graduate) as a prerequisite for completing the program. Program prerequisites will be determined during the evaluation process.

Strayer requires a student's correct identifying number to file certain information returns with the IRS and to furnish a statement to the student. This will be a Social Security number (SSN) or, if not eligible to obtain a SSN, an individual taxpayer identification number. Nonresident aliens who do not have income that is subject to tax are not required to supply this information. Failure to provide the correct identifying number could result in a penalty from the IRS imposed on each incorrect document.

1. Candidates for a master's degree or a graduate certificate (excluding those applying to the JWMI program) must provide the admissions office with all of the following:
 - a. A completed application form (<https://application.strayer.edu/>) available on www.strayer.edu and an enrollment agreement as applicable (varies by state).
 - b. At the time of admission, a valid, legible, current, color, government-issued photo identification.
 - c. Documentation of completion of a baccalaureate degree from an institutionally accredited institution, or documentation of completion of a master's degree or doctoral degree from an institutionally accredited institution, or an approved equivalent.
 - d. Official transcripts from all colleges or universities attended, both undergraduate and graduate.
 - e. Evidence of graduate potential; a graduate student applicant may demonstrate evidence of graduate potential by satisfactory performance in at least one of the following:
 - i. A 2.50 undergraduate grade point average (GPA) on a 4.0 scale in a completed bachelor's degree program from an institutionally accredited institution.
 - ii. Completion of a graduate certificate at an institutionally accredited institution or completion of at least 9.0 quarter hours or equivalent of graduate-level coursework at an institutionally accredited institution with a cumulative GPA of 3.0 or higher.
 - iii. Successful completion of an Advanced Professional Military Education program for military officers that is accredited for graduate academic credit by the American Council on Education.
 - iiii. Graduate Management Admission Test (GMAT) – minimum acceptable cumulative score of 450 on the GMAT taken within the past five years. Information about this test can be obtained through the website (www.gmat.org) or by writing to: Graduate Management Admission Test Educational Testing Service, P.O. Box 6103, Princeton, NJ 08541-6103.
 - iiiii. Graduate Record Examination (GRE) – minimum acceptable cumulative score of 300 on the GRE taken within the past five years. Information can be obtained through the website (www.ets.org/gre), by writing to: GRE-ETS, P.O. Box 6000, Princeton, NJ 08541-6000, or by calling 1.866.473.4373.
 - iiiiiii. At least three years of professional experience in a leadership, management, or problem-solving role. Admission on this basis requires the completion of an Extended Goal Statement which will be reviewed by our Academics team.

Application materials submitted become the property of Strayer University. These materials will not be returned to students or forwarded to another university. If unexplained discrepancies appear between statements or documents provided to Strayer

University as part of the admission materials and information otherwise obtained, applicants may be rejected for admission, admission may be revoked, or students may be dismissed.

Extraordinary circumstances: In the event that a student's official high school and/or college records are unable to be obtained from the issuing agency due to extraordinary circumstances, including but not limited to, flooding, fire, other natural disaster, pandemic, documented cyberattack (including ransomware attack) affecting the school/school system/institution that is independently verified by the school/institution, or in the case of foreign credentials, if there was governmental failure, civil war or social unrest, the student must provide to the University Registrar for a final admission decision: a copy of the Students With Extraordinary Circumstances Form for Basis of Admission Due to School Closure (Exception Form) or other similar form signed by the student and supporting documentation from the state department of education or other governmental agency verifying the information provided by the student, or documentation that the school/school system/institution is unable to process any requests due to the documented cyberattack. Where possible, students should submit other documentation to support what they select on the Exception Form.

2. Candidates for Jack Welch Management Institute programs must provide the following for admission:
 - a. A completed application (<https://application.strayer.edu/>) and enrollment agreement, as applicable.
 - b. At the time of admission, a valid, current, government-issued photo identification.
 - c. Documentation of completion of a baccalaureate degree from an institutionally accredited institution with a 3.0 or higher GPA on a 4.0 scale.
 - d. Official transcripts from all colleges or universities attended, both undergraduate and graduate.
 - e. A minimum of five years professional experience.
 - f. A résumé or LinkedIn profile.
 - g. A personal essay.
 - h. Satisfactory test score from the Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) taken within five years prior to enrollment. NOTE: This requirement will be automatically waived for applicants with a minimum of five years' professional or business experience.
 - i. Evidence of graduate potential – in addition to the above, special consideration may be given to applicants who do not meet minimum GPA requirements but show graduate potential. A personal interview with the dean may be required.
 - j. Students transferring from a Strayer graduate degree program to the Jack Welch Management Institute must be in satisfactory standing with the university at the start of the first quarter in which they are enrolled.

Application materials submitted become the property of the Jack Welch Management Institute. These materials will not be

returned to students or forwarded to another university. If unexplained discrepancies appear between statements or documents provided to the Jack Welch Management Institute as part of the admission materials and information otherwise obtained, applicants may be rejected for admission, admission may be revoked, or students may be dismissed.

Admission Classifications – Graduate

Full Acceptance – An applicant who meets all requirements for admission to the degree program, including satisfying the undergraduate prerequisite course requirements, is granted full acceptance status.

Acceptance with Provision – An applicant who meets all admission requirements, except for satisfying the undergraduate prerequisite courses, will be accepted into the degree program with the understanding that they must satisfactorily complete the designated prerequisite courses with a minimum grade of C. Prerequisite courses must be taken prior to the related graduate courses and are taken in addition to the courses required for the master's degree. Graduate students should have a program evaluation completed within the first two terms of enrollment.

Readmission – Graduate

A student whose study is interrupted for three or more consecutive quarters must apply for readmission. Students may be subject to the current catalog and curriculum, and all other academic requirements and regulations in effect at the time of readmission. Graduate course work must be successfully completed within ten years from the student's initial term of attendance in a Strayer graduate degree within five years for a certificate program. This includes both course work taken at Strayer and course work taken elsewhere and transferred in. Courses required in a degree program that were successfully completed at Strayer more than 10 years prior to the term of admission or readmission must be retaken. Students should seek academic advising prior to registration. Students who have been dismissed/expelled are not eligible for readmission, or admission to a new program at Strayer, unless the dismissal/expulsion was overturned via the appeal process as described in the Student Handbook.

Awarding of Transfer Credit – Graduate Programs

Transfer students seeking evaluation of previous graduate-level credit must provide evidence the courses are comparable in content to those offered in the program of study at Strayer University and come from an institution that is recognized by an agency recognized by the U.S. Department of Education or the American Council on Higher Education. Evaluation of transcripts or academic experience is conducted in accordance with university policy. Graduate transfer credit must be 4.5 quarter hours in length. No more than 18 quarter hour credits may be applied to a 12-course master's degree program, no more than 13.5 quarter hour credits may be applied to a 10-course master's degree program, and no more than 4.5 quarter hour credits may be applied to a graduate certificate program. Students must have earned a grade of "B" or higher, Satisfactory (S), or Pass (P) to be accepted in transfer. Individual programs may require specific

courses be completed at Strayer and may not be satisfied by a transfer equivalent. The university policy regarding requirements for degree completion is located in the Graduation, Degree Conferral and Commencement (p. 52) information under the Policies and Procedures (p. 45) section of this catalog.

All courses evaluated for transfer credit must have been completed within 10 years of the student's first term of attendance in a Strayer graduate degree program regardless of subject matter. Courses taken more than 10 years prior to the first term of attendance will not transfer in and will need to be retaken. Students in residence at Strayer who choose to take a course at another institution in order to transfer those credits into their program are required to submit a Request to Pursue Courses form to an academic administrator prior to enrolling at the outside institution.

Duplicate transfer credit is not permitted and will not be posted. If a student submits transcripts from two institutions or sources that include credit for the same or similar course, credit from only one source will be posted.

Strayer University accepts transfer credit from international institutions that is deemed equivalent to coursework in the United States. All international education documents are submitted to an approved third-party evaluation provider that is a National Association of Credential and Evaluation Services member and must meet the same criteria as listed above.

If a student is on disciplinary suspension at Strayer University, any courses taken during the period of suspension at one of Strayer University's affiliates, or at any other institution, will not be accepted as transfer credit towards any Strayer University academic program.

Awarding of Transfer Credit – Jack Welch Management Institute (JWMI)

Transfer students seeking evaluation of previous graduate level credit must provide evidence the courses are comparable in content to those offered in the program of study at Strayer University and come from an institution that is recognized by an agency recognized by the U.S. Department of Education or the American Council on Higher Education. Evaluation of transcripts or academic experience is conducted in accordance with university policy.

Upon completion of the transfer evaluation, a student may receive up to 18.0 quarter hours of credit toward the completion of a Jack Welch Management Institute (JWMI) Master of Business Administration program at Strayer and up to 4.5 quarter hours of credit toward the completion of a JWMI graduate certificate. No courses with grades below a B will be accepted in transfer. Undergraduate credits may be accepted only with an Articulation Agreement between JWMI and an approved institutionally accredited university or college. Only those courses determined to be eligible for transfer will be accepted. Students should contact the academic office for the list of courses eligible for transfer.

All courses evaluated for transfer must have been completed within 10 years of the student's first term of attendance in a JWMI degree or certificate program. Courses taken more than 10 years prior to the first term of attendance will not transfer in and will need to be retaken.

JWMI students may earn up to three courses of advanced standing credit if they hold a current and verifiable professional certification. The list of certifications and corresponding courses will be updated as needed and posted on the university website.

Duplicate transfer credit is not permitted and will not be posted. If a student submits transcripts from two institutions or sources that include credit for the same or similar course, credit from only one source will be posted.

If a student is on disciplinary suspension at Strayer University, any courses taken during the period of suspension at one of Strayer University's affiliates, or at any other institution, will not be accepted as transfer credit towards any Strayer University academic program.

Master's-Level Business Programs – BUS 508 Policy

Students enrolled in the 10 or 12-course Master of Science in Management, or the 12-course Master of Business Administration in North Carolina or Pennsylvania, who have earned an undergraduate bachelor's degree, with a cumulative GPA above 2.50, in a business-related program (for example, business administration, management, accounting, marketing, or finance), may seek authorization from an academic advisor to replace BUS 508: Contemporary Business with another graduate business elective course of their choice.

Students enrolled in the 10 or 12-course Master of Science in Management, or the 12-course Master of Business Administration in North Carolina or Pennsylvania, who have earned an undergraduate bachelor's degree in a business-related program but with a cumulative GPA below 2.50 or who have not earned an undergraduate bachelor's degree in a business-related program are required to take BUS 508: Contemporary Business within their first two terms at Strayer.

Students who transfer into the 10-course Master of Business Administration (MBA) program after the spring 2017 quarter who already successfully completed BUS 508: Contemporary Business should note that the credits earned in BUS 508 will not transfer into the 10-course MBA program as an elective and will not satisfy the program's required courses or concentration requirements.

Additional Admission Requirements for International Students

All international students, regardless of visa type, are individually responsible for ensuring that they are in good standing with the U.S. immigration authorities. International students applying for admission must meet the same admission requirements (p. 22) as other students. Transcripts sent from any educational institution recorded in a language other than English must be accompanied by a certified translation from a National Association of Credential and Evaluation Services member. All documents must be a certified copy of the original. Original documents will not be returned to the student unless otherwise stated.

Regardless of program and visa type, all students whose native language is not English must provide evidence that they are able to use the English language with sufficient facility to do college-level work in an English-speaking institution. Prospective international students residing both in and out of the U.S. may obtain evidence of their English proficiency by one of the following methods:

- Provide qualifying scores from the Duolingo exam, the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or the Cambridge English Exam.
- Graduates from a college or high school where English is the primary language of instruction. (To satisfy basis of admission requirements, students must provide documentation as outlined in the basis of admission requirements (p. 22) (p. 27) section of the catalog.)
- Students who completed college level coursework at an accredited institution in the United States, where the coursework is eligible for transfer credit for ENG 115 (p. 159) or ENG 116 (p. 160) or ENG 201 (p. 160) or ENG 215 (p. 160), may use those transfer credits to satisfy the equivalent English requirements at Strayer. (Note: transfer credit for graduate-level coursework may not be used as a waiver for undergraduate level English prerequisites.)
- Complete an ESL program at an institution that is recognized by a body recognized by the U.S. Department of Education. Completion of an ESL program may only waive the ENG 090 (p. 159) requirement.

International students enrolled in a graduate program may also be required to take ENG 115 (p. 159) or ENG 116 (p. 160) and ENG 201 (p. 160) or ENG 215 (p. 160) at Strayer, in addition to providing evidence of English proficiency as an admission requirement.

The university evaluates official Duolingo, TOEFL, IELTS, and/or Cambridge English exam scores in determining placement of prospective students. Score reports are valid for two years from the test date.

Undergraduate students must earn the following to be admitted to the university:

- A minimum score of 85 on the Duolingo exam, OR
- A minimum TOEFL score of 500 on the paper-based test (46 on the iBT version), OR
- A minimum score of 5.5 on the IELTS, OR
- A B1 Preliminary score on the Cambridge exam

Graduate students must earn the following to be admitted to the university:

- A minimum score of 105 on the Duolingo exam, OR
- A minimum TOEFL score of 550 on the paper-based test (79 on the iBT version), OR
- A minimum score of 6.5 on the IELTS, OR
- A minimum score of B2 First on the Cambridge exam

Prospective students may obtain information on Duolingo online at <https://englishtest.duolingo.com/institutions>.

Prospective students may obtain information on the TOEFL exam from any U.S. Embassy, online at <https://www.ets.org/toefl>, or by writing to:

ETS, Educational Testing Service
CN 6151
Princeton, NJ 08541-6151
Strayer University's TOEFL code is 5632.

Prospective students may request information on the IELTS exam online from www.ielts.org.

Prospective students may request information on Cambridge English exams online at <https://www.cambridgeenglish.org/>.

International Student Services will issue the Certificate of eligibility for nonimmigrant students SEVIS (F-1) Form I-20 to students residing outside the U.S. only when all the admission and financial requirements are met. Additional fees are required for the addition of dependents.

Strayer welcomes international students. New international F-1 students should arrive at Strayer no more than 30 days before the program start date listed on the Form I-20 to complete USCIS reporting requirements and counseling procedures. F-1 students may not arrive in the United States more than 30 days before their program start date and no later than the first day of class.

International F-1 students transferring in from a U.S. institution must hold a current SEVIS Form I-20 and be in good standing. An international student with a terminated SEVIS record should apply for reinstatement with the previous school prior to transfer to Strayer. International Student Services will consider reinstatement requests on a case-by-case basis. Students may also apply with Strayer for Reinstatement via Travel, requiring the students to depart the United States and reenter before the beginning of the anticipated start term.

The United States Citizenship and Immigration Service (USCIS) adjudicates requests for changes of visa status on a case-by-case basis. It should be noted that applicants (students) in the United States **may** be able to change classification to F-1 (student). USCIS requires a minimum of 45 days before the quarter start to begin processing.

Students seeking to apply to change from B to F-1 cannot register for classes before USCIS grants the status to change to F-1.

Books and Fees

Where textbooks and supplies are not included as part of the course materials fee, students must purchase them separately, and should allow approximately \$150 per course for textbooks and supplies.

The following nonrefundable fees (except as noted below) are in effect for the 2025–2026 academic year:

Course Materials Fees:

Select Strayer University Undergraduate Courses - fee applies only when specific webtext/e-book materials are made available directly within select courses and replaces lab access codes for those courses. Courses for which a Course Materials Fee applies are designated in the Strayer Bookstore. **\$100***

**Fee applied for each applicable course at the time of registration for the applicable quarter. Fee will be fully refunded if: (a) student cancels enrollment prior to the start of the term, or (b) student cancels enrollment prior to the end of add/drop. A student may be eligible for their materials fee to be waived if they are retaking the course the immediately following term.*

Quarterly Materials Fee for Licensed Practical Nurse Diploma Program **\$150**

Jack Welch Management Institute (Covers only HBR Cases for all courses except JW1 510) **\$100****

Jack Welch Management Institute – JW1 510 (Covers only HBR Cases, DiSC, and TKI) **\$150****

Technology Fee **\$65****

***Fee applied each quarter, at time of registration, one time per quarter. Fee will be fully refunded if: (a) student cancels enrollment prior to the start of the term, or (b) student cancels enrollment prior to the end of add/drop. Tuition for JWMI students includes the technology fee.*

Withdrawal Processing Fee **\$25**
Charged when withdrawn from all registered courses, not applicable in all states. See Add/Drop Policy and Course Withdrawal. (p. 38)

Transcript and Degree Conferral Fees:
Effective April 1, 2022, Strayer University students can request an official transcript from Strayer even if they have outstanding debts to the University.

Official Strayer Transcript Fee (electronic copy) **\$15**
Official Strayer Transcript Fee (paper copy) **\$25**

An additional fee of \$50 will be assessed to all rush transcript requests.

Final Academic Requirements Evaluation Fee **\$150**

Students will have their associate[†], bachelor's and/or master's degree conferred once they have successfully completed all academic requirements.

†There is no final academic requirements evaluation fee charged for an associate degree.

Tuition for JWMI students includes the final academic requirements evaluation fee.

Certified Electronic Diploma (ceDiploma) Fee **\$10.95**
(for credentials that have a conferral date on or after March 1, 2022)

Legacy ceDiploma Fee[^] **\$50**

Diploma Reorder Fee **\$50**

[^]A Legacy ceDiploma credential is any credential that has a conferral date on or before February 28, 2022.

Miscellaneous Fees:

Test of English as a Foreign Language (TOEFL) Examination Fee⁺ **\$42**

Except cases of I-20 denial. Please refer to [Additional Requirements for International Students](#) section (p. 28)

*.Additional fees for notary services may be required in the identity verification process.
+Includes Strayer administrative fees.*

Credit by Examination Test Fees (optional):

Challenge Exam (per examination) **\$20**

Strayer Skills Advantage Program **\$236**

Purchase of Regalia

Students participating in an in-person commencement ceremony must purchase regalia (commencement ceremony attire) from the university's approved vendor, after they have registered for commencement. Students participating in virtual commencement are NOT required to purchase regalia. Additional information about purchasing commencement regalia can be found at www.commencement.strayer.edu.

VA Education Benefits and Student Tuition and Fees

For students receiving VA education benefits, eligible charges

include tuition, technology fee and mandatory graduation fees. Penalty fees are not eligible for VA funding.

For California Students Only: Student Tuition Recovery Fund (STRF) Fee

CALIFORNIA STUDENT TUITION RECOVERY FUND (STRF) FEE

California residents should refer to the following language provided by the state of California regarding the student tuition recovery fund:

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 2535 Capitol Oaks Drive, Suite 400, Sacramento, CA 95833, (916) 431-6959 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of noncollection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.

Current California STRF Assessment Rate:

Effective April 1, 2024, the current STRF assessment rate is zero dollars (\$0.00) per one thousand dollars (\$1,000.00) of institutional charges.

Maryland Guaranty Student Tuition Fund

A student may be entitled to make a claim against the Maryland Guaranty Student Tuition Fund for For-profit Institutions of Higher Education ("Student Tuition Fund") in the case of certain events, including a school closure. The Student Tuition Fund is administered by the Maryland Higher Education Commission. Information about the Student Tuition Fund and instructions for filing a claim may be found in Regulations 13B.02.06.01 through .13 of the Code of Maryland Regulations or by contacting the Maryland Higher Education Commission.

Book Voucher Program

Students attending Strayer University may be eligible to receive a book voucher with a spending limit that can only be used at the Strayer bookstore to purchase books, materials, access codes, and pay lab fees for the designated quarter. Students who receive a book voucher are under no obligation to use it; however, when used, the amount of the book voucher is added to the student's account and must be repaid by the student's funding source(s) or by a direct payment from the student.

If a student uses the book voucher before receiving a disbursement of federal financial aid funding, then the amount spent with the voucher will be deducted from the student's disbursement amount for the applicable quarter. A student may

owe a balance to the university in the following situations:

1. If the bookstore purchases exceed the available amount of the voucher; the balance will be the overage.
2. If a student uses a book voucher after they receive a disbursement or refund of federal financial aid funding, or if they are not using federal financial aid, for the applicable quarter.

Book voucher balances with the university are the sole responsibility of the student. Students who prefer not to use a book voucher can simply choose not to use it at checkout. No notice to the university is required if the student chooses not to use a book voucher.

Payment

Payment must be made within 10 calendar days after temporary registration. After 10 calendar days, any temporary registration will be dropped. If payment is not received from outside source(s) of funding, the student is personally responsible for payment of all tuition and fees. Tuition and fees may be paid by ACH/E-check, debit card, or credit card through a secure and private online payment system. Payment can also be made by personal check, money order or through a bank wire. International students also have the option to pay tuition and fees securely through TransferMate global payments platform to allow local currency to be used from nearly any country. If a student's full balance is not covered by one or more standard methods of payment, that student may be allowed to enter into other payment arrangements by contacting their Student Services Coach.

A student whose tuition and fees are paid by a sponsoring institution must provide documentation of this benefit at the time of registration. Tuition and fees beyond those paid for by the sponsoring institution are due at registration. A student is personally responsible for all tuition and fees if the sponsor does not pay for any reason.

In compliance with 38 USC § 3679(e)(1)(B), Strayer will not impose any penalty, including the assessment of late fees, the denial of access to classes, or other institutional facilities, or the individual's inability to borrow additional funds as a result of the institution due to the delayed disbursement of funds from the VA under chapter 31 (Vocational Rehabilitation and Employment) or 33 (Post 9/11 GI Bill® benefits).

Last Date of Attendance

A student's withdrawal date at Strayer is determined by the student's last date of attendance (LDA). LDA is determined by using official university attendance records or, in the case where a student officially withdraws, the date on which the student submits official notice of their intent to withdraw from the courses in which they are enrolled. For students who are administratively withdrawn, the university determines the LDA using official university attendance records.

Add/Drop Policy and Course Withdrawal

Standard Policy: All students except those residing in Florida, Georgia, Maryland (if online only and not attending a Maryland campus), JWMI, South Carolina, Tennessee, and Virginia ^{1, 2, 3, 4, 5}

Quarter Courses

Last Date of Attendance	Percentage of Tuition Charged
Prior to the first day of the quarter	No charge*
Through the add/drop period	10%
From Tuesday of the second scheduled week of the quarter through the end of the second scheduled week (Tuesday through Sunday) of the quarter	25%
Through the third week	50%
Through the fourth week	75%
After the fourth week	100%

Mini-session Courses

Last Date of Attendance	Percentage of Tuition Charged
Prior to the first day of the session	No charge*
From Monday of the first scheduled week of the session through Monday of the second scheduled week of the session	50%
From Tuesday of the second scheduled week of the session through the end of second scheduled week (Tuesday through Sunday) of the session	75%
After the second scheduled week of the session	100%

* *Withdrawal Processing Fee may be applicable.*

1. *A scheduled week is considered to start on Monday and end the following Sunday.*
2. *Courses funded through ArmyIgnitED are subject to the ArmyIgnitED withdrawal policy listed below.*
3. *South Carolina students enrolling for the first time are subject to the South Carolina special refund policy listed below.*
4. *Online students who reside in a state where the university does not have physical campuses are subject to the Standard Policy unless otherwise stated.*
5. *Students receiving VA education benefits who withdraw on or before the first day of class will receive a 100% refund, and refunds will be made within 40 days.*

For Florida Students Only

Quarter Courses

Last Date of Attendance	Percentage of Tuition Charged
Prior to the first day of the quarter	No charge

Date of Withdrawal	Percentage of Tuition Charged
Prior to the first day of the session	No charge
From Monday of the first scheduled week of the session through Monday of the second scheduled week of the session	10%
From Tuesday of the second scheduled week of the session through the end of the second scheduled week (Tuesday through Sunday) of the session	25%
Through the third, fourth or fifth scheduled week of the session	50%

1. *A scheduled week is considered to start on Monday and end the following Sunday.*

2. *ArmyIgnitED students are reminded that Army tuition reimbursement policies are based on the withdrawal date and not the last date of attendance. Failure to affirmatively withdraw from classes could result in the soldier being required to reimburse the Army for the difference in tuition owed between the last date of attendance and the date of withdrawal.*

Special Refund Notice

Refund Notice for Alabama, Georgia, South Carolina and Virginia Students

Prior to the beginning of classes, applicants in the states of Alabama, Georgia and South Carolina and the Commonwealth of Virginia are entitled to a full refund of all tuition and fees if they request the same within three business days (five calendar days for Virginia students not enrolled through any Virginia campus) after making payment to the university.

Refund Notice for Florida Students

Refunds will be issued within 30 days of notification.

Return of Tuition Assistance

Military Tuition Assistance (TA) is awarded to a student under the assumption that the student will attend school for the entire period for which the assistance is awarded. When a student withdraws, the student may no longer be eligible for the full amount of TA funds originally awarded. To comply with the Department of Defense policy, Strayer University will return any unearned TA funds on a prorated basis through at least the 60% portion of the period for which the funds were provided. TA funds are earned proportionally during an enrollment period, with unearned funds returned based upon when a student stops attending.

Refunds for Books and Materials

Textbooks and materials purchased through the Strayer Bookstore may be eligible for return. Students should refer to the university bookstore for full details. In order to receive a full refund, new course materials must be returned in new, unopened condition.

Access codes and eResources may be returned in certain circumstances. Students should contact the Strayer Bookstore customer service department for information about eligible returns.

Print-on-demand (POD) copies sold with eBooks are not eligible for return. Please note: no refunds will be issued for corresponding eBooks once a POD is purchased.

Laptops purchased from the Strayer Bookstore are non-returnable. If a student received a damaged device, they must contact Microtek immediately at 888.554.0543 (support hours are Monday–Friday, 10 a.m.–6:30 p.m. ET) or through their website at <https://strayer.microtek-co.com/> by clicking on the “Get in Touch!” button. To qualify for a replacement, you must report issues within **two days** of receipt.

Withdrawal Charges for Federal Financial Aid Recipients

Financial aid recipients are subject to the institutional refund calculation for individual course withdrawals listed for their respective states in the Add/Drop Policy and Course Withdrawal (p. 38) section of this catalog. These calculations are also applied if a student entirely withdraws from Strayer University. In addition, when a recipient of Title IV funds entirely withdraws from Strayer (whether by formal withdrawal or administrative withdrawal), Strayer is required to calculate how much federal financial aid was earned by the student in order to determine if funds are required to be returned to the Department of Education. This calculation is based on the student's last date of attendance using official Strayer records. After the 60% point in the term of enrollment, the student is deemed to have earned 100% of the Title IV funds they were scheduled to receive during the term, and no funds are required to be returned.

It is important that students fully understand the consequences of a decision to withdraw from Strayer University. If the amount returned as a result of the return to Title IV calculation is greater than the amount they would receive under the refund calculation (those listed in the Add/Drop Policy and Course Withdrawal section (p. 38)), the difference will be immediately due and payable in full to Strayer University.

Additional information regarding this calculation can be found on the Financial Aid Policy page of Strayer University's website at <https://www.strayer.edu>.

Order of Return of Financial Aid

If a student receiving federal financial aid withdraws from the university, returns of funding will be made to the applicable programs in the following order:

1. Direct Unsubsidized Loans (other than PLUS Loans)
2. Direct Subsidized Loans
3. Direct PLUS Loans (Parent/Graduate)
4. Federal Pell Grants for which a return of Title IV funds is required
5. Federal Supplemental Educational Opportunity Grants (FSEOG) for which a return of Title IV funds is required

Crediting of Account

Federal student aid funds and any additional educational funds received from sponsors or other sources for tuition and expenses are applied to the student's account to cover charges for the appropriate period of enrollment. If funds are available in excess of tuition and other costs, the student and/or sponsor is entitled to the credit balance of one dollar and above on the account for the quarter in which the credit occurred. Credit balances of one dollar and above will be disbursed to the student, sponsor or other source in accordance with all governing federal regulations.

Financial Obligation

Students who owe money to Strayer University for any reason may not be permitted to register. Further, any expenses incurred by Strayer in collecting unpaid accounts, such as expenses incurred when accounts are turned over to collection agencies, may be charged to the student to the maximum extent allowed by law.

Educational Benefits Programs

What is Financial Aid?

Strayer University offers three categories of financial aid: grants, scholarships, and loans. Grants and scholarships are gifts of money that do not have to be repaid provided they are used to complete the student's education. Loans are borrowed money, which must be repaid with interest.

Other sources of financial assistance are often available. Some of these include veterans benefits, vocational rehabilitation benefits, and employer sponsorships. A student should research all possible sources of financial aid.

The amount and type of financial aid that a student may receive are determined through federal and state guidelines.

Federal Financial Aid Eligibility Requirements

The general requirements for receipt of federal financial funds include:

- Financial need (except for some loan programs);
- High school diploma or equivalent;
- U.S. citizenship or eligible noncitizen status;
- Social Security number;
- Enrollment in an eligible academic program. Federal education loan participants must be enrolled on at least a half-time basis;
- Maintenance of satisfactory academic progress (see below).

Additional information about eligibility for financial aid at Strayer University is available on the Financial Aid page of the Strayer website at <http://www.strayer.edu>. Current students can also visit the Financial Aid and Support page through the iCampus student portal (<https://icampus.strayer.edu>).

Satisfactory Academic Progress

Satisfactory Academic Progress Standards: A student must make successful progress toward the completion of his/her program of study in order to continue receiving federal financial aid. The university has set standards in the areas of grade point average (qualitative) and pace of completion (quantitative) within an established time frame as a measure of satisfactory progress for financial aid. These standards can be found on the Financial Aid Policies page of Strayer University's website at <https://www.strayer.edu>.

How Do You Apply for Federal Financial Aid?

Prospective and current students are encouraged to apply for financial aid by completing the Free Application for Federal Student Aid (FAFSA) by visiting the Department of Education FAFSA site at <https://fafsa.gov>. Current students can also visit Financial Aid and Support through the iCampus student portal (<https://icampus.strayer.edu>). Additional financial aid information can also be found on the Financial Aid page of Strayer University website at <https://www.strayer.edu>.

In order to maximize aid possibilities, students should file their applications for financial aid, scholarships, and veterans benefits at the same time they apply to Strayer for admission.

Federal Loans

Federal loans are available to both undergraduate and graduate students. Special provisions, such as favorable interest rates, grace periods for repayment for certain types of federal loans, deferment under certain conditions, and even cancellation under certain conditions, make these loans attractive to both students and parents applying for a loan.

- Federal Direct Loan Programs
- Federal Direct PLUS Loans (Graduate/Parent)

Federal Grants

An undergraduate student who does not hold a bachelor's or first professional degree may be eligible for certain federal grants. Grants are funding that do not require repayment provided they are used to complete the student's education.

- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)

Additional Information

For additional information about federal student aid programs, please see the [Financial Aid](#) page of the Strayer University website at <https://www.strayer.edu> or the Department of Education's website at <https://studentaid.gov>.

Private Loan Programs

Private loan programs may be available for undergraduate and graduate students. These loan programs may not offer the benefits of federal loan programs but may provide an alternative way to finance educational expenses. Students should consider federal sources of financial aid before considering private loan programs. Additional information can be obtained through the Financial Aid page of the Strayer University website at <https://www.strayer.edu>.

Scholarships and Other Educational Benefits Programs

Prospective students may learn about available scholarship opportunities by speaking with their admissions officer or going online to www.strayer.edu. Current students should visit

icampus.strayer.edu or speak to their Student Success Coach. Students are also encouraged to research and identify private/external sources of scholarship funding and other employer-based educational benefits to offset and save on educational expenses and related costs.

Strayer Learn and Earn Scholarship

The Strayer Learn and Earn Scholarship (formerly Strayer University Graduation Fund) gives students the opportunity to make college more affordable and rewards students who are committed to pursuing their bachelor's degree. All qualified new and readmit undergraduate students are automatically enrolled in the Strayer Learn and Earn Scholarship when they register for courses with Strayer. These students will earn one tuition-free class for every three courses they pass, subject to eligibility requirements. The tuition-free classes will begin to be automatically redeemed for the last classes of the student's bachelor's degree program, up to a maximum of 10 classes. Students forfeit all tuition-free classes earned if they have two or more consecutive terms of nonattendance. However, upon readmittance, the student may be able to again begin earning tuition-free classes, starting at zero, if they meet all other eligibility requirements.

Additional information, restrictions and eligibility requirements can be found on the Strayer Learn and Earn (<https://www.strayer.edu/learnandearn>) page of the Strayer website at <https://www.strayer.edu>. Current students can also visit the Finances - Financing Opportunities - Strayer Learn and Earn (Strayer Learn and Earn | iCampus ([strayer.edu](https://icampus.strayer.edu))) page through the iCampus student portal (<https://icampus.strayer.edu>).

Other Scholarships

Pennsylvania State Grant Program: Pennsylvania provides grants to undergraduate state residents with financial needs who are attending college on at least a half-time basis and who will complete at least 50% of a two-year or four-year program of study at a Pennsylvania campus. Additional information may be obtained through your coach or advisor or at www.pheaa.org.

Florida Grant and Scholarship programs: Florida provides grants and scholarships to state residents. Eligibility requirements and the availability of funds vary. Additional information may be obtained through your coach or advisor or at <https://www.floridastudentfinancialaidsg.org/>

Private Source Scholarships: Many scholarships and other educational financial benefit programs are available. Students may obtain information about these scholarships by contacting the guidance departments of their high schools or by writing to local chapters of the organizations.

Additional scholarship opportunities may be available. Please contact the admissions office for more information.

The Bailey Family Foundation Scholarship

The Bailey Family Foundation, founded in 1997 by Strayer University Past-President Ron K. Bailey, is offering one \$5,000 scholarship to an undergraduate student attending the Strayer Tampa East campus. The student must demonstrate scholastic

achievement and financial need. The scholarship covers tuition and tuition-related fees only. Students attending the Tampa East campus may apply from January 1 to February 28. Additional requirements, essay guidelines and the scholarship application can be found at <http://bailey-family.org/>.

Veteran and Military Benefits Programs

Veterans Educational Benefits: Strayer University makes every effort to assist eligible service members, veterans, and their dependents in their academic pursuits. Veterans Educational (VA) Benefits are available for eligible programs at Strayer. Application information may be obtained in the admissions office or from the Veterans Affairs website at <http://www.benefits.va.gov/gibill/>.

Students are not eligible to collect full Veterans Educational Benefits for course(s) for which they are receiving military tuition assistance. Active-duty military students using military tuition assistance may apply to use the Top Up program directly through the Department of Veterans Affairs.

Students must remain in good academic standing in order to receive Veterans Educational Benefits. Various VA benefits are tied to a student's academic load. For undergraduate students, the full-time rate of pursuit is three courses or 13.5 quarter hours. For graduate students, the full-time rate of pursuit is 9.0 quarter hours at the graduate level. Online ENG 090 courses are not paid for by the VA. Independent study courses scheduled as online are considered distance learning and do not count toward a student's eligibility for full, on-ground housing allowance. Independent study courses scheduled as a campus residence course are classified as distance learning courses by the Department of Veterans Affairs until attendance has been verified for at least one on-campus meeting. Once attendance is verified, this course may count toward a student's eligibility toward full, on-ground housing allowance. Please see the Attendance – Veterans Educational Benefits Eligibility topic in the Policies and Procedures (p. 45) section of this catalog for details.

Chapter 33 Certification: Students wishing to use their Chapter 33 benefits will be certified twice each term. Students will initially be certified for credit hours. After the term begins, the university will certify for appropriate tuition and fees once attendance has been posted in all courses offered by Strayer University.

Yellow Ribbon Program: Strayer University participates in the VA Yellow Ribbon Program. Eligible students will be certified under the Yellow Ribbon program once their annual allowance of VA benefits has been reached. The Department of Veterans Affairs publishes annual benefit amounts on its website.

Veteran Readiness and Employment (Chapter 31): Veteran Readiness and Employment is a program designed to assist service-disabled veterans to obtain suitable employment and promote maximum independence in daily living. Professional counselors from the Department of Veterans Affairs assist in preparing an individual plan that includes services and financial assistance necessary to complete a designated program. Students seeking additional information pertaining to this type of benefit should contact the Veteran Readiness and Employment program of the Department of Veterans Affairs.

Department of Defense Educational Assistance Programs:

The Department of Defense has established special programs to assist active duty military personnel with their educational expenses. These programs are administered by the various branches of the armed services. Eligibility requirements and the availability of funds vary. Contact a post-education office for additional information.

Military Scholarships: Strayer University also offers military scholarships for those currently serving in the military and to military spouses. Contact your coach or advisor for more information. Those using Post 9/11, Chapter 33 VA benefits are not eligible for the military scholarship offered by Strayer.

Policies and Procedures

To ensure that Strayer University students have the best education possible, we have established the academic policies and procedures outlined below.

Academic Policies and Procedures

All students are subject to the academic policies and procedures set forth in the Strayer University Catalog and the Student Handbook. All students should familiarize themselves with the policies concerning incompletes, withdrawals, academic standing, refunds, and other such matters contained in this publication, as well as those regarding financial aid.

Course Requirements

Immunization of Students

Strayer University must comply with various state health and immunization standards which require students to provide proof of proper immunization.

Registration

Students may register for classes in one of two ways:

1. Online at <https://icampus.strayer.edu>
2. Speak with an advisor or coach. Students on academic probation or academic suspension must register by speaking with an Academic Operations Associate.

Note: For individuals currently serving in the military and wishing to utilize tuition assistance, we encourage you to speak with your Education Office prior to registration.

Student Enrollment Status

Undergraduate students taking three or more courses in a term at Strayer are considered full time.* Undergraduate students are considered part time if taking one or two courses, three-quarter time if taking two courses, and less than half time if taking one course. An undergraduate student who wishes to carry more than 18 quarter hours in one quarter must have a minimum 2.5 cumulative grade point average. They may not carry more than 27 quarter hours in one quarter, unless permitted by an Academic Operations Associate.

*Taking 12 quarter hours or more in a term as an undergraduate student is considered full time for Title IV purposes.

Graduate students taking two or more courses in a term at Strayer are considered full time, and part time if taking one course. A graduate student who wishes to carry more than 13.5 credit hours in one quarter must have a minimum 3.5 cumulative GPA. They may not carry more than 18 credit hours in one quarter, unless permitted by an Academic Operations Associate.

Courses taken at any entity or institution outside of Strayer, with the intent to transfer them in, do not count towards Strayer enrollment status. Credits earned via Strayer challenge exam or through the Skills Advantage Program do not count towards Strayer enrollment status.

Cancellation of Courses

The university reserves the right to cancel a course. Cancellation decisions take place before the first day of class. Affected students will receive notification by phone, email, and/or mail, and the university provides assistance with alternative course selection.

Auditing

A student who has been admitted to the university may elect to audit a class for no academic credit. Students who wish to audit a class may do so by completing a "Request to Audit a Course" form which can be obtained from a coach or advisor. A student may not change their status in a class from credit to audit or from audit to credit after midterm. A student who is auditing a class is expected to take an active part in the class but is excluded from examination requirements. A class taken for audit may be repeated for credit in another quarter. Students auditing courses are subject to all regular tuition and fees. Federal student aid, military tuition assistance and veteran's educational benefits cannot be used to cover tuition and fees for an audited course.

Attendance

Online Class – Attendance

An academic week for online courses is from Monday 12:00 a.m. ET to Sunday at 11:59 p.m. ET (seven calendar days). In rare instances, the academic calendar may stipulate that an academic week for an online course is only six calendar days. Attendance is recorded for the day the action was completed regardless of the day a particular assignment or item was due. Additionally, items submitted prior to the official start date of an academic week, or after the official end date of an academic week, do not record attendance for that week; rather, they record attendance for the actual week during which the assignment was submitted.

In order to satisfy weekly attendance requirements, online students must complete one or more of the following grade or credit-bearing activities each week: (1) submit an academic assignment in the Learning Management System (LMS), i.e. Canvas, (2) submit a quiz or an exam in the LMS, or (3) actively participate in a posted online academic discussion in the LMS. Additionally, some courses use labs to supplement a portion of their material. These labs do not count for attendance unless noted in the course guide.

Weekly attendance participation must be within the class-specific online LMS. Logging into the online class without active

participation (as described above) does not constitute official weekly attendance. The university reserves sole discretion to determine that attendance will not be awarded for posts that do not constitute active participation in online discussion posts.

Campus Class – Attendance

Students are expected to attend for the full duration of all regularly scheduled campus classes. Should absence, tardiness or early departure be necessary, students are responsible for the material covered during the absence. Faculty cannot grant requests for excessive amounts of makeup material. Strayer University requires all faculty to take attendance during each class period, generally in the form of a sign-in sheet, and to record it accurately on their permanent roster.

In order for a campus class student to be marked as present for attendance purposes, the student must attend at least half of the class and be recorded as present on the sign-in sheet. Being marked as present for attendance purposes does not obligate the instructor to give the student credit for participation for grading purposes.

Hybrid Class – Attendance

Students are expected to attend for the full duration of the regularly scheduled on-ground portion of the hybrid class and complete all assignments in the online portion of the class. Should absence, tardiness or early departure be necessary during the on-ground class, students are responsible for the material covered during the absence. Faculty cannot grant requests for excessive amounts of makeup material. Strayer University requires all faculty to take attendance during each class period, generally in the form of a sign-in sheet, and to record it accurately on their permanent roster.

For the on-ground portion of the hybrid class, following the circulation of the class sign-in sheet, the instructor will mark their own signature next to each student to confirm they were actually present in class. Being marked as present for attendance purposes does not obligate the instructor to give the student credit for participation for grading purposes.

Absences from Campus and Online Classes

Students are advised to work directly with their instructor as personal emergencies arise that prevent satisfactory class attendance. A student who expects to be absent due to extended mitigating circumstances should contact a dean, advisor, or coach and their instructor. The university has defined the following as possible mitigating circumstances of physical or financial hardship: serious injury or serious or chronic illness of the student; serious illness or injury of a member of the student's immediate family for whom the student is the primary caregiver or which results in the student becoming the immediate family member's part-time or full-time caregiver; death of a member of student's immediate family; military deployment; mental health conditions that are severe enough to warrant hospitalization and/or treatment and multiple sessions of counseling, psychotherapy, or psychiatric consultations, and/or a medical provider's recommended break from school; unforeseen travel requirements; significant cost of living increase; or relocation related to the student's employment. To request an

accommodation or waiver based on mitigating circumstances, the student must provide a dean, advisor, or coach and their instructor with the appropriate written documentation supporting the student's claim of mitigating circumstances. If the student's request for an accommodation is granted based on the documentation provided, a dean, advisor, or coach will notify the student. Students may be required to submit additional documentation before enrolling in subsequent quarters to demonstrate that the mitigating circumstance has been alleviated or no longer exists.

If circumstances are such that, due to the extended length of the class absences or anticipated absence, the preferable course of action is class withdrawal, the student may petition an advisor or coach for withdrawal and consideration for a tuition and/or fee adjustment and/or waiver of the withdrawal fee. Appropriate written documentation supporting a withdrawal request must be provided to the advisor/coach.

For campus and synchronous classes, a student who is absent from four consecutive class meetings (two consecutive class meetings for mini-sessions), will be withdrawn automatically from that course. Note: in situations when a class was rescheduled because the originally scheduled class was cancelled or fell on a scheduled Strayer holiday, it is possible that the four (two for mini-sessions) consecutive class meetings may be greater than or less than 28 (14 for mini-sessions) calendar days.

An online student who is absent for four (two for mini-sessions) consecutive academic weeks (i.e., for online classes an academic week is Monday, 12:00 a.m. EST to Sunday at 11:59 p.m. EST) will be withdrawn automatically from that course.

A student who does not attend any of the classes for which they are registered in a term will be administratively withdrawn from the university.

Emergency Cancellation of Classes

In case of inclement weather or other emergencies, the university will notify the campus community that classes are canceled. Students may also view emergency announcements on the website at <https://icampus.strayer.edu> and will receive notification from StrayerALERT via text message and/or email. When cancellation of classes is necessary, instructors will arrange for additional class meetings to compensate for attendance time.

Military Service Deployment

Notification of Military Service

Active duty military students who are called to perform a military service obligation must notify their military advisor or coach of their military service as far in advance as is reasonable under the circumstances. This notice must demonstrate that the interruption to enrollment/attendance is related to fulfilling a military service obligation, but does not have to indicate whether the student intends to return to Strayer.

Grades and Academic Credit

Active duty military students whose attendance is interrupted by military service may petition for an incomplete grade in the

affected course(s), provided they meet the other eligibility requirements set forth in Strayer's Grading and Grade Appeals Policy.

Course Withdrawals and Tuition and Fee Adjustment

A military advisor or coach will work with active-duty military students whose attendance is interrupted by military service to complete the necessary documents for course withdrawals and tuition/fees adjustment for the term per the Special Credit Procedures.

Notification of Intent to Return to School

Active duty military students whose attendance is interrupted by military service must give oral or written notice of their intent to return to the school within three years after the completion of the period of military service to their military advisor, coach, or dean. Students have up to five years after the completion of the period of military service to return to the school without having to requalify for admission. A student who fails to re-enroll within these periods is subject to the University's general readmission policies.

Re-Enrollment in the University

Active duty military students whose attendance is interrupted by military service will be re-enrolled in their original program of study and placed in the same academic status as at the time of withdrawal. This academic status means being admitted to the same program to which the student was last admitted, unless the student chooses a different program. The student will be enrolled with the same number of credit hours previously completed, unless the student is readmitted to a different program to which any portion of the completed credit hours are not applicable. The student will be readmitted with the same academic standing (GPA). If the University no longer offers the student's original academic program, the University will work with the student to enroll in an alternative program that aligns with the student's interests.

Online Class – Participation

The university expects students taking online classes to actively participate throughout the week in order to promote a meaningful and engaging learning experience. In order to earn full credit for an online threaded discussion, students must make substantive contributions to the online discussion, as determined by the instructor and make a total of two posts per discussion thread. There must be at minimum one original post and at minimum one other post per discussion. Online students may choose to, and are encouraged to, post on multiple days of the week, but are not required to do so to earn full credit for an online discussion.

In order to earn full credit for an online threaded discussion, JWMI students must make substantive contributions to the online discussion, as determined by the instructor and make a total of three posts per discussion thread. There must be at minimum one original post and at minimum two peer responses per discussion. Online students may choose to, and are encouraged to, post on multiple days of the week, but are not required to do so to earn full credit for an online discussion.

This policy does not change attendance requirements for online courses (p. 45). Please see the attendance policy (p. 45) in the catalog.

Student Illness Policy

When a student misses coursework due to illness, the student must contact the instructor as soon as possible and provide the instructor with medical documentation stating the dates of illness. Makeup work is given at the instructor's discretion, in accordance with the class late policy. Students are subject to the attendance requirements as described under the Policies and Procedures section of the catalog. Makeup work agreements do not overrule attendance requirements.

When considering whether to withdraw from a class due to illness, please note that all [policies on refunds and/or withdrawal fees](#) described in the catalog will be followed.

Developmental English and Foundational Skills

Fundamental education courses are designed for students who need a refresher course before enrolling in credit-bearing courses. Fundamental courses are not offered for academic credit and do not fulfill graduation requirements. Students who take developmental English (ENG 090) (p. 159) must complete it with a grade of C or better.

All undergraduate students, excluding students in a stand-alone undergraduate certificate or diploma program*, must enroll in WRK 100 (p. 179) in their first term, where they will be assessed for English proficiency. Students who do not earn the university-determined passing algorithmic score on the writing assessment or who do not meet one of the other criteria as outlined in the Undergraduate Admission (p. 22) section of the catalog, must enroll in ENG 090 (p. 159) for their second term. Students may defer ENG 090 (p. 159) to their third term only if they need to repeat all of their first term courses in their second term. Developmental English requirements may not be deferred past the third term under any circumstances.

*Students in a stand-alone undergraduate certificate or diploma program may satisfy developmental English requirements in accordance with the criteria outlined in the Undergraduate Admission section of the catalog.

Students, excluding students solely enrolled in a stand-alone undergraduate certificate or the Licensed Practical Nurse (LPN) program, must successfully complete MAT 104 (p. 171) or MAT 110 (p. 171) by earning a grade of C or higher or post transfer credit. Students without transfer credit in mathematics must attempt MAT 104 (p. 171) or MAT 110 (p. 171) no later than their fifth term* of enrollment to continue taking other courses in their program. Students may defer MAT 104 (p. 171) or MAT 110 (p. 171) to their sixth term only if they need to repeat all of their fourth term courses in their fifth term. Changes to the term requirement are subject to accreditation, regulatory, or state requirements.

Note: Students in a stand-alone certificate program do not need to

complete MAT104 or MAT110 unless it is in the certificate program or unless and until the student enrolls in another program at Strayer University which includes MAT104 or MAT110 in the curriculum.

*Students enrolled in the LPN program are required to demonstrate proficiency in math within their first quarter of enrollment. A student may satisfy this by attaining a score of 22 or above on the ACT test or earning a score of 70% or higher in the Sophia Introduction to Mathematics course.

A student enrolled in ENG 090 (p. 159) who does not earn a passing grade may repeat the course pursuant to the Repeating Courses – Undergraduate Policy (p. 48).

Withdrawal

Before withdrawing from a course or from the university, a student should confer with a coach or advisor as well as with Student Financial Services in order to review all of the university's policies prior to the withdrawal. Withdrawal requests must be initiated through the student portal at <https://icampus.strayer.edu>.

Students withdrawing or who are administratively withdrawn before the financial aid census date each term will receive a grade of W (withdrew). Students withdrawing or who are administratively withdrawn on or after the financial aid census date but prior to last day to withdraw without academic penalty will receive grade of WP (withdrew passing) for the course. Students withdrawing or who are administratively withdrawn after the last day to withdraw without academic penalty will receive a grade of WF (withdrew failing). Students withdrawing or who are administratively withdrawn within the third week of the scheduled mini-session class will receive a grade of W (withdrew). After the third week, a grade of WF (withdrew failing) will be recorded. Withdrawal deadlines are indicated in each quarter's class schedule. Failure to follow these procedures may result in a failing grade in the course.

Repeating Courses – Undergraduate

An undergraduate student may repeat any college-level course in which they receive a grade of D or F. A course may be repeated one time. A dean or academic designee may grant an exception to this policy upon consideration of the student's individual situation. The student may enroll for the additional attempt after review and approval by the dean or academic designee.

Students enrolled in associate and bachelor's degrees may have no more than five repeat grades on their academic record, appearing as "repeat excluded" on the student record. Students enrolled in undergraduate certificate programs may have no more than two repeated grades on their academic record, appearing as "repeat excluded" on the student record, and students enrolled in diploma programs may have no more than three repeated grades on their academic record, appearing as "repeat excluded" on the student record. Once a student has reached the maximum number of repeated courses that may be excluded, all subsequent courses where a D or an F is received will be counted towards the student's cumulative grade point average. Students may continue to enroll and pursue their program of study until which time they fail to meet academic standards set by the university.

Repeats of required courses attempted at Strayer University may be satisfied by transfer credit, subject to all applicable policies, limitations, and requirements, including residency requirements. If the course requirement is satisfied by transfer credit, the Strayer course grade remains on the student's transcript and in the calculation of the cumulative grade point average.

In conjunction with the policy on repeating college-level courses, there is a separate policy to be considered surrounding developmental English. Students should refer to the Policies and Procedures section of this catalog for information on developmental English and foundational skills requirements.

Students who do not earn a passing grade in developmental English (under 100-level) may repeat the developmental course one time during the immediately subsequent term or satisfy the requirement by one of the approved means as outlined in the Developmental English and Foundational Skills section of the catalog. Other than in cases of extraordinary extenuating circumstances, students who fail developmental English two times must utilize one of the alternative means to earn credit as outlined in the Developmental English and Foundational Skills section of the catalog before being allowed to take additional courses at Strayer. Upon demonstration of extraordinary extenuating circumstances, an academic designee may recommend a student for a third developmental English course attempt. A student may not attempt developmental English more than three times under any circumstances.

Students who wish to improve their grade by retaking a course for which they have already received a grade higher than F may use financial aid only for the first repeat of that course.

Students receiving VA education benefits may not repeat a course in which they have a passing grade unless a higher grade is required to pursue their program of study. In addition, VA students may not repeat a course in which they have received transfer credit for the same course.

Administrative Swap Policy – Undergraduate

Under the administrative swap policy, the university has permission to reenroll students in a failed remedial course, a failed prerequisite course, or a failed required course which results in the student's GPA falling below a 2.0 at the undergraduate level. Students who would like to opt out of being reenrolled may send an email to optoutadminswap@strayer.edu. Students may opt in or opt out at any time.

Transfer Credit

Required undergraduate courses attempted at Strayer University (attendance established) where a passing or otherwise required grade was not received, may be satisfied by transfer credit, subject to all applicable policies, requirements and limitations. If the course requirement is satisfied by transfer credit, the Strayer course grade remains on the student record as part of the cumulative grade point average calculation.

Repeat Grade Calculation – Undergraduate Degree Programs

During the quarter in which the D or F grade is earned, that grade is computed as part of the quarterly and cumulative grade point average for academic purposes. Repeating a course does not remove the course from the student's academic record, but the

grade may be excluded from the cumulative grade point average. When the course has been completed in another quarter, and the maximum number of repeated courses that may be excluded has not yet been reached, a grade of repeat excluded replaces the lesser of the two grades in the cumulative grade point average. The better grade is computed in the quarter in which it was earned and thereafter replaces the lesser grade when calculating the cumulative grade point average.

In addition to the above-listed requirements, students must fulfill all graduation requirements as listed in this catalog under Undergraduate Degree Conferral Requirements (p. 53).

Students otherwise eligible for federal financial aid may use this funding to repeat a failed course, presuming they remain in good standing for federal financial aid. Students who wish to improve their grade by retaking a course for which they have already received a grade higher than F may use financial aid only for the first repeat of that course.

Repeating Courses – Graduate

A graduate student may repeat any college-level course in which they receive a grade of C or below. A course may be repeated one time. A dean or academic designee may grant an exception to this policy upon consideration of the student's individual situation.

Students enrolled in a graduate degree may have no more than three repeat grades on their academic record, appearing as "repeat excluded" on the student record. Students enrolled in graduate certificate programs may have no more than two repeated grades on their academic record, appearing as "repeat excluded" on the student record. Once a student has reached the maximum number of repeated courses that may be excluded, all subsequent courses where a C or below is received will be counted toward the student's cumulative grade point average. Students may continue to enroll and pursue their programs of study until they fail to meet academic standards set by the university.

Repeats of required courses attempted at Strayer University may be satisfied by transfer credit, subject to all applicable policies, limitations and requirements, including residency requirements. If the course requirement is satisfied by transfer credit, the Strayer course grade remains on the student's transcript and in the calculation of the cumulative grade point average.

Students who wish to improve a grade by retaking a course for which they have already received a grade higher than F may use financial aid only for the first repeat of that course.

Students receiving VA education benefits may not repeat a course in which they have a passing grade unless a higher grade is required to pursue their programs of study. In addition, a VA student may not repeat a course in which they have received transfer credit for the same course.

Students who are earning a master's degree and are required to repeat a course they previously passed because the class exceeded the 10-year rule do not need to submit a repeat appeal for their first repeat; however, if they do not pass the first repeat, they will need to submit a repeat appeal for subsequent attempts.

Administrative Swap Policy – Graduate

Under the administrative swap policy, the university has

permission to reenroll students in a failed prerequisite or a failed required course that results in the GPA falling below 2.5 at the graduate level. Students who would like to opt out of being reenrolled may send an email to optoutadmins@strayer.edu. Students may opt in or out at any time.

Transfer Credit

Required graduate courses attempted at Strayer University (attendance established) in which a passing or otherwise required grade was not received, may be satisfied by transfer credit, subject to all applicable policies, requirements and limitations. If the course requirement is satisfied by transfer credit, the Strayer course grade remains on the student record as part of the cumulative grade point average calculation.

Repeat Grade Calculation – Graduate Degree Programs

During the quarter in which the C or lower grade is earned, that grade is computed as part of the quarterly and cumulative grade point average for academic purposes. Repeating a course does not remove the course from the student's academic record, but the grade may be excluded from the cumulative grade point average. When the course has been completed in another quarter, and the maximum number of repeated courses has not yet been reached, a grade of repeat excluded replaces the lesser of the two grades in the cumulative grade point average. The better grade is computed in the quarter in which it was earned, and thereafter replaces the lesser grade when calculating the cumulative grade point average.

In addition to the above-listed requirements, students must fulfill all graduation requirements as listed in this catalog under the Graduate Degree Conferral Requirements (p. 54).

Students otherwise eligible for federal financial aid may use this funding to repeat a failed course, presuming they remain in good standing for federal financial aid. Students who wish to improve a grade by retaking a course for which they have already received a grade higher than F may use financial aid only for the first repeat of that course.

Grades

Grading Scales

Licensed Practical Nurse Program Grading Scale

Academic standing, which is expressed as the grade point average (GPA), is based upon the following grading system for LPN courses only:

Grade	Explanation	Quality Points	Grading Scale
A	Excellent	4	93–100
B	Good	3	85–92
C	Average	2	77–84
D	Below Average	1	70–76
F	Failure	0	69 or below
F*	Failure (Admin.)	0	
F**	Failure (Admin.)	0	
WF	Withdrew Failing	0	
WP	Withdrew Passing	0	
Status	Explanation		
I	Incomplete		
W	Withdrew		
^	Grades that appear with this symbol indicate that the honors designation was not earned for the course.		

F* indicates administrative failure or an administrative downward grade change.

F** indicates academic integrity administrative failure.

Undergraduate Grading Scale

Academic standing, which is expressed as the grade point average (GPA), is based upon the following grading system:

Grade	Explanation	Quality Points	Grading Scale
A	Excellent	4	90–100
B	Good	3	80–89
C	Average	2	70–79
D	Below Average	1	60–69
F	Failure	0	59 or below
P	Pass†	0	70–100
NP	No Pass†	0	69 or below
F*	Failure (Admin.)	0	
F**	Failure (Admin.)	0	
WF	Withdrew Failing	0	
WP	Withdrew Passing		
Status	Explanation		
I	Incomplete		
W	Withdrew		
X	Audit		
NS	No-Show ⁺		
R	Repeated Course ⁺		
^	Grades that appear with this symbol indicate that the honors designation was not earned for the course.		

† Pass and No Pass grades do not have quality points associated with them and are not factored into GPA.

F* indicates administrative failure or an administrative downward grade change.

F** indicates academic integrity administrative failure.

+ Historical grades

Graduate Grading Scale

The grading scale for the graduate program does not consider grades below C as passing. Any grade below a C carries zero quality points. Academic standing, which is expressed as the grade point average (GPA), is based upon the following grading system:

Grade	Explanation	Quality Points	Grading Scale
A	Excellent	4	90–100
B	Good	3	80–89
C	Average	2	70–79
F	Failure	0	69 or below
P	Pass†	0	80–100
NP	No Pass†	0	79 or below
F*	Failure (Admin.)	0	
F**	Failure (Admin.)	0	
WF	Withdrew Failing	0	
WP	Withdrew Passing		
Status	Explanation		
I	Incomplete		
W	Withdrew		
X	Audit		
NS	No-Show ⁺		
R	Repeated Course ⁺		

† Pass and No Pass grades do not have quality points associated with them and are not factored into GPA.

F* Indicates administrative failure.

F** Indicates academic integrity administrative failure.

+ Historical grades only

JWMI Grading Scale

Symbol	Explanation	Quality Points
H	Honors indicates thought, leadership and performance that clearly exceeds MBA standards.	4.0
HP	High Pass indicates strong performance that thoroughly meets MBA standards.	3.5
PAS	Pass indicates performance that satisfactorily meets MBA standards.	3.0
LP	Low Pass indicates performance that minimally meets MBA standards.	2.5
UNS	Unsatisfactory indicates performance that fails to meet MBA standards.	0
F**	Administrative failure	

President's List, Dean's List, and Honor Roll

Each quarter, undergraduate students who successfully complete at least 4.5 quarter credit hours and have a cumulative GPA of at least 3.5 are cited for outstanding scholastic achievement.

Eligible students with a 3.5 to 3.74 cumulative GPA are placed on the honor roll. A cumulative GPA of 3.75 to 3.99 places eligible students on the dean's list, and any eligible student whose cumulative GPA is 4.0 is placed on the president's list.

Each quarter, graduate students who successfully complete at least 4.5 quarter credit hours and have a cumulative 3.75 to 3.99 GPA are placed on the dean's list. Graduate students who successfully complete at least 4.5 quarter credit hours and have a 4.0 cumulative GPA are cited for outstanding scholastic achievement and will be placed on the president's list.

A student is disqualified from these honors for any quarter in which they receive a grade of F, WF, or I, or for any quarter in which they receive an academic integrity sanction. If a student receives an additional academic integrity sanction, they will no longer be eligible for quarterly academic honors.

Withdrawal Grades

There are three types of withdrawal grades a student may receive: Withdrew (W), Withdrew Passing (WP), and Withdrew Failing (WF).

A student will receive a W grade if they withdraw from the course before the financial aid census date (i.e., fourth Monday of the term). W grades do not impact a student's GPA or pace of completion. If a student withdraws from a course during add/drop week, whether or not they posted attendance, no W grade is received and there is no impact on a student's GPA or pace of completion.

A student will receive a WP grade if they withdraw from the course on or after the financial aid census date through the last day to withdraw without academic penalty as identified in the academic calendar (i.e., the Friday that is approximately one month before the end of the term). WP grades do not impact a student's GPA; however, they do impact the student's pace of completion.

A student will receive a WF grade if they withdraw from the course after the last day to withdraw without academic penalty as identified in the academic calendar. WF grades are treated like F grades and they do impact a student's GPA and pace of completion.

Incomplete Grade Policy

Incomplete grades must be approved by the instructor and the instructor's supervisor prior to the assignment of the grade. Upon approval, a grade of incomplete (I) will be assigned. An incomplete class must be completed by submitting the assigned work as specified on the incomplete contract to the instructor based on the timeline outlined in the incomplete contract and confirmed by the student's signature on the contract. Failure to complete the assigned work prior to the end of the following academic quarter will result in the incomplete grade automatically changing to an administrative F (F*).

Academic Grade Reports

Midterm Grades

Students not performing satisfactorily at the midterm of a course will be notified of their status by a coach or advisor and/or via written correspondence. Such students are strongly urged to schedule at least one academic counseling session with the instructor in whose course they are experiencing difficulty.

End-of-Term Grades

At the end of each term, students may check the student portal at <https://icampus.strayer.edu> to review and print their grade report.

Grade Appeals

Students may appeal final course grades at any time within 10 days after the end of the applicable course or after the date the grade was assigned. For further information concerning this process, including the appeal procedure, please see the Student Handbook available at <https://icampus.strayer.edu>.

Academic Warning and Suspension

Undergraduate Students

Any student in an undergraduate program who has attempted* 13.5 quarter credit hours and whose overall cumulative GPA falls below 2.0, will be placed in a warning status for the following quarter. The university will notify the student in writing of their academic standing within two weeks after the quarter ends. A student placed on warning status should meet with an Academic Operations Associate upon notification in order to develop an appropriate academic recovery plan.

If by the end of the warning quarter the student's overall cumulative GPA remains below 2.0, the student will be academically suspended. They will be notified in writing of their suspension within two weeks after the quarter ends. A suspended student may enroll again if an Academic Operations Associate recommends an academic recovery plan. Once an academic recovery plan is established, a student's academic status changes from suspension to probation. A student remains in probation status for two quarters.

If the student's cumulative GPA is at least 2.0 at the end of the probation period, then the student returns to satisfactory academic standing. If the student's cumulative GPA remains below 2.0 at the end of the probation period, the student returns to suspension academic standing.

A student's academic standing is based on current GPA requirements at the time of admission or readmission (not GPA requirements when a readmitted student was first admitted, if different).

VA education benefits will be terminated for any VA student placed under academic suspension for one calendar year. Benefits may resume when the student returns to satisfactory academic standing.

*A course attempt is one where a grade is received, regardless of whether the course is later repeated.

Graduate Students

Any graduate student, including any student enrolled in the

graduate certificate program, who has attempted* 9.0 quarter credits and whose overall cumulative GPA falls below 2.5, will be placed in a warning status the following quarter. The university will notify the student in writing of their academic standing within two weeks after the quarter ends. A student placed on warning status should meet with an Academic Operations Associate upon notification in order to review their academic plan.

If by the end of the warning quarter the student's overall cumulative GPA remains below 2.5, the student will be academically suspended. They will be notified in writing of their suspension within two weeks after the quarter ends.

A suspended student may enroll again if an Academic Operations Associate recommends an academic recovery plan. Once an academic recovery plan is established, a student's academic status changes from suspension to probation. A student remains in probation status for two quarters.

If the student's cumulative GPA is at least 2.5 at the end of the probation period, then the student returns to satisfactory academic standing. If the student's cumulative GPA remains below 2.5 at the end of the probation period, the student returns to suspension academic standing.

A student's academic standing is based on current GPA requirements at the time of admission or readmission (not GPA requirements when a readmitted student was first admitted, if different).

VA education benefits will be terminated for any VA student placed under academic suspension for one calendar year. Benefits may resume when the student returns to satisfactory academic standing.

*A course attempt is one where a grade is received, regardless of whether the course is later repeated.

JWMI Students

JWMI students must maintain a 2.5 cumulative grade point average or higher at all times to remain in good academic standing. Students with a GPA that falls below the minimum required cumulative GPA are subject to warning or suspension. The university will notify students in writing of their academic standing within two (2) weeks after the end of each academic quarter.

Warning – A JWMI student's academic standing status changes from satisfactory to warning if the student has attempted* at least nine (9) credits and the student's cumulative GPA falls below 2.5.

Suspension – A JWMI student's academic standing status changes from warning to suspension if the student's cumulative GPA remains below 2.5 for two consecutive quarters. A suspended student may enroll again if a dean recommends an academic recovery plan. Once an academic recovery plan is established, a student's academic status changes from suspension to probation. A student remains in probation status for two quarters.

If the student's cumulative GPA is at least 2.5 at the end of the probation period, then the student returns to satisfactory academic standing. If the student's cumulative GPA remains below 2.5 at the end of the probation period, then the student returns to

suspension academic standing.

A student's academic standing is based on current GPA requirements at the time of admission or readmission (not GPA requirements when a readmitted student was first admitted, if different).

*A course attempt is one where a grade is received, regardless of whether the course is later repeated.

Graduation, Degree Conferral and Commencement

Residency Requirement

A student who is registered for courses at Strayer University is considered to be in residence. To meet the below residency requirement, students must take and complete courses directly through Strayer; courses completed at an affiliate of Strayer do not meet the residency requirement. The following table lists the minimum hours in residence at Strayer required for each undergraduate certificate, post-baccalaureate certificate, diploma or degree program:

Program	Minimum Quarter Credit Hours in Residence
Undergraduate Certificate (three course)	9
Undergraduate Certificate (five course)	18
Graduate Certificate	9
Diploma	31.5
LPN Diploma	37
Associate	27
Bachelor's	54
Minors within Bachelor's degree	9
12-Course Master's Degree	36
10-Course Master's Degree	31.5
JWMI MBA	36

The following alternative credit choices will not satisfy a student's residency requirements: transfer credit, CLEP credits, DSST credits, Challenge Exam credits and Skills Advantage Program credits. "Transfer credit" includes, but is not limited to, courses completed at another institution, at an affiliate of Strayer, and through any alternative course credit provider.

Students in residence at Strayer who choose to take a course at another institution in order to transfer those credits into their program are required to submit a Request to Pursue Courses at Another Institution form to a dean/coach/advisor prior to enrolling at the outside institution.

The date of graduation is the last term when the student completed coursework at the university, or transferable or alternative credit, to satisfy a course requirement of their program.

Grade Point Average – Undergraduate

The grade point average is computed on a four-point basis. The cumulative grade point average includes all courses taken at the university except courses for which no grade points are assigned. (See Undergraduate Grading Scale.) (p. 49)

Undergraduate degrees and diplomas are conferred only on students having a cumulative grade point average of C (2.0) or higher.

Undergraduate Degree Conferral Requirements

Undergraduate Associate and Bachelor's Degree

A student's degree conferral status will be reviewed when the student is nearing the completion of their undergraduate associate degree or bachelor's degree academics requirements. For most bachelor's degree students, this will be when the student enrolls in their capstone course, which by design is meant to be taken as the last or next-to-last course. If the student's bachelor's degree program does not have a capstone, and for all undergraduate associate degree students, this will be a comparable course that is the last or next-to-last course.

A mandatory, nonrefundable Final Academic Requirements Evaluation Fee will be assessed to all bachelor's degree students when they enroll in their capstone course, or if a capstone does not exist, the comparable last or next-to-last course. The fee is not assessed for undergraduate associate degree students.

Degrees are conferred at the end of each term and only after evaluation and approval of all program requirements. The following general requirements must be met in order to be evaluated for conferral:

1. Complete at least 90 quarter credit hours of course work for an associate degree and 180 quarter credit hours of course work for a bachelor's degree with a minimum cumulative GPA of 2.0.
2. Complete the minimum number of quarter credit hours in residence at Strayer University (associate degrees: 27.0 quarter credit hours within the program; bachelor's degrees: 54.0 quarter credit hours within the program).
3. Meet specified academic requirements, including the quarter credit hour and course requirements for each area within the degree program. Final responsibility for meeting graduation requirements lies with the student.
4. Complete with a grade of C (2.0) or higher, or P, in all courses in the student's major and concentration. Also, students must receive a grade of C or higher in ENG 090 (p. 159), ENG 115 (p. 159) or ENG 116 (p. 160), ENG 201 (p. 160) or ENG 215 (p. 160), ENG 315, and MAT 104 (p. 171) or MAT 110 (p. 171), as applicable, regardless of whether the student is taking the course to satisfy a core program requirement or an elective.
5. Complete with a C (2.0) or higher, or P, all courses in the student's minor.

Undergraduate Certificate and Diploma

Students' certificate or diploma conferral status will be reviewed when the student is nearing the completion of their academic requirements. For most certificate and diploma students, this will be when they enroll in their last or next-to-last course.

The Final Academic Requirements Evaluation Fee (p. 36) is not assessed for undergraduate certificate and diploma degree students.

Certificates and diplomas, excluding the Licensed Practical Nurse diploma, are conferred at the end of each term and only after evaluation and approval of all program requirements. The following general requirements must be met in order to be evaluated for conferral:

1. Complete 22.5 quarter credit hours of course work for a five-course certificate program, 13.5 quarter credit hours of course work for a three-course certificate program, and 54 quarter credit hours of course work for the diploma program.
2. Complete the minimum number of quarter credit hours in residence at Strayer (five-course certificate: 18.0 quarter credit hours; three-course certificate: 9.0 quarter credit hours; diploma: 31.5 quarter credit hours).
3. Complete the program with a minimum GPA of 2.0.
4. Meet specified academic requirements, including the quarter credit hour and course requirements for each area within the program. Final responsibility for meeting requirements lies with the student.
5. Complete with a grade of C (2.0) or higher, or P, all courses in the program subject area. Students must also receive a grade of C or higher, or P, in ENG 090 (p. 159), ENG 115 (p. 159) or ENG 116, ENG 201 or ENG 215 (p. 160), ENG 315, and MAT 104 (p. 171) or MAT 110.

Licensed Practical Nurse (LPN) diplomas are conferred at the end of each term and only after evaluation and approval of all program requirements. The following general requirements must be met in order to be evaluated for conferral:

1. Complete a minimum of 49 quarter hours of course work for the diploma program.
2. Complete the minimum number of 37 quarter credit hours of nursing credits in residence at Strayer University within the LPN program.
3. Complete a total of 600 clinical hours.
4. Complete the program with a minimum GPA of 2.0.
5. Complete with a grade of C or higher all courses in the LPN program.
6. Fail no more than one course one time within the program. (One course repeat of one course only will be allowed.)
7. The LPN program course work must be successfully completed within five years from the student's initial term of attendance.
8. Final responsibility for meeting program requirements lies with the student.

Undergraduate Honors Citation

Undergraduate students who have achieved a cumulative GPA of 3.5 to 3.69 at the completion of their degree requirements are recognized by graduating "cum laude." Students with a cumulative GPA of 3.7 to 3.89 at the completion of their degree requirements are recognized by graduating "magna cum laude." Students maintaining a 3.9 or better cumulative GPA are recognized by graduating "summa cum laude." These citations appear only on associate in arts, associate of applied business, bachelor of business administration and bachelor of science degrees.

Undergraduate honors citations do not apply to diploma or undergraduate certificate programs.

Grade Point Average – Graduate

The grade point average (GPA) is computed on a four-point basis. The cumulative GPA includes all graduate courses taken at the university except courses for which no grade points are assigned. (See Graduate Grading Scale.) (p. 50)

Graduate students must attain a minimum graduate program-specific GPA of 2.5 or higher to receive a graduate degree or certificate. Graduate students must earn a grade of B (3.0) or higher in all courses in the student's concentration component area and in the identified capstone course for each program. In the MBA program, the required B or higher grade is needed in the capstone course, and all concentration courses, in the instance where the student has elected to complete a concentration. If a concentration is not elected then a B or higher is only needed in the capstone course. Additionally, graduate students must earn a grade of C (2.0) or higher in all assigned undergraduate prerequisite courses.

Graduate Degree Conferral Requirements

Graduate Degree

A student's degree conferral status will be reviewed when the student is nearing the completion of their graduate program academic requirements. For most graduate degree students, this will be when they enroll in their capstone course, which by design is meant to be taken as the last or next-to-last course.

A mandatory, non-refundable Final Academic Requirements Evaluation Fee (p. 36) will be assessed to the student when they enroll in their capstone course, or if a capstone course does not exist, the comparable last or next to last course.

Degrees are conferred at the end of each term and only after evaluation and approval of all program requirements. Except as noted below, the following general requirements must be met in order to be evaluated for conferral:

1. Students in a 12-course master's degree program must complete 54 quarter credit hours in the program at the graduate level (500 series or higher). Students enrolled in a 10-course master's degree program must complete 45 quarter credit hours in the program at the graduate level (500 series or higher).
2. Students must complete coursework with a minimum

graduate program-specific GPA of 2.5.

3. Students in a 12-course master's degree program must complete a minimum of 36 quarter credit hours in the program at the university. Students in a 10-course master's degree program must complete a minimum of 31.5 quarter credit hours in the program at the university.
4. Students must meet specified graduation requirements, including the quarter credit hour and course requirements within the degree program. Final responsibility for meeting graduation requirements lies with the student.
5. Complete with a grade of B (3.0) or higher, or P, all courses in the student's concentration component area (including students in a 10-course master's program that includes a concentration area) or the graduate elective course.
6. Complete with a grade of B (3.0) or higher, the identified capstone course (or its equivalent, such as BUS 599 (p. 145)) for each program.
7. Complete with a grade of C (2.0) or higher, or P, all assigned prerequisite courses.
8. Graduate course work must be successfully completed within ten years from initial term of attendance. This includes both course work taken at Strayer and course work taken elsewhere and transferred in.

JWMI Degree

A student's degree conferral status will be reviewed when they are nearing the completion of their graduate program academic requirements. For most graduate degree students, this will be when they enroll in their capstone course, which by design is meant to be taken as the last or next-to-last course.

Degrees are conferred at the end of each term and only after evaluation and approval of all program requirements. Except as noted below, the following general requirements must be met in order to be evaluated for conferral:

1. Students must complete all 12 required courses for a total of 54 quarter credit hours of course work in the program at the graduate level (500 series or higher).
2. Students must complete course work with a minimum graduate program-specific grade point average of 2.5.
3. Students must complete a minimum of 36 quarter credit hours of course work in the program at the university.
4. Students must meet specified graduation requirements, including the quarter credit hour and course requirements within the degree program. Final responsibility for meeting graduation requirements lies with the student.
5. Complete with a grade of LP (2.5) or higher all courses in the student's concentration component area.
6. Complete with a grade of LP (2.5) or higher the identified capstone course for each program.
7. Complete with a grade of LP (2.5) or higher all assigned prerequisite courses.
8. All course work must be successfully completed within 10

years from initial term of attendance. This includes both course work taken at JWMI and course work taken elsewhere and transferred in.

Post-Baccalaureate Graduate Certificate

Requests for post-baccalaureate graduate certificate evaluation should be submitted to the Records office. Certificates are conferred only after evaluation and approval of all program requirements. The following general requirements must be met in order to be evaluated for conferral:

1. Students must complete a minimum of 13.5 quarter credit hours of course work in the program at the graduate level (500 series or higher), per the specified curriculum, with a minimum program-specific grade point average of 2.5.
2. Students must complete a minimum of 9 quarter credit hours in the program at the university. All course work must be completed within five years from initial term of attendance. This includes both course work taken at Strayer and course work taken elsewhere and transferred in. All graduate degree and certificate program students must abide by all university rules, regulations, and requirements as stated in the University Catalog, Student Handbook, and other university publications.

The Final Academic Requirements Evaluation Fee (p. 36) is not assessed for graduate certificate students. Certificate candidates do not participate in commencement ceremonies.

Graduate Honors Citation

Students in a master's degree program who earn a certain GPA at the time of graduation will receive one of the following honors citations on their diploma:

- Graduate students in a master's degree program with a cumulative GPA of 3.9 to 3.94 at the completion of their degree requirements will receive the designation of "Graduate with Distinction."
- Graduate students in a master's degree program with a cumulative GPA of 3.95 to 4.0 will receive the designation of "Graduate with High Distinction."
- JWMI students in the top 10% of their graduating class will be recognized as Welch Scholars.
- JWMI students with a cumulative GPA of 3.75 or higher at the completion of their degree requirements will receive the designation, "Graduation with Distinction".

Graduate honors citations do not apply to graduate certificate programs.

JWMI students who are found by the Office of Student Affairs to have committed an academic integrity violation will no longer be eligible to be a Welch Scholar or for the Graduation with Distinction designation.

Commencement Ceremonies

Associate, bachelor's and master's students are eligible to participate in a commencement ceremony if they are within two courses of completing their degree program at the time of the

ceremony. Students interested in participating in a commencement ceremony must register online. Students are responsible to purchase their cap and gown through the university's approved vendor.

Students who would like to participate in a commencement ceremony should visit commencement.strayer.edu to view the commencement schedule with important dates and deadlines, register for commencement, and order their cap and gown.

Diplomas are not provided at commencement. Commencement is a ceremony and the student's diploma will not be issued until after all their degree requirements have been completed and the Registrar's Office evaluation and approval is complete. A review of the student's academic record will be completed by Strayer University in their final term of enrollment. The \$150 Final Academic Requirements Evaluation Fee will be applied to the student's account when they register for their capstone course.

Dual Programs

Students have an opportunity to build upon their degree program and expand their career goals at several levels. Combining experience in multiple discipline areas strengthens the academic experience and boosts professional expertise.

Students interested in pursuing a minor, double major or second degree should review the dual degree requirements prior to expanding their academic objective.

Second Undergraduate Certificate

Students are able to obtain a second undergraduate certificate if there is only one overlapping course in the two certificate programs; course substitutions are not allowed.

Second Diploma

Beginning Fall 2025, the University will offer two diploma programs: the Diploma in Acquisition and Contract Management and the LPN Diploma. There are no overlapping courses between the two diploma programs; therefore, students may pursue a second diploma.

Second Associate Degree

Students are not able to obtain two associate degrees due to duplication of required coursework in the associate programs.

Second Bachelor's Degree

Students seeking a second bachelor's degree must complete all courses required for each program and must complete a minimum of 234.0 quarter credit hours (52 courses) to earn both degrees. Note that this is a minimum of 54.0 quarter credit hours (12 courses) more than is required to complete the first bachelor's degree. If a course is listed as a requirement in the Major or Concentration areas in both programs, an equivalent course must be substituted and taken in its place for the second degree. Courses taken in the General Education Core area may apply to both programs and substitutions are not required. No more than 9.0 quarter credit hours (2 courses) may be substituted in the

second major. Students must complete a second capstone for the second degree program. Students are not eligible to earn a second bachelor's degree within the same discipline. Students may not pursue a second bachelor's degree if the required capstone course in the first and second degree programs are the same.

Associate Degree After Bachelor's Degree

Students seeking an associate degree in a different program area after completing a bachelor degree must complete all courses required for each program and must complete a minimum of 207 credit hours (46 courses). This is a minimum of 27 credits (six courses) in addition to the 180 credits earned in the bachelor degree. If a course listed in the major area of the associate degree is listed in the major or concentration area of the previously earned bachelor degree, an equivalent course must be substituted and taken in its place for the associate degree. Courses taken in the General Education Core may apply to both programs and substitutions are not required. Students may not earn an associate degree after a bachelor degree in the same program area.

Bachelor's Degree – Double Major

To receive a bachelor's degree with a double major, the student must complete all courses required for each program and must complete a minimum of 180.0 quarter credit hours (40 courses). If a course is listed as a requirement in the Major or Concentration areas, a maximum of 9.0 quarter credit hours (two courses) may overlap. If there are more than two overlapping courses in a major, a double major cannot be earned. If there are one or two overlapping courses, an equivalent course must be substituted for each course and taken in its place to fulfill the requirement. Courses taken in the General Education Core area may apply to both programs and substitutions are not required. Students must complete two capstone courses, one for each major. Students are not eligible for a double major within the same discipline and must declare their intent to pursue a double major when they enroll in their first capstone course.

Bachelor's Degree – Minors

To receive a Minor in an area of study different from the student's Concentration area, the student must complete the specified 22.5 quarter credit hours (five courses) with a C or better (2.0 GPA), or P. Students must complete a minimum of 9.0 quarter credit hours (two courses) in residency for the Minor. For any course that appears in both the student's Minor area and either the Major or Concentration areas, an equivalent course must be substituted and taken in its place. To be eligible for the Minor, no more than two courses may overlap between the Minor, Major, and Concentration areas. Students may pursue only one Minor per bachelor's degree and must declare their intent to pursue a Minor as soon as possible after enrolling in their program and no later than the beginning of their last term of enrollment. Minors cannot be added to a student's curriculum after their degree has been conferred.

NOTE: Not all minors are available in combination with all bachelor's degree programs. See the individual Minors for more information.

Undergraduate Certificate and Minors

To be eligible for an undergraduate certificate and a minor in a bachelor degree program, only one course may overlap between the certificate and the minor. If more than one courses overlaps, an equivalent course must be substituted and taken in its place in the minor. Courses may not be substituted in an undergraduate certificate.

Second Master's Degree

Students who earned a 12-course master's degree and are seeking a second 12-course master's degree must complete all courses required for the first degree and all courses in the major/concentration of the second degree, a minimum of an additional 36.0 quarter credit hours (8 courses) in the second, for a minimum of 90.0 quarter credit hours (20 courses) between the two degrees. Note that this is a minimum of 36.0 quarter credit hours (8 courses) more than is required for the first master's degree.

Students who earned a 12-course master's degree and are seeking a 10-course master's degree must complete all courses required for the first degree and all courses in the major/elective component of the second degree, a minimum of an additional 31.5 quarter credit hours (7 courses) in the second, for a minimum of 85.5 quarter credit hours (19 courses) between the two degrees. Note that this is a minimum of 31.5 quarter credit hours (7 courses) more than is required for the first master's degree.

Students who earned a 10-course master's degree and are seeking a second 10-course master's degree must complete all courses required for the first degree and all courses in the major/elective component of the second degree, a minimum of an additional 31.5 quarter credit hours (7 courses) in the second, for a minimum of 76.5 quarter credit hours in total (17 courses) between the two degrees. Note that this is a minimum of 31.5 quarter credit hours (7 courses) more than is required for the first master's degree.

Students who earned a 10-course master's degree and are seeking a 12-course master's degree must complete all courses required for the first degree and all courses in the major/concentration of the second degree, a minimum of an additional 36 quarter credit hours (8 courses) in the second, for a minimum of 81 quarter credit hours in total (18 courses) between the two degrees. Note that this is a minimum of 36 quarter credit hours (8 courses) more than is required for the first master's degree.

If two 12-course programs overlap by more than 18 quarter credit hours (4 courses), a course must be substituted for each additional overlapping course.

If two 10-course programs overlap by more than 13.5 quarter credit hours (3 courses), a course must be substituted for each additional overlapping course.

If a course is listed as a requirement in Area II (the Concentration Component) in both programs, an equivalent course must be substituted and taken in its place.

If two 12-course programs overlap by more than 18 quarter credit hours (4 courses), or two 10-course programs overlap by more

than 13.5 quarter credit hours (3 courses), a course must be substituted for each additional overlapping course.

No more than 4.5 quarter credit hours (1 course) may be substituted within Area II of the second program.

Students must complete a second capstone for the second degree program. If the required capstone course is the same for both programs, an equivalent course must be identified and completed in the second program.

Students are not eligible to earn a second master's degree within the same discipline.

Undergraduate Enrollment in Graduate-Level Courses (Other Than Accelerate)

Undergraduate students who have completed a minimum of 166.5 quarter credits and have a 3.5 cumulative GPA may apply to a dean to take a maximum of two graduate courses which will count toward their undergraduate degree. These same courses may not, however, be used again to satisfy graduate program requirements.

Accelerate

The Accelerate program allows qualified students the opportunity to take up to four specifically approved graduate level classes while pursuing a bachelor's degree. Credits may be applied toward both undergraduate program completion requirements and graduate program completion requirements in an approved graduate program.

Eligibility Requirements and Maintaining Eligibility:

- To be eligible, students must meet all of the following requirements prior to taking a graduate course:
- Be a student enrolled in a bachelor's degree program
- Must be in good academic and financial standing
- Be free of academic integrity sanctions
- Have a minimum cumulative GPA of 3.0
- Have successfully completed a minimum of 90 credits
- Successfully completed a minimum 18 quarter credits with at least two quarters in residence at Strayer University
- Successfully completed BUS 100 (p. 141), ENG 201 (p. 160) or ENG 215 (p. 160), and all other program specific prerequisites identified by the University for Accelerate program courses, prior to taking a graduate course through the Accelerate program

To maintain eligibility:

- Students must successfully complete graduate courses taken through the Accelerate program on the first attempt.
 - Students who do not successfully complete a graduate course through the Accelerate program and continue to the graduate program will be required to successfully complete the course to meet the graduate degree

requirements.

- Students must earn a minimum grade of C (or Low Pass for JWMI courses) to earn credit towards their undergraduate degree for the graduate course completed through the Accelerate program; however, students must earn a minimum grade of B (or Pass for JWMI courses) for the same course to then be eligible for credit towards the graduate program.

Accelerate Policies:

- Eligible students may take a minimum of one and a maximum of four specifically identified graduate courses through the Accelerate program.
- Completion of graduate courses taken through the Accelerate program does not guarantee admission into a graduate program.
- Courses taken through the Accelerate program may apply toward a graduate program if all grade requirements are met and students are accepted into one of the approved graduate programs.
- Graduate courses taken through the Accelerate program will not be weighted differently in calculating GPA.
- Graduate courses taken through the Accelerate program will be counted toward fulfilling the student's program residency requirements at both the undergraduate and graduate level.

Interested students should meet with their advisor as soon as possible to discuss requirements for eligibility and the application process.

General International Student Policies

All international students, regardless of visa type, are individually responsible for ensuring they are in good standing with the U.S. immigration authorities. Students entering the country for classes with an F-1 visa for the first time must register in person and present an original visa, passport, Form I-94, Arrival/Departure Record, Form I-20, and provide a current domestic address.

Continuing students (those currently attending Strayer and planning to enroll at Strayer for the next term) are expected to finalize their enrollment in campus-based courses at least 30 days before the start of the term.

Maintaining International Student Status

The university is required to comply with the following policies for F-1 international students.

1. F-1 students are individually responsible for maintaining their F-1 status.
2. Initial F-1 students may enter the United States up to thirty (30) days prior to the program start date listed on the Form I-20 and should report to Strayer University in person at least one week before the start of the term.
3. Students transferring their F-1 status after completing a degree from a U.S. institution to Strayer University must complete the admissions process within sixty (60) days of

program completion or expiration of OPT from their previous institution.

4. All transfer students should receive their Strayer SEVIS Forms I-20 no later than fifteen (15) days after the beginning of the quarter. Students may request the continued attendance Form I-20 by contacting the campus.
5. F-1 students may enroll in a maximum of one online course per quarter as applied towards full-time enrollment. In addition, undergraduate students must enroll in two on-ground classes per quarter and graduate students must enroll in one on-ground class per quarter. Independent study and hybrid courses for F-1 students must meet each week at the campus to qualify as an on-ground class.
6. Full-time enrollment equals 13.5 credit hours (undergraduate) and 9.0 credit hours (graduate) per quarter.
7. All F-1 students requesting an authorized break must be in status and enrolled full time for three consecutive quarters (may include summer) at Strayer. Summer term is not a guaranteed break.
8. F-1 students must maintain a valid SEVIS Form I-20, including updating personal and academic changes such as requests for a program extension or changes of degree.
9. F-1 students must report a legal name change or any changes of domestic or foreign address information, phone, or email to Strayer within ten (10) days of the change.
10. Per USCIS rules and regulations, F-1 students whose cumulative GPA falls below 2.0 (undergraduate) or 3.0 (graduate) for more than two consecutive terms must depart the United States or apply for F-1 reinstatement at another SEVP approved school.
11. Students in F-1 status are not permitted to accept off-campus employment without proper work authorization. Students may obtain additional information about work authorization from the DHS website, Study in the States, available online at <https://studyinthestates.dhs.gov/>.
12. Students on optional practical training (OPT) must report changes in employment and student contact information to their SEVP portal within ten (10) days of the change. Students must contact the campus to request an updated Form I-20 listing the new employer.
13. Per USCIS rules and regulations, students in F-1 status must depart the United States within sixty (60) days of the last date of their last term after program completion unless they applied for OPT or earned acceptance into a different degree program. Students wishing to participate in their commencement ceremony must receive approval from the USCIS to change their status to B-2 (temporary visitor) if the commencement ceremony is more than sixty (60) days from the last day of their last term.

Strayer University is required under USCIS regulations to report the enrollment activity of F-1 students in the Student and Exchange Visitor Information System (SEVIS). The university is obligated to terminate the status of students who fail to adhere to the above guidelines, and these students must promptly leave the United States. If these students think they have an adequate

reason to apply for reinstatement, they must contact their International Student Coach as soon as possible. Students will be barred from enrollment until they provide evidence of full compliance with USCIS regulations.

In addition, the university encourages all international students to enroll in a group health insurance plan.

The university is responsible for reporting compliance with USCIS regulations concerning a student's application for or maintaining the current status of an F-1 visa. Students may wish to seek outside legal counsel or the DHS website, Study in the States, if they have questions regarding their nonimmigrant status.

Transcripts and Student Records

All student academic records are kept for five years, except for transcripts (which are kept indefinitely). Strayer University is subject to the Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. 1232g. Pursuant to FERPA, student records will not be released without written consent from the student.

Students may request official transcripts in the following ways: 1) Visit www.strayer.edu, scroll down to the Quick Links section at the bottom, and select "Request my Transcript" or 2) via iCampus at <https://icampus.strayer.edu>.

Effective April 1, 2022, Strayer University students can request an official transcript from Strayer even if they have outstanding debts to the University.

Release of Student Information

In conformity with the requirements of the Family Educational Rights and Privacy Act (FERPA), Strayer University has identified the following data as directory information, which may be released unless a student notifies the university of their desire not to have such information released within 30 days of enrollment: name; address; telephone number; email address; date of birth; photograph; major field of study; grade level; enrollment status (undergraduate or graduate, full time or part time); participation in official school activities; dates of attendance; degree(s), honors, and awards received; and prior educational agency or institutions attended. Students seeking to restrict the release of directory information should do so by selecting the FERPA notification case in the Student Solutions Center in iCampus, or send a written notification to:

Strayer University Registrar's Office
2303 Dulles Station Blvd.
Herndon, VA 20171

Normal Time of Completion

Strayer University students are mostly working adults who earn their degrees at their own pace and on their own schedule. Most students attend part time. Provided below is the normal time to complete each Strayer program.

Program	Normal Time to Complete
Bachelor of Applied Science in Management	6 years
Bachelor of Business Administration	6 years
Bachelor of Science in Accounting	6 years
Bachelor of Science in Criminal Justice	6 years
Bachelor of Science in Information Systems	6 years
Bachelor of Science in Information Technology	6 years
Master of Business Administration	4.5 years
Master of Education	4.5 years
Master of Health Services Administration	4.5 years
Master of Public Administration	4.5 years
Master of Science in Accounting	4.5 years
Master of Science in Health Services Administration	4.5 years
Master of Science in Human Resources Management	4.5 years
Master of Science in Cybersecurity (formerly known as Master of Science in Information Security and Assurance)	4.5 years
Master of Science in Information Systems	4.5 years
Master of Science in Management	4.5 years
Jack Welch Management Institute Master of Business Administration	2.5 years
Associate in Arts in Accounting	3.5 years
Associate in Arts in Acquisition and Contract Management	3.5 years
Associate in Arts in Business Administration	3.5 years

Enrollment, Graduation and Financial Aid Data

Information on total enrollment, total graduates, enrollment of certain state residents by program, resident graduates by program, percentage of students receiving federal financial aid and average student indebtedness at graduation may be obtained by contacting OfficeofthePresident@strayer.edu.

Student Conduct and Compliance Policies

Nondiscrimination Policy

Strayer University is an equal opportunity educational institution. The university is committed to a policy of equal opportunity in the provision of educational programs, activities and benefits to students, as well as equal opportunity in all aspects of employment.

Strayer University does not discriminate on the basis of age, sex, gender identity, color, race, religion, disability, sexual orientation, marital status, veteran status, national origin or any other basis prohibited by federal, state or local laws and regulations and does not tolerate such discrimination by its students, staff and faculty.

Security Policy

Student safety is of utmost importance at Strayer University and we all must work together to maintain a safe and secure workplace. Students should maintain awareness of campus safety, and immediately report issues and circumstances that may reduce safety and security for our students.

Any person in immediate danger due to crime or emergency should contact local police or fire immediately by dialing 9-1-1. When the emergency has subsided, the incident should be reported as soon as possible by calling the SEI Emergency Line: 1.877.616.7878.

For non-emergencies, any person who is a victim, witness or has knowledge of any criminal activity or other emergency on campus should report it immediately by emailing alert@strategicd.com. If assistance is required with filing an incident report, the Regional Leader and Senior Director, Real Estate should be contacted.

Persons reporting possible crimes, other emergencies or violations of the Student Code of Conduct may be asked to complete witness statements, which may be distributed to other appropriate university officials as the situation warrants.

Acts of aggression or violence by a student toward other students, staff and/or faculty will not be tolerated. If an instructor or staff member believes that a student is being disruptive, acting inappropriately or poses any threat to a classroom or campus, the professor or staff member may request the student leave the classroom and/or the campus. This may include threats to the health or general welfare of the campus community.

Violations of the law and/or the Student Code of Conduct by a student may be referred to outside law enforcement agencies

and/or, when appropriate, to Student Affairs for disciplinary action. When a potentially dangerous threat to the Strayer community arises, reports or warnings may be issued through email or text communications, the posting of flyers at campuses, in-class announcements or other appropriate means.

No later than October 1 of each year, Strayer will distribute an Annual Campus Security Report to all students, staff and faculty. This report contains additional information on campus security regulations, recommended personal safety practices, campus crime reporting guidelines, and campus crime statistics for the most recent three-year period. The report is distributed by email, which includes a link to the university website at https://www.strayer.edu/content/dam/strayer/pdf/Annual_Campus_Security_Report.pdf. Hard copies are available upon request in the Office of Student Affairs.

Strayer, in its discretion, may install security cameras at a campus in order to provide increased security monitoring. Cameras will be placed in visible locations in publicly accessible areas and will not record audio signals. Viewing of footage recorded by security cameras is restricted to authorized Strayer personnel and outside law enforcement, as needed.

Strayer University security guards play an important role in Strayer campus security operations. Strayer security guards help students, staff and faculty with safety and security on our campuses. Strayer security guards check student and staff identification, patrol the campus and grounds, and help report and document security incidents. At some campuses, and only when approved by Strayer leadership, Strayer may use armed guards or off-duty police officers working in a uniformed security capacity. In an emergency, students can request security guards to call 9-1-1 and report incidents to authorities.

Students may not have in their possession or control any type of weapon or firearm on Strayer premises. A student who is a sworn law enforcement officer may carry a weapon only with the prior approval of the Regional Leader and only if the student shows proof of his or her legitimate law enforcement position by presenting valid law enforcement credentials.

Strayer University also has an emergency alert system, StrayerALERT, to provide important information to Strayer's students, staff, and faculty about emergency situations at a campus or corporate office. StrayerALERT will use email and text messaging to send short notifications to students, staff, and faculty whose email addresses as well as mobile devices have been registered to receive these messages.

Upon enrolling at Strayer University, students are automatically registered in the StrayerALERT system. Please login to the StrayerALERT system at <https://member.everbridge.net/311715841441934/login> to make changes to your notification profile. For more information regarding Strayer's emergency management plan as well as the StrayerALERT system, go to <https://icampus.strayer.edu>.

ID Card Requirement

A valid form of government issued identification is required of all registered students. All students must carry such identification at all times when they are on university property. Campus administration and campus security guards may ask a student to

present their identification for entry into the building, or at any other time. If a student is unable to present proper identification, campus administration or campus security guards may ask the student to leave the campus.

Students may have access to services from various business, cultural or entertainment facilities by presenting their Strayer University digital student card ("Student Card"). The Student Card is generated at the time a student enrolls in a course and receives their university email address. The Student Card may be accessed through the Strayer Mobile app. Student Cards may only be used by the registered student and may not be transferred to anyone. Misuse of the Student Card may result in disciplinary action.

Notice of Crime on Campus

In compliance with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act, as well as applicable state laws, information concerning campus security programs, recommended personal safety practices, crime reporting procedures and campus crime statistics for the most recent three-year period is available online at <http://www.strayer.edu/campus-safety>. Copies also are available in the student services offices for students who wish to obtain a printed copy. Any student experiencing or witnessing criminal activity on campus should report it immediately to a security guard, campus staff, an instructor, or to the Student Affairs team. If a student is in immediate danger, they should contact the police by dialing 9-1-1. Strayer will immediately notify the campus community upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees.

The safety of our students, employees and visitors is always a high priority for Strayer. In compliance with the Campus Sex Crimes Prevention Act, information regarding registered sex offenders can be found at <https://www.nsopw.gov/>. Individuals who have been convicted of sex offenses are required to register with state sex offender registries and provide notice of their enrollment or employment at an institution of higher education. Accordingly, all students who are convicted sex offenders must notify the law enforcement agency of the jurisdiction in which they reside of their enrollment at Strayer.

Student Code of Conduct

Strayer University expects its students to conduct themselves as business professionals, and to display maturity in their conduct as they progress toward their goals of academic and career success.

Students are expected to follow common courtesy, including allowing university personnel appropriate time to respond to an initial request and grouping questions into as few inquiries as possible. Students should only contact administrative staff on the staff member's campus phone numbers.

Types of conduct subject to disciplinary action include, but are not limited to, the following: dishonesty, unprofessional conduct, misuse of university property, alcohol and drug violations, criminal activity, violent/dangerous behavior and other violations of the Student Code of Conduct or the Academic Integrity Policy. Strayer does not condone threatening, harassing, or violent

behavior of its students, faculty or staff. Sanctions for violations of the Student Code of Conduct include oral and/or written admonition, disciplinary probation, restitution, interim suspension, suspension, dismissal and revocation of degree.

The assistant vice provost of student affairs, upon satisfactory proof of violation of this policy, may immediately order an interim suspension or dismissal of a student, and will give the student written notice of their violation of the policy as set forth in the Student Handbook.

For further information about the Student Code of Conduct, see the policies and procedures in the Student Handbook.

Anti-Hazing Policy

Strayer University forbids physical and/or psychological abuse or the threat of such abuse of any person on university premises or at university activities. This includes hazing, which Strayer defines as "activity that (1) is expected of a person when joining or participating in a university-sponsored or university-recognized group or activity; (2) humiliates, degrades, abuses, or endangers that person; and (3) occurs regardless of that person's willingness to participate."

Hazing is a violation of the Student Code of Conduct and any student engaging in hazing activities will be subject to disciplinary action as set forth in the Student Handbook.

To report incidents of hazing, students should contact the Office of Student Affairs using any of the following methods:

1. Email: studentaffairs@strayer.edu
2. U.S. Postal Service: 1133 15th St NW, Suite #200, Washington, DC 20005
3. Phone: 1-877-261-6908

Strayer will investigate incidents of hazing through its grievance and disciplinary procedures, which can be found in the Student Handbook: <https://strayer.smartcatalogiq.com/en/current/student-handbook/student-disciplinary-and-grievance-policies-and-procedures/>.

Academic Integrity Policy Reporting and Enforcement Procedures

The university procedures for reporting, evaluating and administering consequences for academic integrity violations are detailed in the Student Handbook.

For more information, please see the Student Handbook at <https://icampus.strayer.edu>.

Policy on Unauthorized Electronic Distribution of Copyrighted Materials

The university prohibits students from using its computer systems and networks to violate copyright law. Copyright owners have the right to control, within certain limits, how their works are published, distributed and sold, and the right to be paid for the use of a work. Unless a student is the copyright holder or has express permission to share someone else's copyrighted works, the distribution of copyrighted works to the internet to share on a

peer-to-peer network is almost certainly violating another person's copyrights.

Peer-to-peer file sharing occurs when individuals store files on their computers and enable their computers as servers so that others may download the files. The university strictly forbids peer-to-peer file sharing applications or any application used to violate copyrights or any federal or state law. Violations include copying or distributing copyrighted media such as songs, movies, software, video games, text and pictures, without authorization from the copyright owner.

The university's networks and computers may only be used for education-related objectives of the university. Please see Strayer's Technology Use Policy for more information. University networks and computers may not be used to operate file sharing programs, including peer-to-peer file sharing applications for the illegal downloading of copyrighted materials.

Use of file sharing applications can harm student users and the university. A student who runs a file sharing application may be inadvertently sharing personal information, such as email messages and credit card information. In addition, virus writers often target file sharing applications. Finally, file sharing programs may disrupt Internet access and performance of programs used for academic work on university networks.

There are many legal ways to download copyrighted materials. Unlike illegal file sharing, these services, as permitted by Strayer University policy, can be used to access materials like songs and movies without violating the law. Many online music services allow you to download individual songs or albums for a fee. Both the Recording Industry Associate of America (RIAA) and the Motion Picture Association of America (MPAA) have web sites that list ways to legally download copyrighted materials. Some of the more popular ways to download copyrighted material include:

Music

- iTunes
- Napster
- Amazon MP3 Music Download

Movies and Television

- iTunes
- Amazon DVD On Demand

All use of university networks and computers, including email accounts, may be monitored by the university at any time without notice to identify and mitigate usage in violation of federal copyright laws. Computers found to be engaging in peer-to-peer activity on university networks will be automatically blocked from accessing the network for 30 minutes.

Violation of this policy may result in an immediate suspension or loss of computer or network privileges at the university and will also subject a student to disciplinary action, up to and including suspension and expulsion from the university. If appropriate, violations may also be reported to local or federal law enforcement agencies for prosecution.

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights

granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement.

Unauthorized distribution of copyrighted material, including unauthorized peer-to-peer file sharing, may subject copyright infringers to civil and criminal liabilities. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or statutory damages affixed at not less than \$750 and not more than \$30,000 per work infringed. For willful infringement, a court may award up to \$150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys' fees. Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to \$250,000 per offense. For more information, please see the website of the U.S. Copyright Office at www.copyright.gov, and especially the FAQ's at www.copyright.gov/help/faq.

Student Problem Resolution

Strayer University has a thorough student problem resolution process, which includes problem-solving at the campus, regional and university-level through the student affairs office. University personnel have as their goal a timely and thorough review of all problems students bring forward for resolution.

In all instances, students must present their concerns in writing with as much specificity as possible at each level of the appeal process. Administrators at each level carefully examine the information and relevant data provided by the student and respond in writing. Specific time limitations for appeal are put on disputes. For more details, see the Student Handbook. Students who have nonfinancial complaints that fall outside the levels of appeal detailed in the Student Handbook may contact the student affairs office at 877.261.6908 or studentaffairs@strayer.edu for further assistance. Students with financially based complaints should contact the centralized Student Financial Services team at 855.392.6625 or refer to the Student Handbook for additional direction.

For students receiving VA education benefits, any complaint against the school should be routed first to the school's VA certifications team by emailing: va-certifications@strayer.edu. If the complaint has not been resolved, students should go through the VA GI Bill® Feedback System by going to: <http://www.benefits.va.gov>. The VA will then follow up through the appropriate channels to investigate the complaint and resolve it satisfactorily.

The Virginia State Approving Agency (SAA), is the approving authority of education and training programs for Virginia. Our office investigates complaints of GI Bill beneficiaries. While most complaints should initially follow the school grievance policy, if the situation cannot be resolved at the school, the beneficiary should contact our office via email saa@dvs.virginia.gov.

If a complaint is not settled to the student's satisfaction, the student may contact the university's accrediting agency, the

Middle States Commission on Higher Education (1007 North Orange Street, 4th Floor, MB #166, Wilmington, DE 19801, 267.284.5011 or <https://www.msche.org/complaints>), or one of the state agencies below. Note that the university's state licenses and approvals are listed under State Licensure and Approvals (p. 14) in the General Information section of the catalog.

If a complaint is not settled to the student's satisfaction in a state where Strayer is delivering distance education by virtue of its participation in the State Authorization Reciprocity Agreement (SARA), the student may, after a final institutional decision is made, appeal the decision to the District of Columbia Higher Education Licensure Commission (DCHELC), Strayer University's State Portal Agency under SARA. DCHELC is the contact point for student complaints in states covered by SARA (this process does not apply to students receiving distance education from the District of Columbia or to complaints regarding grade disputes or student conduct violations). The decision must be appealed within two years of the incident about which the complaint is made. The resolution of a complaint by DCHELC, will be final, with limited exception. For more information on SARA, see the university's state licenses and approvals listed under State Licensure and Approvals (p. 14) in the general information section of the catalog or www.nc-sara.org.

Strayer does not retaliate or take any unfair actions against students who file complaints with the university.

Student Services and Activities

Center for Well-Being

The Center for Well-Being at Strayer University is here to support students during their academic journey and beyond. Through six dimensions of well-being – academics, career, essential needs, finances, mind and body, and social connection – the Center for Well-Being provides tools and resources supporting the whole you. Receive resources for a variety of needs such as tutoring, resume support, peer community building, emotional support and more through this virtual one-stop-shop.

Students can access TimelyCare through the mobile app or web platform for emotional support, stress management, self-care content, and support searching for essential needs. Download the app through Google Play or the Apple App Store, or create an account on TimelyCare.

Career Center

The Career Center provides career resources and one-on-one career coaching to support the career needs of Strayer students and alumni.

The Career Center supports students and alumni on the following career topics:

- Career exploration and guides
- Career change planning
- Résumé and cover letter reviews
- Networking/mentoring
- Job search strategies
- Using LinkedIn
- Interview preparation and practice
- Salary negotiation
- Building a personal/professional brand
- Real-world work experience

Career Communities

Students can also connect with classmates in their program through career communities, hosted in Strayer University's Facebook groups: Business, Criminal Justice, and Information Technology. The Business Community is open to all majors. Learn more about these communities and join through iCampus.

University Library

The university library supports the academic programs and the university information literacy plan with physical and electronic instructional resources and services. Users can access resources and services through the iCampus student platform, Canvas LMS

or directly at <https://library.strayer.edu>.

Physical resources, located at the Wilkes Library of the Washington, D.C., campus, may include books, reference works and audio-visuals. Users can browse the open public access catalog at <https://printbooks.strayer.edu/>. Eligible books circulate for 12-week periods and are renewable and available to all eligible borrowers regardless of location. Borrowers can receive books through intracampus delivery and shipping services. Audio-visuals and other special collection items are available for on-campus use only.

Electronic resources include more than 25 databases with access to more than one million resources including peer-reviewed journals, eBooks, audiobooks, reports, reference works and popular periodicals. Users can access services including online tutorials, the virtual writing center and the Ask Your Librarian reference service at <https://library.strayer.edu>.

The university library offers interlibrary loan and document delivery services to eligible borrowers. Interlibrary loans are only offered through the Ask Your Librarian function. Students may request books, copies of articles or chapters, and other resources to support their coursework. We maintain relationships with several universities. Borrowers may contact the Ask Your Librarian service for assistance.

The Office of the University Librarian, located at the Wilkes Library of the Washington, D.C., campus, coordinates library resources and services in collaboration with the Library Advisory Board, faculty and academic teams and in accordance with library planning and collection development documents. Collections emphasize accounting, business administration, health services, public administration, criminal justice and information systems. Materials are collected to support all programs, general electives, career information and individual growth.

Faculty Accessibility Policy

All Strayer University faculty make themselves available to answer questions from their students regarding the assigned material, assist with academic counseling and conduct tutoring and other similar activities. Office hours for faculty are scheduled by each faculty member and are posted in the Canvas course shell.

Preferred contact time and methods for faculty teaching online classes can be located in the Canvas course shell. Students taking classes online may contact their instructor by email at any time and may also request a live session or phone call with the instructor. Online faculty respond to all emails within 48 hours of receipt.

Virtual Bookstore

Textbooks and supplementary materials may be ordered from the Strayer University Bookstore by internet or phone. Orders are generally shipped within 24 hours.

Detailed information can be found at <https://icampus.strayer.edu> (click on Strayer Bookstore.) As is common with most universities, Strayer may benefit financially from sales of textbooks bought through the virtual bookstore.

Virtual Gift Shop

Shop a variety of branded apparel, home office products, and many other items to show your Strayer University pride. View and shop the full catalog of merchandise at shop.strayer.edu. New items are added regularly, so check back often for the latest in clothing and accessories. (Items cannot be purchased with financial aid funding.)

Off-Campus Housing

Strayer University does not offer campus housing for students. A variety of housing options are available near Strayer campuses; however, securing housing is the student's responsibility.

Services for Students with Disabilities

Strayer University does not discriminate on the basis of disability and provides qualified students with disabilities an equal opportunity to participate in university programs through appropriate academic adjustments and the provision of auxiliary aids and services. A student with a disability is not required to disclose their disability to the university unless they wish to receive reasonable accommodations.

Students desiring accommodations for a disability should contact the ADA coordinator, who serves as the university's Section 504 coordinator, at:

Strayer University
Office of Student Affairs, ADA coordinator
PO Box 710927
Herndon, VA 20171

Phone: 877.261.6908
Fax: 703.563.6223
adacoordinator@strayer.edu

Requests must be made in writing to the ADA coordinator before they will be acted upon.

Students with disabilities requiring accommodations are encouraged to self-identify at the earliest possible opportunity to ensure the university has adequate time to coordinate the accommodations requested. Requests for accommodations should be made at least 30 days prior to the start date of any quarter. Accommodations requested fewer than 30 days in advance of the start date of any quarter are not guaranteed to be available by the first day of classes for that quarter. However, the university will put interim accommodations in place to the extent possible.

Additional information on university policies on accommodations for students with disabilities is available in the Student Handbook.

Student Health Services

Strayer University does not provide health services. Students in North Carolina may obtain a list of local emergency facilities by contacting the Campus Director.

Student Health Insurance

Strayer strongly recommends that all students maintain health insurance coverage during their enrollment. Through Student Benefits International, the university offers voluntary health insurance options for various needs: temporary health insurance for short-term needs and a plan for full-time domestic students. An affordable noninsurance healthcare protection and medical savings plan is also available. Online enrollments, complete details of each plan, and contact information can be found at www.StudentBenefitsInternational.org.

Student Services

Academic Advising: At Strayer University, academic advising is a communication process—whether face-to-face, by mail or email, on the telephone, or through computer-mediated systems—by which Strayer helps students realize their maximum educational and career potential and become effective agents for their lifelong learning endeavors.

Strayer views advising as a comprehensive process designed to help each student make sound academic decisions. Academic advising is done primarily by the advisor or coach. Associate academic deans provide advising to students repeating courses.

Computer/Technical Support Services: Strayer provides a variety of technical services to students. The university offers Wi-Fi and power so students can bring in their laptops as a resource for classes. There is also a student computer on site for consultation purposes. Each campus has staff who can assist students with basic computer questions.

Student Technical Support is available 24/7 to assist with access issues, the courseroom/Canvas, and other tools and resources used by the university. For more resources and how to contact technical support, go to iCampus at <https://icampus.strayer.edu/technical-support>.

Financial Advising: Any financial concerns should be discussed with personnel in Student Financial Services.

International Student Advising: F-1 students should meet with a dean, advisor or coach quarterly to plan their course schedule.

Peer-to-Peer Mentorship Program: The Peer-to-Peer Mentorship Program pairs successful experienced students who can provide advice, encouragement, and support with new Strayer University students. The Peer Mentorship Program focuses on providing new students with a sense of community as well as acclimating students to college and resources that will help them be more successful at Strayer University.

Peer mentors are student volunteers who serve as guides for one quarter to help new students navigate the available tools and resources and challenges that students typically experience during the first few months in college. To learn more about the Peer

Mentorship program and the eligibility requirements, visit <https://icampus.strayer.edu/peer-peer-mentorship-program>.

Placement Testing: Undergraduate students must demonstrate proficiency in English in order to successfully navigate their academic career at Strayer. Students should reference the procedures for fulfilling Strayer placement requirements under the section titled Undergraduate Admission (p. 22) in the catalog.

Taking the placement exam requires no preparation. Students have access to take the placement through the student portal on iCampus at <https://icampus.strayer.edu>. This can be taken remotely or on a campus.

Tutorial Services: All students have access to tutoring services at no cost. Information about tutoring and supplemental instruction is available for students via the student learning system homepage.

Supplemental instruction for specific courses may also be provided. Tutoring and supplemental instruction services are provided by subject matter experts with a strong background in the subject area in which they are tutoring.

For all tutorial sessions, the student should come prepared by bringing course materials and specific questions for the tutor and having completed the required course reading and attempted the required homework. Tutors may provide feedback to course instructors on topics covered in individual sessions. Although the instructor is always the first person the student should turn to for further clarification or assistance, a tutor can provide additional assistance in reaching educational goals.

Veterans' Advising: Strayer University keeps abreast of current requirements and regulations by maintaining a liaison with the Department of Veterans Affairs. University administrators also periodically attend appropriate seminars.

Initial information about educational programs for veterans and initial assistance to veterans are provided by the admissions office. Thereafter, Student Financial Services handles questions and paperwork concerning re-certification and continued eligibility. Student Financial Services is available to answer any questions veterans may have.

Students may reference a list of topics included in this catalog for additional information about military and veteran students. See Active Duty Military and Veteran Students (p. 18) in the General Information (p. 13) section of this catalog.

Honor Societies

Honor societies are open to all Strayer University students who meet the eligibility criteria. Membership in honor societies is by invitation only.

Alpha Chi National Honor Society, D.C., Gamma Chapter 283: Alpha Chi recognizes the high academic achievements of adult learners. It promotes and recognizes scholarship and good character among undergraduate and graduate students from all academic disciplines. Membership is by invitation only. Invitations are sent quarterly, via email. The faculty advisor can be contacted at AlphaChi@strayer.edu.

- Honor medallions are available via the website listed in

the acceptance letter.

- Honor cords and medallions may be worn at commencement to distinguish academic excellence.

Undergraduate students must meet the following requirements, at least one quarter prior to commencement:

- Minimum of 121.5 quarter credit hours
- Minimum of 67.5 quarter credit hours at Strayer University
- An overall minimum 3.8 GPA
- All requirements completed at least one quarter prior to graduation

Graduate students must meet the following requirements at least one quarter prior to commencement:

- Minimum of 45 graduate quarter credit hours
- Minimum of 22.5 graduate quarter credit hours at Strayer University
- An overall minimum 3.8 GPA
- All requirements completed at least one quarter prior to graduation

Alpha Sigma Lambda National Honor Society: Alpha Sigma Lambda is dedicated to the advancement of scholarship and recognizes the special achievements of adults who accomplish academic excellence while facing competing interests of home and work. The Alpha Sigma Lambda National Honor Society extends membership to eligible undergraduate students by invitation only. The faculty advisor can be contacted at studentaffairs@strayer.edu.

- Certificate is mailed to the member upon acceptance.
- Honor cord is purchased by the student directly from the Alpha Sigma Lambda Honor Society website.

Eligible undergraduate degree-seeking students must have:

- A minimum of 126 quarter credit hours, including transfer credits
- A minimum of 24 quarter credit hours at Strayer University
- An overall minimum 3.2 GPA

National Society of Collegiate Scholars: The National Society of Collegiate Scholars (NSCS) recognizes, by invitation, the academic success of high-achieving freshmen and sophomore undergraduate students. The Faculty Advisor can be contacted at studentaffairs@strayer.edu.

- Honor cord and medallion can be ordered directly from the NSCS's website.
- Honor cord and medallion may be worn at commencement to distinguish academic excellence.
- Invitations are sent quarterly, via email.

To be eligible through Strayer University, students must have:

- Completed at least one course at Strayer University
- Completed a minimum of 18 quarter credit hours to a maximum of 90 quarter credit hours, with transfer credit included
- An overall minimum 3.4 GPA

Delta Alpha Pi International Honor Society

(<http://deltaalphahonorsociety.org>):

Delta Alpha Pi International Honor Society was founded in 2004 at East Stroudsburg University of Pennsylvania and is open to undergraduate and graduate students with disabilities. Students initiated into Delta Alpha Pi International Honor Society must meet the following criteria:

- All students must be present with a documented disability and work with one of the faculty or staff members in the Office of Disability Services and demonstrate an interest in disability issues.
- Undergraduate students must have completed a minimum of 24 quarter hour credits and earned an overall Quality Point Average of 3.10 on a 4.00 scale.
- Graduate students must have completed a minimum of 18 credits and earned an overall Quality Point Average of 3.30 on a 4.00 scale.
- The honor cord and certificate are mailed to the member upon acceptance. The member may wear the cord at commencement to distinguish academic excellence.

Golden Key International Honor Society: Golden Key International Honor Society (GKIHS) recognizes and encourages scholastic achievement and excellence among college and university students from all academic disciplines. The faculty advisor can be contacted at goldenkeyihs@strayer.edu. Additional information can be found at www.goldenkey.org.

- Membership is by invitation only and is sent quarterly, via email.
- Undergraduate students must have completed a minimum of 45 quarter credit hours, at least one class at Strayer University, and have a 3.7 GPA or better.
- Graduate students must have completed one graduate class at Strayer University and have a 3.5 GPA or better.

Phi Theta Kappa Honor Society: Phi Theta Kappa's mission is two-fold, to recognize and encourage the academic achievement of two-year college students and provide opportunities for individual growth and development through participation in honors, leadership, service and fellowship programming. The faculty advisor can be contacted at studentaffairs@strayer.edu.

- Membership is by invitation only and recruitment for new members occurs twice a year via mailed letters to eligible students.
- Only undergraduate students enrolled in an associate or bachelor's degree program are eligible.
- Undergraduate student must have completed a

minimum of 13.5 undergraduate quarter credit hours at the university or transfer in with the equivalent number of credits from an accredited college. (Restrictions apply here. See an advisor for more details.) Undergraduate students must also have a minimum of 3.5 GPA, and currently be enrolled in an associate degree program at Strayer University.

- Members may wear the honor cord or honor medallion at commencement to distinguish their academic excellence.
- Honor items may be purchased directly from the honor society at www.ptk.org.

The Society for Collegiate Leadership & Achievement

(SCLA): The Society for Collegiate Leadership & Achievement (SCLA) honors students' achievement and empowers them to be the leaders of tomorrow. SCLA aims to maximize student potential through a powerful, customized development platform, vibrant mentor and peer community, and competency-based certification. The faculty advisor can be contacted at scla@strayer.edu.

- Membership is invitation only and is sent quarterly via email.
- Students must have accumulated 6 or more credit hours.
- Graduate students must maintain a minimum GPA of a 3.0 on a 4.0 scale.
- Undergraduate students must maintain a minimum GPA of 2.7 on a 4.0 scale.
- Members may wear the honor cord at commencement to distinguish their academic excellence.
- Honor cords may be purchased directly from the Honor Society's website at <http://thescla.org/>.

Student Advisory Boards

Student Advisory Boards are designed to enhance communication between the student body and senior academic leaders at the university. The Student Advisory Boards provide an opportunity for senior academic leaders to have a direct dialogue with the student body, and they provide an opportunity for students to provide feedback about Strayer successes, opportunities for improvement and new ideas for consideration.

Each campus may also have a local Campus Student Advisory Board. These local Campus Boards may meet with their campus leadership to provide input to campus administrators as to the individual successes, opportunities for improvement and new initiatives for their respective campuses.

The University Student Advisory Board is chaired by personnel from the Student Success team and is comprised of representatives appointed by the Student Success team. The University Student Advisory Board meets periodically to share information concerning students' Strayer University experiences and to gain broad-based institutional knowledge about program additions, curriculum changes and services and facility

enhancements that the university has undertaken. The staff from the Student Success team supports the local representatives to the University Student Advisory Boards by coordinating and participating in quarterly meetings.

Program Availability

Not all programs are available in all modalities in all states. Depending on the state, your program of choice may only be available in an online-only version or not at all. Please check individual program pages in this catalog for the most up-to-date information on program availability. All courses within a program will not be available for on-ground delivery at most campus locations. Due to availability, students are required to take at least some (and in certain cases, all) courses in an online format in order to complete a degree program. If you have any questions about availability of programs or courses, please contact your admissions officer, coach or dean.

Students may reference the Non-Credit/Non-Degree Offerings section (p. 180) of the catalog to obtain information about Strayer University's non-credit/non-degree programs.

Undergraduate Programs

- Undergraduate Certificate in Artificial Intelligence (AI) (p. 74)
- Undergraduate Certificate in Health Information Management and Analytics (p. 74)
- Undergraduate Certificate in Information Technology Fundamentals (p. 75)
- Undergraduate Certificate in Public Health (p. 75)
- Undergraduate Certificate in Python Programming (p. 75)
- Diploma in Acquisition and Contract Management (p. 75)
- Diploma in Licensed Practical Nurse (p. 76)
- Associate in Arts in Accounting (p. 76)
- Associate in Arts in Acquisition and Contract Management (p. 77)
- Associate in Arts in Business Administration (p. 78)
- Associate in Arts in Marketing (p. 80)
- Associate in Arts in Health Services Administration (p. 79)
- Associate in Arts in Information Technology (p. 79)
- Bachelor of Science in Accounting (p. 81)
- Bachelor of Applied Science in Management (p. 82)
- Bachelor of Business Administration (p. 83)
- Bachelor of Science in Criminal Justice (p. 85)
- Bachelor of Science in Health Services Administration (p. 88)
- Bachelor of Science in Information Technology (p. 90)

Undergraduate Certificate (AI), Artificial Intelligence

The Undergraduate Certificate in Artificial Intelligence (AI) is designed for students who are interested in gaining a solid understanding of AI concepts and their practical applications. The curriculum is carefully structured to provide a step-by-step progression of knowledge, starting with an introduction to AI, through Prompt Engineering and culminating with Advanced AI Applications. The three certificate courses do not assume prior knowledge of computer programming, thus making them available for students with or without a computer programming academic background. Through a combination of theoretical concepts, hands-on exercises, and practical applications, students will develop the skills necessary to understand, implement, and apply AI techniques and tools effectively.

The Artificial Intelligence (AI) certificate is only available in an

online-only format. This program does not offer access to federal financial aid from the U.S. Department of Education.

Students are advised to review the Undergraduate Degree Conferral Requirements (p. 53) to ensure they satisfy all of the general requirements for an undergraduate degree, including the minimum grade that must be earned in certain courses.

REQUIREMENTS

Required Courses

CIS 211	Introduction to Artificial Intelligence
CIS 214	Introduction to Prompt Engineering
CIS 365	Advanced Artificial Intelligence Applications

Subtotal: 13.5

All courses are 4.5 quarter credit hours.

Undergraduate Certificate, Health Information Management and Analytics

The Health Information Management and Analytics certificate prepares students to obtain, analyze, and protect patient health information essential to quality care. Students will learn about roles, process, and functions in healthcare settings through survey of health informatics, health records and information exchange, data management and analytics, software applications used in the US Healthcare System, as well as data use and presentation in healthcare.

The Health Information Management and Analytics certificate is available in an online-only format. This certificate is available to students in the Bachelor of Science in Health Services Administration program.

Students are advised to review the [Undergraduate Degree Conferral Requirements](#) (p. 53) to ensure they satisfy all of the general requirements for an undergraduate degree, including the minimum grade that must be earned in certain courses.

REQUIREMENTS

Required Courses

HSA 350	Survey of Health Informatics
HSA 352	Electronic Health Records and Information Exchange
HSA 355	Data Management and Analytics
HSA 410	Health IT Applications
HSA 412	Data Application and Presentation in Healthcare

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

Undergraduate Certificate, Information Technology Fundamentals

The IT Fundamentals Certificate is designed to prepare students to apply technologies and practices commonly used in industry such as computer software, hardware, and networking to design and maintain the technology infrastructure of organizations. Students will learn how to configure operating systems, networks, software applications, file systems, file servers, and web systems. Topics include an overview of the most common IT infrastructures, networking protocols, topologies, hardware, and operating systems.

The IT Fundamentals certificate is available to students in the Bachelor of Science in Information Technology program and the Associate in Arts in Information Technology program. This certificate is available in an online-only format.

Students are advised to review the [Undergraduate Degree Conferral Requirements](#) (p. 53) to ensure they satisfy all of the general requirements for an undergraduate degree, including the minimum grade that must be earned in certain courses.

REQUIREMENTS

Required Courses

CIS 101	Navigating a Digital World
CIS 106	Introduction to Information Technology
CIS 109	Introduction to Management Information Systems
CIS 175	Introduction to Networking
CIS 312	Computer Architecture

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

Undergraduate Certificate, Public Health

The Public Health Certificate provides students with a foundation to the field of public health, basic biostatistics, epidemiology, disease prevention, and emergency management & preparedness. Students will be prepared to pursue entry level careers in public health.

The Public Health certificate is available in an online-only format. This certificate is available to students in the Bachelor of Science in Health Services Administration program.

Students are advised to review the [Undergraduate Degree Conferral Requirements](#) (p. 53) to ensure they satisfy all of the general requirements for an undergraduate degree, including the minimum grade that must be earned in certain courses.

REQUIREMENTS

Required Courses

HSA 360	Foundations of Public Health
HSA 362	Basic Biostatistics
HSA 365	Epidemiology
HSA 420	Disease Prevention
HSA 422	Emergency Management & Preparedness

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

Undergraduate Certificate, Python Programming

The Python Programming Certificate is designed to prepare students to design, develop and deploy software solutions using the Python Object Oriented Programming language, while also learning how to leverage GitHub, an essential web-based team collaboration tool. Students will learn to design, implement, test, and debug a variety of programs. Topics include classes, exceptions, modules, files, inheritance, recursion, searching and sorting, linked lists, stacks, and queues.

The Python Programming certificate is only available to students in the Bachelor of Science in Information Technology program. This certificate is available in an online-only format.

Students are advised to review the [Undergraduate Degree Conferral Requirements](#) (p. 53) to ensure they satisfy all of the general requirements for an undergraduate degree, including the minimum grade that must be earned in certain courses.

Diploma in Acquisition and Contract Management

Strayer University programs in acquisition and contract management are designed to provide current and relevant knowledge of contract management principles and policies. The programs prepare students for careers in contract management positions in the corporate world and government agencies.

Strayer business programs create value for students by providing a flexible, innovative and career-focused experience to maximize their economic mobility and empower them to succeed in business.

Also available: Associate in Arts in Acquisition and Contract Management (p. 77), a Bachelor of Business Administration (p. 83) with a concentration in Acquisition and Contract Management (p. 84), and a Master of Business Administration (p. 100) with a concentration in Acquisition.

This program is not available in Arkansas or North Carolina. This program is not available at the New Jersey or South Carolina campuses and is available in an online-only format to New Jersey and South Carolina students. This program is not available to any

student residing in New Hampshire or Oklahoma.

Students are advised to review the [Undergraduate Degree Conferral Requirements](#) (p. 53) to ensure they satisfy all of the general requirements for an undergraduate degree, including the minimum grade that must be earned in certain courses.

REQUIREMENTS

Required Courses

ACC 100	Accounting I
BUS 100	Introduction to Business
BUS 230	Purchasing and Materials Management
BUS 315	Cost and Price Analysis
BUS 319	Principles of Federal Acquisition and Contract Management
BUS 330	Contract Administration and Management
BUS 340	Contract and Purchasing Negotiation Techniques
BUS 375	Project Management
CIS 101	Navigating a Digital World
FIN 100	Principles of Finance
LEG 440	Procurement and Contract Law
MAT 110	Using Math to Inform Your World

Subtotal: 54.0

All courses are 4.5 quarter credit hours.

Licensed Practical Nurse Diploma

The Licensed Practical Nurse (LPN) program is a diploma program dedicated to preparing compassionate and skilled nurses who are committed to providing high-quality, patient-focused care. The program aims to address the growing need for qualified healthcare professionals and make a significant contribution to the well-being of communities by:

- Equipping students with the fundamental knowledge and clinical skills necessary to excel in a variety of healthcare settings including acute care.
- Fostering a supportive learning environment that emphasizes critical thinking, collaboration, and ethical decision-making.
- Providing knowledge and skills for comprehensive patient care, utilizing evidence-based practices to ensure optimal patient outcomes.

Graduates of the LPN program will develop the knowledge and skills to be prepared to deliver safe and effective care to patients across the lifespan, work effectively as a part of a healthcare team, and contribute positively to the healthcare system.

Students are advised to review the [Undergraduate Degree Conferral Requirements](#) (p. 53) to ensure they satisfy all of the general requirements for an undergraduate degree, including the

minimum grade that must be earned in certain courses.

This program is currently available only in Washington, D.C. This program does not currently offer access to federal financial aid from the U.S. Department of Education.

REQUIREMENTS

Associate in Arts in Accounting

The Associate in Arts in Accounting program prepares students for entry-level positions in business.

The graduate of the Associate in Arts program may apply all the credits earned toward a Bachelor of Science in Accounting (p. 81).

Courses earned from Strayer University do not automatically qualify the holder to participate in professional licensing examinations to practice certain professions in any state. All students interested in practicing a regulated accounting profession requiring licensure from a state regulatory agency should contact the appropriate state regulatory agency in their field of interest. A listing of contact information for the most common accounting-related licensing boards is available on the Strayer website at <https://www.strayer.edu/student-consumer-information/licensed-careers>.

Licensing information is also available from the following websites: American Institute of Certified Public Accountants (www.aicpa.org), National Association of State Boards of Accountancy (www.nasba.org), Institute of Internal Auditors (www.theiaa.org), Institute of Management Accountants (www.imanet.org) and the Accreditation Council for Accountancy and Taxation (www.acatcredentials.org).

This program is not available at the Arkansas and New Jersey

campuses and is available in an online-only format to Arkansas and New Jersey students.

Strayer business programs create value for students by providing a flexible, innovative and career-focused experience to maximize their economic mobility and empower them to succeed in business. The Strayer University Associate in Arts in Accounting degree program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP), 11520 West 119th Street, Overland Park, KS 66213, 913.339.9356.

Students are advised to review the Undergraduate Degree Conferral Requirements (p. 53) to ensure they satisfy all of the general requirements for an undergraduate degree, including the minimum grade that must be earned in certain courses.

Associate in Arts in Acquisition and Contract Management

The Associate in Arts in Acquisition and Contract Management program focuses on developing general business skills to acquire and manage contracts, including scheduling, cost and price. Students will be prepared to manage contracts. The program will also equip students to work within an organization to acquire and manage federal, state or local business contracts.

Graduates of this program may be able to apply all credits earned toward a Bachelor of Business Administration (p. 83).

Also available: a Bachelor of Business Administration (p. 83) with a concentration in Acquisition and Contract Management (p. 84), and a Master of Business Administration (p. 100) with a concentration in Acquisition.

This program is not available at the Arkansas or New Jersey campuses and is available in an online-only format to Arkansas and New Jersey students. Pennsylvania students enrolled in this program must follow the requirements as set forth in the Pennsylvania section (p. 132) of the catalog.

Strayer business programs create value for students by providing a flexible, innovative and career-focused experience to maximize their economic mobility and empower them to succeed in business. The Strayer University Associate in Arts in Acquisition and Contract Management degree program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP), 11520 West 119th Street, Overland Park, KS 66213, 913.339.9356.

Associate in Arts in Information Technology

The Associate in Arts in Information Technology program is designed to prepare students for the technologies required to support organizational processes. This program allows students to explore state-of-the-art information technology systems and concepts in order to gain a broader awareness of the competencies and skills required to support such systems.

Graduates of this program may apply all the credits earned toward a Bachelor of Science in Information Technology (p. 90).

Also available are a Bachelor of Science in Information Technology (p. 90), Master of Science in Information Systems (p. 108) and a Master of Science in Cybersecurity (p. 107).

This program is not available at Arkansas, New Jersey, North Carolina or Pennsylvania campuses and is available in an online-only format to Arkansas, New Jersey, North Carolina and Pennsylvania students.

Credits earned from Strayer University do not automatically qualify the holder to participate in professional licensing examinations to practice certain information systems professions. General information about information systems licensure options is available from vendor-specific websites such as Microsoft, Cisco, Project Management Institute, CompTIA or EC-Council.

The university recognizes that the IT industry uses IT certifications as a means of vetting potential IT professionals in the fields of computer networks, database management, network security, technical support and more. Therefore, a number of carefully chosen courses have embedded IT certification training along with academic rigor in order to prepare students for certification. Review the undergraduate-level CIS course descriptions in the course descriptions section of this catalog to determine which courses in this program have certification training availability and the requirements associated with each course. General information about information systems certifications is available from vendor-specific websites such as Microsoft, Cisco, Project Management Institute, CompTIA or EC-Council.

Students are advised to review the [Undergraduate Degree](#)

Bachelor of Science in Accounting

The principal objectives of the Bachelor of Science in Accounting program are to provide students with a broad, fundamental knowledge of the field, to prepare them for employment in accounting careers, and to provide a strong liberal arts component that develops communications skills, information literacy, abstract thinking and critical analysis and fosters historical, political and social awareness.

Courses earned from Strayer University do not automatically qualify the holder to participate in professional licensing examinations to practice certain professions in any state. All students interested in practicing a regulated accounting profession requiring licensure from a state regulatory agency should contact the appropriate state regulatory agency in their field of interest. A listing of contact information for the most common accounting-related licensing boards is available on the Strayer website at <https://www.strayer.edu/student-consumer-information/licensed-careers>.

Licensing information is also available from the following websites: American Institute of Certified Public Accountants (www.aicpa.org), National Association of State Boards of Accountancy (www.nasba.org), Institute of Internal Auditors (www.theiia.org), Institute of Management Accountants (www.imanet.org) and the Accreditation Council for Accountancy and Taxation (www.acatcredentials.org).

Most states have additional requirements directly related to CPA examination preparation. Students should consult their respective state Board of Accountancy for further details.

Also available are an Associate in Arts in Accounting (p. 76) and Master of Science in Accounting (p. 99).

Students enrolled in the Bachelor of Science in Accounting program in Arkansas (p. 115) and New Jersey (p. 123) must follow the program requirements in the catalog sections

applicable to their state.

Strayer business programs create value for students by providing a flexible, innovative and career-focused experience to maximize their economic mobility and empower them to succeed in business. The Strayer University Bachelor of Science in Accounting degree program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP), 11520 West 119th Street, Overland Park, KS 66213, 913.339.9356.

Bachelor of Applied Science in Management

The mission of the Bachelor of Applied Science in Management is to further the mission and philosophy of Strayer University by providing a unique degree program that builds upon the technical skills students acquire in technical or allied health associate degree programs. The program is designed to provide management and soft-skill competencies to those with technical expertise. This will allow technical and allied health professionals to gain management skills and advance their careers.

This degree is not specifically designed to prepare students for post-graduate study. Students planning to pursue a graduate degree should carefully review the entrance requirements of their selected graduate degree to ensure that the Bachelor of Applied Science in Management degree meets the undergraduate degree completion requirements for entry into the graduate degree program of their choice. Students desiring to pursue graduate-level study should consult with a dean, advisor or coach.

The Bachelor of Applied Science in Management program is available in an online-only format in Arkansas, Delaware, Maryland, New Jersey, North Carolina and Pennsylvania.

Strayer business programs create value for students by providing a flexible, innovative and career-focused experience to maximize their economic mobility and empower them to succeed in business. The Strayer University Bachelor of Applied Science in Management degree program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP), 11520

West 119th Street, Overland Park, KS 66213, 913.339.9356.

Subtotal: 22.5

Management Concentration

The Management Concentration will support students with developing the fundamental skills of management. Students will learn how to determine and set the tone for organizational behaviors, management of human capital, projects and operations. Students will be equipped to work in small, medium and large organizations.

BUS 310	Human Resource Management
BUS 322	Organizational Behavior

BUS 375	Project Management
BUS 402	Small Business Management
BUS 430	Operations Management

Subtotal: 22.5

Marketing Concentration

The Marketing Concentration explores the essentials of marketing. Students will learn to understand consumer behavior and how to market products to a target audience and develop effective strategies across traditional channels and social media. Students will be prepared for careers in any industry seeking marketing professionals.

MKT 305	Consumer Behavior
MKT 312	Marketing Communications
MKT 330	Marketing Research and Digital Analysis
MKT 465	Social Media Strategy
MKT 475	Strategic Marketing

Subtotal: 22.5

Project Management Concentration

The Project Management Concentration will focus on the essential skills of a project manager. Students will be prepared to support human capital with reaching project goals and milestones. The student will learn to manage project contracting and procurement, and develop methods for managing project risk. Students will be equipped to serve in roles where project management skills are needed within the business.

BUS 375	Project Management
BUS 377	Managing Project Risk
BUS 380	Managing Project Teams
BUS 419	Project Estimating and Budgeting
BUS 437	Project Procurement Management

Subtotal: 22.5

Total Credit Hours: 180.0

Bachelor of Science in Criminal Justice*

The Bachelor of Science in Criminal Justice provides students with the knowledge, skills and professional abilities relevant to the criminal justice field, as well as a strong liberal arts component that develops communications skills, information literacy, abstract thinking and critical analysis and fosters historical, political and social awareness. Students will explore the theoretical, operational and legal components of law enforcement and the prevention, adjudication and correction of juvenile and adult crime. Graduates are prepared for careers in the public or private sector of criminal justice or cybercrime and security.

The Bachelor of Science in Criminal Justice program offers area concentrations that enable students to tailor their degrees to their careers and educational goals. Concentrations include:

- Artificial Intelligence in Criminal Justice**
- Probation and Parole***
- Computer Forensics
- Crime and Criminal Behavior
- Criminal Justice Administration
- Homeland Security and Emergency Management

Completion of the Strayer University Bachelor of Science in Criminal Justice program does not guarantee that a student has met the requirements for employment in the criminal justice field. Prior to enrolling in the program, students are encouraged to consult the applicable licensing board in the field of their employment. Students should be advised that many criminal justice employers take into account the following factors when determining eligibility for employment: U.S. citizenship, state residency, criminal background screening, physical and psychological health, age and military discharge information. Links to the most commonly requested information for regulated professions are available on the Strayer website at <https://www.strayer.edu/student-consumer-information/licensed-careers>.

*This program is not available at Maryland campuses and is available in an online-only format to Maryland students. Students enrolled in this program in Arkansas (p. 118) and New Jersey (p. 127) must follow the requirements as set forth in the catalog section applicable to their state.

**Artificial Intelligence in Criminal Justice: This concentration is only available online.

***Probation and Parole: For students in New Jersey, this concentration is available only online.

The university recognizes that the IT industry uses IT certifications as a means of vetting potential IT professionals in the fields of network security and cybersecurity. Therefore, a number of carefully chosen courses have embedded IT certification training along with academic rigor in order to prepare students for being certified. Review the undergraduate-level CIS course descriptions (p. 145) in the course descriptions section of this catalog to determine which courses in this program have certification training availability and the requirements associated with each course. Certifications are the best means of validating a student's skills and knowledge.

Students are advised to review the [Undergraduate Degree Conferral Requirements](#) (p. 53) to ensure they satisfy all of the general requirements for an undergraduate degree, including the minimum grade that must be earned in certain courses.

REQUIREMENTS

Major

BUS 300 Public Relations
OR

CIS 324	Ethics in IT
CRJ 100	Introduction to Criminal Justice
CRJ 105	Crime and Criminal Behavior
CRJ 150	Criminal Justice Report Writing
CRJ 180	Juvenile Delinquency and Justice
CRJ 220	Ethics and Leadership in Criminal Justice
CRJ 317	Criminal Justice Technology
CRJ 320	Criminal Investigation
CRJ 325	Criminal Procedure
CRJ 499	Undergraduate Capstone in Criminal Justice
LEG 320	Criminal Law
LEG 420	U.S. Courts
SOC 205	Society, Law and Government
SOC 210	Social Intelligence
SOC 400	Sociology of Class, Gender, Ethnicity, and Race

Subtotal: 67.5

Concentration

Students must choose one of the concentrations (p. 87) listed to complete the Bachelor of Science in Criminal Justice.

Subtotal: 18.0

General Education Core

CIS 101	Navigating a Digital World
COM 100	Communication at Work
COM 200	Communication: The Key to Working Together
ECO 110	Taking Charge of Your Economic Future

WRK 100	Preparing for the Future of Work
Subtotal: 67.5	

Electives

These courses are selected in consultation with a dean, advisor or coach; within this component it is possible for students to develop a minor in a second area of study (see Minors). (p. 92)

Subtotal: 27.0

CONCENTRATION REQUIREMENTS

Artificial Intelligence in Criminal Justice Concentration

The Artificial Intelligence in Criminal Justice concentration integrates cutting-edge technology and artificial intelligence into the field of criminal justice. Students will gain a deep understanding of AI, its history, applications across the criminal justice system, and ethical considerations. This concentration equips graduates with the knowledge and skills needed to navigate the intersection of AI and criminal justice, making them well-prepared for the evolving landscape of law enforcement, crime prevention and many other criminal justice applications.

CIS 211	Introduction to Artificial Intelligence
CIS 214	Introduction to Prompt Engineering
CIS 365	Advanced Artificial Intelligence Applications
CRJ 315	Artificial Intelligence in Criminal Justice

Subtotal: 18.0

Computer Forensics Concentration

The Computer Forensics Concentration is designed to provide opportunities for students to explore computer networking, security and forensics technologies. Students will learn how to gather evidence to identify, track and prosecute cybercriminals students, as well as focusing on networking protocols, topologies, hardware and operating systems.

CIS 170	Information Technology in Criminal Justice
CIS 175	Introduction to Networking
CIS 333	Networking Security Fundamentals
SEC 340	Computer Forensic Technology

Subtotal: 18.0

Crime and Criminal Behavior Concentration

The Crime and Criminal Behavior Concentration is designed to provide students opportunities to explore the logical structure of criminology theories. Students are introduced to the application of major theories, concepts of crime, criminal justice, and criminology as well as how criminology theories are used to formulate crime prevention programs and to provide a better understanding of criminal and delinquent behavior.

CRJ 310	Law Enforcement Operations and Management
	OR
CRJ 400	Crime Prevention Strategies
CRJ 322	The Criminal Mind
CRJ 331	Forensic Psychology
CRJ 435	Drugs, Gangs and Organized Crime

Subtotal: 18.0

Criminal Justice Administration Concentration

The Criminal Justice Administration Concentration is designed to provide opportunities for students to understand how criminal agencies operate. This concentration focuses on the leadership and operations of the intricate workings of the United States criminal justice system.

CRJ 310	Law Enforcement Operations and Management
	OR
CRJ 400	Crime Prevention Strategies
CRJ 330	Comparative Criminal Justice
CRJ 410	Corrections
CRJ 430	Advanced Law Enforcement

Subtotal: 18.0

Homeland Security and Emergency Management Concentration

The Homeland Security and Emergency Management Concentration is designed to provide opportunities for students to explore the operationally oriented field of emergency response management, including strategic responses to national security threats like terrorism, natural disasters, and global security issues.

CRJ 420	Emergency Management Procedures
CRJ 440	Terrorism and Antiterrorism
SEC 310	Homeland Security Organization and Administration
SEC 315	Security Assessment and Solutions

Subtotal: 18.0

Probation and Parole Concentration

The Probation and Parole Concentration is designed to provide opportunities for students to examine corrections, probation and parole in both concepts and procedures. This concentration focuses on the continuum of services provided in the criminal justice system that manages and supervises criminal and delinquent offenders.

CRJ 322	The Criminal Mind
---------	-------------------

CRJ 331	Forensic Psychology
CRJ 410	Corrections
CRJ 415	Community Corrections

Subtotal: 18.0

All courses are 4.5 quarter credit hours.

Total Credit Hours: 180.0

Bachelor of Science in Health Services Administration

The Bachelor of Science in Health Services Administration prepares students to be transformational healthcare leaders equipping them with the knowledge and skills needed for administration and management in healthcare, non-profit and corporate settings. Students will gain an introduction to business, accounting, core areas of health services administration and management such as medical terminology, healthcare economics and finance, ethics, electronic health records, aspects of human resources, marketing, data quality and systems, policy, as well as regulations and laws applicable to the field of healthcare.

The Bachelor of Science in Health Services Administration program offers concentrations that enable students to tailor their degrees to their careers and educational goals. Concentrations are available in:

- Entrepreneurship
- Health Information Management and Analytics
- Human Resource Management
- Management
- Project Management
- Public Health

This program is available in an online-only format.

Students are advised to review the [Undergraduate Degree Conferral Requirements](#) (p. 53) to ensure they satisfy all of the general requirements for an undergraduate degree, including the minimum grade that must be earned in certain courses.

REQUIREMENTS

Major

BUS 100	Introduction to Business
ACC 100	Accounting I
HSA 110	Navigating Healthcare with Innovation
HSA 115	Healthcare Communication and Terminology
HSA 225	Economics and Finance for Healthcare Leaders
HSA 235	Ethical Decision Making for Leaders
HSA 255	Introduction to Electronic Health Records
HSA 300	Health Services Organization Management

HSA 305	Health Services Marketing
HSA 315	Health Information Systems
HSA 320	Healthcare Human Resource Management
HSA 405	Healthcare Policy and Law
HSA 475	Innovation, Research, and Data Analytics
HSA 499	Undergraduate Health Services Administration Capstone

Subtotal: 63

Concentration

Students must choose one of the concentrations (p. 88) listed to complete the Bachelor of Science in Health Services Administration.

Subtotal: 22.5

General Education Core

CIS 101	Navigating a Digital World
COM 100	Communication at Work
COM 200	Communication: The Key to Working Together
ECO 110	Taking Charge of Your Economic Future
ENG 116	Discover the Writer in You
ENG 201	The Power of Persuasion
HIS 110	U.S. History: Learn from the Past, Prepare for the Future
HUM 201	Exploring Cultures: Adapting in a Global World
MAT 110	Using Math to Inform Your World

Electives

These courses are selected in consultation with a dean, advisor or coach; within this component it is possible for students to develop a minor in a second area of study (see Minors).

Subtotal: 27.0

CONCENTRATION REQUIREMENT

Entrepreneurship Concentration

The Entrepreneurship Concentration teaches students to develop critical thinking and decision-making skills to identify new business opportunities. Students will learn to create a business plan to raise capital to fund business ventures. Students will be prepared to organize, plan, manage and control the functions of the business to accelerate business growth.

BUS 313	Introduction to Entrepreneurship
BUS 363	Technology and Innovation in Entrepreneurship
BUS 435	Management and Growth in Entrepreneurship
BUS 463	Entrepreneurship Feasibility and Analysis
FIN 317	Financing Entrepreneurships

Subtotal: 22.5

Health Information Management and Analytics Concentration

The Health Information Management and Analytics concentration prepares students to obtain, analyze, and protect patient health information essential to quality care. Students will learn about roles, process, and functions in healthcare settings through survey of health informatics, health records and information exchange, data management and analytics, software applications used in the US Healthcare System, as well as data use and presentation in healthcare.

HSA 350	Survey of Health Informatics
HSA 352	Electronic Health Records and Information Exchange
HSA 355	Data Management and Analytics
HSA 410	Health IT Applications
HSA 412	Data Application and Presentation in Healthcare

Subtotal: 22.5

Human Resource Management Concentration

The Human Resources Management Concentration will examine the roles and functions of human resources professionals. Students will focus on staffing, development planning, compensation and global human resource management. Students will be prepared for careers seeking human resource professionals in a variety of industries.

BUS 310	Human Resource Management
BUS 325	Global Human Resource Management
BUS 335	Staffing Organizations

BUS 407	Training and Development
BUS 409	Compensation Management

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

Management Concentration

The Management Concentration will support students with developing the fundamental skills of management. Students will learn how to determine and set the tone for organizational behaviors, management of human capital, projects and operations. Students will be equipped to work in small, medium and large organizations.

BUS 310	Human Resource Management
BUS 322	Organizational Behavior
BUS 375	Project Management
BUS 402	Small Business Management
BUS 430	Operations Management

Subtotal: 22.5

Project Management Concentration

The Project Management Concentration will focus on the essential skills of a project manager. Students will be prepared to support human capital with reaching project goals and milestones. The student will learn to manage project contracting and procurement. As well as develop methods for managing project risk. Students will be equipped to serve in roles where project management skills are needed within the business.

BUS 375	Project Management
BUS 377	Managing Project Risk
BUS 380	Managing Project Teams
BUS 419	Project Estimating and Budgeting
BUS 437	Project Procurement Management

Subtotal: 22.5

Public Health Concentration

The Public Health Concentration provides students with a foundation to the field of public health, basic biostatistics, epidemiology, disease prevention, and emergency management and preparedness. Students will be prepared to pursue entry level careers in public health.

HSA 360	Foundations of Public Health
HSA 362	Basic Biostatistics
HSA 365	Epidemiology
HSA 420	Disease Prevention

HSA 422 Emergency Management & Preparedness

Subtotal: 22.5

Total Credit Hours: 180.0

Bachelor of Science in Information Technology

The Bachelor of Science in Information Technology program provides students with the skills, knowledge and proficiency to support, troubleshoot and design key elements of the information technology infrastructure—from websites to networks—in organizations ranging from business and government to healthcare and many more. Students will be exposed to the essential skills needed to support the tactical technical operations of today’s global companies, as well as the insight and critical thinking required to analyze and effectively deploy forward-looking technologies. Students are expected to demonstrate computer and critical-thinking skills in order to succeed in the Bachelor of Science in Information Technology program. Courses within the major component of the curriculum are overarching by design and will prepare students for success.

This program applies the use of technologies and practices employed by numerous global organizations with an emphasis on networking, security, programming and technology infrastructure. Graduates from the Bachelor of Science in Information Technology possess a strong combination of technical skills, knowledge and practical, hands-on expertise to support an organization’s technology infrastructure and the people who use it.

Within this curriculum, students have the option of choosing a concentration in:

- Artificial Intelligence*
- Cloud Computing*
- Cybersecurity
- Data Analytics
- Data Management
- IT Project Management
- Networking
- Software Development

Students enrolled in this program in Arkansas must follow the program requirements in the Arkansas (p. 120) section of the catalog. This program is not available at the New Jersey, North Carolina or Pennsylvania campuses and is available in an online-only format to New Jersey, North Carolina and Pennsylvania students.

*The Artificial Intelligence and Cloud Computing concentrations are available in an online-only format.

Credits earned from Strayer University do not automatically qualify the holder to participate in professional licensing examinations to practice certain information systems professions. General information about information systems licensure options

is available from vendor-specific websites such as Microsoft, Cisco, Project Management Institute, CompTIA or EC-Council.

The university recognizes that the IT industry uses IT certifications as a means of vetting potential IT professionals in the fields of computer networks, database management, network security, technical support and more. Therefore, a number of carefully chosen courses have embedded IT certification training along with academic rigor in order to prepare students for certification. Review the undergraduate-level CIS course descriptions in the course descriptions section of this catalog to determine which courses in this program have certification training availability and the requirements associated with each course. General information about information systems certifications is available from vendor-specific websites such as Microsoft, Cisco, Project Management Institute, CompTIA or EC-Council.

Also available are an Associate in Arts in Information Technology (p. 79), a Master of Science in Information Systems (p. 108), and a Master of Science in Cybersecurity (p. 107).

Students are advised to review the [Undergraduate Degree Conferral Requirements](#) (p. 53) to ensure they satisfy all of the general requirements for an undergraduate degree, including the minimum grade that must be earned in certain courses.

REQUIREMENTS

Major

BUS 100	Introduction to Business

CONCENTRATION REQUIREMENTS

Artificial Intelligence Concentration

The Artificial Intelligence (AI) Concentration is designed for students who are interested in gaining a solid understanding of AI concepts and their practical applications. The curriculum is carefully structured to provide a step-by-step progression of knowledge, starting with an introduction to AI, through Python programming for AI and culminating with Deep Learning and

Neural Networks. Through a combination of theoretical concepts, hands-on programming exercises, and practical applications, students will develop the skills necessary to understand, implement, and apply AI techniques and tools effectively.

CIS 211	Introduction to Artificial Intelligence
CIS 214	Introduction to Prompt Engineering
CIS 363	Python Programming for Artificial Intelligence
CIS 439	Deep Learning and Neural Networks

Subtotal: 18.0

Artificial Intelligence (AI): This concentration is only available online.

Cloud Computing Concentration

The Cloud Computing Concentration is designed to teach students the skills needed to design and administer cloud environments, with an emphasis on the services provided by the major cloud providers Amazon Web Services (AWS) and Microsoft Azure.

CIS 332	Network Server Administration I
CIS 437	Cloud Architecture and Design
CIS 447	AWS Cloud Operations I
CIS 448	AWS Cloud Operations II

Subtotal: 18.0

Cloud Computing: This concentration is only available online.

Cybersecurity Concentration

The Cybersecurity Concentration is designed to teach students the skills integral to being able to secure an organization's data and operations against cybersecurity concerns.

CIS 332	Network Server Administration I
SEC 420	Perimeter Defense Techniques
SEC 435	Network Penetration Testing
SEC 340	Computer Forensic Technology

Subtotal: 18.0

Data Analytics Concentration

The Data Analytics Concentration is designed to teach students the skills integral to being able to design, develop and deploy systems that support the data analytics needs of an organization.

CIS 356	Decision Support and Business Intelligence
CIS 362	Data Analytics I
CIS 461	Data Analytics II
CIS 429	Data Warehouse Planning

Subtotal: 18.0

Data Management Concentration

The Data Management Concentration is designed to teach students the skills integral to being able to administer traditional and cloud-based database systems to meet business operational needs.

CIS 377	SQL Programming II
CIS 424	Database Administration I
CIS 428	Database Administration II
CIS 429	Data Warehouse Planning

Subtotal: 18.0

IT Project Management Concentration

The IT Project Management Concentration is designed to teach students the skills integral to being able to develop project plans to meet business goals.

CIS 348	Information Technology Project Management
BUS 377	Managing Project Risk
BUS 419	Project Estimating and Budgeting
CIS 443	Agile Project Management

Subtotal: 18.0

Networking Concentration

The Networking Concentration is designed to teach students the skills integral to being able to design and administer computer networks, both LANs and WANs, to meet organizational business and cybersecurity requirements.

CIS 332	Network Server Administration I
CIS 337	Internetworking Basics
CIS 357	Advanced Internetworking
CIS 401	Network Server Administration II

Subtotal: 18.0

Software Development Concentration

The Software Development Concentration is designed to teach students the skills integral to being able to design, develop and deploy software solutions to meet business needs.

CIS 361	Object Oriented Computer Programming II
CIS 375	Human-Computer Interaction
CIS 406	JAVA Programming I
CIS 407	JAVA Programming II

Subtotal: 18.0

All courses are 4.5 quarter credit hours.

Total Credit Hours: 180.0

University Undergraduate Minors

Students in a bachelor's degree program can develop additional skills by pursuing a minor in a second area of study. Minors are groups of five courses in select subject areas that can fulfill part of the elective requirements in a bachelor's degree program. For any minor course that also appears in the student's major or concentration areas, an equivalent course must be substituted and taken in its place to fulfill the minor requirement. To be eligible for the minor, no more than two courses may overlap between the minor, major, and concentration areas. Students must declare a minor as soon as possible after enrolling in their program and no later than the beginning of their last term of enrollment. Minors cannot be added to a student's curriculum after their degree has been conferred.

The university recognizes that the IT industry uses IT certifications as a means of vetting potential IT professionals in the fields of computer networks, database management, network security, technical support and more. Therefore, a number of carefully chosen courses have embedded IT certification training along with academic rigor in order to prepare students for being certified. Review the undergraduate-level CIS course descriptions (p. 145) in the course descriptions section of this catalog to determine which CIS courses throughout the university minors offerings have certification training availability and the requirements associated with each course. Certifications are the best means of validating a student's skills and knowledge.

UNIVERSITY UNDERGRADUATE MINORS

- Minor in Accounting (p. 93)
- Minor in Artificial Intelligence (p. 93)
- Minor in Cloud Computing (p. 93)
- Minor in Computer Programming (p. 93)
- Minor in Criminal Justice (p. 93)
- Minor in Cybersecurity and Digital Forensics (p. 93)
- Minor in Database Administration (p. 94)
- Minor in Data Analytics (p. 94)
- Minor in Entrepreneurship (p. 94)
- Minor in Finance (p. 94)
- Minor in General Business (p. 95)
- Minor in Health Services Administration (p. 95)
- Minor in Homeland Security and Emergency Management (p. 95)
- Minor in Human Resource Management (p. 95)
- Minor in Information Technology (p. 95)
- Minor in IT Project Management (p. 95)
- Minor in Management (p. 96)

- Minor in Marketing (p. 96)
- Minor in Networking (p. 96)
- Minor in Project Management (p. 96)
- Minor in Web Development (p. 96)

Accounting Minor REQUIREMENTS

Required Courses

ACC 206	Accounting II
ACC 307	Federal Taxation
ACC 309	Data Analytics for Accounting
ACC 350	Managerial Accounting
BUS 315	Cost and Price Analysis

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

Total Credit Hours: 22.5

Artificial Intelligence Minor

Disclaimers

Students electing this minor should take CIS 109 (p. 145) and CIS 110 (p. 145) to fulfill prerequisite requirements.

REQUIREMENTS

Required Courses

CIS 261	Object-Oriented Computer Programming I
CIS 211	Introduction to Artificial Intelligence
CIS 214	Introduction to Prompt Engineering
CIS 363	Python Programming for Artificial Intelligence
CIS 439	Deep Learning and Neural Networks

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

Total Credit Hours: 22.5

Cloud Computing Minor

Disclaimers

Students electing this minor should take CIS 109 (p. 145), CIS 175 (p. 145) and CIS 376 (p. 148) to fulfill prerequisite requirements.

REQUIREMENTS

Required Courses

CIS 111	Introduction to Relational Database
---------	-------------------------------------

Management Systems

OR

CIS 112	Introduction to Cloud Computing
CIS 332	Network Server Administration I

All courses are 4.5 quarter credit hours.

Total Credit Hours: 22.5

Computer Programming Minor REQUIREMENTS

Required Courses

CIS 110	Computer Programming Design
CIS 261	Object-Oriented Computer Programming I
CIS 361	Object Oriented Computer Programming II
CIS 406	JAVA Programming I
CIS 407	JAVA Programming II

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

Criminal Justice Minor REQUIREMENTS

Required Courses

CRJ 100	Introduction to Criminal Justice
CRJ 105	Crime and Criminal Behavior
CRJ 180	Juvenile Delinquency and Justice
CRJ 220	Ethics and Leadership in Criminal Justice
SOC 205	Society, Law and Government

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

This minor is not available to students in the Bachelor of Science in Criminal Justice degree program.

Cybersecurity and Digital Forensics Minor

REQUIREMENTS

Required Courses

CIS 175	Introduction to Networking
---------	----------------------------

CIS 333	Networking Security Fundamentals
SEC 340	Computer Forensic Technology
SEC 420	Perimeter Defense Techniques
SEC 435	Network Penetration Testing

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

The university recognizes that the IT industry uses IT certifications as a means of vetting potential IT professionals in the fields of computer networks, database management, network security, technical support and more. Therefore, a number of carefully chosen courses have embedded IT certification training along with academic rigor in order to prepare students for certification. Review the undergraduate-level CIS course descriptions (p. 145) in the course descriptions section of this catalog to determine which courses in this minor have certification training availability and the requirements associated with each course. Certifications are the best means of validating a student's skills and knowledge.

Database Administration Minor REQUIREMENTS

Required Courses

CIS 111	Introduction to Relational Database Management Systems
	OR
CIS 112	Introduction to Cloud Computing
CIS 376	SQL Programming
CIS 377	SQL Programming II
CIS 424	Database Administration I
CIS 428	Database Administration II

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

The university recognizes that the IT industry uses IT certifications as a means of vetting potential IT professionals in the fields of computer networks, database management, network security, technical support and more. Therefore, a number of carefully chosen courses have embedded IT certification training along with academic rigor in order to prepare students for certification. Review the undergraduate-level CIS course descriptions in the course descriptions section of this catalog to determine which courses in this minor have certification training availability and the requirements associated with each course. Please note that the cost for the exams is not included in the course, students must purchase these exams separately. Depending on the certification, additional work and study may have to be done outside of the course in order to prepare for the exam. Exam results are not guaranteed. Certifications are one of the best means of validating a student's skills and knowledge.

Students electing this minor should take CIS109 to fulfill

prerequisite requirements.

Total Credit Hours: 22.5

Data Analytics Minor REQUIREMENTS

Required Courses

CIS 110	Computer Programming Design
CIS 261	Object-Oriented Computer Programming I
CIS 356	Decision Support and Business Intelligence
CIS 362	Data Analytics I
CIS 461	Data Analytics II

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

Students electing this minor should take CIS 109 (p. 145) or CIS 111 (p. 145) to fulfill the CIS 356 prerequisite requirements.

Entrepreneurship Minor REQUIREMENTS

Required Courses

BUS 313	Introduction to Entrepreneurship
BUS 363	Technology and Innovation in Entrepreneurship
BUS 435	Management and Growth in Entrepreneurship
BUS 463	Entrepreneurship Feasibility and Analysis
FIN 317	Financing Entrepreneurships

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

Finance Minor REQUIREMENTS

Required Courses

ECO 320	Money and Banking
FIN 320	Investments
FIN 350	Financial Markets and Institutions
FIN 355	Financial Risk Analysis
FIN 405	Advanced Financial Management

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

General Business Minor REQUIREMENTS

Required Courses

ACC 100	Accounting I
BUS 302	Management Concepts
BUS 310	Human Resource Management
FIN 100	Principles of Finance
MKT 100	Principles of Marketing

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

This minor is not available to students in the Bachelor of Business Administration or Bachelor of Applied Science in Management degree programs.

Health Services Administration Minor REQUIREMENTS

Required Courses

HSA 300	Health Services Organization Management
HSA 305	Health Services Marketing
HSA 315	Health Information Systems
HSA 320	Healthcare Human Resource Management
HSA 405	Healthcare Policy and Law

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

Homeland Security and Emergency Management Minor REQUIREMENTS

Required Courses

CIS 170	Information Technology in Criminal Justice
CRJ 420	Emergency Management Procedures
CRJ 440	Terrorism and Antiterrorism
SEC 310	Homeland Security Organization and Administration
SEC 315	Security Assessment and Solutions

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

Human Resource Management Minor REQUIREMENTS

Required Courses

BUS 310	Human Resource Management
BUS 325	Global Human Resource Management
BUS 335	Staffing Organizations
BUS 407	Training and Development
BUS 409	Compensation Management

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

Information Technology Minor REQUIREMENTS

Required Courses

CIS 106	Introduction to Information Technology
CIS 110	Computer Programming Design
CIS 111	Introduction to Relational Database Management Systems
CIS 175	Introduction to Networking
CIS 312	Computer Architecture

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

This minor is not available to students in the Bachelor of Science in Information Technology degree program.

IT Project Management Minor REQUIREMENTS

Required Courses

BUS 375	Project Management
BUS 377	Managing Project Risk
BUS 419	Project Estimating and Budgeting
CIS 348	Information Technology Project Management
CIS 443	Agile Project Management

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

The university recognizes that the IT industry uses IT certifications as a means of vetting potential IT professionals in the fields of computer networks, database management, network security, technical support and more. Therefore, a number of carefully chosen courses have embedded IT certification training along with academic rigor in order to prepare students for certification. Review the CIS course descriptions in the course

descriptions section of this catalog to determine which courses in this minor have certification training availability and the requirements associated with each course. Certifications are the best means of validating a student's skills and knowledge.

Management Minor REQUIREMENTS

Required Courses

BUS 310	Human Resource Management
BUS 322	Organizational Behavior
BUS 375	Project Management
BUS 402	Small Business Management
BUS 430	Operations Management

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

Marketing Minor REQUIREMENTS

Required Courses

MKT 305	Consumer Behavior
MKT 312	Marketing Communications
MKT 330	Marketing Research and Digital Analysis
MKT 465	Social Media Strategy
MKT 475	Strategic Marketing

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

Networking Minor REQUIREMENTS

Required Courses

CIS 175	Introduction to Networking
CIS 332	Network Server Administration I
CIS 333	Networking Security Fundamentals
CIS 337	Internetworking Basics
CIS 357	Advanced Internetworking

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

The university recognizes that the IT industry uses IT certifications as a means of vetting potential IT professionals in the fields of computer networks, database management, network security, technical support and more. Therefore, a number of carefully chosen courses have embedded IT certification training along with academic rigor in order to prepare students for

certification. Review the undergraduate-level CIS course descriptions (p. 145) in the course descriptions section of this catalog to determine which courses in this minor have certification training availability and the requirements associated with each course. Certifications are the best means of validating a student's skills and knowledge.

Project Management Minor REQUIREMENTS

Required Courses

BUS 375	Project Management
BUS 377	Managing Project Risk
BUS 380	Managing Project Teams
BUS 419	Project Estimating and Budgeting
BUS 437	Project Procurement Management

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

The university recognizes that the IT industry uses IT certifications as a means of vetting potential IT professionals in the fields of computer networks, database management, network security, technical support and more. Therefore, a number of carefully chosen courses have embedded IT certification training along with academic rigor in order to prepare students for certification. Review the CIS course descriptions in the course descriptions section of this catalog to determine which courses in this minor have certification training availability and the requirements associated with each course. Certifications are the best means of validating a student's skills and knowledge.

Web Development Minor REQUIREMENTS

Required Courses

CIS 110	Computer Programming Design
CIS 111	Introduction to Relational Database Management Systems
CIS 307	Web Page Development I
CIS 373	Web Design and Development
CIS 309	Web Page Development II

Subtotal: 22.5

All courses are 4.5 quarter credit hours.

Graduate Certificate, Artificial Intelligence Systems Management

The Graduate Certificate Program in Artificial Intelligence (AI)

Systems Management is designed to provide professionals with the knowledge and skills necessary to effectively manage and optimize AI systems within organizations. The program focuses on AI strategies to enhance systems performance and capabilities, providing students with a comprehensive understanding of AI technologies, their implementation, and the management principles required to drive successful AI initiatives. This three-course program is suitable for individuals who are interested in the intersection of AI and business strategies, without assuming prior programming experience. The credits earned from this certificate may be applied towards the completion of the Master of Science in Information Systems, Artificial Intelligence (AI) Systems Management (p. 108) concentration.

This program is available in an online-only format.

Students are advised to review the Graduate Degree Conferral Requirements (p. 54) to ensure they satisfy all of the general requirements for a graduate degree, including the minimum grade that must be earned in certain courses.

Graduate Certificate, Corporate Learning

The Corporate Learning Certificate is designed to impart students with the skills and abilities necessary to be a learning and development professional in corporate settings. Students will learn about using instructional design to create meaningful and aligned learning experiences, specific approaches for planning and facilitating development programs in an organization, and strategies for creating training and assessing learning. Students will be prepared for careers in for-profit and non-profit settings. The credits earned from this certificate may be applied toward the completion of the Master of Educational Design and Technology degree program.

This certificate is only available in an online format.

Students are advised to review the [Graduate Degree Conferral Requirements](#) (p. 54) to ensure they satisfy all of the general requirements for a graduate degree, including the minimum grade that must be earned in certain courses.

REQUIREMENTS

Required Courses

EDU 533	Instructional Design and Development
EDU 535	Organizational Training and Development
EDU 565	Training Strategies and Assessment

Subtotal: 13.5

All courses are 4.5 quarter credit hours.

Graduate Certificate, Cybersecurity Management

The certificate in Cybersecurity is designed to foster technology leadership and strategic influence in deploying information technology solutions, thereby enhancing organizational performance and cybersecurity posture. The program emphasizes

the application of technology and management strategies to safeguard an organization's data and operations against cybersecurity concerns. This certificate offers an exciting educational opportunity for students seeking to broaden their knowledge, advance their careers, and explore new prospects in the realm of cybersecurity. Real-world cybersecurity case studies and advanced techniques are also presented to help students identify threats and cybercrimes and mitigate their impact on IT systems.

The credits earned from this certificate may be applied towards the completion of the Master of Business Administration Cybersecurity Management (p. 101) concentration as well as to the Master of Science in Cybersecurity (p. 107) program.

This program is available in an online-only format.

Students are advised to review the [Graduate Degree Conferral Requirements](#) (p. 54) to ensure they satisfy all of the general requirements for a graduate degree, including the minimum grade that must be earned in certain courses.

REQUIREMENTS

CIS 502	Theories of Security Management
CIS 527	IT Risk Management
CIS 552	Cybercrime Techniques and Response

Subtotal: 13.5

All courses are 4.5 quarter credit hours.

Graduate Certificate, Digital Entrepreneurship

Students in this certificate program will develop the skills necessary to manage and grow a digital business. As part of those skills, students will learn how to run the day-to-day operations of a modern business as well as the more strategic skills necessary to develop and then take a product to market. These three courses coincide with the Digital Entrepreneurship concentration in the MBA as it is designed for students who already possess core business skills but want to learn about the digital business world.

This certificate is only available in an online format.

Students are advised to review the [Graduate Degree Conferral Requirements](#) (p. 54) to ensure they satisfy all of the general requirements for a graduate degree, including the minimum grade that must be earned in certain courses.

REQUIREMENTS

Required Courses

BUS 523	High Growth Digital Startup Management
BUS 543	Digital Business Operations
BUS 553	Technology and Product Management

Subtotal: 13.5

All courses are 4.5 quarter credit hours.

Graduate Certificate, Educational Administration

The Educational Administration Certificate is designed to prepare students to be effective administrators in various educational settings. Students will learn how educational institutions fund and finance their operations, the strategies used to plan and lead initiatives, and the impact of public policy and politics on education. Students will be prepared for careers serving K-12 or higher education populations in public, private and government settings. The credits earned from this certificate may be applied towards the completion of the Master of Educational Design and Technology degree program.

This certificate is only available in an online format.

Students are advised to review the [Graduate Degree Conferral Requirements](#) (p. 54) to ensure they satisfy all of the general requirements for a graduate degree, including the minimum grade that must be earned in certain courses.

REQUIREMENTS

Required Courses

EDU 560	Public Policy and Political Influences in Education
EDU 561	Finance and Funding in Education
EDU 575	Strategic Planning and Leadership in Education

Subtotal: 13.5

All courses are 4.5 quarter credit hours.

Graduate Certificate, Instructional Design and Technology

The certificate in Instructional Design and Technology is designed to allow students to focus on the skills and abilities needed to design meaningful and aligned learning experiences that utilize appropriate technology. Students will learn about applying instructional design processes to develop engaging learning experiences, evaluating educational technology for relevance and need, and integrating that technology appropriately to enhance the learning experience. The credits earned from this certificate may be applied toward the completion of the Master of Educational Design and Technology degree program.

This program is available in an online-only format.

Students are advised to review the [Graduate Degree Conferral Requirements](#) (p. 54) to ensure they satisfy all of the general requirements for a graduate degree, including the minimum grade that must be earned in certain courses.

REQUIREMENTS

EDU 533	Instructional Design and Development
EDU 540	Designing, Developing and Evaluating

Educational Technology

EDU 542 Integrating Technology into Education

Subtotal: 13.5

All courses are 4.5 quarter credit hours.

Master of Science in Accounting

The Master of Science in Accounting program provides a well-balanced integration of theoretical accounting concepts and modern quantitative and qualitative methods in decision-making. The program curriculum presents specialized, graduate-level education that prepares students to become accounting professionals in public accounting firms, corporations, government, and nonprofit organizations. With an increased understanding of accounting management, analysis of accounts, business concepts, communication, and ethics, students will be prepared to advance in their careers in the field of accounting.

The Master of Science in Accounting provides students the opportunity to tailor their degree to fit their career and learning goals through the choice of a concentration in one of the following areas:

- Corporate Accounting
- Forensic Accounting
- Public Accounting*
- Taxation

Students who have not earned degrees from appropriate fields of study may be required to take additional coursework as a prerequisite for completing the program.

Courses earned from Strayer University do not automatically qualify the holder to participate in professional licensing examinations to practice certain professions in any state. All students interested in practicing a regulated accounting profession requiring licensure from a state regulatory agency should contact the appropriate state regulatory agency in their field of interest. A listing of contact information for the most common accounting-related licensing boards is available on the Strayer website at: <https://www.strayer.edu/student-consumer-information/licensed-careers>.

Licensing information is also available from the following websites: American Institute of Certified Public Accountants (<https://www.aicpa.org/>), National Association of State Boards of Accountancy (www.nasba.org), Institute of Internal Auditors (www.theiia.org), Institute of Management Accountants (www.imanet.org), and the Accreditation Council for Accountancy and Taxation (www.acatcredentials.org).

Most states have additional requirements directly related to CPA examination preparation. Students should consult their respective state Board of Accountancy for further details.

This program is not available at the New Jersey campus and is available in an online-only format to New Jersey students.

* Students in North Carolina must have completed a bachelor's degree in accounting in order to be admitted into the Public

Accounting concentration.

Strayer business programs create value for students by providing a flexible, innovative and career-focused experience to maximize their economic mobility and empower them to succeed in business. The Strayer University Master of Science in Accounting degree program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP), 11520 West 119th Street, Overland Park, KS 66213, 913.339.9356.

Students are advised to review the Graduate Degree Conferral Requirements (p. 54) to ensure they satisfy all of the general requirements for a graduate degree, including the minimum grade that must be earned in certain courses.

AREA I – CORE COMPONENT

Required Courses

ACC 557	Financial Accounting
ACC 560	Cost Accounting
ACC 562	Advanced Auditing
ACC 564	Accounting Information Systems
ACC 599	Graduate Accounting Capstone
ECO 550	Managerial Economics and Globalization
FIN 534	Financial Management
LEG 565	Commercial Law
MAT 540	Quantitative Methods

Subtotal: 40.5

AREA II – CONCENTRATION COMPONENT

Students must choose one of the following concentrations to complete the Master of Science in Accounting.

Corporate Accounting Concentration

The Corporate Accounting Concentration reviews advanced accounting concepts in accounting theory, organizational tax research and planning, and financial reporting and analysis. Through completing the Corporate Accounting Concentration in the MSAC program, students will apply advanced accounting theory, examine more complex concepts in organizational tax research and planning, and address concepts of financial reporting and analysis to make better informed decisions in a business environment.

ACC 563	Advanced Accounting Theory
ACC 565	Organizational Tax Research and Planning
ACC 573	Financial Reporting and Analysis

Subtotal: 13.5

Forensic Accounting Concentration

The Forensic Accounting Concentration provides students the knowledge and skills necessary to detect and prevent fraudulent activity in accounting. Students will learn skills in forensic

accounting, emerging auditing technologies, and fraud detection and prevention. Students will be prepared to mitigate risk of fraud in accounting practices.

ACC 571	Forensic Accounting
ACC 574	Emerging Auditing Technologies
ACC 578	Fraud Prevention and Detection

Subtotal: 13.5

Public Accounting Concentration*

The Public Accounting concentration reviews the functional knowledge and skills of the public accounting profession. Students will learn concepts in business law and tax, auditing within a business environment, and concepts in comprehensive financial accounting. Students will be able to perform comprehensive functions in financial accounting, tax, and audit functions for individuals and businesses.

ACC 575	Business Law and Tax
ACC 576	Auditing and Selected Discipline
ACC 577	Comprehensive Financial Accounting

Subtotal: 13.5

Taxation Concentration

The Taxation Concentration provides students the knowledge and skills necessary to evaluate and prepare tax related documentation to fulfill a specific business need. Students will learn skills in tax research and planning from the perspective of the individual, organization, and international perspective. Students will be able to demonstrate skills in assessing the taxation complexities of the federal income tax structure and income tax accounting related to individuals and proprietorships, corporations and partnerships, and key international tax systems.

ACC 555	Individual Tax Research and Planning
ACC 565	Organizational Tax Research and Planning
ACC 568	International Tax Planning and Research

Subtotal: 13.5

All courses are 4.5 quarter credit hours.

Total Credit Hours: 54.0

Master of Business Administration

The Master of Business Administration program offers a broad set of business management tools while also allowing students a choice of concentration in order to tailor their degrees to fit their careers and learning goals. The program curriculum prepares working professionals to become effective decision-makers and managers in a world increasingly affected by globalization, technology and ethical challenges. It is designed for working professionals from a wide range of backgrounds who wish to advance or enhance their business careers.

Students who have not had courses in certain fields of study may be required to take additional coursework as a prerequisite for

completing some of the concentrations.

The Master of Business Administration program will use basic computer literacy skills (such as word processing and use of spreadsheets) that will be expected in the workplace. Students entering the program are expected to have a basic knowledge of MS Office or equivalent.

The Master of Business Administration program is an exciting educational option for students looking to increase their understanding, advance their careers and expand their opportunities in the world of business.

Concentrations are available in the following areas:

(See Note below regarding study requirements for North Carolina and Pennsylvania students.)

- Accounting
- Acquisition
- Artificial Intelligence (AI) Systems Management*
- Business Data
- Cybersecurity Management*
- Digital Entrepreneurship*
- Finance
- Health Services Administration
- Human Resource Management
- Management
- Marketing
- Professional Studies (This concentration is called the MBA Graduate Elective in North Carolina.)
- Project Management
- Public Administration

*Artificial Intelligence (AI) Systems Management, Cybersecurity Management and Digital Entrepreneurship: These concentrations are only available online.

Note: Availability subject to state regulatory approvals, may not be available in all states. For students residing in North Carolina and Pennsylvania, in order to earn the Master of Business Administration, they must complete 54 quarter credit hours composed of the required courses and a concentration. Please see the North Carolina (p. 129) or Pennsylvania (p. 133) state-specific curriculum information for program requirements details applicable in those states. For North Carolina and Pennsylvania students completing the Artificial Intelligence (AI) Systems Management, Business Data and Cybersecurity Management concentrations, these concentrations are only available online in these states.

Strayer business programs create value for students by providing a flexible, innovative and career-focused experience to maximize their economic mobility and empower them to succeed in business. The Strayer University Master of Business Administration degree program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP), 11520

West 119th Street, Overland Park, KS 66213, 913.339.9356.

Students are advised to review the [Graduate Degree Conferral Requirements](#) (p. 54) to ensure they satisfy all of the general requirements for a graduate degree, including the minimum grade that must be earned in certain courses.

REQUIRED COURSES

Required Courses

ACC 556	Financial Accounting for Managers
BUS 520	Leadership and Organizational Behavior
BUS 599	Strategic Management
COM 510	Business Communications
ECO 550	Managerial Economics and Globalization
FIN 534	Financial Management
LEG 500	Law, Ethics and Corporate Governance
BUS 512	Data-Driven Decision Making for Leaders
MKT 500	Marketing Management
	Graduate Elective from a concentration component in the Master of Business Administration

Subtotal: 45.0

OPTIONAL CONCENTRATION COMPONENT

Students may earn a Master of Business Administration with concentration by completing one of the following concentrations listed below. For students electing to complete a concentration, a course from the chosen concentration will satisfy the Graduate Elective requirement in the program core. Once students satisfactorily complete the two remaining concentration courses they will have completed 12 total courses and earned a total of 54.0 total quarter credit hours.

Accounting Concentration

The Accounting Concentration reviews foundational accounting principles from the perspective of a business manager. Students will acquire skills and knowledge in cost accounting, organizational tax research and planning, and financial reporting and analysis. Students will be prepared to interpret accounting data to inform business decisions about organizational challenges.

ACC 560	Cost Accounting
ACC 565	Organizational Tax Research and Planning
ACC 573	Financial Reporting and Analysis

Subtotal: 13.5

Acquisition Concentration

The Acquisition Concentration evaluates the foundational elements of contract management from the perspective of general business and government. The concepts of government acquisitions, business strategies and proposals, and government

contract law will be reviewed. Students will be able to evaluate the unique requirements and expectations of the federal government acquisition and contraction system to determine their impact on a business.

BUS 501	Government Acquisition
BUS 505	Business Strategies and Proposals
LEG 505	Government Contract Law

Subtotal: 13.5

Artificial Intelligence (AI) Systems Management Concentration*

The Artificial Intelligence (AI) Systems Management Concentration is designed to provide professionals with the knowledge and skills necessary to effectively manage and optimize AI systems within organizations. The program focuses on AI strategies to enhance systems performance and capabilities, providing students with a comprehensive understanding of AI technologies, their implementation, and the management principles required to drive successful AI initiatives. This concentration is suitable for individuals who are interested in the intersection of AI and business strategies.

CIS 509	Fundamentals of Artificial Intelligence Systems Management
CIS 543	AI Strategy for Performance Optimization
CIS 548	AI for Innovation and Strategic Decision-Making

Subtotal: 13.5

Business Data Concentration

The Business Data Concentration assesses organizational data needs to drive business decisions and business process development. Concepts covered include understanding business data, business data and decisions, and operational data. Students will be able to conduct business analyses using current industry trends and data sets to solve business problems.

DAT 500	Understanding Business Data
DAT 510	Business Data and Decisions
DAT 520	Operational Data

Subtotal: 13.5

Cybersecurity Management Concentration*

The Cybersecurity Management Concentration applies current and emerging security management best practices to protect computing environments and reduce risk to organizations. Concepts reviewed include information systems for decision-making, theories of security management, IT risk management, and identifying and responding to cybercrimes. Students will be able to develop information technology strategies and mitigate the risk of cybercrimes to improve quality, timeliness and competitive advantage for organizations.

CIS 500	Information Systems for Decision-Making
---------	---

OR

CIS 502	Theories of Security Management
CIS 527	IT Risk Management
CIS 552	Cybercrime Techniques and Response

Subtotal: 13.5

Digital Entrepreneurship Concentration*

The Digital Entrepreneurship Concentration presents the foundational knowledge of small businesses. Students will learn fundamental knowledge of managing a start-up organization, digital aspects of business operations, and the technology and product management needed to be successful in a business environment.

BUS 523	High Growth Digital Startup Management
BUS 543	Digital Business Operations
BUS 553	Technology and Product Management

Subtotal: 13.5

*Digital Entrepreneurship: This concentration is only available online.

Finance Concentration

The Finance Concentration provides students the knowledge to formulate financial management strategies for a firm's operations in global markets. The elements of international finance, advanced corporate finance and corporate investment analysis are discussed. Students should be prepared to evaluate capital investments and structure to minimize risks and maximize rewards for a firm. Students will also be able to apply analytical techniques and models to inform investment decisions.

FIN 535	International Finance
FIN 540	Advanced Corporate Finance
FIN 550	Corporate Investment Analysis

Subtotal: 13.5

Health Services Administration Concentration

The Health Services Administration Concentration reviews the principles and practices of administration in a healthcare services setting. Students will learn how to manage a healthcare business; the policies, laws, and ethics of working in the healthcare industry; and how to properly manage the financial side of a profitable healthcare organization. Students will be prepared for careers in the administration and management of the healthcare organizations.

HSA 501	Management in Healthcare
HSA 515	Healthcare Policy, Law and Ethics
HSA 525	Health Financial Management

Subtotal: 13.5

Human Resource Management Concentration

The Human Resource Management Concentration explores the fundamental practices of human resources from an organizational management perspective. Students will learn the foundations and strategic perspective of human resource management along with how to effectively manage change within an organization. Students will be prepared for careers that require fundamental human resource knowledge.

HRM 500	Human Resource Management Foundations
HRM 530	Strategic Human Resource Management
HRM 560	Managing Organizational Change

Subtotal: 13.5

Management Concentration

The Management Concentration of the MBA program emphasizes the foundations of management including management principles and practices of planning, organizing, leading, and controlling. Students will learn the interactions of the functional aspects of business from the operations perspective, explore the concepts and applications of sustainable business, and evaluate the strategic aspects of human resource management. Students are presented the fundamental skills and knowledge necessary to make effective business decisions.

BUS 515	Operations Management
BUS 521	Entrepreneurship and Innovation
	OR
HRM 530	Strategic Human Resource Management
MGT 500	Modern Management

Subtotal: 13.5

Marketing Concentration

The Marketing Concentration enables students to create marketing strategies that lead to a competitive advantage in the current global marketplace. Students will acquire knowledge and skills in global marketing management, social media marketing and consumer behavior. Students will be prepared to develop marketing approaches that consider the impact of consumer behavior.

MKT 515	Global Marketing Management
MKT 520	Social Media Marketing
MKT 510	Consumer Behavior

Subtotal: 13.5

Professional Studies Concentration**

The Professional Studies Concentration provides students the opportunity to create a custom learning experience in business. Students will be able to choose three courses from the portfolio of MBA concentration courses that they feel best fit their learning needs. Students also have the option of taking the BUS 595 Business Experience through Workplace Learning course as one of their three courses in this concentration. Through the choice of

three additional graduate courses, students will be able to acquire skills and knowledge necessary to be successful in their chosen career within the business environment.

These courses are selected in consultation with a dean or coach. Courses may be selected from graduate-level courses in developing a curriculum that meets students' educational and professional needs. Students are responsible for fulfilling any prerequisites associated with the graduate courses selected in the program.

Subtotal: 13.5

****Professional Studies:** This concentration is called the MBA Graduate Elective in North Carolina.

Project Management Concentration

The Project Management Concentration applies the fundamentals of the project management process to an organizational project. Students will learn the skills and knowledge of the project management process including determining project cost, effective project scheduling and sequencing, and quality management to ensure successful project delivery. Students will also learn how to identify and mitigate project risk through the project management process.

BUS 517	Project Management
BUS 518	Project Management Leadership
BUS 519	Project Risk Management

Subtotal: 13.5

Public Administration Concentration

The Public Administration Concentration provides opportunities for students to evaluate public policies and programs using quantitative analysis skills. Topics covered include modern public administration, public budgeting and finance, policy analysis and program evaluation, and public personnel management. Students will be prepared to apply organizational and management practices to ensure efficiency and accountability within public and non-profit organizations.

PAD 500	Modern Public Administration: Managing Public and Nonprofit Organizations
PAD 505	Public Budgeting and Finance
PAD 530	Public Personnel Management

Subtotal: 13.5

Total Credit Hours: 45.0-54.0

Master of Educational Design and Technology

The Master of Educational Design and Technology degree program of study is designed to prepare professionals in K-12, higher education, corporate, and military environments to develop skills needed to enhance their careers in educational technology and design, corporate training, learning and development, and leadership. Graduate students take courses that impart critical

skills and knowledge of theoretical foundations, technology skills and integration, strategic leadership and planning, designing, teaching, training, and learning, active research, innovations and disruptions in educational design, instructional technology, and paradigms for effective online delivery assessment.

Within this curriculum, students have the option of choosing a concentration in:

- Adult Education and Development
- Corporate Learning
- Curriculum, Instruction and Assessment
- Educational Administration
- Education Technology Leadership
- Instructional Design and Technology
- Teacher Leadership
- Technology Innovations for Education

Disclaimers

This program is only available in an online format. Completion of the program does not guarantee a student has met the requirements to apply for public school teacher or administrator licensure in any state, nor that a student will be eligible for pay raises, promotions or other job-related benefits. Students pursuing teacher or school administrator certifications in the public school system should contact their respective state offices of education as well as local school districts to confirm educational requirements before beginning the program.

State-Specific Information:

Alabama: Strayer University has been granted authorization by the State of Alabama under Ala. Code §16-5-10(14) (1975) to offer the academic program described herein. Because credentials earned in the program do not automatically qualify for teaching certification, endorsement and/or salary benefits within the State of Alabama, prospective students are advised to contact the Office of the Alabama State Superintendent of Education and/or their local school district administrators for verification.

Georgia: Due to revisions in program qualification requirements in Georgia, this program may no longer qualify students for a certificate-level upgrade. Students seeking a certificate-level upgrade in Georgia should refer to the Georgia Professional Standards Commission, <http://www.gapsc.com/home.asp> regarding eligibility requirements.

South Carolina: Completion of this program will not lead to teacher or administrator certification in South Carolina. Although it is not guaranteed, graduates may be eligible for pay upgrade or promotion.

Virginia: This program is not an approved educator preparation program with the Virginia Department of Education and may not lead to licensure in Virginia. For more information, please visit the Virginia Department of Education website at <http://www.doe.virginia.gov/teaching/licensure/>.

West Virginia: Strayer is not an approved provider for students in West Virginia seeking certification to teach in West Virginia.

Students are advised to review the [Graduate Degree Conferral Requirements](#) (p. 54) to ensure they satisfy all of the general requirements for a graduate degree, including the minimum grade that must be earned in certain courses.

EDU 512	Insights in K-12 Education
EDU 522	Theory and Practice of e-Learning
EDU 555	K-12: Curriculum Design and Development
EDU 599	Education Capstone

Subtotal: 31.5

CONCENTRATION REQUIREMENTS

Students must complete one of the concentrations listed in order to complete the Master of Educational Design and Technology degree program.

Adult Education and Development Concentration

The Adult Education and Development Concentration is designed to allow students to focus on the specifics of the field of adult learning. Students will explore the history of adult education, the various social and economic factors influencing the field, methods for motivating and developing adult learners, and specific approaches for planning, facilitating and assessing training and development programs. This concentration is designed to prepare students for careers serving in education in public, private and government settings.

NOTE: This concentration is only available in the Adult Education Track

EDU 525	Perspectives of Adult Education
EDU 528	Methods of Teaching in Adult Education

EDU 535	Organizational Training and Development
---------	---

Subtotal: 13.5

Corporate Learning Concentration

The Corporate Learning Concentration and related certificate is designed to allow students to focus on the skills and abilities necessary to be a learning and development professional in corporate settings. Students will learn about using instructional design to create meaningful and aligned learning experiences, specific approaches for planning and facilitating development programs in an organization, and strategies for creating training and assessing learning. This concentration is designed to prepare students for careers in corporate, non-profits and higher education settings.

NOTE: This concentration is only available in the Adult Education Track.

EDU 533	Instructional Design and Development
EDU 535	Organizational Training and Development
EDU 565	Training Strategies and Assessment

Subtotal: 13.5

Curriculum, Instruction and Assessment Concentration

The Curriculum, Instruction and Assessment Concentration is designed to provide students the knowledge and skills necessary for curriculum, instruction and assessment in a K-12 setting. Students will learn about evaluating the performance of school curricula and programs, selecting appropriate instructional methods, and personalizing curriculum and assessment to better meet the needs of students. Students will be prepared for careers serving K-12 populations in public, private, and charter schools.

NOTE: This concentration is only available in the K-12 Track.

EDU 571	Evaluating School Programs
EDU 573	Instructional Methods
EDU 574	Designing for Personalized Learning and Assessment

Subtotal: 13.5

Educational Administration Concentration

The Educational Administration Concentration is designed to allow students to focus on the knowledge and skills to be an effective administrator in various educational settings. Students will learn about how educational institutions fund and finance their operations, the strategies used to plan and lead initiatives, and the impact of public policy and politics on education. This concentration is designed to prepare students for careers serving in K-12 or higher education in both public and private education settings.

EDU 560	Public Policy and Political Influences in Education
EDU 561	Finance and Funding in Education

EDU 575	Strategic Planning and Leadership in Education
---------	--

Subtotal: 13.5

Educational Technology Leadership Concentration

The Educational Technology Leadership concentration is designed to develop educational technology leaders in school systems, educational programs, corporate, public, and private sectors, and other education enterprises to effectively lead and facilitate technological innovation and change.

EDU 537	Educational and Instructional Innovation in the Learning Environment
EDU 539	Impacts of Technology in Education
EDU 575	Strategic Planning and Leadership in Education

Subtotal: 13.5

Instructional Design and Technology Concentration

The Instructional Design and Technology Concentration is designed to allow students to focus on the skills and abilities needed to design meaningful and aligned learning experiences that utilize appropriate technology. Students will learn about applying instructional design processes to develop engaging learning experiences, evaluating educational technology for relevance and need, and integrating that technology appropriately to enhance the learning experience. This concentration is designed to prepare students for careers serving in K-12 or higher education and in the public and private sectors.

EDU 533	Instructional Design and Development
EDU 540	Designing, Developing and Evaluating Educational Technology
EDU 542	Integrating Technology into Education

Subtotal: 13.5

Technology Innovations for Education Concentration

The Technology Innovations for Education concentration is designed to allow students to will tackle promising and challenging frontiers of education — leveraging the science of learning, applying innovations in education technology, and developing powerful pedagogies to improve learning outcomes. The courses in this concentration focus on teaching aids, software, social networking tools, emerging technologies, and other artificial intelligence tools and systems that are disrupting the traditional classrooms or working environments. Students will develop strategies and techniques to manage the effects that technological innovations have on the educational enterprise.

EDU 538	Disruptive Innovations in Education
EDU 539	Impacts of Technology in Education
EDU 543	Designing Engaging e-Learning Experiences

Subtotal: 13.5

Teacher Leadership Concentration

The Teacher Leadership Concentration is designed to allow students to focus on the skills and experience needed to become teacher-leaders in a K-12 setting. Students will learn about the intersection of law and teaching, improving curriculum through strategic policy, and leadership in areas of teacher responsibility, such as instruction and professional development. This concentration is designed to prepare students for careers serving K-12 populations in public, private and charter schools, as well as government settings.

NOTE: This concentration is only available in the K-12 Track.

EDU 520	Education and the Law
EDU 558	Seminar in Teacher Leadership
EDU 564	Curriculum Policy and Leadership

Subtotal: 13.5

All courses are 4.5 quarter credit hours.

Total Credit Hours: 45.0

Master of Science in Health Services Administration

The Master of Science in Health Services Administration provides students with the advanced healthcare administration competencies needed to excel in careers as healthcare administrators and careers related to the business of healthcare. The program provides students the depth of knowledge required of today's healthcare professionals coupled with the managerial perspective essential to success. The learning environment enables application of healthcare administration theory and practice, and a focus on selected concentrations of healthcare administration. The program is designed to provide students with both current and relevant practices in the industry.

Concentrations are available in:

- Clinical Care Management
- Public Health Management

Disclaimers

Completion of the Strayer University Master of Science in Health Services Administration program does not guarantee a student has met the requirements to apply for licensure as a healthcare administrator in any state. Students pursuing professional healthcare certifications should contact their respective state health departments to confirm educational requirements before beginning the program.

Students who have not earned degrees from appropriate fields of study may be required to take additional coursework as a

prerequisite for completing the program.

This program is not available at the Maryland or New Jersey campuses. This program is available in an online-only format to Maryland and New Jersey students.

Strayer business programs create value for students by providing a flexible, innovative and career-focused experience to maximize their economic mobility and empower them to succeed in business. The Strayer University Master of Science in Health Services Administration degree program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP), 11520 West 119th Street, Overland Park, KS 66213, 913.339.9356.

Students are advised to review the [Graduate Degree Conferral Requirements](#) (p. 54) to ensure they satisfy all of the general requirements for a graduate degree, including the minimum grade that must be earned in certain courses.

AREA I – CORE COMPONENT

Required Courses

HSA 501	Management in Healthcare
HSA 505	Health Services Strategic Marketing
	OR
PAD 501	Grantsmanship in Public Administration
HSA 510	Health Economics
HSA 520	Health Information Systems
HSA 515	Healthcare Policy, Law and Ethics
HSA 525	Health Financial Management
HSA 530	Health Services Human Resource Management
HSA 599	Health Services Administration Capstone
MAT 543	Quantitative Methods for Health Services

Subtotal: 40.5

AREA II – CONCENTRATION COMPONENT

Students must choose one of the following concentrations to complete the Master of Science in Health Services Administration.

Clinical Care Management Concentration

The Clinical Care Management Concentration is designed to expose students to healthcare services and the related administrative and management functions. Students will learn administrative practices including supervision, strategic planning, change management, policy and fiscal responsibility related to quality care delivery strategies in the healthcare environment. Students will also gain a comprehensive understanding of health care ethics, patient rights and safety and regulatory compliance.

HSA 540	Healthcare Operations Management
HSA 545	Long-Term Care Management

HSA 546 Physician's Practice Management

Subtotal: 13.5

Public Health Management Concentration

The Public Health Management Concentration is designed to provide opportunities for students to obtain broad knowledge and basic skills in the core areas of public health. In addition, students will explore the basic principles of health service management, the complexities associated with public health and optimization methods deployed by managers and leaders in the health management environment.

HSA 535	Managerial Epidemiology
HSA 550	Public Health Management
HSA 551	Environmental Health Management

Subtotal: 13.5

All courses are 4.5 quarter credit hours.

Total Credit Hours: 54.0

Master of Science in Human Resource Management

The Master of Science in Human Resource Management program prepares graduates to become leaders, now and in the future, in the human resource departments of their organizations. It teaches students to align human resource principles in supporting with organizational goals and strategies to deliver business results. The program covers key topics such as strategic human resource management, leadership and organizational behavior, ethics, employment law and human resource information systems.

The Society of Human Resource Managers (SHRM) has reviewed this program and acknowledged that it aligns with its curriculum guidelines for human resource degrees. SHRM is the largest and most widely recognized human resource professional organization in the world.

While the program curriculum covers much of the content of the Professional in Human Resources (PHR) and Senior Professional in Human Resources (SPHR) certification exams, the program does not specifically prepare students to take the exams nor does completion of the program guarantee any SHRM certification.

Within this program, students may choose from the following concentrations:

- Human Resource Generalist
- Human Resource and Organizational Development

Disclaimers

This program is not available at Maryland, New Jersey or Pennsylvania campuses and is available in an online-only format to Maryland, New Jersey and Pennsylvania students.

Strayer business programs create value for students by providing a flexible, innovative and career-focused experience to maximize their economic mobility and empower them to succeed in

business. The Strayer University Master of Science in Human Resource Management degree program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP), 11520 West 119th Street, Overland Park, KS 66213, 913.339.9356.

Students are advised to review the [Graduate Degree Conferral Requirements](#) (p. 54) to ensure they satisfy all of the general requirements for a graduate degree, including the minimum grade that must be earned in certain courses.

REQUIREMENTS

Required Courses

BUS 520	Leadership and Organizational Behavior
HRM 500	Human Resource Management Foundations
HRM 510	Business Employment Law
HRM 517	Managing Human Resource Projects
HRM 520	Human Resource Information Systems
HRM 522	Ethics and Advocacy for Human Resource Professionals
HRM 530	Strategic Human Resource Management
HRM 560	Managing Organizational Change
HRM 590	SHRM Certification Exam Preparation
	OR
HRM 599	Human Resource Management Capstone

Subtotal: 40.5

CONCENTRATION REQUIREMENTS

Students must complete one of the concentrations listed in order to complete the Master of Science in Human Resource Management.

Human Resource Generalist

The Human Resource Generalist Concentration reviews the processes and strategies for building and maintaining the workforce of an organization. Students will develop skills in talent management, total rewards, employee and labor relations, and performance management. The application of these concepts will prepare students for careers in the human resources field.

HRM 532	Talent Management
HRM 533	Total Rewards
HRM 534	Employee and Labor Relations
	OR
HRM 538	Performance Management

Subtotal: 13.5

Human Resource and Organizational Development

The Human Resource and Organizational Development Concentration explores the development of an organization based on learning-based cultures and influencing human capital development. Students will gain knowledge in developing a learning organization, developing human capital and organizational workforce planning. Students will be prepared to develop organizational strategies around learning-based cultures, managing human capital and planning for the future of an organization's workforce.

HRM 562	Developing a Learning Organization
HRM 565	Developing Human Capital
HRM 567	Workforce Planning: Recruitment and Retention

Subtotal: 13.5

All courses are 4.5 quarter credit hours.

Total Credit Hours: 54.0

Master of Science in Cybersecurity

The Master of Science in Cybersecurity program is an exciting educational option for students looking to increase their understanding, advance their careers and expand their opportunities in the world of information assurance and security. The Master of Science in Cybersecurity program prepares cybersecurity professionals to provide leadership as organizations provision, operate, protect and defend their information technology systems. Students in the program are exposed to technologies and strategies necessary to administer and maintain effective and efficient information technology system performance and security. Students are likewise exposed to real world cybersecurity case studies, lab settings, and advanced techniques to identify threats, investigate cybersecurity events or crimes and mitigate their impact on information technology systems.

Students who have not had courses in certain areas may be required to take additional coursework as a prerequisite for completing some of the concentrations.

The Master of Science in Cybersecurity program will require computer literacy skills (such as word processing and use of spread sheets or databases) that are expected of information assurance professionals in the technology workplace. Students entering the program are expected to have a good knowledge of MS Office or equivalent.

This program is not available in all states. This program is available in an online only format in Alabama, Arkansas, Delaware, Maryland, New Jersey, North Carolina, Oklahoma, Pennsylvania, South Carolina, Tennessee, and West Virginia. Credits earned from Strayer University do not automatically qualify the holder to participate in professional licensing examinations to practice certain information systems professions. General information about information systems licensure options

is available from vendor-specific websites such as Microsoft, Cisco, Project Management Institute, CompTIA or EC-Council.

The university recognizes that the IT industry uses IT certifications as a means of vetting potential IT professionals in the fields of computer networks, database management, network security, technical support and more. Therefore, a number of carefully chosen courses have embedded IT certification training along with academic rigor in order to prepare students for certification. Review the graduate-level CIS course descriptions (p. 150) in the course descriptions section of this catalog to determine which courses in this program have certification training availability and the requirements associated with each course. Certifications are the best means of validating a student's skills and knowledge.

The National Security Agency (NSA) and a committee of academic peers named Strayer University as a National Center of Academic Excellence in Cyber Defense (CAE-CD) and validated the Master of Science in Cybersecurity program (formerly known as Master of Science in Information Security and Assurance). The program design was guided by standards set by the National Initiative for Cybersecurity Education (NICE), led by the National Institute of Standards and Technology (NIST) in the U.S. Department of Commerce.

Students are advised to review the [Graduate Degree Conferral Requirements](#) (p. 54) to ensure they satisfy all of the general requirements for a graduate degree, including the minimum grade that must be earned in certain courses.

Master of Science in Information Systems

The Master of Science in Information Systems program is designed to present students a broad range of topics across the technology spectrum coupled with skills that promote technology leadership and technology-inspired organizational change management.

The program emphasizes the application of technology to organizational requirements while fostering communications skills, information literacy, abstract thinking and critical analysis. This program is consistent with the technologies, controls and security practices used and supported by numerous organizations. In order to affirm program currency and relevance, the curriculum was designed and aligned with expert guidance along with peer-reviewed curricular body recommendations. Students are expected to demonstrate computer, analytical, leadership and critical-thinking skills in order to succeed in the Master of Science in Information Systems program.

Students who have not earned degrees from appropriate fields of study may be required to take additional coursework as a prerequisite for completing the program.

Within this curriculum, students have the option of choosing a concentration in:

- Artificial Intelligence Systems Management*
- Computer Forensic Management
- Computer Security Management
- Enterprise Network Management
- Information Systems Management
- IT Project Management
- Software Engineering Management

This program is not available at the New Jersey campus. This program is available in an online-only format to New Jersey students.

*The Artificial Intelligence Systems Management concentration is only available in an online-only format.

Credits earned from Strayer University do not automatically qualify the holder to participate in professional licensing examinations to practice certain information systems professions. General information about information systems licensure options is available from vendor-specific websites such as Microsoft, Cisco, Project Management Institute, CompTIA or EC-Council.

The university recognizes that the IT industry uses IT certifications as a means of vetting potential IT professionals in the fields of computer networks, database management, network security, technical support and more. Therefore, a number of carefully chosen courses have embedded IT certification training along with academic rigor in order to prepare students for certification. CIS 524	Computer Interaction and Design
CIS 554	Information Technology Project Leadership Strategies
CIS 599	Graduate Information Systems Capstone

Subtotal: 40.5

CONCENTRATION REQUIREMENTS

Students must choose one of the following concentrations to complete the Master of Science in Information Systems.

Artificial Intelligence Systems Management Concentration

The Master of Science in Information Systems program with the Artificial Intelligence (AI) Systems Management Concentration is designed to provide professionals with the knowledge and skills necessary to effectively manage and optimize AI systems within organizations. The program focuses on AI strategies to enhance systems performance and capabilities, providing students with a comprehensive understanding of AI technologies, their implementation, and the management principles required to drive successful AI initiatives. This concentration is suitable for individuals who are interested in the intersection of AI and business strategies.

CIS 509	Fundamentals of Artificial Intelligence Systems Management
CIS 543	AI Strategy for Performance Optimization
CIS 548	AI for Innovation and Strategic Decision-Making

Subtotal: 13.5

Computer Security Management Concentration

The Master of Science in Information Systems program with the Computer Security Management Concentration is designed to promote technology leadership to deploy and strategically influence information technology solutions to enhance organizational performance and cybersecurity posture. The program emphasizes the application of technology and management strategies to secure an organization's data and operations against cybersecurity concerns.

CIS 534	Advanced Network Security Design
CIS 542	Web Application Security
CIS 552	Cybercrime Techniques and Response

Subtotal: 13.5

Computer Forensic Management Concentration

The Master of Science in Information Systems program with the Computer Forensic Management Concentration is designed to promote technology leadership to deploy and strategically influence information technology solutions to enhance organizational performance and cybersecurity posture. The program emphasizes the application of technology and management strategies to manage the digital forensics process in response to a given security incident.

CIS 558	Information Technology Audit and Control
CIS 560	Security Access and Control Strategies
CIS 562	Computer Forensics Planning

Subtotal: 13.5

Enterprise Network Management Concentration

The Master of Science in Information Systems program with the Enterprise Network Management Concentration is designed to promote technology leadership to deploy and strategically influence information technology solutions to enhance organizational performance and IT service accessibility. The program emphasizes the application of technology and management strategies to enhance network performance and to meet its organizational business and security requirements.

CIS 513	Enterprise Wireless Networks
CIS 532	Network Architecture and Analysis
CIS 534	Advanced Network Security Design

Subtotal: 13.5

Information Systems Management Concentration

The Master of Science in Information Systems program with the Information Systems Management Concentration is designed to promote technology leadership to deploy and strategically influence information technology solutions to enhance organizational performance and cybersecurity posture. The program emphasizes the advanced technical skills needed to implement, manage and administer IT infrastructure.

CIS 525	Advanced Agile Project Management
CIS 527	IT Risk Management
CIS 558	Information Technology Audit and Control

Subtotal: 13.5

IT Project Management Concentration

The Master of Science in Information Systems program with the IT Project Management Concentration is designed to promote technology leadership to deploy and strategically influence information technology solutions to enhance organizational performance. The program emphasizes the application of technology and management strategies to develop project plans and manage human capital to meet business goals.

BUS 518	Project Management Leadership
BUS 519	Project Risk Management
CIS 525	Advanced Agile Project Management

Subtotal: 13.5

Software Engineering Management Concentration

The Master of Science in Information Systems program with the Software Engineering Management Concentration is designed to promote technology leadership to deploy and strategically influence information technology solutions to enhance organizational performance and business requirements. The program emphasizes the application of technology and management strategies for rapid development, deployment, and maintenance of software applications.

CIS 518	Advanced Software Engineering
CIS 555	Performance and Requirements Engineering
CIS 567	Software Development for Managers

Subtotal: 13.5

All courses are 4.5 quarter credit hours.

Total Credit Hours: 54.0

Master of Science in Management

The Master of Science in Management is designed for students seeking to develop and expand their knowledge and broaden their skills in management and leadership in order to succeed as business leaders in an evolving workplace. The curriculum is designed to enhance a student's ability to develop and implement organizational strategies that deliver improved business results. Emphasis is given to contemporary management practices in a globalized economy.

The program offers graduates a broad range of management tools to advance business operations. Courses in the program build skills in critical areas such as: decision-making, conflict resolution, and management and leadership strategies. Students will also gain increased knowledge and understanding of the dynamics of operating in a global business environment.

Concentrations are available in:

- Leadership
- Project Management
- Marketing Management

Students who have not had courses in certain fields of study may be required to take additional coursework as a prerequisite for completing some of the concentrations.

This program is not available at campus locations and is available in an online-only format.

Strayer business programs create value for students by providing a flexible, innovative and career-focused experience to maximize their economic mobility and empower them to succeed in business. The Strayer University Master of Science in Management degree program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP), 11520 West 119th Street, Overland Park, KS 66213, 913.339.9356.

Students are advised to review the [Graduate Degree Conferral Requirements](#) (p. 54) to ensure they satisfy all of the general requirements for a graduate degree, including the minimum grade that must be earned in certain courses.

Graduate Elective from a concentration component in the Master of Science in Management

Subtotal: 45.0

OPTIONAL CONCENTRATION COMPONENT

Students may earn a Master of Science in Management with concentration by completing one of the following concentrations listed below.

Leadership Concentration

The Leadership Concentration will review leadership theories and practices related to managing organizational change, negotiating conflict, and navigating through today's challenges in current organizational environments. Students will be able to develop strategies, apply leadership skills and overcome organizational challenges to foster individual and corporate productivity.

HRM 560	Managing Organizational Change
BUS 526	Negotiation and Conflict Resolution
	OR

MGT 522	Women in Leadership
MGT 550	Leadership Strategies

Subtotal: 13.5

Project Management Concentration

The Project Management Concentration explores the strategic thinking behind effectively managing organizational projects. Students will gain skills in the general principles of project management, project management leadership, and how to address and mitigate risk in project management. Students will be able to strategically manage projects by applying effective project management principles, leadership in project management, and managing risk inherent in the project management process.

BUS 517	Project Management
BUS 518	Project Management Leadership
BUS 519	Project Risk Management

Subtotal: 13.5

Marketing Management Concentration

The Marketing Management Concentration will review concepts related to marketing management and strategies. Students will demonstrate skills in marketing management, social media marketing, and how consumer behavior influences marketing decisions. Students will be prepared to influence their organizations through their understanding of marketing management principles.

MKT 500	Marketing Management
MKT 510	Consumer Behavior
MKT 520	Social Media Marketing

Subtotal: 13.5

All courses are 4.5 quarter credit hours.

Total Credit Hours: 45.0-54.0

Master of Public Administration

The Master of Public Administration (MPA) program is designed for professionals who aspire to begin or enhance a career in public service or nonprofit management. The MPA program instills a spirit of service throughout the learning journey as students develop the skills required to manage and promote positive change in public and nonprofit sectors.

In this program students will be provided opportunities to develop qualitative and quantitative analytical skills and acquire substantive knowledge of policy analysis and evaluation. Students will also explore topics such as grant writing and grant management, state and local government administration, public budgeting, and financial policy and management in public and nonprofit sectors. Graduates of the MPA program will be equipped with the knowledge and skills necessary to make ethical decisions and demonstrate accountability and responsibility as public servants.

The MPA degree prepares students to manage and direct public and nonprofit organizations and local, state and federal governmental offices. MPA graduates are employed in a range of occupations including but not limited to: policy analysts and policy planners; political analysts; and administrators in criminal justice, healthcare, higher education, business and HR/personnel.

Disclaimers

Students who have not earned an undergraduate degree from a related field of study may be required to take additional coursework as a prerequisite for entry into the program.

This program is available online only.

Note: Availability subject to state regulatory approvals, may not be available in all states.

Students are advised to review the [Graduate Degree Conferral Requirements](#) (p. 54) to ensure they satisfy all of the general requirements for a graduate degree, including the minimum grade that must be earned in certain courses.

JWMI Master of Business Administration Human Resources Concentration

The JWMI MBA Human Resources Concentration offers coursework with a broad business and leadership perspective and a focus on people management, recruitment, organizational change and strategy. This approach makes it an excellent fit for a student who is interested in the human resources field but wants the flexibility of an MBA credential and a focus on leadership. In the JWMI MBA Human Resources Concentration, students explore how to apply effective human resource strategies to compete in today's corporate environment.

The Society of Human Resource Managers (SHRM) has reviewed this program and acknowledged that it aligns with its curriculum guidelines for human resource degrees. SHRM is the largest and most widely recognized human resource professional organization in the world.

While the program curriculum covers much of the content of the Professional in Human Resources (PHR) and Senior Professional in Human Resources (SPHR) certification exams, the program does not specifically prepare students to take the exams nor does completion of the program guarantee any SHRM certification.

The JWMI MBA Human Resources Concentration is only available in an online format.

HUMAN RESOURCES CONCENTRATION REQUIREMENTS

Required Courses

JWI 505	Business Communications and Executive Presence
JWI 510	Leadership in the 21st Century
JWI 518	Marketing in a Global Environment
JWI 521	Recruit, Develop, Assess, Reward, Retain
JWI 522	Strategic Partnering with the C-Suite
JWI 530	Financial Management I
JWI 531	Financial Management II
JWI 540	Strategy
JWI 550	Operational Excellence
JWI 556	Leading Change by Putting People First
JWI 575	New Business Ventures and Entrepreneurship
JWI 599	Business Analytics and Capstone

Subtotal: 54.0

All courses are quarter credit hours.

JWMI Master of Business Administration Operations Management Concentration

The JWMI MBA Operations Management Concentration offers coursework with a broad business and leadership perspective and a focus on process and quality management, operational change and strategy. This approach makes it an excellent fit for a student who is interested in the operations management field but wants the flexibility of an MBA credential and a focus on leadership. In the JWMI MBA Operations Management program, students explore how to apply the analytical and quantitative tools used by operations professionals to improve performance, reduce costs, ensure quality and create a competitive advantage.

The JWMI MBA Operations Management Concentration is only available in an online format.

OPERATIONS MANAGEMENT CONCENTRATION REQUIREMENTS

Required Courses

JWI 505	Business Communications and Executive Presence
JWI 510	Leadership in the 21st Century
JWI 515	Managerial Economics

JWI 520	People Management
JWI 530	Financial Management I
JWI 531	Financial Management II
JWI 540	Strategy
JWI 550	Operational Excellence
JWI 552	Getting Your Customers What They Need
JWI 554	Delivering Quality
JWI 557	Leading Operational Change
JWI 596	Operations Capstone

Subtotal: 54.0

All courses are quarter credit hours.

Graduate Healthcare Certificate, Jack Welch Management Institute

The JWMI Graduate Healthcare Certificate offers coursework with a broad business and leadership perspective and a focus on healthcare operations, finance, technology and policy. Because of this, the Healthcare Certificate is a good fit for a student who is interested in the healthcare industry but wants the flexibility of the certificate credential and a focus on leadership.

This certificate is only available in an online format.

REQUIREMENTS

Required Courses

JWI 533	Saving Money, Saving Lives
JWI 551	It's All About the Patient – Improve the Patient Experience
JWI 570	Leading through the Bureaucracy in Healthcare

Subtotal: 13.5

All courses are 4.5 quarter credit hours.

Graduate Human Resources Certificate, Jack Welch Management Institute

The JWMI Graduate Human Resources Certificate offers coursework with a broad business and leadership perspective and a focus on people management, recruitment, organizational change and strategy. This approach makes this an excellent fit for a student who is interested in the human resources field but wants the flexibility of a certificate credential and a focus on leadership.

This certificate is only available in an online format.

REQUIREMENTS

Required Courses

JWI 521	Recruit, Develop, Assess, Reward, Retain
JWI 522	Strategic Partnering with the C-Suite
JWI 556	Leading Change by Putting People First

Subtotal: 13.5

All courses are 4.5 quarter credit hours.

Graduate Leadership Certificate, Jack Welch Management Institute

The focus of the JWMI Graduate Certificate in Leadership is to develop highly effective leaders who can inspire and lead their organizations through dynamic ever-changing environments, communicate clearly and persuasively, hire and place the right players in the right positions and keep their workforce motivated and engaged.

JWMI Graduate Certificate in Artificial Intelligence

In today’s rapidly evolving business landscape, leadership isn’t just about making decisions – it’s about harnessing cutting-edge technologies to drive innovation, enhance efficiency, and shape the future. The JWMI Graduate Certificate in Artificial Intelligence merges business acumen with the limitless possibilities of artificial intelligence.

This program does not currently offer access to federal financial aid from the U.S. Department of Education.

This certificate is only available in an online format.

REQUIREMENTS

Required Courses

JWI 519	The Business of AI: Navigating the Digital Economy
JWI 548	Applying AI Strategies to Win in Business
JWI 553	Harnessing AI for Performance Optimization

Subtotal: 13.5

All courses are 4.5 quarter credit hours.

Total Credit Hours: 13.5

Arkansas

Students enrolled in Arkansas are required to follow a state-specific curriculum for the programs listed here. All other programs approved in Arkansas follow the curriculum outlined in the general Strayer University Program Availability section of the catalog. If a program is not approved in all states, it will be noted.

Arkansas State-Specific Programs:

- Bachelor of Science in Accounting (p. 115)
- Bachelor of Business Administration (p. 116)
- Bachelor of Science in Criminal Justice (p. 118)
- Bachelor of Science in Information Technology (p. 120)

Bachelor of Science in Accounting-Arkansas

The principal objectives of the Bachelor of Science in Accounting program are to provide students with a broad, fundamental knowledge of the field, to prepare them for employment in

accounting careers, and to provide a strong liberal arts component that develops communications skills, information literacy, abstract thinking and critical analysis and fosters historical, political and social awareness.

Courses earned from Strayer University do not automatically qualify the holder to participate in professional licensing examinations to practice certain professions in any state. All students interested in practicing a regulated accounting profession requiring licensure from a state regulatory agency should contact the appropriate state regulatory agency in the field of their interest. A listing of contact information for the most common accounting-related licensing boards is available on the Strayer website at: <https://www.strayer.edu/student-consumer-information/licensed-careers>.

Licensing information is also available from the following websites: American Institute of Certified Public Accountants (www.aicpa.org), National Association of State Boards of Accountancy (www.nasba.org), Institute of Internal Auditors (www.theiia.org), Institute of Management Accountants (www.imanet.org) and the Accreditation Council for Accountancy and Taxation (www.acatcredentials.org).

Many states have additional requirements directly related to CPA examination preparation. Students should consult their respective state Board of Accountancy for further details.

Strayer business programs create value for students by providing a flexible, innovative and career-focused experience to maximize their economic mobility and empower them to succeed in business. The Strayer University Bachelor of Science in Accounting degree program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP), 11520 West 119th Street, Overland Park, KS 66213, 913.339.9356.

REQUIREMENTS

Major

Subtotal: 27.0

All courses are 4.5 quarter credit hours.

CONCENTRATION REQUIREMENTS

Acquisition and Contract Management Concentration

The Acquisition and Contract Management Concentration prepares students to establish and administrate equitable pricing and procurement processes. Students will learn legal and regulatory guidelines to support strategies for developing, negotiating and administrating contracts at the local and federal government levels. Students will develop the skills and abilities for careers working in a government setting.

- BUS 315 Cost and Price Analysis
- BUS 319 Principles of Federal Acquisition and Contract Management
- BUS 330 Contract Administration and Management
- BUS 340 Contract and Purchasing Negotiation Techniques
- OR
- BUS 375 Project Management
- LEG 440 Procurement and Contract Law

Subtotal: 22.5

Entrepreneurship Concentration

The Entrepreneurship Concentration teaches students to develop critical thinking and decision-making skills to identify new business opportunities. Students will learn to create a business plan to raise capital to fund business ventures. Students will be prepared to organize, plan, manage and control the functions of the business to accelerate business growth.

- BUS 313 Introduction to Entrepreneurship
- BUS 363 Technology and Innovation in Entrepreneurship
- BUS 435 Management and Growth in Entrepreneurship
- BUS 463 Entrepreneurship Feasibility and Analysis
- FIN 317 Financing Entrepreneurships

Subtotal: 22.5

Finance Concentration

The Finance Concentration develops student knowledge of theory and practice of financial decision making. Students will learn the role/risk of the financial institution and the sources and uses of funds. Students will be able to use financial tools to analyze investment risk and rewards in a variety of financial markets. Students will be prepared for careers in a variety of settings, including banks, financial firms, small business and corporation.

- ECO 320 Money and Banking
- FIN 320 Investments
- FIN 350 Financial Markets and Institutions

FIN 355	Financial Risk Analysis
FIN 405	Advanced Financial Management
Subtotal: 22.5	

Health Services Administration Concentration

The Health Services Administration Concentration prepares students to understand various roles and functions of business in a healthcare setting. Students will learn about the aspects of human resources, marketing, data quality and systems, policy, regulations and laws applicable to the field of healthcare. Students will be prepared for careers in clinical, hospital, non-profit and corporate settings.

HSA 300	Health Services Organization Management
HSA 305	Health Services Marketing
HSA 315	Health Information Systems
HSA 320	Healthcare Human Resource Management
HSA 405	Healthcare Policy and Law
Subtotal: 22.5	

Human Resource Management Concentration

The Human Resources Management Concentration will examine the roles and functions of human resources professionals. Students will focus on staffing, development planning, compensation and global human resources management. Students will be prepared for careers seeking human resources professionals in a variety of industries.

BUS 310	Human Resource Management
BUS 325	Global Human Resource Management
BUS 335	Staffing Organizations
BUS 407	Training and Development
BUS 409	Compensation Management
Subtotal: 22.5	

Management Concentration

The Management Concentration will support students with developing the fundamental skills of management. Students will learn how to determine and set the tone for organizational behaviors, management of human capital, projects and operations. Students will be equipped to work in small, medium and large organizations

BUS 310	Human Resource Management
BUS 375	Project Management
BUS 402	Small Business Management
BUS 430	Operations Management
ITB 300	Fundamentals of Global Management
Subtotal: 22.5	

Marketing Concentration

The Marketing Concentration explores the essentials of marketing. Students will learn to understand consumer behaviors, how to market products to a target audience, and develop effective pricing strategies for products and services. Students will be prepared for careers in any industry seeking marketing professionals.

MKT 305	Consumer Behavior
MKT 312	Marketing Communications
MKT 320	International Marketing
MKT 402	Strategic Market Pricing
MKT 475	Strategic Marketing
Subtotal: 22.5	

Project Management Concentration

The Project Management Concentration will focus on the essential skills of a project manager. Students will be prepared to support human capital with reaching project goals and milestones. The student will learn to manage project contracting, procurement, and develop methods for managing project risk. Students will be equipped to serve in roles where project management skills are needed within the business.

BUS 375	Project Management
BUS 377	Managing Project Risk
BUS 380	Managing Project Teams
BUS 419	Project Estimating and Budgeting
BUS 437	Project Procurement Management
Subtotal: 22.5	

Total Credit Hours: 180.0

Bachelor of Science in Criminal Justice- Arkansas

The Bachelor of Science in Criminal Justice provides students with the knowledge, skills and professional abilities relevant to the criminal justice field, as well as a strong liberal arts component that develops communications skills, information literacy, abstract thinking and critical analysis and fosters historical, political and social awareness. Students will explore the theoretical, operational and legal components of law enforcement and the prevention, adjudication and correction of juvenile and adult crime. Graduates are prepared for careers in the public or private sector of criminal justice or cybercrime and security.

The Bachelor of Science in Criminal Justice program offers area concentrations that enable students to tailor their degrees to their careers and educational goals. Concentrations include:

- Computer Forensics
- Criminal Justice Administration

- Crime and Criminal Behavior
- Homeland Security and Emergency Management
- Probation and Parole

Disclaimers

Completion of the Strayer University Bachelor of Science in Criminal Justice program does not guarantee that a student has met the requirements for employment in the criminal justice field. Prior to enrolling in the program, students are encouraged to consult the applicable licensing board in the field of their employment. Students should be advised that many criminal justice employers take into account the following factors when determining eligibility for employment: U.S. citizenship, state residency, criminal background screening, physical and psychological health, age and military discharge information. Links to the most commonly requested information for regulated professions are available on the Strayer website at <https://www.strayer.edu/student-consumer-information/licensed-careers>.

The university recognizes that the IT industry uses IT certifications as a means of vetting potential IT professionals in the fields of network security and cybersecurity. Therefore, a number of carefully chosen courses have embedded IT certification training along with academic rigor in order to prepare students for being certified. Review the undergraduate-level CIS course descriptions in the course descriptions section of this catalog to determine which courses in this program have certification training availability and the requirements associated with each course. Certifications are the best means of validating a student's skills and knowledge.

Bachelor of Science in Information Technology- Arkansas

The Bachelor of Science in Information Technology (BSIT) program provides students with the skills, knowledge and proficiency to support, troubleshoot and design key elements of the information technology infrastructure—from websites to networks—in organizations ranging from business and government to healthcare and many more. Students will be exposed to the essential skills needed to support the tactical technical operations of today’s global companies, as well as the insight and critical thinking required to analyze and effectively deploy forward-looking technologies. Students are expected to demonstrate computer and critical-thinking skills in order to succeed in the Bachelor of Science in Information Technology program. Courses within the major component of the curriculum are overarching by design and will prepare students for success.

This program applies the use of technologies and practice employed by numerous global organizations with emphasis on networking, security, programming and technology infrastructure. Graduates from the BSIT program possess a strong combination of technical skills, knowledge and practical, hands-on expertise to

support an organization’s technology infrastructure and the people who use it.

Within this curriculum, students have the option of choosing a concentration in:

- Artificial Intelligence*
- Cloud Computing*
- Cybersecurity
- Data Analytics
- Data Management
- IT Project Management
- Networking
- Software Development

Disclaimers

The Artificial Intelligence (AI) and the Cloud Computing concentrations are available in an online only format.

Credits earned from Strayer University do not automatically qualify the holder to participate in professional licensing examinations to practice certain information systems professions. General information about information systems licensure options is available from vendor-specific websites such as Microsoft, Cisco, Project Management Institute, CompTia or EC-Council.

The university recognizes that the IT industry uses IT certifications as a means of vetting potential IT professionals in the fields of computer networks, database management, network security, technical support and more. Therefore, a number of carefully chosen courses have embedded IT certification training along with academic rigor in order to prepare students for being certified. Review the undergraduate-level CIS course descriptions (p. 145) in the course descriptions section of this catalog to determine which courses in this program have certification training availability and the requirements associated with each course. Certifications are the best means of validating a student's skills and knowledge.

Also available is a Master of Science in Information Systems (p. 108) and Master of Science in Cybersecurity (p. 107).

New Jersey

Students enrolled in New Jersey are required to follow a state-specific curriculum for the programs listed here. All other programs approved in New Jersey follow the curriculum outlined in the general Strayer University Program Availability section of the catalog. If a program is not approved in all states, it will be noted.

New Jersey State-Specific Programs

- Bachelor of Science in Accounting (p. 123)
- Bachelor of Business Administration (p. 124)
- Bachelor of Science in Criminal Justice (p. 127)

Bachelor of Science in Accounting- New Jersey

The principal objectives of the Bachelor of Science in Accounting program are to provide students with a broad, fundamental knowledge of the field, to prepare them for employment in accounting careers, and to provide a strong liberal arts component that develops communications skills, information literacy, abstract thinking and critical analysis and fosters historical, political and social awareness.

Courses earned from Strayer University do not automatically qualify the holder to participate in professional licensing examinations to practice certain professions in any state. All students interested in practicing a regulated accounting profession requiring licensure from a state regulatory agency should contact the appropriate state regulatory agency in the field of their interest. A listing of contact information for the most common accounting-related licensing boards is available on the Strayer website at: <https://www.strayer.edu/student-consumer-information/licensed-careers>.

Licensing information is also available from the following websites: American Institute of Certified Public Accountants (www.aicpa.org), National Association of State Boards of Accountancy (www.nasba.org), Institute of Internal Auditors (www.theiia.org), Institute of Management Accountants (www.imanet.org) and the Accreditation Council for

Accountancy and Taxation (www.acatcredentials.org).

Many states have additional requirements directly related to CPA examination preparation. Students should consult their respective state Board of Accountancy for further details.

Also available is a Master of Science in Accounting (p. 99).

Strayer business programs create value for students by providing a flexible, innovative and career-focused experience to maximize their economic mobility and empower them to succeed in business. The Strayer University Bachelor of Science in Accounting degree program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP), 11520 West 119th Street, Overland Park, KS 66213, 913.339.9356.

Subtotal: 45.0

AREA II – CONCENTRATION

Accounting Concentration

The Accounting Concentration explores accounting principles and procedures. Students will use accounting software applications to perform accounting functions such as debits and credits. Students will specifically focus on federal taxation,

managerial accounting, and cost and price analysis. Students will be prepared for careers that require fundamental accounting knowledge.

ACC 206	Accounting II
ACC 306	Microcomputer Applications for Accountants
ACC 307	Federal Taxation
ACC 350	Managerial Accounting
BUS 315	Cost and Price Analysis

Subtotal: 22.5

Acquisition and Contract Management Concentration

The Acquisition and Contract Management Concentration prepares students to establish and administrate equitable pricing and procurement processes. Students will learn legal and regulatory guidelines to support strategies for developing, negotiating and administering contracts at the local and federal government levels. Students will develop the skills and abilities for careers working in a government setting.

BUS 315	Cost and Price Analysis
BUS 319	Principles of Federal Acquisition and Contract Management
BUS 330	Contract Administration and Management
BUS 340	Contract and Purchasing Negotiation Techniques
	OR
BUS 375	Project Management
LEG 440	Procurement and Contract Law

Subtotal: 22.5

Entrepreneurship Concentration

The Entrepreneurship Concentration teaches students to develop critical thinking and decision-making skills to identify new business opportunities. Students will learn to create a business plan to raise capital to fund business ventures. Students will be prepared to organize, plan, manage and control the functions of the business to accelerate business growth.

BUS 313	Introduction to Entrepreneurship
BUS 363	Technology and Innovation in Entrepreneurship
BUS 435	Management and Growth in Entrepreneurship
BUS 463	Entrepreneurship Feasibility and Analysis
FIN 317	Financing Entrepreneurships

Subtotal: 22.5

Finance Concentration

The Finance Concentration develops student knowledge of theory and practice of financial decision making. Students will learn the

role/risk of the financial institution and the sources and uses of funds. Students will be able to use financial tools to analyze investment risk and rewards in a variety of financial markets. Students will be prepared for careers in a variety of settings including banks, financial firms, small business and corporations.

ECO 320	Money and Banking
FIN 320	Investments
FIN 350	Financial Markets and Institutions
FIN 355	Financial Risk Analysis
FIN 405	Advanced Financial Management

Subtotal: 22.5

Health Services Administration Concentration

The Health Services Administration Concentration prepares students to understand various roles and functions of business in a healthcare setting. Students will learn about the aspects of human resources, marketing, data quality and systems, policy, regulations, and laws applicable to the field of healthcare. Students will be prepared for careers in clinical, hospital, non-profit and corporate settings.

HSA 300	Health Services Organization Management
HSA 305	Health Services Marketing
HSA 315	Health Information Systems
HSA 320	Healthcare Human Resource Management
HSA 405	Healthcare Policy and Law

Subtotal: 22.5

Hospitality and Tourism Management Concentration

The Hospitality and Tourism Management Concentration explores the roles and responsibilities of talent working in the hospitality industry. Students will learn to manage, communicate, and analyze systems and processes to control cost and quality in the hospitality industry. Students will be prepared to enter careers in the hospitality industry.

HTM 100	Principles of Hospitality and Tourism Management
HTM 150	Quality Service Assurance
HTM 250	Purchasing and Cost Control
HTM 280	Lodging Operations Management
HTM 310	Food and Beverage Operations Management

Subtotal: 22.5

Human Resource Management Concentration

The Human Resources Management Concentration will examine the roles and functions of human resource professionals. Students will focus on staffing, development planning, compensation and

global human resource management. Students will be prepared for careers seeking human resources professionals in a variety of industries.

BUS 310	Human Resource Management
BUS 325	Global Human Resource Management
BUS 335	Staffing Organizations
BUS 407	Training and Development
BUS 409	Compensation Management

Subtotal: 22.5

Management Concentration

The Management Concentration will support students with developing the fundamental skills of management. Students will learn how to determine and set the tone for organizational behaviors, management of human capital, projects and operations. Students will be equipped to work in small, medium and large organizations.

BUS 310	Human Resource Management
BUS 322	Organizational Behavior
BUS 375	Project Management
BUS 402	Small Business Management
BUS 430	Operations Management

Subtotal: 22.5

Marketing Concentration

The Marketing Concentration explores the essentials of marketing. Students will learn to understand consumer behaviors, how to market products to a target audience, and develop effective pricing strategies for products and services. Students will be prepared for careers in any industry seeking marketing professionals.

MKT 305	Consumer Behavior
MKT 312	Marketing Communications
MKT 320	International Marketing
MKT 402	Strategic Market Pricing
MKT 475	Strategic Marketing

Subtotal: 22.5

Project Management Concentration

The Project Management Concentration will focus on the essential skills of a project manager. Students will be prepared to support human capital with reaching project goals and milestones. The student will learn to manage project contracting and procurement and develop methods for managing project risk. Students will be equipped to serve in roles where project management skills are needed within the business.

BUS 375	Project Management
BUS 377	Managing Project Risk

BUS 380	Managing Project Teams
BUS 419	Project Estimating and Budgeting
BUS 437	Project Procurement Management

Subtotal: 22.5

Bachelor of Science in Criminal Justice- New Jersey

The Bachelor of Science in Criminal Justice provides students with the knowledge, skills and professional abilities relevant to the criminal justice field, as well as a strong liberal arts component that develops communications skills, information literacy, abstract thinking and critical analysis and fosters historical, political and social awareness. Students will explore the theoretical, operational and legal components of law enforcement and the prevention, adjudication and correction of juvenile and adult crime. Graduates are prepared for careers in the public or private sector of criminal justice or cybercrime and security.

The Bachelor of Science in Criminal Justice program offers area concentrations that enable students to tailor their degrees to their careers and educational goals. Concentrations include:

- Artificial Intelligence in Criminal Justice*
- Probation and Parole**
- Computer Security and Forensics
- Crime and Criminal Behavior
- Criminal Justice Administration
- Homeland Security and Emergency Management

*Artificial Intelligence in Criminal Justice: This concentration is only available online.

**Probation and Parole: This concentration is available online only in New Jersey.

Completion of the Strayer University Bachelor of Science in Criminal Justice program does not guarantee that a student has met the requirements for employment in the criminal justice field. Prior to enrolling in the program, students are encouraged to consult the applicable licensing board in the field of their employment. Students should be advised that many criminal justice employers take into account the following factors when determining eligibility for employment: U.S. citizenship, state residency, criminal background screening, physical and psychological health, age and military discharge information. Links to the most commonly requested information for regulated professions are available on the Strayer website at <https://www.strayer.edu/student-consumer-information/licensed-careers>.

The university recognizes that the information technology (IT) industry uses IT certifications as a means of vetting potential IT professionals in the fields of network security and cybersecurity. Therefore, a number of carefully chosen courses have embedded IT certification training along with academic rigor in order to prepare students for certification. Review the undergraduate-level

CIS course descriptions (p. 145) in the course descriptions section of this catalog to determine which courses in this program have certification training availability and the requirements associated with each course. Certifications are the best means of validating a student's skills and knowledge.

North Carolina

Students enrolled in North Carolina are required to follow a state-specific curriculum for the programs listed here. All other programs approved in North Carolina follow the curriculum outlined in the general Strayer University Program Availability section of the catalog. If a program is not approved in all states, it will be noted.

North Carolina State-Specific Programs

- Master of Business Administration (p. 129)

Master of Business Administration-North Carolina

The Master of Business Administration program offers a broad set of business management tools while also allowing students a choice of concentration in order to tailor their degrees to fit their careers and learning goals. The program curriculum prepares working professionals to become effective decision-makers and managers in a world increasingly affected by globalization, technology and ethical challenges. It is designed for working professionals from a wide range of backgrounds who wish to advance or enhance their business careers.

Students who have not had courses in certain fields of study may be required to take additional coursework as a prerequisite for completing some of the concentrations.

The Master of Business Administration program will use basic computer literacy skills (such as word processing and basic use of spreadsheets) that will be expected of students in the workplace. Students entering the program are expected to have a basic knowledge of MS Office or equivalent.

The Master of Business Administration program is an exciting educational option for students looking to increase their understanding, advance their careers and expand their opportunities in the world of business.

Concentrations are available in the following areas:

- Accounting
- Acquisition
- Artificial Intelligence (IA) Systems Management*
- Business Data*
- Cybersecurity Management*
- Digital Entrepreneurship*
- Finance
- Health Services Administration
- Human Resource Management
- Management
- Marketing
- MBA Graduate Elective
- Project Management
- Public Administration

*These concentrations are only available online in North Carolina.

Strayer business programs create value for students by providing a flexible, innovative and career-focused experience to maximize their economic mobility and empower them to succeed in business. The Strayer University Master of Business Administration degree program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP), 11520 West 119th Street, Overland Park, KS 66213, 913.339.9356.

AREA I – CORE COMPONENT

Required Courses

ACC 556	Financial Accounting for Managers
BUS 508	Contemporary Business
BUS 520	Leadership and Organizational Behavior
BUS 599	Strategic Management
ECO 550	Managerial Economics and Globalization

MKT 500 Marketing Management

Subtotal: 40.5

AREA II – CONCENTRATION COMPONENT

Students must choose one of the following concentrations to complete the Master of Business Administration.

Accounting Concentration

The Accounting Concentration reviews foundational accounting principles from the perspective of a business manager. Students will acquire skills and knowledge in cost accounting, organizational tax research and planning, and financial reporting and analysis. Students will be prepared to interpret accounting data to inform business decisions about organizational challenges.

ACC 560	Cost Accounting
ACC 565	Organizational Tax Research and Planning
ACC 573	Financial Reporting and Analysis

Subtotal: 13.5

Acquisition Concentration

The Acquisition Concentration evaluates the foundational elements of contract management from the perspective of general business and government. The concepts of government acquisitions, business strategies and proposals, and government contract law will be reviewed. Students will be able to evaluate the unique requirements and expectations of the federal government acquisition and contraction system to determine their impact on a business.

BUS 501	Government Acquisition
BUS 505	Business Strategies and Proposals
LEG 505	Government Contract Law

Subtotal: 13.5

Artificial Intelligence (AI) Systems Management Concentration*

The Artificial Intelligence (AI) Systems Management Concentration is designed to provide professionals with the knowledge and skills necessary to effectively manage and optimize AI systems within organizations. The program focuses on AI strategies to enhance systems performance and capabilities, providing students with a comprehensive understanding of AI technologies, their implementation, and the management principles required to drive successful AI initiatives. This concentration is suitable for individuals who are interested in the intersection of AI and business strategies.

CIS 509	Fundamentals of Artificial Intelligence Systems Management
CIS 543	AI Strategy for Performance Optimization

CIS 548 AI for Innovation and Strategic Decision-Making

Subtotal: 13.5

*Artificial Intelligence (AI) Systems Management: This concentration is only available online in North Carolina.

Business Data Concentration*

The Business Data Concentration assesses organizational data needs to drive business decisions and business process development. Concepts covered include understanding business data, business data and decisions, and operational data. Students will be able to conduct business analyses using current industry trends and data sets to solve business problems.

DAT 500	Understanding Business Data
DAT 510	Business Data and Decisions
DAT 520	Operational Data

Subtotal: 13.5

*Business Data: This concentration is only available online in North Carolina.

Cybersecurity Management Concentration*

The Cybersecurity Management Concentration applies current and emerging security management best practices to protect computing environments and reduce risk to organizations. Concepts reviewed include information systems for decision-making, theories of security management, IT risk management, and identifying and responding to cybercrimes. Students will be able to develop information technology strategies and mitigate the risk of cybercrimes to improve quality, timeliness and competitive advantage for organizations.

CIS 500	Information Systems for Decision-Making OR
CIS 502	Theories of Security Management
CIS 527	IT Risk Management
CIS 552	Cybercrime Techniques and Response

Subtotal: 13.5

*Cybersecurity Management: This concentration is only available online in North Carolina.

Digital Entrepreneurship Concentration*

The Digital Entrepreneurship Concentration presents the foundational knowledge of small businesses. Students will learn fundamental knowledge of managing a start-up organization, digital aspects of business operations, and the technology and product management needed to be successful in a business environment.

BUS 523	High Growth Digital Startup Management
BUS 543	Digital Business Operations

BUS 553 Technology and Product Management

Subtotal: 13.5

*Digital Entrepreneurship: This concentration is only available online in North Carolina.

Finance Concentration

The Finance Concentration provides students the knowledge to formulate financial management strategies for a firm's operations in global markets. The elements of international finance, advanced corporate finance and corporate investment analysis are discussed. Students should be prepared to evaluate capital investments and structure to minimize risks and maximize rewards for a firm. Students will also be able to apply analytical techniques and models to inform investment decisions.

FIN 535 International Finance
 FIN 540 Advanced Corporate Finance
 FIN 550 Corporate Investment Analysis

Subtotal: 13.5

Global Management Concentration

The Global Management Concentration applies management theories and practices to organizations operating in global markets. Students will learn global business management techniques and practices, how to formulate global strategy and global marketing management principles. Student should be prepared to create global operations strategies to achieve a competitive advantage within international business environments.

MGT 510 Global Business Management
 BUS 536 Global Strategy
 MKT 515 Global Marketing Management

Subtotal: 13.5

Health Services Administration Concentration

The Health Services Administration Concentration reviews the principles and practices of administration in a healthcare services setting. Students will learn how to manage a healthcare business; the policies, laws and ethics of working in the healthcare industry; and how to properly manage the financial side of a profitable healthcare organization. Students will be prepared for careers in the administration and management of healthcare organizations.

HSA 501 Management in Healthcare
 HSA 515 Healthcare Policy, Law and Ethics
 HSA 525 Health Financial Management

Subtotal: 13.5

Human Resource Management Concentration

The Human Resource Management Concentration explores the

fundamental practices of human resources from an organizational management perspective. Students will learn the foundations and strategic perspective of human resource management along with how to effectively manage change within an organization. Students will be prepared for careers that require fundamental human resource knowledge.

HRM 500 Human Resource Management Foundations
 HRM 530 Strategic Human Resource Management
 HRM 560 Managing Organizational Change

Subtotal: 13.5

Management Concentration

The Management Concentration of the MBA program emphasizes the foundations of management, including management principles and practices of planning, organizing, leading and controlling. Students will learn the interactions of the functional aspects of business from the operations perspective, explore the concepts and applications of sustainable business, and evaluate the strategic aspects of human resource management. Students are presented the fundamental skills and knowledge necessary to make effective business decisions.

BUS 515 Operations Management
 BUS 521 Entrepreneurship and Innovation
 OR
 HRM 530 Strategic Human Resource Management
 MGT 500 Modern Management

Subtotal: 13.5

Marketing Concentration

The Marketing Concentration enables students to create marketing strategies that lead to a competitive advantage in the current global marketplace. Students will acquire knowledge and skills in global marketing management, social media marketing and consumer behavior. Students will be prepared to develop marketing approaches that consider the impact of consumer behavior.

MKT 515 Global Marketing Management
 MKT 520 Social Media Marketing
 MKT 510 Consumer Behavior

Subtotal: 13.5

MBA Graduate Elective

The MBA Graduate Elective provides students the opportunity to create a custom learning experience in business. Students will be able to choose three courses from the portfolio of MBA concentration courses that they feel best fit their learning needs. Through the choice of three additional graduate courses that fit the student's needs, students will be able to acquire skills and knowledge necessary to be successful in their chosen career within the business environment.

These courses are selected in consultation with a dean or coach.

Courses may be selected from graduate-level courses in developing a curriculum that meets students' educational and professional needs. Students are responsible for fulfilling any prerequisites associated with the graduate courses selected in the program.

Subtotal: 13.5

Project Management Concentration

The Project Management Concentration applies the fundamentals of the project management process to an organizational project. Students will learn the skills and knowledge of the project management process, including determining project cost, effective project scheduling and sequencing, and quality management to ensure successful project delivery. Students will also learn how to identify and mitigate project risk through the project management process.

BUS 517	Project Management
BUS 518	Project Management Leadership
BUS 519	Project Risk Management

Subtotal: 13.5

Public Administration Concentration

The Public Administration Concentration provides opportunities for students to evaluate public policies and programs using quantitative analysis skills. Topics covered include modern public administration, public budgeting and finance, policy analysis and program evaluation, and public personnel management. Students will be prepared to apply organizational and management practices to ensure efficiency and accountability within public and non-profit organizations.

PAD 500	Modern Public Administration: Managing Public and Nonprofit Organizations
PAD 505	Public Budgeting and Finance
PAD 520	Policy Analysis and Program Evaluation
	OR
PAD 530	Public Personnel Management

Subtotal: 13.5

All courses are 4.5 quarter credit hours.

Total Credit Hours: 54.0

Pennsylvania

Students enrolled in Pennsylvania are required to follow a specific curriculum for the programs listed. All other programs approved in Pennsylvania follow the curriculum outlined in the general Strayer University Program Availability section of the catalog. If a program is not approved in all states, it will be noted.

Pennsylvania State-Specific Programs:

- Associate in Arts in Acquisition and Contract Management (p. 132)

- Associate in Arts in Marketing (p. 133)
- Master of Business Administration (p. 133)

Associate in Arts in Acquisition and Contract Management- Pennsylvania

The Associate in Arts in Acquisition and Contract Management program focuses on developing general business skills to acquire and manage contracts, including scheduling, cost and price. Students will be prepared to manage contracts. The program will also equip students to work within an organization to acquire and manage federal, state or local business contracts.

Disclaimers

Graduates of this program may be able to apply all credits earned toward a Bachelor of Business Administration (p. 83).

Also available: a Bachelor of Business Administration (p. 83) with a concentration in Acquisition and Contract Management (p. 84), and a Master of Business Administration with a concentration in Acquisition.

Strayer business programs create value for students by providing a flexible, innovative and career-focused experience to maximize their economic mobility and empower them to succeed in business. The Strayer University Associate in Arts in Acquisition and Contract Management degree program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP), 11520 West 119th Street, Overland Park, KS 66213, 913.339.9356.

Master of Business Administration-Pennsylvania

The Master of Business Administration program offers a broad set of business management tools while also allowing students a choice of concentration in order to tailor their degrees to fit their careers and learning goals. The program curriculum prepares working professionals to become effective decision-makers and managers in a world increasingly affected by globalization, technology and ethical challenges. It is designed for working professionals from a wide range of backgrounds who wish to advance or enhance their business careers.

Students who have not had courses in certain fields of study may be required to take additional coursework as a prerequisite for completing some of the concentrations.

The Master of Business Administration program will use basic computer literacy skills (such as word processing and basic use of spreadsheets) that will be expected of students in the workplace. Students entering the program are expected to have a basic knowledge of MS Office or equivalent.

The Master of Business Administration program is an exciting educational option for students looking to increase their understanding, advance their careers and expand their opportunities in the world of business.

Concentrations are available in the following areas:

- Accounting
- Acquisition
- Artificial Intelligence (AI) Systems Management*
- Business Data*
- Cybersecurity Management*
- Digital Entrepreneurship*
- Finance
- Health Services Administration
- Human Resource Management
- Management
- Marketing
- Professional Studies
- Project Management
- Public Administration

*These concentrations are only available online in Pennsylvania.

Strayer business programs create value for students by providing a flexible, innovative and career-focused experience to maximize their economic mobility and empower them to succeed in business. The Strayer University Master of Business Administration degree program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP), 11520 West 119th Street, Overland Park, KS 66213, 913.339.9356.

AREA I – CORE COMPONENT

Required Courses

ACC 556	Financial Accounting for Managers
BUS 508	Contemporary Business
BUS 520	Leadership and Organizational Behavior
BUS 599	Strategic Management
ECO 550	Managerial Economics and Globalization
FIN 534	Financial Management
LEG 500	Law, Ethics and Corporate Governance
BUS 512	Data-Driven Decision Making for Leaders
MKT 500	Marketing Management

Subtotal: 40.5

AREA II – CONCENTRATION COMPONENT

Students must choose one of the following concentrations to

complete the Master of Business Administration.

Accounting Concentration

The Accounting Concentration reviews foundational accounting principles from the perspective of a business manager. Students will acquire skills and knowledge in cost accounting, organizational tax research and planning, and financial reporting and analysis. Students will be prepared to interpret accounting data to inform business decisions about organizational challenges.

ACC 560	Cost Accounting
ACC 565	Organizational Tax Research and Planning
ACC 573	Financial Reporting and Analysis

Subtotal: 13.5

Acquisition Concentration

The Acquisition Concentration evaluates the foundational elements of contract management from the perspective of general business and government. The concepts of government acquisitions, business strategies and proposals, and government contract law will be reviewed. Students will be able to evaluate the unique requirements and expectations of the federal government acquisition and contraction system to determine their impact on a business.

BUS 501	Government Acquisition
BUS 505	Business Strategies and Proposals
LEG 505	Government Contract Law

Subtotal: 13.5

Artificial Intelligence (AI) Systems Management Concentration*

The Artificial Intelligence (AI) Systems Management Concentration is designed to provide professionals with the knowledge and skills necessary to effectively manage and optimize AI systems within organizations. The program focuses on AI strategies to enhance systems performance and capabilities, providing students with a comprehensive understanding of AI technologies, their implementation, and the management principles required to drive successful AI initiatives. This concentration is suitable for individuals who are interested in the intersection of AI and business strategies.

CIS 509	Fundamentals of Artificial Intelligence Systems Management
CIS 543	AI Strategy for Performance Optimization
CIS 548	AI for Innovation and Strategic Decision-Making

Subtotal: 13.5

*Artificial Intelligence (AI) Systems Management: This concentration is only available online in Pennsylvania.

Business Data Concentration*

The Business Data Concentration assesses organizational data needs to drive business decisions and business process development. Concepts covered include understanding business data, business data and decisions, and operational data. Students will be able to conduct business analyses using current industry trends and data sets to solve business problems.

DAT 500	Understanding Business Data
DAT 510	Business Data and Decisions
DAT 520	Operational Data

Subtotal: 13.5

**Business Data concentration: This concentration is only available online in Pennsylvania.*

Cybersecurity Management Concentration*

The Cybersecurity Management Concentration applies current and emerging security management best practices to protect computing environments and reduce risk to organizations. Concepts reviewed include information systems for decision-making, theories of security management, IT risk management, and identifying and responding to cybercrimes. Students will be able to develop information technology strategies and mitigate the risk of cybercrimes to improve quality, timeliness and competitive advantage for organizations.

CIS 500	Information Systems for Decision-Making
	OR
CIS 502	Theories of Security Management
CIS 527	IT Risk Management
CIS 552	Cybercrime Techniques and Response

Subtotal: 13.5

**Cybersecurity Management: This concentration is only available online in Pennsylvania.*

Digital Entrepreneurship Concentration*

The Digital Entrepreneurship Concentration presents the foundational knowledge of small businesses. Students will learn fundamental knowledge of managing a start-up organization, digital aspects of business operations, and the technology and product management needed to be successful in a business environment.

BUS 523	High Growth Digital Startup Management
BUS 543	Digital Business Operations
BUS 553	Technology and Product Management

Subtotal: 13.5

**This concentration is only available online in Pennsylvania.*

Finance Concentration

The Finance Concentration provides students the knowledge to

formulate financial management strategies for a firm's operations in global markets. The elements of international finance, advanced corporate finance and corporate investment analysis are discussed. Students should be prepared to evaluate capital investments and structure to minimize risks and maximize rewards for a firm. Students will also be able to apply analytical techniques and models to inform investment decisions.

FIN 535	International Finance
FIN 540	Advanced Corporate Finance
FIN 550	Corporate Investment Analysis

Subtotal: 13.5

Global Management Concentration

The Global Management Concentration applies management theories and practices to organizations operating in global markets. Students will learn global business management techniques and practices, how to formulate global strategy and global marketing management principles. Student should be prepared to create global operations strategies to achieve a competitive advantage within international business environments.

MGT 510	Global Business Management
BUS 536	Global Strategy
MKT 515	Global Marketing Management

Subtotal: 13.5

Health Services Administration Concentration

The Health Services Administration Concentration reviews the principles and practices of administration in a healthcare services setting. Students will learn how to manage a healthcare business; the policies, laws and ethics of working in the healthcare industry; and how to properly manage the financial side of a profitable healthcare organization. Students will be prepared for careers in the administration and management of healthcare organizations.

HSA 501	Management in Healthcare
HSA 515	Healthcare Policy, Law and Ethics
HSA 525	Health Financial Management

Subtotal: 13.5

Human Resource Management Concentration

The Human Resource Management Concentration explores the fundamental practices of human resources from an organizational management perspective. Students will learn the foundations and strategic perspective of human resource management along with how to effectively manage change within an organization. Students will be prepared for careers that require fundamental human resource knowledge.

HRM 500	Human Resource Management Foundations
HRM 530	Strategic Human Resource Management

HRM 560 Managing Organizational Change

Subtotal: 13.5

Management Concentration

The Management Concentration of the MBA program emphasizes the foundations of management, including management principles and practices of planning, organizing, leading and controlling. Students will learn the interactions of the functional aspects of business from the operations perspective, explore the concepts and applications of sustainable business, and evaluate the strategic aspects of human resource management. Students are presented the fundamental skills and knowledge necessary to make effective business decisions.

BUS 515	Operations Management
BUS 521	Entrepreneurship and Innovation
	OR
HRM 530	Strategic Human Resource Management
MGT 500	Modern Management

Subtotal: 13.5

Marketing Concentration

The Marketing Concentration enables students to create marketing strategies that lead to a competitive advantage in the current global marketplace. Students will acquire knowledge and skills in global marketing management, social media marketing and consumer behavior. Students will be prepared to develop marketing approaches that consider the impact of consumer behavior.

MKT 515	Global Marketing Management
MKT 520	Social Media Marketing
MKT 510	Consumer Behavior

Subtotal: 13.5

Professional Studies Concentration

The Professional Studies Concentration provides students the opportunity to create a custom learning experience in business. Students will be able to choose three courses from the portfolio of MBA concentration courses that they feel best fit their learning needs. Through the choice of three additional graduate courses that fit the student's needs, students will be able to acquire skills and knowledge necessary to be successful in their chosen career within the business environment.

These courses are selected in consultation with a dean or coach. Courses may be selected from graduate-level courses in developing a curriculum that meets students' educational and professional needs. Students are responsible for fulfilling any prerequisites associated with the graduate courses selected in the program.

Subtotal: 13.5

Project Management Concentration

The Project Management Concentration applies the fundamentals of the project management process to an organizational project. Students will learn the skills and knowledge of the project management process, including determining project cost, effective project scheduling and sequencing, and quality management to ensure successful project delivery. Students will also learn how to identify and mitigate project risk through the project management process.

BUS 517	Project Management
BUS 518	Project Management Leadership
BUS 519	Project Risk Management

Subtotal: 13.5

Public Administration Concentration

The Public Administration Concentration provides opportunities for students to evaluate public policies and programs using quantitative analysis skills. Topics covered include modern public administration, public budgeting and finance, policy analysis and program evaluation, and public personnel management. Students will be prepared to apply organizational and management practices to ensure efficiency and accountability within public and non-profit organizations.

PAD 500	Modern Public Administration: Managing Public and Nonprofit Organizations
PAD 505	Public Budgeting and Finance
PAD 530	Public Personnel Management

Subtotal: 13.5

All courses are 4.5 quarter credit hours.

Total Credit Hours: 54.0

Media Design School at Strayer

The mission of Media Design School at Strayer (MDS) is to transform the lives of our students by equipping them with the creative, technical, and strategic tools needed to excel in the global digital and design industries. We prepare graduates to become innovative thinkers, skilled practitioners, and future leaders in their fields.

Founded in 1998, MDS was established to meet the growing demand for highly capable professionals in disciplines such as 3D Animation & Visual Effects, Game Development, Artificial Intelligence, Graphic and Motion Design, Creative Advertising, and UX/UI Design.

Our programs are designed to provide students with a strong, balanced, and integrated foundation across creative technologies. Building on that foundation, students develop advanced skills through immersive, project-based learning guided by award-winning faculty and industry mentors. The curriculum blends global best practices with the latest tools and techniques, ensuring graduates are prepared to meet the demands of a rapidly evolving creative economy.

MDS is a registered and accredited Private Training Establishment (PTE) under the New Zealand Qualifications Authority (NZQA) and a signatory to the Code of Practice for the Pastoral Care of International Students, reflecting our commitment to student wellbeing and support.

All qualifications offered by MDS are registered on the New Zealand Qualifications Framework (NZQF), ensuring they meet nationally recognised standards and are aligned with industry needs.

In its most recent External Evaluation and Review (EER) conducted by NZQA in September 2022, Media Design School received the highest possible ratings:

- Highly Confident in educational performance
- Highly Confident in capability in self-assessment

Additional information about MDS's strategic plans and performance, EER Category 1, our Code of Practice, Learner Success Plan, Tāngata Māori + Pacific Peoples Matawhānui / Vision, and Disability Action Plan can be found here: <https://www.mediadesignschool.com/about/strategic-plans-and-performance>

The Student Hub is located here: [Student Information Hub | Media Design School](#)

Program and course information can be found here: <https://www.mediadesignschool.com/courses>

This program does not currently offer access to federal financial aid from the U.S. Department of Education.

Courses

ACC – Accounting

Undergraduate Accounting Courses

ACC 100 - Accounting I

Prerequisite: CIS 101 or CIS 105, MAT 104 or MAT 110

Provides an understanding of accounting concepts, assumptions and principles. Covers analysis and recording of business transactions, the adjusting process and procedures to complete the accounting cycle. Progresses to illustrating merchandising operations and merchandise inventory accounting; covers internal control and cash; and explains accounting procedures for receivables.

ACC 206 - Accounting II

Prerequisite: ACC 100

Provides an understanding of accounting concepts, assumptions and principles. Progresses to evaluation of accounting data for plant assets, current liabilities, deferrals and accruals, payables and payroll. Introduces accounting for corporations as related to stocks, bonds and corporate earnings. Introduces partnership accounting and the statement of cash flows.

ACC 303 - Intermediate Accounting I

Prerequisite: ACC 206

This course provides an in-depth study of accounting theory and a review of the accounting cycle. It concentrates on the conceptual framework underlying financial accounting; the preparation of financial statements; the time value of money; the valuation of cash, temporary investments and receivables; the accounting for inventories; property, plant and equipment and intangible assets. The course refers to pronouncements of the Financial Accounting Standards Board (FASB) and the American Institute of Certified Public Accountants (AICPA).

ACC 304 - Intermediate Accounting II

Prerequisite: ACC 303

Topics covered include accounting for current and noncurrent liabilities and contingencies; and stockholders' equity; investments, revenue recognition, income taxes, pensions and postretirement benefits, and leases; accounting changes and error analysis; preparation of the statement of cash flows; and full disclosure in financial reporting. The material refers to pronouncements of the Financial Accounting Standards Board (FASB) and the American Institute of Certified Public Accountants (AICPA).

ACC 305 - Intermediate Accounting III

Prerequisite: ACC 304

Topics covered include accounting for investments, revenue recognition, income taxes, pensions and postretirement benefits,

and leases; accounting changes and error analysis; preparation of the statement of cash flows; and full disclosure in financial reporting. The material refers to pronouncements of the Financial Accounting Standards Board (FASB) and the American Institute of Certified Public Accountants (AICPA).

ACC 306 - Microcomputer Applications for Accountants

Prerequisite: ACC 206 or ACC 304

This course covers the use of QuickBooks Accountant, Microsoft Excel and the interface between the two software packages, as well as the functions and applications available under QuickBooks and Excel.

ACC 307 - Federal Taxation

Provides a comprehensive study of the types of taxes imposed by federal, state and local authorities. Concepts covered include income realization, property and depreciation, tax deductions and credits and rules related to capital gains and losses.

ACC 308 - Accounting Information Systems Fundamentals

Prerequisite: ACC 304

This course acquaints students with the fundamentals of the accounting information system (AIS) and how it functions and fits into the organization. The course focuses on the needs and responsibilities of accountants as users and developers of information technology, and as auditors.

ACC 309 - Data Analytics for Accounting

Prerequisite: ACC 206 and CIS 101 and MAT 110

This course is designed to provide students with the knowledge and skills necessary to work with statistical analytics in traditional accounting activities such as financial statement analysis and tax planning. Students will also develop their skills for preparing, analyzing and interpreting data and applications as they pertain to real-world problems.

ACC 317 - Advanced Federal Taxation

Prerequisite: ACC 307

Covers the federal taxation of corporations, partnerships and S corporations. Examines the administrative power of the IRS and tax concepts related to gifts, trusts and estates.

ACC 350 - Managerial Accounting

Prerequisite: ACC 206

This course covers accounting procedures relating to the job costing system, cost-volume-profit analysis, activity-based costing, the master budget, flexible budgets, responsibility accounting, variance analysis, inventory costing and capacity analysis.

ACC 399 - Accounting Experience Through Workplace Learning

Prerequisite: BUS 100, ACC 304, ACC 309, and ACC 350

This course enables students to gain professional experience by working with a team to complete an accounting project for a business client. Students should be prepared to be active collaborators and contributors so their team can be successful in the course experience in a specific area of accounting. Students will have an opportunity to add key skills and workplace experience to their professional profile or résumé and expand their network. Students will also examine how their academic courses tie to their field of study and gain essential skills and competencies to prepare for future career opportunities. Required coursework includes audio/video presentations that will be recorded for grading purposes only.

ACC 401 - Advanced Accounting

Prerequisite: ACC 304

Covers accounting for home office and branches and business combinations and consolidations. Also covers various techniques for solving some of the more complex problems in the business environment.

ACC 403 - Auditing

Prerequisite: ACC 304

Covers the theory of auditing, including the educational and ethical qualifications for auditors, as well as the role of the auditor in the American economy. Emphasizes professional standards, professional ethics and the legal liability of auditors, as well as the planning and design of an audit program, gathering and summarizing evidence and evaluating internal control.

ACC 410 - Government and Not-for-Profit Accounting

Prerequisite: ACC 304

This course analyzes accounting principles and procedures unique to federal, state and local governments, and not-for-profit organizations. It illustrates financial statements and reports prepared for each type of entity, fund and account group. The course explores the role of the Governmental Accounting Standards Board (GASB) and the Financial Accounting Standards Board (FASB) in establishing accounting standards and disclosure requirements for governments and not-for-profit organizations.

ACC 499 - Undergraduate Accounting Capstone

Prerequisite: ACC 304, ACC 317

This course provides students opportunities for analysis, synthesis, prescription and application of accounting concepts. Students will apply critical thinking and decision-making skills to real-world business cases involving complex accounting decisions.

A grade of C or higher is required for satisfactory course completion.

Course residency requirement: This course must be taken as last or next-to-last class; it is not eligible for transfer credit and must be taken at Strayer University.

Graduate Accounting Courses

ACC 555 - Individual Tax Research and Planning

Provides a basis for examining additional, more complex topics in individual federal taxation. Includes a comprehensive study of the federal income tax structure and the practical application of income tax accounting to specific problems as related to individuals and proprietorships. Emphasizes the general filing status, includable and excludable income, analysis of the categories of itemized and other deductions, tax treatment of sales and exchange of property, available depreciation methods and recapture provisions. Introduces the alternative minimum tax on individuals, the earned income credit, childcare credit and credit for the elderly. Ethics, research and tax planning are integral parts of the course.

ACC 556 - Financial Accounting for Managers

The course is designed with a focus on accounting to meet the needs of managers and stresses the interpretation and uses of accounting information. The information presented in the course is designed for a user of accounting information instead of preparer. Key concepts include financial statements and ratio analysis, uses of accounting information for decision-making and planning and control within key functional areas in an organization.

ACC 557 - Financial Accounting

This course provides a framework for financial accounting concepts and practices used by internal and external users in businesses. Topics presented include the accounting cycle, financial reporting, financial statements analysis, ratio calculation and interpretation, and management decision-making based on financial results.

ACC 560 - Cost Accounting

Prerequisite: ACC 556 or ACC 557

Covers the creation, use and interpretation of internal accounting data and information. Emphasizes the managerial functions of cost control and reporting, budgeting, profit planning and projections used in decision-making.

ACC 562 - Advanced Auditing

Prerequisite: ACC 403

Surveys in-depth analysis of current auditing issues, including professional standards and ethics, internal control gathering and documentation of evidence and statistical sampling. Focuses on detailed analysis of audit programs and electronic data processing, as well as concepts concerning the financial condition and operation of commercial enterprises.

ACC 563 - Advanced Accounting Theory

Prerequisite: ACC 556 or ACC 557

Provides a frame of reference for advanced accounting theories. Emphasizes income, liability and asset valuation based on inductive, deductive and capital market approaches. Also surveys price level changes, monetary and nonmonetary factors, problems of ownership equities and the disclosure of relevant information to investors and creditors.

ACC 564 - Accounting Information Systems

Prerequisite: ACC 562

Introduces the student to systems analysis and application of information systems concepts to the accounting process and accounting models, both manual and automated.

ACC 565 - Organizational Tax Research and Planning

Provides a basis for examining additional, more complex topics in corporate and partnership taxation. Additional topics such as estate and gift taxes, fiduciary accounting, tax-exempt entities and qualified and nonqualified plans are discussed. Ethics, research and tax planning are an integral part of the course.

ACC 568 - International Tax Planning and Research

Provides a comprehensive overview of the tax systems of key European, Asian, African, South American and Central American countries, as well as Canada. Examines the various complex issues in partnership and corporate tax planning, and the tax issues involved with joint ventures and consolidated returns filed in the United States.

ACC 571 - Forensic Accounting

Prerequisite: ACC 562

This course provides a framework for an understanding of forensic accounting. Topics covered include various foundation areas of importance to the forensic accountant, the basic forensic accounting tool-oriented areas and practice areas relevant to forensic accounting.

ACC 573 - Financial Reporting and Analysis

Prerequisite: ACC 560

This course prepares students to address concepts of financial reporting and analysis required in the business environment. Students learn important criteria for preparing and presenting financial statements and the related footnote information. Focus is on the analysis of financial statements and related information from the standpoint of the different users of financial reports.

ACC 574 - Emerging Auditing Technologies

Prerequisite: ACC 562

This course focuses on the assurances given to financial statements and other documents by the independent auditor in the context of auditing organizations and their business strategies. It compares the traditional independent auditing procedures to those found in the emerging new audit process and risk models.

ACC 575 - Business Law and Tax

Prerequisite: ACC 307, ACC 317, LEG 500 or LEG 565

This course covers advanced topics in the business law and tax environment for students pursuing a career in public accounting. Concepts covered include business ethics; business law; the Uniform Commercial Code; and federal income, estate, and gift taxation. Students analyze accounting information and make recommendations orally and in writing. Topics include the American Institute of Certified Public Accountants Code of Professional Conduct, ethics and responsibilities in tax practice, legal responsibilities and liabilities, agency and contracts, debtor-

creditor relationships, the federal government's regulation of business, and the federal taxation of individuals, corporations, S corporations, partnerships, fiduciaries, estates and gifts.

ACC 576 - Auditing and Selected Discipline

Prerequisite: ACC 403

This course covers advanced topics in auditing and a selected discipline of the student's choice for pursuing a career in public accounting. Concepts covered include auditing procedures and attestation engagements. Students evaluate risk assessment, perform attestation services, and analyze the entire audit process, from preparation to review. Topics include auditing procedures, generally accepted domestic auditing standards, audit reports, other attestation reports, other professional services, the Sarbanes-Oxley Act of 2002, and the Public Company Accounting Oversight Board. In addition to auditing and attestation concepts, students will learn the concepts of the discipline they choose: Business Analysis and Reporting (BAR), Information Systems and Controls (ISC), or Tax Compliance and Planning (TCP).

ACC 577 - Comprehensive Financial Accounting

Prerequisite: ACC 556 or ACC 557

This course covers advanced topics in financial accounting for students pursuing a career in public accounting. Concepts covered include complex accounting functions affecting businesses. Students analyze financial accounting and financial reporting information and make recommendations both orally and in writing. Topics covered include concepts and standards; financial statements; income statement items; financial statement disclosure; cash and inventories; receivables; inventories; property, plant, and equipment; intangibles and other assets; payables and taxes; employee benefits; long-term liabilities; leases and contingencies; equity; business combinations; foreign currency issues and other topics; governmental concepts; fund accounting and reporting; and not-for-profit concepts, accounting and reporting.

ACC 578 - Fraud Prevention and Detection

Evaluate the fraud risk environment, key roles related to fraud prevention, and strategies for fraud prevention and detection.

ACC 599 - Graduate Accounting Capstone

This course allows students to apply the knowledge gained in the program related to financial and managerial accounting, forensic accounting and auditing concepts. The students will apply critical thinking and decision-making skills to real world business cases involving complex accounting decision through analysis, synthesis, prescription and application of accounting concepts.

A grade of B or higher is required for satisfactory course completion.

Course residency requirement: This course must be taken as last or next-to-last class; it is not eligible for transfer credit and must be taken at Strayer University.

BUS – Business

Undergraduate Business Courses

BUS 100 - Introduction to Business

With a focus on adapting through change, the course provides an introduction to today's business operations including the product, the pitch, the profit, the people, the competition, and more. This course introduces the concept of the S-Curve and shows how continuous innovation creates personal and professional growth. Students will also learn how to identify a company's strengths, weaknesses, opportunities, and threats while understanding how companies adapt and innovate along the S-Curve.

BUS 210 - Build Your Personal Brand and Accelerate Your Career

Prerequisite: BUS 100

To stand out in today's competitive marketplace, you need to identify, create, and refine your personal brand. With a strong brand and a well-honed ability to market yourself, you'll be better positioned to advance your career. In this course, you will learn to identify your strengths, tell your professional story, sharpen your résumé, and improve your marketability in the workforce. You will also write a personal mission statement and discover tools to help you build your brand.

BUS 230 - Purchasing and Materials Management

Examines integral aspects of purchasing and materials management including function, organization, quality and quantity considerations, pricing policies, supplier selection and ethical and legal implications. Reviews purchasing procedures, value analysis, inventory control, warehousing and traffic, capital equipment, make-or-buy decision-making, automation, budgets and institutional and governmental purchasing practices.

BUS 300 - Public Relations

Surveys the practice of public relations in business, nonprofit organizations and governmental institutions. Examines the major forms of media used in public relations: news releases, broadcast publicity, public service announcements and institutional advertising.

BUS 302 - Management Concepts

Prerequisite: BUS 100

Successful businesses depend on effective managers to create positive cultures, build efficient operations, and increase employee productivity. This course explores management concepts that are critical to ensuring businesses meet their objectives. As you study the five components of management—planning, organizing, staffing, leading, and controlling—you will learn to identify the organizational behaviors that help businesses thrive.

BUS 309 - Business Ethics

Prerequisite: BUS 100 and BUS 302

Ethical choices can make or break a company in many ways. As you can see in the news, many companies have been destroyed by

poor ethical decisions. In this course, you'll learn the ethical perspectives of business decision-making and organizational culture in a variety of key areas including individual behavior, human resource management, work environments, marketing, property rights, and international business. Understanding how ethics play a role in good business decision-making will help you be more successful as you move along your personal and professional S-curve.

BUS 310 - Human Resource Management

Prerequisite: BUS 100

Businesses are made up of people, which is why human resource management, or HRM, is so important. Human resource management is a field that focuses on the employees and is essential to the success of an organization. Every organization needs a set of processes to manage all aspects of human resources, from recruitment to performance management and beyond. This course focuses on the key components of that process and the activities that managers complete to perform them as well as the role that human resources plays in strategic planning.

BUS 313 - Introduction to Entrepreneurship

Prerequisite: BUS 100

This course introduces the students to the key components of entrepreneurship. Topics covered include identifying new venture opportunities, getting started in a new venture, creating a business plan, financing and marketing ideas, and organizing and managing a small business.

BUS 315 - Cost and Price Analysis

Prerequisite: ACC 100

Covers establishment and administration of equitable pricing arrangements for goods and/or services. Analyzes the total price (cost plus profit) and the individual elements of cost (labor, materials, indirect costs and profit). Emphasizes techniques for determining proper prices and estimating. Discusses methods of pricing research and development, and the selection of hardware and services.

BUS 319 - Principles of Federal Acquisition and Contract Management

Examines the federal procurement process and introduces concepts, policies and procedures associated with government contracting. Discusses the programming, planning, and justification of program funding, formulation and earmarking procurement requirements, preparation of work statements and specifications, procurement requests and acquisition planning.

BUS 322 - Organizational Behavior

Organizational behavior is a fascinating field that can help you unlock the secrets to short- and long-term business success. In this course, you will explore the intricacies of individual and group behavior within an organization and learn strategies and methods for improving performance. You will delve into employee engagement tactics, group interactions, communication, conflict resolution strategies, and managing change. By the end of the course, you will be able to identify organizational behaviors in the workplace that enhance employee

and job satisfaction, leading to business success.

BUS 325 - Global Human Resource Management

Prerequisite: BUS 310

Examines the considerations for human resource management in support of global business operations. Analyzes the sources of labor, business strategy, corporate culture and cultural differences as elements of global human resource planning. Reviews fundamental human resource issues such as compensation, productivity and training.

BUS 330 - Contract Administration and Management

Presents the general policies and procedures for federal contract administration in accordance with Federal Acquisition Regulation. Reviews the responsibilities of contract administration including pre- and post-award activities, contract oversight, quality assurance, compliance, financing, cost controls, documentation, terminations and disputes, and subcontract management. Discusses coordination with procurement activities and audit agencies.

BUS 335 - Staffing Organizations

Prerequisite: BUS 310

Examines the role of staffing to support an organization's strategy and improve productivity. Reviews the key legal compliance issues associated with staffing organizations. Emphasis is placed on HRM planning, job analysis, effective recruitment strategies, developing selection processes and formulation of staffing plans. Provides considerations for employee retention.

BUS 340 - Contract and Purchasing Negotiation Techniques

Presents the theory, strategies, techniques and tactics for negotiating contracts, and principles and practices of negotiations for procurement. Includes preparation and conduct of negotiations and emphasizes interactions prior to/during negotiations and methods of dealing with situations under different types of negotiations. The focus is on federal government contracting.

BUS 363 - Technology and Innovation in Entrepreneurship

The course introduces students to the entrepreneurship process and how that process enhances the movement of technology to the market. The key concepts presented include how technology drives innovation, how to foster a culture of innovation, and how to create organizational wealth through innovation and technology.

BUS 375 - Project Management

Prerequisite: BUS 100

Presents the fundamentals of the project management process and examines application of the process. Reviews the stages and activities in the project life cycle, the organization for project management, and various project control and evaluations processes. Introduces considerations for negotiation and human resource management concerns in project management.

BUS 377 - Managing Project Risk

Prerequisite: BUS 375 or CIS 348

This course addresses the risk component of projects and provides an overview of project risk management and related tools. Students will learn techniques for identifying, analyzing and minimizing risks that are inherent to projects, and building skills to systematically manage project risk to ensure that projects are delivered within cost estimates and timelines.

BUS 380 - Managing Project Teams

Prerequisite: BUS 375 or CIS 348

This course examines the unique human resource aspects of managing human resources and project teams. The management areas of focus include planning for human capital needs, acquiring and developing skills needed for projects, motivating the team and measuring the project team's performance.

BUS 399 - Business Experience through Workplace Learning

Prerequisite: BUS 100, BUS 302, BUS 309, and MKT 100 or MKT 305

This course enables students to gain professional experience in a specific area of business by working with a team to complete a project for a business client. Students should be prepared to be active collaborators and contributors so their team can be successful in the course. Students will have an opportunity to add key skills and workplace experience to their professional profile or résumé and expand their network. Students will also examine how their academic courses tie to their field of study and gain essential skills and competencies to prepare for future career opportunities. Required coursework includes audio/video presentations that will be recorded for grading purposes only.

Course residency requirement: Successful completion of 90 total credits (including transfer credit).

BUS 402 - Small Business Management

Prerequisite: BUS 100

Provides the basic principles of operating and managing a small business. Topics include buying, merchandising, pricing, promotions, inventory management, customer service, location decisions and planning. Reviews strategic planning considerations related to operating a small business.

BUS 407 - Training and Development

Prerequisite: BUS 310

Presents the concepts of learning (cognitive and behaviorist), principles of instructional design, and the relationship of motivation and learning. Analyzes the phases of the training process model and the activities associated with each phase. Reviews how to develop viable training programs to fit a variety of organizational requirements for both employee and management training and development.

BUS 409 - Compensation Management

Prerequisite: BUS 310

Introduces and analyzes the basic concepts of compensation administration in organizations. Provides an intensive study of the wage system, methods of job evaluation, wage and salary structures, and the legal constraints on compensation programs.

BUS 419 - Project Estimating and Budgeting

Prerequisite: BUS 375 or CIS 348

This course focuses on critical aspects of the project process and techniques used for cost estimating and budgeting. The course will explore project essentials such as determining project costs, scheduling and project sequencing, and quality management to ensure the successful delivery of projects.

BUS 430 - Operations Management

Prerequisite: BUS 100

This course covers the key concepts related to operations management within an organization. Topics include strategic issues related to designing products and delivery services, making capacity and location decisions, and operating processes and control systems.

BUS 435 - Management and Growth in Entrepreneurship

This course explores the management growth aspects of an entrepreneurial business, focusing on the nature and challenges of entrepreneurial businesses as they move beyond startup. The primary focus of the course will be managing and building an organization capable of growth and ensuring the organization can sustain growth as the market and competitive environment changes. Key topics include managing with limited resources, identifying key people and establishing processes, creating organization culture, stabilizing cash and other financial resources and establishing a vision to drive the organization.

BUS 437 - Project Procurement Management

The course will address the essential elements of project contracting and resource procurement. Project areas to be addressed include procurement management process, various types of contracts, contract selection and negotiations, administration, fulfillment and completion. Learners in this course study the significance of contracts and the procurement process in project management.

BUS 463 - Entrepreneurship Feasibility and Analysis

This course provides students opportunities for analysis, synthesis, prescription and application of entrepreneurship concepts. Students will use real-work entrepreneurship cases and apply critical thinking and decision-making skills involving complex entrepreneurship decisions.

BUS 475 - Business and Society

Prerequisite: BUS 309

This course explores the role of primary and secondary stakeholders, both within and outside organizations. Ethics and social responsibility will be investigated and where organizational activities fall within different continuums will be reviewed. The broad forces in business, society, and globalization will be examined and how stakeholders can influence the destiny of both business and society will be discussed.

BUS 499 - Business Administration Capstone

This course is the capstone course for the Bachelor of Business Administration program. It examines the processes by which organizations formulate strategy, implement policy, and evaluate

outcomes in the highly competitive and dynamic global environment. The ethical implications of strategic choices are a central concern of this course. Analytic, integrative and decision-making skills will be exercised through the use of case analysis and decision-making.

A grade of C or higher is required for satisfactory course completion.

Course residency requirement: This course must be taken as last or next-to-last class; it is not eligible for transfer credit and must be taken at Strayer University.

Graduate Business Courses

BUS 501 - Government Acquisition

This course provides an introduction and overview of government contracting and its unique nature, demonstrating the differences between commercial and government contracting with a concentration on the federal system. Using online resources, students cover the organization of the Federal Acquisition Regulation and how to interpret relevant subject coverage. Current reforms in the acquisition field will be incorporated into the course and emerging controversies will be highlighted to provide students with an up-to-date view of the profession.

BUS 505 - Business Strategies and Proposals

Prerequisite: BUS 501

Provides a framework for formulating business strategies to be competitive in the federal acquisition market. Examines the approaches for business development and effective proposal preparation. Reviews the request for proposal (RFP) process in federal acquisition, analysis of RFPs, preparation of proposals, and reviews and follow-up actions.

BUS 508 - Contemporary Business

Examines the functions and processes within a business enterprise and key factors affecting productivity. Reviews the dynamics of the business operating environment both internal and external, factors affecting competition and considerations for global operations. Provides a conceptual base for managers to assess and enhance strategic performance in a business organization through the integration of the core business functions, effective resource management and sound leadership.

BUS 512 - Data-Driven Decision Making for Leaders

This course explores how business leaders can apply statistical and performance data to improve business process and performance. The concepts presented in this course relate to gathering and evaluating data within a business environment, using statistical tools and techniques, and formalizing conclusions based on the data to make better informed business decisions.

BUS 515 - Operations Management

Prerequisite: BUS 512 or MAT 510 or MAT 540

Presents production and operations concepts and the techniques used in their management. Examines the interaction of the operations functions with other primary functions such as marketing and finance. Analyzes the primary areas of process and product design, JIT manufacturing, allocation of scarce resources,

e-commerce and quality management principles.

BUS 517 - Project Management

Examines project management principles used to effectively plan, direct and control project activities to achieve schedule, budget and performance objectives. Reviews the project life cycle, organization and charters, work breakdown structures, responsibility matrixes, cost budgeting, scheduling and resource allocation. Presents planning and control methods such as PERT and Gantt charts, earned value management and an overview of project management software applications.

BUS 518 - Project Management Leadership

Prerequisite: BUS 517 or CIS 517

Prepares project managers to be champions and true leaders in their roles in order to ensure project success when faced with the challenges of an ever-changing, complex global environment. Develops the competencies to lead project teams through more effective communication, identify motivational value systems to improve productivity and cooperation, and recognize the role of business and personal ethics in leadership. Examines both the art and science of negotiation.

BUS 519 - Project Risk Management

Prerequisite: BUS 517 or CIS 517

Presents the application of risk management strategies to identify, analyze and mitigate the full range of project risks in order to ensure project success. Examines the six risk management processes outlined in the Project Management Body of Knowledge (PMBOK®) Guide: risk management planning, risk identification, qualitative risk analysis, quantitative risk analysis, risk response planning and risk monitoring and control.

BUS 520 - Leadership and Organizational Behavior

Analyzes the interaction of individual, group and organizational dynamics that influence human behavior in organizations and determines appropriate management approaches to foster a productive work environment. Examines a variety of theories, models and strategies used to understand motivation and individual behavior, decision-making, the dynamics of groups, work teams, communication, leadership, power and politics, conflict resolution, work design, organizational structure and culture and managing change. Provides a conceptual base for managers to interpret, assess and influence human behavior in an organization.

BUS 521 - Entrepreneurship and Innovation

Explores the concepts and applications of sustainable business, including creating, leading and managing business enterprises. Examines approaches for leading entrepreneurial individuals and companies. Analyzes innovation issues, including creating and realizing value, prioritizing opportunities and managing the innovation process.

BUS 523 - High Growth Digital Startup Management

There's a lot that goes into managing a high growth digital startup. This course will provide valuable information related to how to organize and grow the core financial and procedural operations of a digital business. Topics covered include an

overview of people management, organizational design, sales, social media marketing, competition, funding methods, metrics, contracts/legal and when to sell a startup.

BUS 526 - Negotiation and Conflict Resolution

Examines conflict negotiation in organizations. Provides a background in negotiation, mediation, ombudsmen, investigator systems, peer review boards, arbitration and dispute resolution. Presents specialized concepts in managerial negotiations such as cross-culturally making effective group decisions, negotiating mergers and acquisitions and managing business integration teams.

BUS 536 - Global Strategy

The course explores the creation of effective strategies within global markets. The course content includes the exploration of global competitive dynamics, leveraging resources and capabilities, entering foreign markets and creating competitive advantages within a framework of ethics and social responsibility.

BUS 543 - Digital Business Operations

Day-to-day operations at a digital company are fast-paced. This course will provide an overview of the operational, sales and marketing skills specific to a digital business. Topics covered include digital platforms, industry trends, operating a distributed content company, analytics and optimization, video, social media management, digital advertising sales and client management/reporting.

BUS 553 - Technology and Product Management

You'll need talent and technology to ensure that your business is a success. This course will provide an overview on how to develop and take digital software, a digital site or a product to market. Topics covered include landscape analysis, product design and description, production, project management, launch, key metrics, monetization, fostering feedback, product improvement and business growth/development.

BUS 595 - Business Experience through Workplace Learning

Prerequisite: BUS 520 and MKT 500

This course enables students to gain professional experience by working with a team to complete a project for a business client. Students should be prepared to be active collaborators and contributors so their team can be successful in the course experience in a specific area of business. Students will have an opportunity to add key skills and workplace experience to their professional profile or resume and expand their network. Students will also examine how their academic courses tie to their field of study and gain essential skills and competencies to prepare for future career opportunities. Required coursework includes audio/video presentations that will be recorded for grading purposes only.

This course may be taken to fulfill the MBA elective requirement. The course may also be applied toward fulfilling a requirement in

the Professional Studies concentration but would not be applied to any other concentration in the 10-course MBA program.

BUS 599 - Strategic Management

Examines the strategic management process and implementation of successful business strategies in the highly competitive and dynamic global environment. Analyzes the impact of technology, government policy, and world economic and political forces on strategy formulation and execution. Analytic, integrative, and decision-making skills will be exercised through the use of case analysis and decision-making that will involve the core business functions, leadership challenges and global operations.

A grade of B or higher is required for satisfactory course completion.

Course residency requirement: This course must be taken as last or next-to-last class; it is not eligible for transfer credit and must be taken at Strayer University.

CIS – Information Systems

Undergraduate Computer Information System Courses

CIS 101 - Navigating a Digital World

Technology has transformed the way we live and work and staying up-to-date with digital tools can keep you ahead of the game. From Microsoft Office to social media to productivity tools, this course will teach you about technological tools you can use to stay organized, maximize your time, and stand out personally and professionally.

CIS 105 - Introduction to Information Systems

This course introduces students to the general purpose of information systems in organizations and their use of personal productivity software. Students will demonstrate tasks in common application software to include word processing, web browsing, spreadsheet modeling, database management, and presentation graphics.

CIS 106 - Introduction to Information Technology

Prerequisite: CIS 101 or CIS 105

This course provides a foundational overview to the discipline of Information Technology that illuminates key computing concepts and describes how those concepts relate to other computing disciplines. Students are presented the diverse context in which information technology is used and the challenges inherent in the diffusion of innovative technologies.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied first through completion of a course at Strayer University, transfer credit, or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 109 - Introduction to Management Information Systems

This course provides an introduction to contemporary information systems and demonstrates how these systems are used throughout the organization. The focus of this course will be on the key components of information systems—people, software, hardware, data, and communication technologies, and how these components are developed, acquired and integrated to create a competitive advantage.

CIS 110 - Computer Programming Design

Prerequisite: CIS 101 or CIS 105 or CIS 106 or CIS 109 and MAT 104 or MAT110

The course introduces students to fundamental programming concepts to include event-driven programming, object-oriented programming, basic data structures and algorithmic processes. Emphasis is placed on structure, decision-making, looping, arrays, methods, objects, events, databases, pseudo coding and visual flowcharting to construct workable programs.

CIS 111 - Introduction to Relational Database Management Systems

Prerequisite: CIS 101 or CIS 105 or CIS 106 or CIS 109

This course provides students with an introduction to the theory and applied concepts of database design, database management and information management. Students will focus on identifying organizational information requirements, express those requirements using conceptual data modeling techniques, verifying the structural characteristics with normalization techniques and convert conceptual data models into physical database models.

CIS 112 - Introduction to Cloud Computing

Prerequisite: CIS 106 or CIS 109

This course introduces students to Amazon Web Services (AWS) by providing an overview of cloud concepts, AWS core services, security, and the steps required for successful implementation. This course is designed to support students in preparation for the AWS Certified Cloud Practitioner Exam.

CIS 170 - Information Technology in Criminal Justice

Prerequisite: CIS 101 or CIS 105

This course provides a foundational overview of the types of crimes and terrorist acts committed using digital technology. Students will explore information technology, computing networks and the Internet in a criminal justice context. Topics include the theories addressing digital criminals and an overview of legal strategies and tactics targeting digital crime. Fundamental research skills in the investigation of digital crime and terrorism also will be explored.

CIS 175 - Introduction to Networking

Prerequisite: CIS 312 or CIS 170 (this course for Criminal Justice majors only)

This course introduces students to the fundamentals of networking technology. The focus of the course will include networking protocols, topologies, hardware and operating systems. Topics include data communications,

telecommunications, infrastructure security, inter/intranetworking and the application of networking to multimedia, information storage and distribution.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 210 - Systems Analysis and Development

Prerequisite: CIS 106 or CIS 109 or CIS 111

This course presents the processes, methods, techniques and tools that organizations use to effectively develop computer-based technologies. Topics include a fundamental review of project management and data design followed by the processes required to gather and articulate business requirements. Students will acquire skills to procure, evaluate, test and systematically build systems for integration into an organization.

CIS 211 - Introduction to Artificial Intelligence

This course provides an overview of artificial intelligence, exploring its history, applications, and impact on various industries. The course also covers ethical considerations and societal implications of AI. Practical exercises using popular AI tools and frameworks will provide hands-on experience.

CIS 214 - Introduction to Prompt Engineering

Prerequisite: CIS 211

This course introduces learners to the concept of prompt engineering, a crucial aspect of building AI models that understand and generate human-like text. They will explore techniques for prompt design, optimization, and fine-tuning, with an emphasis on natural language processing (NLP) tasks. Students will learn techniques for designing prompts, understanding their impact on model performance, and leveraging prompts for various AI applications.

CIS 242 - C++ Programming I

Prerequisite: CIS 110

This course introduces students to the fundamental constructs of the C++ object-oriented programming language. Students will test, document and design business-oriented programs. Topics include data types and objects, encapsulation, polymorphism and inheritance.

CIS 261 - Object-Oriented Computer Programming I

Prerequisite: CIS 110

This course explores the fundamentals of object-oriented programming. Students will apply basic programming concepts as they design, develop and test their own applications. Topics include variables, expressions, types, branching, loops, functions, string, list and dictionaries.

CIS 307 - Web Page Development I

Prerequisite: CIS 110 and CIS 376

This course prepares students to develop and program web-based applications using client-side scripting techniques. Topics include client-side scripting for developing interactive websites, the use of object-oriented techniques and creating well-formed webpages, as well as techniques for manipulating data in strings and arrays.

CIS 309 - Web Page Development II

Prerequisite: CIS 307

This course provides advanced techniques to design, develop and test web-based applications. Topics include using static and dynamic scripting languages to create interactive websites, manipulating strings, objects and data in arrays and working with client/server databases. Students will use object-oriented programming techniques, as well as authentication and security in creating the websites.

CIS 312 - Computer Architecture

Prerequisite: CIS 106

This course presents students with concepts and essential skills required to administer operating systems, networks, software, file systems, file servers, web systems, database systems, system documentation, policies and procedures. Topics include the methods required to select, deploy, integrate and administer computing platforms or components that support an organization's information technology infrastructure. The fundamentals of hardware and software and how they integrate to form essential components of systems are also explored.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit, or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 324 - Ethics in IT

This course provides critical ethical and legal information that computer security professionals must take into account when developing security policies, plans and procedures. This course focuses on ethical and legal issues and privacy considerations that organizations must take into account. Topics also include issues related to risk mitigation and analysis, incident response and contingency planning.

CIS 332 - Network Server Administration I

Prerequisite: CIS 175 or CIS 312 or CIS 337

This is a lab-based course that prepares students to install, configure, secure and maintain the Windows server environment. Topics include configuring and managing DHCP, DNS, routing and remote access and file and print services.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for

additional information.

CIS 333 - Networking Security Fundamentals

Prerequisite: CIS 175 or CIS 170 for Criminal Justice majors only

This is a lab-based course that provides an overview of information technology security principles, challenges, vulnerabilities and countermeasure strategies. Topics include definition of security terms, concepts, elements and goals. Students will explore industry standards and practices that focus on the availability, integrity and confidentiality aspects of information systems security.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 336 - Enterprise Architecture

Prerequisite: CIS 106 or CIS 109

This course explores the design, selection, implementation and management of enterprise IT solutions. Topics include frameworks and strategies for infrastructure management, system administration, data/information architecture, content management, distributed computing, middleware, legacy system integration, system consolidation, software selection, total cost of ownership calculation, IT investment analysis and emerging technologies.

CIS 337 - Internetworking Basics

Prerequisite: CIS 175

This course introduces students to the fundamentals of networking. Students will learn the skills necessary to install, operate, configure and verify local area networks in a simulated environment. Topics include configuring LAN switches and IP routers, managing network devices, assessing connectivity and access issues, and identifying basic security concerns.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 348 - Information Technology Project Management

Prerequisite: CIS 106 or CIS 109

This course examines the processes, methods, techniques and tools that organizations use to manage their information technology projects in accordance with the Project Management Institutes Project Management Body of Knowledge (PMBOK®). Emphasis is placed on the methodology and project management software for initiating, planning, executing, controlling and closing technology projects. Topics include various types of technologies to support group collaboration and the use of

resources from within the firm as well as contracted from outside the organization.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 356 - Decision Support and Business Intelligence

Prerequisite: CIS 109 or CIS 111 or CIS 112

This course covers the techniques, frameworks and application of computerized decision support systems that support managerial decision-making. Topics include the characteristics, structure, uses and types of decision support systems.

CIS 357 - Advanced Internetworking

Prerequisite: CIS 337

This course builds on student knowledge of networking fundamentals and teaches students to design and configure wide-area networks (WANs). Students will learn the skills necessary to manage such networks in a simulated environment. Topics will include advanced network design and switching, VLANs, advanced router and network management configuration and network security.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 359 - Disaster Recovery Management

This course provides a foundation in disaster recovery and incident response in computing environments. Students will learn to prepare a disaster recovery plan, assess risk and develop policies and procedures. Topics include contingency planning, business continuity and crisis management.

CIS 361 - Object Oriented Computer Programming II

Prerequisite: CIS 261

Students will build on the foundation developed in previous courses by solving problems and developing applications using an object-oriented programming language. Various methods to organize and interact with data will be addressed in the course. Students will design, implement, test and debug a variety of programs. Topics include classes, exceptions, modules, files, inheritance, recursion, searching and sorting, linked lists, stacks and queues.

CIS 362 - Data Analytics I

Prerequisite: CIS 261, MAT 210 or MAT 300

This course provides students with a comprehensive foundation

in the field of data science and its application to decision-making. It focuses on using computational methods and statistical techniques to analyze massive amounts of data. It also teaches students to identify and deploy appropriate modeling and tools to extract meaningful information from big data.

CIS 363 - Python Programming for Artificial Intelligence

Prerequisite: CIS 211 and CIS 261

This course focuses on developing programming skills necessary for Artificial Intelligence (AI) applications using the Python programming language. Students will learn Python programming techniques and libraries commonly used in AI development and they will gain proficiency in writing Python code to solve AI-related problems.

CIS 365 - Advanced Artificial Intelligence Applications

Prerequisite: CIS 211

This course explores advanced applications of AI in various domains, such as healthcare, finance, and autonomous systems, and other industries. The course emphasizes practical implementation and real-world case studies to demonstrate the application of AI techniques. Topics such as reinforcement learning, ethical considerations, fairness, and interpretability in AI are included.

CIS 373 - Web Design and Development

Prerequisite: CIS 110

This course presents to students the design, implementation and testing of web-based applications, including related software, databases, scripting techniques, interfaces and digital media. It also covers social, ethical and security issues arising from the Web, e-commerce and social networking software applications.

CIS 375 - Human-Computer Interaction

Prerequisite: CIS 210 or CIS 361

This course presents students with user-centered methodologies in the development, evaluation and deployment of information technology applications and systems. Students are exposed to evolving technologies and devices and how to design interactive products that enhance the way people communicate, interact and work with computers. Topics include human-computer interaction, user and task analysis, human factors, ergonomics, accessibility standards and cognitive psychology.

CIS 376 - SQL Programming

Prerequisite: CIS 111 or CIS 112

This course covers the concepts, and components for designing, building and querying databases using the Structured Query Language (SQL). Students will use tools to create tables and apply database and table constraints through the use of the Data Manipulation Language (DML) and Data Definition Language (DDL).

CIS 377 - SQL Programming II

Prerequisite: CIS 376

This course covers the concepts, design and querying of databases using the Structured Query Language (SQL), including

large datasets, objects and data dictionaries, system privileges and security functions.

CIS 399 - Information Technology Experience Through Workplace Learning

Prerequisite: CIS 175, CIS 261, CIS 373 and CIS 376

This course enables students to gain professional experience by working with a team to complete an information technology project for an organization. Students should be prepared to be active collaborators and contributors so their team can be successful in the course experience in a specific area of information technology. Students will have an opportunity to add key skills and workplace experience to their professional profile or résumé and expand their network. Students will also examine how their academic courses tie to their field of study and gain essential skills and competencies to prepare for future career opportunities. Required coursework includes audio/video presentations that will be recorded for grading purposes only.

CIS 401 - Network Server Administration II

Prerequisite: CIS 332

This is a lab-based course that prepares students with advanced server administration concepts to plan, deploy, secure, monitor, back up and manage enterprise network server environments. Topics also include storage solutions, high availability, file and printer services and security.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 406 - JAVA Programming I

Prerequisite: CIS 110

This course introduces students to the fundamental constructs of the Java object-oriented programming language. Students will test, document and design business-oriented programs. Topics include objects, classes, iteration, encapsulation, polymorphism and inheritance.

CIS 407 - JAVA Programming II

Prerequisite: CIS 406

This course covers advanced topics in the Java object-oriented programming language. Students will test, document and design business-oriented programs and solve advanced programming problems. Topics include advanced data structures, recursion, multithreading and the application of Java constructs to the Internet and database development.

CIS 409 - Network Services Infrastructure

Prerequisite: CIS 175 or CIS 337

This is a lab-based course that prepares students to install, configure, secure and maintain services in the Windows Active

Directory environment. Topics include group policies, configuration management of various services, cloud infrastructure, virtual machines, security strategies and certificate services.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 417 - Computer Forensics

Prerequisite: CIS 333

This course offers an introduction to system forensics investigation and response. Topics include procedures for investigating computer and cyber-crime, tools, techniques and methods used to perform forensic investigations and concepts for collecting, analyzing, recovering and preserving forensic evidence.

CIS 421 - Software Engineering

Prerequisite: CIS 210

This course introduces students to the systematic design and operation of software development and related activities. Students will explore software methodologies and practices that ensure the design is of high quality, affordable, maintainable and faster to build. Topics also will examine quantifiable and systematic approaches that test, maintain and reengineer software-driven systems.

CIS 424 - Database Administration I

Prerequisite: CIS 111 or CIS 112 and CIS 376

This is a lab-based course that prepares students with the skills to plan, install, develop, and administer databases in the Oracle database environment. Topics also include procedures that enable installing and configuring a database server, security, optimizing database performance, and troubleshooting techniques.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 428 - Database Administration II

Prerequisite: CIS 424

This is a lab-based course that prepares students with the skills to design, plan and optimize the Microsoft SQL Server (MSSQL) database infrastructure. Topics include managing and maintaining databases or multidimensional databases, user accounts, database availability and recovery and reporting, as well as the design and implementation of security and server automation.

Certification offering: Certification availability is subject to change. Course preparation requirements: Course may require

that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 429 - Data Warehouse Planning

Prerequisite: CIS 111 or CIS 112

This course covers the principles, approaches and critical issues in planning, designing and deploying data warehouses. Topics include data extraction, data cleansing, data transformation, architecture and infrastructure. Students will examine recent trends in data warehousing, metadata and architectural components.

CIS 437 - Cloud Architecture and Design

Prerequisite: CIS 376

Maintaining a cloud-based system is a high-demand skill in business today. This course prepares students to design, develop and administer a secure and efficient cloud-based system to support organizational data needs. It introduces students to fundamental cloud computing security concepts, including access control and management, governance, logging and encryption methods. It also covers security-related compliance protocols, risk management strategies and security features of cloud-based services. This course will also include Amazon Web Services (AWS) preparatory materials for the AWS Cloud Architecting Certification exam. AWS preparatory materials are included in portions of this course's reading materials, assignments and quizzes that are delivered through the Strayer learning management system. There are no additional costs for the AWS Academy preparatory materials utilized in this course.

Certification offering: Certification availability is subject to change and students pursuing certification are responsible for the cost of the AWS Cloud Architecting Certification exam separately administered by AWS.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 438 - Information Security Legal Issues

Prerequisite: CIS 333

This course addresses the area where law and information security concerns intersect. Students will be presented with fundamental security and privacy concepts, recent U.S. laws that address information security and privacy, and security and privacy for organizations. Topics also include issues related to governance, risk analysis, incidence response and contingency planning.

CIS 439 - Deep Learning and Neural Networks

Prerequisite: CIS 363

In this course, students will explore advanced concepts and architectures including feedforward neural networks, convolutional neural networks, recurrent neural networks, and sequence modeling. Analysis of a practical implementation of

deep learning models will be emphasized.

CIS 443 - Agile Project Management

Prerequisite: CIS 348

This course introduces students to Agile Project Management. Students are presented with core values, fundamentals, frameworks and the practices in various Agile phases. Topics also include governance, quality and the application of Agile methods in organizational settings.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 447 - AWS Cloud Operations I

Prerequisite: CIS 437

This course introduces students to best practices in the Amazon Web Services (AWS) Cloud. It introduces design patterns to solve problems and troubleshoot various real-world cloud service scenarios. Opportunities to explore case studies and to build actual infrastructures through labs and hands on activities are provided throughout. This course is designed to support students in preparation for the AWS SysOps Administrator – Associate certification exam. This course will also include Amazon Web Services (AWS) preparatory materials for the AWS SysOps Administrator – Associate certification exam. AWS preparatory materials are included in portions of this course’s reading materials, assignments and quizzes that are delivered through the Strayer learning management system. There are no additional costs for the AWS Academy preparatory materials utilized in this course.

Certification offering: Certification availability is subject to change and students pursuing certification are responsible for the cost of the AWS SysOps Administrator-Associate certification exam separately administered by AWS.

CIS 448 - AWS Cloud Operations II

Prerequisite: CIS 447

This course introduces students to best practices in the design of repeatable, configurable, and deployable networking and storage solutions in the Amazon Web Services (AWS) Cloud. Opportunities to explore case studies and to build actual infrastructures through labs and hands on activities are provided throughout. This course is designed to support students in preparation for the AWS SysOps Administrator – Associate certification exam. This course will also include Amazon Web Services (AWS) preparatory materials for the AWS SysOps Administrator - Associate exam. AWS preparatory materials are included in portions of this course’s reading materials, assignments and quizzes that are delivered through the Strayer learning management system. There are no additional costs for the AWS Academy preparatory materials utilized in this course.

Certification offering: Certification availability is subject to change and students pursuing certification are responsible for the

cost of the AWS SysOps Administrator – Associate exam separately administered by AWS.

CIS 461 - Data Analytics II

Prerequisite: CIS 362

The course provides a comprehensive overview of data mining. Students will learn different methods, such as data collection and selection, data cleaning and transformation, pattern discovery and knowledge extraction, including traditional statistical analysis and basic machine learning techniques. Students will analyze large data sets and learn to develop modeling solutions to support decision-making in a professional domain. In so doing, students will gain insight into how data analytics is applied in professional fields.

CIS 498 - Information Technology Capstone

This course is an integrative capstone course for the Bachelor of Science in Information Technology program. The course takes a senior management approach to examine and solve real-world problems and projects. Students will apply project management techniques to create integrative information technology solutions that include databases, systems analysis, security, networking, computer infrastructure, human-computer interaction and web design.

A grade of C or higher is required for satisfactory course completion.

Course residency requirement: This course must be taken as last or next-to-last class; it is not eligible for transfer credit and must be taken at Strayer University.

Graduate Computer Information Systems Courses

CIS 500 - Information Systems for Decision-Making

This course examines the strategic use and trends of organizational information systems with emphasis on the application of information technology. Students are presented key computing concepts in the strategic context in which information technology is used with emphasis on how information technology enables improvement in quality, timeliness and competitive advantage.

CIS 502 - Theories of Security Management

This course presents current and emerging theories in security management. Topics include the policies, guidance, technologies and organizational concerns that security managers must address in leading and providing secure computing environments. Students will explore topics such as access control, risk identification and cryptography.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 505 - Communication Technologies

This course covers trends and topics of computer communications. Students are presented a balance of technical foundations and business practice to address a managerial level of knowledge in data communications. Topics also include networking, distributed applications, network management, security and network operating systems.

CIS 509 - Fundamentals of Artificial Intelligence Systems Management

This course provides a comprehensive introduction to the fundamentals of artificial intelligence systems management. It covers various artificial intelligence (AI) strategies and their impact on business performance and capabilities. Students will gain an understanding of how AI can be leveraged to optimize business processes, improve decision-making, and drive innovation. Emphasis will be placed on understanding the managerial aspects of AI, such as aligning AI strategies with business goals, assessing ethical considerations, and managing risks associated with AI systems.

CIS 510 - Advanced Systems Analysis and Design

This course provides an integrated approach to system analysis and design processes. Students will explore advanced topics to evaluate and select system development methodologies and design system solutions. The role of effective interpersonal communication techniques and integration practices with users and user systems is emphasized.

CIS 512 - Advanced Computer Architecture

This course examines the structure and operation of digital computers in the context of providing data and infrastructure security. Emphasis will be placed on strategies to select, deploy, integrate and administer modern computing environments to support the organization's overall security posture. Topics include hardware components of modern computing environments and their deployment in compliance with applicable cybersecurity laws and policies.

CIS 513 - Enterprise Wireless Networks

Prerequisite: CIS 505

This course covers the concepts and infrastructure of wireless systems, how mobility is supported and the interactions among the different wireless components. Emphasis is placed on wireless technologies that deliver reliable voice and data communication to organizational entities.

CIS 515 - Strategic Planning for Database Systems

Prerequisite: CIS 500 or CIS 512

This course covers the concepts, issues, principles and techniques for managing organizational data resources. Topics include the strategic information requirements of organizations, modeling those requirements using conceptual data modeling techniques, verifying the structural characteristics with normalization, and converting the conceptual data models into physical databases. Emphasis will be placed on the application and strategic use of database systems.

Certification offering: Certification availability is subject to

change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 518 - Advanced Software Engineering

Prerequisite: CIS 512

This course provides advanced concepts describing the management, research and modeling of software engineering practices. Topics include the software lifecycle to include planning, managing, testing and requirements gathering techniques that create or improve software products and processes.

CIS 524 - Computer Interaction and Design

This course provides students with the concepts, theory and design of human-computer interaction (HCI) to address organizational issues. Students learn the practical principles and guidelines to develop high-quality interface designs that users can understand, predict and control. Topics include a strategic and tactical assessment of expert reviews, usability testing, direct manipulation, menu selection and form design. Current HCI topics are addressed with a balanced emphasis on mobile devices and web and desktop platforms.

CIS 525 - Advanced Agile Project Management

Prerequisite: BUS 517 or CIS 517

This course provides advanced topics in implementing Agile project management and coaching techniques into an overall business strategy. The course will focus on leadership and coaching strategies in an Agile practice with topics including delivery frameworks, values, principle and practice.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 527 - IT Risk Management

Prerequisite: CIS 500 or CIS 502

This course addresses the topic of risk management and how risk, threats and vulnerabilities impact information systems. Topics include how to assess and manage risk based on defining an acceptable level of risk for information systems, elements of a business impact analysis, business continuity plan and disaster recovery planning.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for

additional information.

CIS 532 - Network Architecture and Analysis

Prerequisite: CIS 505 and CIS 512

This course focuses on a managerial approach to designing computing networks. Students will develop procedures and demonstrate best practices to satisfy end-user business and technical requirements. Topics include methods to design organizational networks for functionality, capacity, performance, availability, scalability, affordability and security.

CIS 534 - Advanced Network Security Design

Prerequisite: CIS 502

This course examines strategies to design, administer and maintain a comprehensive enterprise security infrastructure. Topics related to protection of information technology assets and infrastructure from external and internal threats are included.

CIS 539 - Cloud and Virtual Computing

Prerequisite: CIS 505 or CIS 512

This course examines the technologies, structure and future direction of cloud computing applications. Topics include the technologies associated with cloud computing and the organizational, legal and regulatory issues encountered in cloud computing environments.

CIS 542 - Web Application Security

Prerequisite: CIS 502 or CIS 505

This course addresses the risks, threats and vulnerabilities for web-based applications. This course presents security strategies that enable a secure operation of web applications by identifying and mitigating the risk associated with web-enabled applications. Topics include a review of the evolutionary changes that have occurred in web application technologies and cyberattacks, vulnerabilities associated with web-enabled applications and server/client controls.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 543 - AI Strategy for Performance Optimization

Prerequisite: CIS 509

This course focuses on the strategic planning and implementation of AI initiatives within an organization. Students will learn how to develop AI strategies aligned with business goals, create implementation roadmaps, and overcome common challenges associated with AI adoption. They will explore topics such as data governance, privacy, and security in the context of AI implementation while gaining hands-on experience through practical exercises and case studies.

CIS 548 - AI for Innovation and Strategic Decision-Making

Prerequisite: CIS 509

This course explores how AI can drive innovation and support strategic decision-making within organizations. Students will learn about AI-enabled innovation processes, such as generative design, deep learning, reinforcement learning, and advanced analytics. Students will explore ethical considerations, bias mitigation, and the responsible use of AI systems while working on real-world projects to apply AI techniques to strategic business challenges.

CIS 552 - Cybercrime Techniques and Response

Prerequisite: CIS 500 or CIS 502

This course examines the threats, crimes and other abuses that are present in the cyber realm. Topics include identifying the bad actors in cyberspace, examining how they used the internet for criminal activity, and evaluating techniques in preventing crime and abuse. Students will explore different types of cyberattacks and their characteristics.

CIS 554 - Information Technology Project Leadership Strategies

Prerequisite: BUS 517 or CIS 517

This course examines the techniques and frameworks in managing teams and leading software development projects. Students will be presented with the methods, tools and techniques of software project management with emphasis on leadership qualities.

CIS 555 - Performance and Requirements Engineering

Prerequisite: CIS 512

This course addresses the processes for the development, analysis and testing of performance requirements. Topics include performance analysis techniques, performance requirements and evaluation methods, measurement and performance testing techniques.

CIS 558 - Information Technology Audit and Control

Prerequisite: CIS 502

This course focuses on establishing the framework to audit, secure and ensure internal controls in an information technology environment. Topics include the technical and professional issues in the context of technology-driven audits, security, privacy, business continuity and legislative and governance changes.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 560 - Security Access and Control Strategies

Prerequisite: CIS 502

This course presents typical cyber operations, including access

and control, where ethical dilemmas arise and provides tools for legal and ethical decision-making. Topics include various stages of a cyber operation, U.S. regulations and ethical implications of granting access and control. Students will explore the authorities, roles and steps associated with ethical cyber operations.

CIS 562 - Computer Forensics Planning

Prerequisite: CIS 502

This course presents the systematic methods in conducting computer forensic investigations, acquiring digital data and reporting on forensic investigations. Topics include procedures to create a forensics lab; investigating computer and cybercrime; tools, techniques and methods used to perform forensic investigations; and concepts for collecting, analyzing, recovering and preserving forensic evidence.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

CIS 565 - Cryptography

Prerequisite: CIS 542 or CIS 558

This course covers cryptography from historical, applied and theoretical perspectives. Topics include symmetric and asymmetric encryption techniques that include classical and modern algorithms. This course explores the framework and practice of using cryptography in securing information in organizational settings.

CIS 567 - Software Development for Managers

Prerequisite: CIS 512

This course explores the fundamentals of Python programming. Students will apply basic programming concepts as they design, develop and test their applications. Emphasis is placed on critical thinking and understanding sequence, variables, inputs, outputs, conditional and iteration constructs. Students will utilize software development collaboration tools such as GitHub.

CIS 598 - Graduate Information Assurance Capstone

In this integrative capstone course, students will examine and solve real-world cybersecurity problems and apply associated techniques to create practical solutions. The course takes an integrative and senior security officer approach to address the policy, risk and control opportunities within cyberspace and IT environments.

A grade of B or higher is required for satisfactory course completion.

Course residency requirement: This course must be taken as last or next-to-last class; it is not eligible for transfer credit and must be taken at Strayer University.

CIS 599 - Graduate Information Systems Capstone

This course is an integrative capstone course for the Master of

Science in Information Systems program. Students will examine and address real-world projects and problems and apply project management techniques to create practical solutions. The course takes an integrative and senior management approach to address the integration of a broad range of technologies inclusive of databases, security, networking, computer infrastructure and human-computer interaction.

A grade of B or higher is required for satisfactory course completion.

Course residency requirement: This course must be taken as last or next-to-last class; it is not eligible for transfer credit and must be taken at Strayer University.

COM – Communications

Undergraduate Communications Courses

COM 100 - Communication at Work

Prerequisite: ENG 090 or Placement by Examination

Being an effective communicator is an essential skill for any profession. In this course, you will learn the secrets to writing, listening, and speaking with credibility in order to share your voice with the world.

COM 101 - Effective Communication Skills

Prerequisite: ENG 090 or placement by examination

This course is designed to expose students to the fundamentals of academic and professional communication in order to develop professionals who can effectively apply communication techniques and best practices to meet their academic and corporate communication needs.

COM 200 - Communication: The Key to Working Together

Prerequisite: COM 100 or COM 101 or ENG 115 or ENG 116 or ENG 201 or ENG 315

Your ability to communicate effectively is the key to connecting and engaging with a variety of audiences. In this course, you will learn about a range of communication techniques needed to deliver important information, build relationships, and meet personal and team goals. You will also improve your technological skills so you can collaborate in dynamic workplace environments.

COM 201 - The Power of Effective Speaking

Prerequisite: COM 100 or COM 101 or ENG 115 or ENG 116

Build confidence by practicing effective speaking skills. This course focuses on developing oral communication skills, with an emphasis on public speaking. Learn how to research, organize and deliver messages through informal and formal speaking opportunities. Topics include organizing a speech, practicing verbal and nonverbal delivery strategies, using visual aids, speaking to inform and methods of persuasion.

Graduate Communications Courses

COM 510 - Business Communications

The ability to communicate with clarity, confidence, persuasion, and passion is an increasingly vital skill in business. This course focuses on tailoring your communication style to your audience. You will learn about communication strategies, effective business writing, and improving interpersonal communications and understand why communication is one of the most important skills in business.

CRJ – Criminal Justice

CRJ 100 - Introduction to Criminal Justice

This course introduces students to the components and operations of the criminal justice system. It examines the three main components of that system: law enforcement, the courts and corrections. Issues and challenges within the criminal justice system and the system's future are also explored.

CRJ 105 - Crime and Criminal Behavior

Prerequisite: CRJ 100 and SOC 100 or SOC 101

This course covers the historical development of social and behavioral explanations of adult crime, as well as juvenile crime and new evolutions in crime, including cybercrimes. Crime causation theories are explained in relation to policies developed from these theories and the real and intended impact of these policies are discussed to demonstrate their impact on society concerning crime prevention and criminal rehabilitation.

CRJ 150 - Criminal Justice Report Writing

Prerequisite: ENG 115 or ENG 116

Report writing is an essential workplace skill in the criminal justice field. Judges and other professionals in the field will read these reports, sometimes under a very close lens, and depend on them for accurate information. Therefore, it's critical these reports contain the information justice administrators need and follow state requirements. This course introduces a report writing process and uses templates to teach how to prepare concise, complete, and correct reports common in the criminal justice field. Hands-on activities will provide step-by-step guided practice for students to improve their report writing skills, and technological trends related to criminal justice reporting will be examined.

CRJ 180 - Juvenile Delinquency and Justice

Prerequisite: CRJ 100

This course examines the criminal activity of juveniles and includes the study of gangs, status offenses and the problems facing juveniles today. An overview of American juvenile justice is also provided, in terms of both system and practice. The causes of juvenile crime; the juvenile court system; and the institutionalization, rehabilitation and treatment of juveniles are explored.

CRJ 220 - Ethics and Leadership in Criminal Justice

Prerequisite: CRJ 100

This course exposes students to the various philosophical approaches for developing appropriate ethical decision-making tools for the criminal justice professional. Ethical decision-making tools are illustrated in actual application in police, courts, corrections, criminal justice policy and criminal justice research scenarios. Emphasis is placed on professional integrity and leadership skills that support laws, policies and procedures in criminal justice.

CRJ 310 - Law Enforcement Operations and Management

Prerequisite: CRJ 105

This course gives students an overview of the police and their mission in contemporary society. It examines typical police operations, the management of police organizations, and some of the challenges facing policing today. The course also looks at technology in the service of law enforcement and explores the future of policing.

CRJ 315 - Artificial Intelligence in Criminal Justice

Prerequisite: CIS 211

This course enables students to explore Artificial Intelligence for innovative solutions in the criminal justice system. The course will provide an understanding of AI, its history, and applications across the criminal justice system, while respecting democratic values, human rights, the letter of the law and the spirit of the law. The course examines the significant influence on crime monitoring and prevention, judicial and correctional systems, and many other criminal justice practices.

CRJ 317 - Criminal Justice Technology

Prerequisite: CRJ 150 and CRJ 220

This course provides an overview of how information technology (IT) is used in the criminal justice field, including but not limited to report writing, other paperwork processing, maintaining different police databases, records, and the use of the Internet for duty related matters. Students will learn how to turn information into knowledge, define who can use the knowledge, and for what purposes. Students will also examine what the current state of IT is in various components of the criminal justice system, and what challenges lie ahead. Topics include: Acquiring, Implementing and Evaluating Information Technology; How Criminal Justice Agencies use the Internet; and Offender-Based Information Sharing to include SORN systems.

CRJ 320 - Criminal Investigation

Prerequisite: CRJ 105

The course introduces students to the fundamentals of criminal investigation by examining processes involved in identifying and arresting criminal suspects, identifying types of crimes and offenses and in preparing for the in-court presentation of evidence through testimony. In addition, techniques and preservation for evidence collection and examination are discussed. Developing high technologies useful to the criminal investigator are explored.

CRJ 322 - The Criminal Mind

Prerequisite: CRJ 105

This course provides a broad range of topics relevant to criminal behavior and the development of the personality. Biological, psychological and social structural factors that influence the possible origin of criminal behavior, as well as criminal justice and societal approaches for preventing crime are addressed.

CRJ 325 - Criminal Procedure

Prerequisite: LEG 320

The Criminal Procedure course traces the criminal process from arrest through trial, including topics of admissibility of evidence, confessions and civil rights decisions in relation to constitutional doctrines, police regulatory behavior and requirements associated with upholding and enforcing constitutional rights. The course provides students an in-depth study into balancing governmental and societal interests with an individual's rights in a free society.

CRJ 330 - Comparative Criminal Justice

Prerequisite: CRJ 105

This course offers a comparative perspective on crime and on the practice of criminal justice. The role of increased globalization in transnational crime and justice are explored, including trafficking in persons, narcoterrorism, cybercrime and cyber scams, the relationships between international terrorist organizations and the functioning and organization of international crime fighting agencies.

CRJ 331 - Forensic Psychology

Prerequisite: CRJ 322

This course links research methods, application and expertise in the field of psychology to the legal system. Students will be exposed to the field with a richer understanding in how forensic psychologists contribute to the legal system, including expert testimony, jury selection, insanity defenses, child custody hearings and release and reentry of violent offenders.

CRJ 399 - Criminal Justice Experience Through Workplace Learning

Prerequisite: CRJ 150, CRJ 180, CRJ 220, CRJ 320, and CRJ 325

This course enables students to gain professional experience by working with a team to complete a project for a criminal justice agency or related organization. Students should be prepared to be active collaborators and contributors so their team can be successful in the course experience in a specific area of the criminal justice system. Students will have an opportunity to add key skills and workplace experience to their professional profile or résumé and expand their network. Students will also examine how their academic courses tie to their field of study and gain essential skills and competencies to prepare for future career opportunities. Required coursework includes audio/video presentations that will be recorded for grading purposes only.

CRJ 400 - Crime Prevention Strategies

Prerequisite: CRJ 320

This course examines various crime and delinquency prevention

policies and programs. Topics covered include the historical development of crime and delinquency prevention methods, theoretical applications to prevention efforts and research findings on program effectiveness. Students are exposed to the importance of research design in evaluating effective prevention strategies as well as the relationship between fear of crime and victimization.

CRJ 410 - Corrections

Prerequisite: CRJ 100

This course provides a comprehensive overview of the field of corrections. It explores agencies, practices and policies relevant to prisons, jails and probation and parole. Students examine both historic and contemporary punishment policies in the United States; sentencing structures; sociopolitical economic conditions that influence disparate sentencing and confinement; facility designs and how they correlate with inmate management philosophies; the legal aspects of the care, custody and control of inmates; the constitutional rights and civil liberties of inmates; security operations; and inmate treatment services.

CRJ 415 - Community Corrections

Prerequisite: CRJ 105 and CRJ 180

This course explores community corrections in the criminal justice field, with an emphasis on the critical need for programs to support community corrections efforts in today's society. Students will examine the various roles of the community correctional practitioner. Students will also determine the appropriate criminological theory for rehabilitation efforts, and propose treatment plans for different types of offender populations. An emphasis is placed on the importance of distinguishing between the adult and juvenile systems.

CRJ 420 - Emergency Management Procedures

Prerequisite: CIS 170 or CIS 175 or CRJ 317

This course provides an in-depth review of the concepts of emergency management work. The operational aspects are discussed in relation to the skills needed to do emergency management work, as well as the analytical and critical-thinking skills needed for incident command work. Emphasis is placed on the use of technologies, enhanced leadership skills and the challenges of communications in disaster work.

CRJ 430 - Advanced Law Enforcement

Prerequisite: CRJ 310 or CRJ 400

This course focuses on theoretical and practical applications to reactive and proactive measures of law enforcement, as well as addressing the organization and hierarchy of command with modern policing in the United States. Students will address the history, objectives and rules regarding investigation and evidence collection associated with policing, with a strong emphasis on field training.

CRJ 435 - Drugs, Gangs and Organized Crime

Prerequisite: CRJ 105 and CRJ 180

This course addresses the use and abuse of drugs and alcohol, both legal and illegal; the etiology, social phenomena,

psychological and physiological effects; and current relationship between gang activity and drugs, as well as organized crime and the drug epidemic in the United States and abroad. Students will also be exposed to the historical rise in popularity of gangs associated with the drug trade and the rise and fall of power of organized crime syndicates and drug distribution.

CRJ 440 - Terrorism and Antiterrorism

Prerequisite: SEC 310

This course covers the various forms of terrorism. Explanations of terrorism from a theoretical and sociological perspective are reviewed as causal effects of past, current and new forms of terrorist behavior. Operational responses to terrorism are discussed, with special emphasis on the role of Homeland Security.

CRJ 480 - Criminal Justice Practicum

This course provides students with opportunities to apply what they've learned in previous courses by completing projects tailored to their career interests within the criminal justice occupational field. Students will have the opportunity to connect with professionals and practitioners in the field to support their learning and build professional networks. Students will also complete career development assignments that support their advancement goals.

Course residency requirement: Students must complete all major component requirements toward the degree in criminal justice up to CRJ 499 Undergraduate Capstone in Criminal Justice (p. 156) and at least two courses in a single criminal justice concentration.

CRJ 499 - Undergraduate Capstone in Criminal Justice

The Criminal Justice Program Capstone serves as the culminating experience for students in the criminal justice program providing a comprehensive and integrative application of the core concepts, theories, and practical applications learned throughout the students' academic journey. This course is designed to challenge students to think critically and apply their skills to real-world scenarios within the criminal justice system. In addition, the course will review technological advances, future trends, and issues faced by the courts and justice system today.

A grade of C or higher is required for satisfactory course completion.

Course residency requirement: This course must be taken as last or next-to-last class; it is not eligible for transfer credit and must be taken at Strayer University.

DAT – Business Data

DAT 500 - Understanding Business Data

The field of business intelligence and business analytics has evolved rapidly to become more focused on innovative applications for extracting knowledge and insight from data streams. Topics covered include business intelligence, business analytics, data warehousing, data mining, data streams and big data, as well as how data is collected and how it is used by government, nonprofit and for-profit organizations.

DAT 510 - Business Data and Decisions

Prerequisite: DAT 500

Students will use case studies citing real statistics and scenarios to examine how business data and proper interpretation/analysis can help inform and justify business decisions. Topics covered will include decision support modeling, pricing and revenue optimization, data mining, market/business forecasting and financial simulations.

DAT 520 - Operational Data

Prerequisite: DAT 510

Examine the various types of established and emerging data available to businesses—finance, marketing, sales, accounting and management—and the tools used to interpret that information. Topics covered will include sales reports, profit and loss statements, government/institutional statistics, web traffic and social media reach.

ECO – Economics

Undergraduate Economics Courses

ECO 100 - Principles of Economics

Prerequisite: MAT 104 or MAT 110

Economics is the study of choices. To inform those choices and make good decisions, you need a solid understanding of the principles of economics and their role in business. This course covers the major drivers behind economic decision-making; key strategies that enhance economic efficiency; and how economics impacts you every day on a macro and micro level.

ECO 110 - Taking Charge of Your Economic Future

Prerequisite: MAT 104 or MAT 110

With every dollar you spend, save, or invest, how confident are you that you are making the best financial decisions in today's economy? Knowing what drives the economy can help you understand all aspects of life, including jobs, income levels, consumer prices, trade and general prosperity. In this course, you will explore key concepts of economics and personal finance. You will be equipped with the ability to leverage analysis tools, as well as learning economic reasoning and planning skills.

ECO 320 - Money and Banking

Prerequisite: ECO 100

Discusses the role of financial institutions, the banking system, the Federal Reserve System and the nature and effectiveness of monetary policy tools.

Graduate Economics Courses

ECO 550 - Managerial Economics and Globalization

Prerequisite: BUS 512 or MAT 510 or MAT 540

Applies relevant economic theory to develop a framework of analysis and techniques that business managers can use in deciding how to allocate a firm's scarce resources to achieve its

objectives. Uses economic analysis to support business strategy decisions that promote competitiveness in an environment of changing domestic and international market conditions, government regulations, trade policies and resource availability. Systematically analyzes how global economic integration affects the production, input sourcing and pricing decisions of firms operating in different market structures.

EDU – Education

EDU 500 - Adult Learning Theory

Reviews, analyzes and evaluates contemporary educational theory and practice in relation to the teaching and learning process of adults. This is viewed from the different philosophical perspectives of human development, motivational theory and learning theory, including effects upon the educational enterprise as they are applied to varied learning situations.

EDU 501 - Learning Theories (K-12)

Examines classic and contemporary theories of learning that directly impact education and their influences on teaching and learning in the K-12 school setting. Explores the research base of the major theoretical models and examines the implications of those models for education. Upon completion of this course, students should be able to describe theories and styles of learning and discuss the relationship between different types of intelligence to learning motivation and its application to the classroom setting.

EDU 505 - Contemporary Issues in Education

Prerequisite: EDU 500 or EDU 501

This course examines issues impacting schools and the American education system by analyzing the evolving relationship among schools, communities, states and national education goals and initiatives. Students learn how to examine issues in education from both historical and contemporary perspectives through dialogue.

EDU 508 - Educational Research Methods

In many ways, progress and change within education and training organizations and systems is driven by research. This course enables students to choose a topic to research and guides them through the decision process of methodological approaches, research procedures and evaluation and interpretation of research results. Additionally, students learn ethical procedures and formal academic writing that can be applied to careers in education and training.

EDU 510 - Educational Assessment

Presents both formal and informal measures for assessing learners' progress. Course involves analyzing various approaches to interpreting individual and group performance. Uses of formative and summative assessments are examined in relation to maintaining a positive learning environment based on research and best practices. A variety of learning assessment strategies will be examined, such as the development of rubrics, journal evaluation techniques, standardized testing, universal design strategies, technology-based assessments and portfolios.

EDU 512 - Insights in K-12 Education

Introduces students to classroom teaching strategies that respond positively to a variety of learning styles. The course focuses on ways in which different learning styles impact global education. Explores teaching techniques, differential learning and curricular directions designed to improve school experiences for a variety of learning styles.

EDU 520 - Education and the Law

Today's schools are increasingly impacted, structured and managed according to laws and regulations. In this course, students learn the basis of legal terminology as related to cases and case law. Topics covered include regulation of public and private schools, church-state issues, rights of students and teachers, contracts, ADA accommodations and safety in the educational environment. Students also learn how politics influence the education system at the national and state level.

EDU 522 - Theory and Practice of e-Learning

Focuses on the design, development and implementation of e-Learning. Topics include learning platforms for educational and corporate environments, online learning communities, content design for online delivery and preparation of learners for online learning. Students will learn how to use e-Learning as a teaching tool in a traditional classroom or training environment.

EDU 525 - Perspectives of Adult Education

Prerequisite: EDU 500

Examines adult education from historical perspectives, including social, economic, regulatory and technological developments that have shaped adult education. Students examine distance education, online education and other modes of adult education.

EDU 526 - Insights in Adult Education

As schools and organizations continue to evolve, so does the need for individuals to understand and appreciate a variety of abilities and socioeconomic statuses. Students learn theoretical approaches and apply them to real-world experiences. Best practices for designing content and environments that appreciate and include multiple viewpoints are examined.

EDU 528 - Methods of Teaching in Adult Education

Provides a thorough examination of theories and methods of teaching, learning and motivation for adult learners in education and in the workplace. Students will analyze teaching and learning models, apply learning and motivation theories to instruction, develop learning solutions for adults, use specific analysis tools and discuss various issues that will influence adult learning in the future.

EDU 529 - Assessing Adult Learners

Examines current theory and practice in assessment. Prepares students to evaluate leading assessment trends, models, methods and tools used in workplace and educational settings. Students will analyze essential variables that influence adult learning, evaluate the costs and benefits of assessment programs, and develop formative and summative assessment plans that include authentic assessment techniques.

EDU 533 - Instructional Design and Development

Examines the systematic processes of effective instructional design to create an instructional and training product. Content includes instructional design process and models, ADDIE framework, connections between learning theories and instructional design, relationship of technology to instructional design, and applications of state and national content standards to the design and development of instructional and training products.

EDU 535 - Organizational Training and Development

Examines the elements of training and development in organizational and educational environments. Students learn how to incorporate adult learning theory into training and developmental programs. Topics include planning, facilitating and assessing training and development of adults.

EDU 537 - Educational and Instructional Innovation in the Learning Environment

Students will review, analyze, and evaluate technology innovation and leadership practices to better understand and connect through learning enterprises that foster working relationships, as learners, teachers, trainers, whether they are in K-12 communities, higher education, or corporate executives. Course materials also reflect on the nature of technology and how technology impacts both the individual and society within learning environments. Further emphasis is on how to critically analyze and assess technology in an ethical and socially responsible manner.

EDU 538 - Disruptive Innovations in Education

This course focuses on implementing and leading through technological changes in the learning environment. Specifically, students will leverage technologies, such as, social media, artificial intelligence, virtual reality, gamification, Chatbots, and other contemporary technology applications to enhance learning opportunities, to understand the impact on education and future design processes, and to cultivate innovation in the education enterprise.

EDU 539 - Impacts of Technology in Education

Prerequisite: EDU 537 or EDU 538

This course examines the application of technology within learning systems, focusing on responsible practices. It analyzes current educational policies and standards related to technology, evaluating their effectiveness. Students investigate legal guidelines for material use.

EDU 540 - Designing, Developing and Evaluating Educational Technology

In this course, students learn how to design and evaluate new technologies for learning environments. Various media, software and applications are covered for web-based and mobile devices. Students also learn how to assess and evaluate the process and effects of technological enhancements on learning.

EDU 541 - Technology Tools to Manage Learning

This course introduces students to open source and proprietary learning management systems (LMS). Students explore various modes of e-learning in addition to the components, tools and structure of LMS. The focus of the course includes conducting a needs analysis for an educational or business entity and deploying content for users and evaluating their activity and engagement within the LMS.

EDU 542 - Integrating Technology into Education

This course investigates the interactions between new technologies and educational practices, examining their effects on curriculum and teaching methodologies. Technology's application within the classroom and curriculum is a core component of this study.

EDU 543 - Designing Engaging e-Learning Experiences

Focuses on developing skills that will enable students to design and develop engaging e-learning experiences. Topics include design steps, technology uses for communication and learning, and globalization, as well as different learners' needs and motivations for using technology such as blogging, texting, social networking, gaming, micro worlds and Avatars. Students will learn to use various Internet sites and productivity tools to design, develop and evaluate engaging e-learning experiences.

EDU 550 - Adult Learning: Curriculum, Design and Development

Provides students with the tools to plan, design and implement curricula in educational settings. Approaches to, and models of, curriculum and program design will be explored, with a specific emphasis on developing curricula for adult learners. The internal and external influences on curriculum and program development will be evaluated.

EDU 555 - K-12: Curriculum Design and Development

Incorporates in-depth examination of the theory and practice of the design, development, implementation and evaluation of curricula. It encompasses the development of a K-12 curriculum involving a systematic approach to identifying learners' needs, establishing goals and objectives, and selecting educational strategies to meet those needs. Students explore the impact of educational research on curriculum plans and development. Emphasis will be placed on examination of curriculum standards and assessments, state and national influences, differing perspectives, and technological applications.

EDU 558 - Seminar in Teacher Leadership

Explores the emerging roles of teachers as leaders in K-12 educational environments. Topics for reading and discussion cover teacher leadership in a variety of capacities for instruction, school reform, curriculum development, assessment, school finance and budgetary input, classroom management, collaboration and community building, technology integration and professional and staff development.

EDU 560 - Public Policy and Political Influences in Education

This concentration course will help students gain applied learning of organizational systems that impact the delivery of education. This course will prepare future leaders for understanding the

organizational systems that impact the operations of the educational processes and systems through the lens of public policy and politics.

EDU 561 - Finance and Funding in Education

This course will prepare future leaders for understanding the aspects of funding and financing education such as preparation for budget hearings. Students will learn how to develop a budget for staffing, training and development, and for optimizing the growth and maintenance of educational programs.

EDU 562 - Leadership in Global Education

Analyzes theoretical processes and practices of globalization and their global implications for leadership in education. Emphasis is placed upon international curriculum, global issues in education, strategies to promote globalization, international and global regulation of education, and identification and development of international and intercultural communication and leadership skills.

EDU 564 - Curriculum Policy and Leadership

Addresses the need for curriculum leaders to understand the development and implementation of administrative policy and practices at the local, state and national levels. The student will develop critical skills required to systematically analyze, plan and make data-driven decisions and policies that foster instructional improvement and organizational change necessary to support instruction. The aim of the course is to prepare curriculum leaders to meet the instructional challenges that will shape K-12 education now and in the future.

EDU 565 - Training Strategies and Assessment

This course examines the application of training strategies and methods within an organization and evaluates the effectiveness of training in bridging knowledge and skill gaps. It explores how learning and development professionals select content and methods, plan for the transfer of learning, and identify opportunities for quality improvement.

EDU 571 - Evaluating School Programs

This course is designed to provide individuals with the knowledge, skills and strategies involved to conduct or participate in an evaluation in their schools, organizations and/or communities. Evaluations serve the interest of many people, who want to ensure their schools, corporations, nonprofit organizations and governments are held accountable. The focus of this course introduces the different approaches and methods for conducting an evaluation. This course covers methodologies used in evaluations to ensure accountability by measuring performance and outcomes to assess an organization's needs to enhance learning.

EDU 573 - Instructional Methods

Applies learning theory to strategies for determining learners' needs; differentiating, implementing and sequencing appropriate instructional methods to meet those needs; identifying and providing learning support resources; and assessing effects upon student performance. Students will examine uses of various instructional methods such as learner-centered instruction, collaborative methods, distance learning methods and direct

instruction.

EDU 574 - Designing for Personalized Learning and Assessment

This course will support students' understanding of designing curriculum and assessments to support a personalized learning experience. Students will learn how to develop an individualized curriculum and assessment plan that will help learners rise to meet learning standards in K-12 education. Students will also learn how to scaffold content to help K-12 meet assessment goals.

EDU 575 - Strategic Planning and Leadership in Education

This course will help students gain applied learning of strategic planning in an educational organization. This course will prepare future administrators to lead and apply a strategic plan for developing or enhancing operations, programs, and/or product offerings in an institution.

EDU 599 - Education Capstone

Master of Educational Design and Technology students across all concentration areas will apply the learning from the program to a current issue in education. Students will research a relevant concern in education and develop a proposal to address the issue. Students will synthesize their learning from previous courses to design a unit of curriculum that promotes integrity, a broad range of viewpoints, and supports student learning. Students are expected to demonstrate mastery of all program and concentration outcomes. The capstone course provides learners with practical experience that instructional professionals and administrators require to improve the learning environment.

A grade of B or higher is required for satisfactory course completion.

Course residency requirement: This course must be taken as last or next-to-last class; it is not eligible for transfer credit and must be taken at Strayer University.

ENG – English

ENG 090 - Writing Fundamentals

Prerequisite: Placement by examination.

This course emphasizes the principles of writing coherent expository paragraphs and essays. The course introduces the concept of writing as a process that includes prewriting, writing, revising and reflecting. Audience analysis, topic selection and thesis support and development are also central to the course. The course develops proficiency in Edited Standard Written English through reinforcing a clear understanding of parts of speech, punctuation and mechanics. Credit for this course is not applicable toward graduation and is not offered for academic credit.

A grade of C or better is required for placement into ENG 115 (p. 159) or ENG 116 (p. 160).

ENG 115 - English Composition

Prerequisite: ENG 090 or placement by examination

This course emphasizes the principles of writing coherent expository essays in various modes. The course reinforces and

emphasizes the concept of writing as a process that includes developing and narrowing a topic, logically organizing ideas, drafting and revising. The course introduces the process of using sources to support ideas and documentation of sources in accordance with citation styles.

A grade of C or higher is required for satisfactory course completion.

ENG 116 - Discover the Writer in You

Prerequisite: ENG 090

Writing is a lifelong skill that helps you share your thoughts and ideas with the world. This course will unlock the writer inside you by teaching you the fundamentals for how to harness the power of your words to engage and inform. Learn how your writing can help you take a stand and how to craft a clear and targeted message for any audience.

A grade of C or higher is required for satisfactory course completion.

ENG 201 - The Power of Persuasion

Prerequisite: ENG 115 or ENG 116

Persuasion is a powerful tool for influencing the world around you. In this course, you'll learn how to understand, influence, and connect with your audience using your writing. You'll also learn how to research and analyze the writing of others to evaluate their credibility as well as document sources that help you make your point.

A grade of C or higher is required for satisfactory course completion.

ENG 215 - Research and Writing

Prerequisite: ENG 115 or ENG 116

This course examines and implements the principles of argumentation. An argumentative paper is researched and developed based on the concept of writing as a process. The course focuses on the logical organization of ideas patterned on established structures of argument. The course reinforces the importance of the research process and critical evaluation of sources. Acknowledging the intellectual property of others through the proper documentation of sources is stressed.

A grade of C or higher is required for satisfactory course completion.

ENG 315 - Professional Communications

Prerequisite: ENG 201 or ENG 215

This course concentrates on communicating effectively in business and in the professions. A range of business and professional documents are prepared based on the concepts of purpose and audience, and a formal written report is researched and developed. The course focuses on techniques for clearly, concisely and persuasively communicating information in speaking and in writing. The course emphasizes developing skills in verbal communication and in planning, organizing and delivering oral presentations.

A grade of C or higher is required for satisfactory course

completion.

ENG 316 - Technical Writing (Required for IT or IS)

This course provides students an introduction to the process of technical and business communications. Topics include the processes for capturing needs analyses and organizing thoughts to write clear, precise, concise and grammatically correct workplace prose. Students will produce in written and oral form a variety of professionally prepared reports and correspondence for multiple audiences.

Course required for the following program majors: BSIS and BSIT.

FIN – Finance

Undergraduate Finance Courses

FIN 100 - Principles of Finance

Prerequisite: ACC 100 and MAT 104 or MAT 110

Serves as a foundation course in business finance. Provides a conceptual framework for the financial decision-making process and introduces tools and techniques of finance including financial mathematics, capital budgeting, sources of funds and financial analysis. Topics include acquisition and use of short-term and long-term capital; financial markets, institutions and instruments; financial control; time value of money; cash, operation and long-range budgeting; and cost of capital.

FIN 317 - Financing Entrepreneurships

This course explores the various aspects of financing an entrepreneurial venture. Emphasis will be placed on crafting a business plan, forms of ownership and exploring funding options.

FIN 320 - Investments

Prerequisite: FIN 100

Covers portfolio management, including the management of investments in stocks, bonds and other financial instruments. Examines individual financial instruments in depth and the investment strategies of shifting the relative amounts held by the investor during changing economic conditions.

FIN 350 - Financial Markets and Institutions

Prerequisite: FIN 100

Examines the various types of financial markets, financial intermediaries and the types of transactions supported by each market. Analyzes the sources and uses of funds by commercial banks, management concepts for banks and how commercial banks are regulated.

FIN 355 - Financial Risk Analysis

This course provides sufficient institutional detail of the primary risks faced by the major types of financial firms and the applicability of these risks for the financial manager. Topics covered include asset valuation, the economic role of money markets and how this role relates to security valuation and risk analysis, risk measurement, options pricing, derivative risk management, measuring and comparing risk exposures across

financial markets, risks and rewards of international financial markets and recent developments in the practice of risk management. Cases and industry applications are used.

FIN 405 - Advanced Financial Management

This course provides an extensive coverage of corporate finance theory and the applicability of this theory for the financial manager. Topics covered include capital budgeting under uncertainty, the relevance of capital structure decisions on security valuation and risk, mergers and acquisitions, option pricing, real options, measuring and managing a firm's risk exposures and risks and rewards of international financial markets. Cases are used.

Graduate Finance Courses

FIN 534 - Financial Management

Prerequisite: ACC 556 or ACC 557

Introduces the concepts of finance. Reviews the basic tools and their use for making financial decisions. Explains how to measure and compare risks across investment opportunities. Analyzes how a firm chooses the set of securities it will issue to raise capital from investors as well as how the firm's capital structure is formed. Examines how the choice of capital structure affects the value of the firm. Presents valuation and integrates risk, return and the firm's choice of capital structure.

FIN 535 - International Finance

Presents international financial tools, applications and concepts used in formulating effective financial management strategies. Examines fundamental international financial relationships and transactions among firms, foreign exchange rate determination and forecasting, foreign exchange risk and exposure, balance of payment accounting and evolution of the international monetary system. Analyzes special topics such as working capital management strategies, capital budgeting, cost of capital and optimal capital structure in the context of international operations.

FIN 540 - Advanced Corporate Finance

Prerequisite: FIN 534

Develops a framework for analyzing corporate financing and investment decisions. Applies with techniques for evaluating capital investments, capital structure and dividend decisions, with the interaction between investment and financing decisions. Topics covered include mergers and acquisitions, leasing, working capital management and a more rigorous analysis of cost of capital, risk and return and corporate liabilities.

FIN 550 - Corporate Investment Analysis

Prerequisite: FIN 540

Provides a rigorous treatment of the fundamental principles of investments, investment management and asset pricing. Analyzes asset allocation, asset pricing models, international diversification, active portfolio management, performance evaluation and other pertinent topics. Approaches the analysis from the perspective of individual investor, corporate financial manager and the investment manager.

HIS – History

HIS 104 - American History to 1865

Surveys the indigenous cultures of the Americas, European colonial settlement and the formation of the United States and the Constitution up through the Civil War.

HIS 110 - U.S. History: Learn from the Past, Prepare for the Future

Prerequisite: ENG 115 or ENG 116

Can knowing our past really help us better understand the world today and allow us to make more informed decisions about our future? Economic forecasters, business analysts, social activists, technologists, and politicians say, "yes." In this course, you will explore key events in U.S. history and make connections to their influence and impact on society today. You will also be challenged to critically analyze information and decide what is credible and accurate so you can draw your own conclusions.

HIS 300 - African-American History

Traces the history of the African people in the United States from 1619 to the present. Concentrates on key periods such as the Atlantic slave trade and Reconstruction eras.

HRM – Human Resource Management

HRM 500 - Human Resource Management Foundations

Examines the theoretical foundation of the human resource management and the evolution of the human resource management body of knowledge including workforce planning and employment, employee development and performance, compensation and benefits, labor and employee relations and risk. Trends and issues influencing the development and application of these elements within contemporary organizations will be analyzed. Awareness of the effects of federal laws and regulations on businesses will be explored.

HRM 510 - Business Employment Law

This course analyzes the foundation of employment law and how it impacts the employer-employee relationship. Topics covered include the selection, development and termination of employees; maintaining company policies; and employee pay and benefit packages. Students will develop an appreciation for the legal process and how organizations can manage risk.

HRM 517 - Managing Human Resource Projects

Defines and analyzes management techniques for planning, estimating and facilitating human resource projects. Project management processes are examined, including developing objectives, creating work plans, preparing schedules, allocating resources and coordinating overall effort. Techniques are introduced to help keep projects on track and enhance team motivation.

HRM 520 - Human Resource Information Systems

Analyzes information technologies and systems used to maintain

data relative to the human resource needs of an organization. Learners examine how human resource management systems are integrated into larger organizational databases and systems. These systems and technologies are evaluated for their effectiveness of achieving human resource and organizational goals.

HRM 522 - Ethics and Advocacy for Human Resource Professionals

Analyzes ethical policies, behavior and fairness in organizations. The role of human resource professionals as ethical change agents and advocates for employees is examined. The responsibility and accountability of human resource professionals in fostering an ethical organization by implementing fair policies and procedures is evaluated.

HRM 530 - Strategic Human Resource Management

Analyzes the processes by which the human resource is managed in light of its strategic importance. Examines the relationships between the traditional human resource functions and the various business functions so that efficiency and effectiveness are balanced and optimized. These processes and relationships are reviewed in light of both the domestic and global environments now and in the future.

HRM 532 - Talent Management

Analyzes the processes of selecting, developing and maintaining talent within an organization. The course focuses on how the workforce is built and maintained to enhance productivity and effectively implement business strategy. Examines the activities of identifying, attracting and acquiring the optimum human assets who best fit the work needs and the organizational culture and who will enhance innovation and decision-making. Examines the processes by which human assets are retained and integrated into a firm's operations so that cooperation and collaboration are maximized.

HRM 533 - Total Rewards

Examines the modern philosophy and approaches to total rewards. Analyzes reward strategies and the associated technical processes. Explores the available tools that may be used to attract, motivate and retain employees. Examines elements of a total rewards program that will drive desired behaviors in the workplace, reinforce overall business strategy and ensure organizational success through enhancement of a firm's competitiveness.

HRM 534 - Employee and Labor Relations

Provides an overview of employee and labor relations, to include history, applicable laws, challenges, and opportunities. Employee relations will examine the broad range of concepts and practices that arise out of the relationship between an organization and its employees. Analyzes the organization decisions that affect employee training, conduct, evaluation, coaching, counseling, disciplining and separation. The labor relations process will be demonstrated from the union organizational campaign to contract negotiations through the grievance procedure and arbitration.

HRM 538 - Performance Management

Explores traditional and emerging models, strategies and methods measuring human performance and productivity. Learners

compare financial-based metrics to qualitative and blended measurement models to determine return on investment for human assets within an organization.

HRM 560 - Managing Organizational Change

Evaluates the organizational change process related to the principles and practices of various types of organizations. Processes and techniques used to facilitate change will be examined and applied to systems such as information technology, communication, policy and procedures, corporate culture and leadership.

HRM 562 - Developing a Learning Organization

Analyzes the process of creating a learning-based culture consisting of a system of shared values and understanding, which is essential for organization success and sustained performance. Students will examine how learning organizational cultures are created as well as leadership strategies that support a learning culture. Students will also examine how their academic courses tie to their field of study and gain essential skills and competencies to prepare for future career opportunities. Required coursework includes audio/video presentations that will be recorded for grading purposes only.

HRM 565 - Developing Human Capital

Analyzes an organization's human assets and the processes related to human capital development. This course will examine how different perceptions, motives, attitudes, values and mental models influence behavior. Major themes include adult learning concepts, thriving in a learning organization, and providing development and training to ensure continual and optimal skill and knowledge competency.

HRM 567 - Workforce Planning: Recruitment and Retention

Prerequisite: HRM 500

This course prepares learners to achieve organizational goals through the evaluation and development of workforce strategy. Topics covered in this course include recruitment strategies, workforce planning and assessment, staffing needs and processes, career development, and succession planning. This course will enable learners to bridge the gap between attracting and retaining talent and implementing resources to meet organizational goals.

HRM 590 - SHRM Certification Exam Preparation

This course helps learners review the current body of competences and knowledge in preparation for the completion of the Society for Human Resource Management Certified Professional (SHRM-CP) certification exam. Learners will apply their critical thinking skills to demonstrate understanding of HR competencies including business acumen, relationship management, leadership and navigation, ethical practices, consultation, critical evaluation, global and cultural effectiveness and communication. Learners also gain knowledge in the SHRM technical competencies including people, organizations and the workplace.

Course residency requirement: This course must be taken as last or next-to-last class; it is not eligible for transfer credit and must be taken at Strayer University.

HRM 599 - Human Resource Management Capstone

Integrates the concepts presented in the Master of Science in Human Resource Management program. Learners synthesize and apply the knowledge and competencies acquired throughout the program by evaluating cases and situations. Students develop strategic solutions to human resource management challenges that align with organizational goals.

A grade of B or higher is required for satisfactory course completion.

Course residency requirement: This course must be taken as last or next-to-last class; it is not eligible for transfer credit and must be taken at Strayer University.

HSA – Health Services Administration

Undergraduate Health Services Administration Courses

HSA 110 - Navigating Healthcare with Innovation

This course will provide a broad overview of the field of Health Services Administration as related to the US Healthcare System. Students will gain an understanding of the healthcare delivery system and its components. Topics will include history, development, planning, organization, finance, quality, management and leadership, as well as major policy issues and trends in the field of Health Services Administration, with an emphasis on innovative problem solving.

HSA 115 - Healthcare Communication and Terminology

Prerequisite: HSA 110

This course is intended to equip future healthcare administrators and leaders with a basic understanding of medical terminology and best practices to communicate effectively across the healthcare system using appropriate terminology. Topics include anatomical structure, medical treatment, and medical procedural terminology used across healthcare settings.

HSA 225 - Economics and Finance for Healthcare Leaders

Prerequisite: ACC 100 and HSA 110

This course introduces students to the key economic and financial concepts related to healthcare management. Topics include economic influences of the healthcare delivery and the role in planning and decision making, demand and supply-side factors, planning and budgeting concepts, financial management, cost accounting and management, payment/reimbursement models, the differences between the goods and service industries, as well as the pros and cons of a single payer system.

HSA 235 - Ethical Decision Making for Leaders

Prerequisite: HSA 110

This course explores ethical issues and situations relevant to health services administrators and contemporary health care organizations. Students will acquire the knowledge and skills needed to make ethical decisions. A broad range of topics are

explored including patient-centered issues, public health ethics, ethical practices around contracts and reimbursement, confidentiality of patient medical records, market, and obligation to the community.

HSA 255 - Introduction to Electronic Health Records

Prerequisite: HSA 110

This course will provide students with a basic introduction to Electronic Health Records (EHR). Students will study the role of the EHR and its impact on quality, accessibility, and cost in healthcare management. Additionally, topics will include basic navigation of an Electronic Medical Record, privacy, ethical and legal issues, data management requirements, and services.

HSA 300 - Health Services Organization Management

Prerequisite: ENG 115 or ENG 116

This course provides an overview of the various aspects of healthcare management. Specific areas covered include leadership and management concerns, organizational behavior and motivation, teamwork, managing healthcare professionals, strategic planning, healthcare marketing, quality improvement, information technology, issues specific to the U.S. healthcare system, managing insurance and costs, ethics, and fraud.

HSA 305 - Health Services Marketing

Prerequisite: HSA 300

This course provides an overview of marketing in healthcare organizations. Specific areas covered include the role of marketing in healthcare organizations, the marketing environment in the healthcare industry, strategy and market planning, the use of market information systems and market research, market segmentation, shaping product and service offerings, pricing strategies and decisions, designing and managing marketing channels, designing and managing marketing communications and implementing marketing.

HSA 315 - Health Information Systems

Prerequisite: HSA 300

This course provides an overview of current information systems including topics such as locating, collecting, analyzing, utilizing and reporting of health statistics to solve common workplace issues. Students will learn basic concepts of data quality and methods of presentation. Data systems issues as well as health indicators, metrics and measurements are covered to support informed decision-making in a healthcare organization.

HSA 320 - Healthcare Human Resource Management

Prerequisite: HSA 300

This course introduces contemporary healthcare human resource management issues within the U.S. healthcare system. Contrasts the differences between personnel administration and elements of strategic human resource management. Students learn key concepts, such as line versus staff relationships, the manager/employee relationship, job design, job analysis, position descriptions, recruitment, retention, promotion, succession planning, legal issues, safety issues, labor relations, training, compensation, benefits and performance appraisals. Current

trends in healthcare human resource management are covered.

HSA 350 - Survey of Health Informatics

The course introduces students to the field of health informatics in the United States. It provides a brief history and development of the field, structures and standards in health care organizations important for all leaders and managers to understand, patient informatics, software applications, electronic health records, meaningful use, health related data (quality assessment, standards, integrity), and Health Insurance Portability and Accountability Act (HIPAA).

HSA 352 - Electronic Health Records and Information Exchange

Prerequisite: HSA 350

In this course students will have the opportunity to gain hands on experience using electronic health records (EHR) and explore health information exchange (HIE). Topics include a brief history and use of health data management in healthcare organizations, health information technology, information exchange, identifying characteristics of the EHR, the opportunity to develop skills using an EHR, privacy and security, revenue cycle management topics, as well as governance and policy.

HSA 355 - Data Management and Analytics

Prerequisite: HSA 350

This course will provide an overview of data management and analytics for health information management. Students will learn the basics of data management and use of data analytics in the US Healthcare System. Topics will include types of data, sources of data, healthcare code sets, terminology, and classification systems, how data is retained and analyzed, standards, as well as who is using the data.

HSA 360 - Foundations of Public Health

This course provides an introduction and overview of the foundation of public health. Students are introduced to a broad range of topics related to the theory and practice of public health. The origin of public health and early contributors in the field are explored in addition to the Ten Essentials Public Health Framework, the ten greatest achievements in public health and the role of public health professionals to promote and protect communities are presented in the course.

HSA 362 - Basic Biostatistics

Prerequisite: HSA 360 and MAT 210 or MAT 300

This course explores the basic biostatistical principles with a focus on public health data. General concepts and principles include the basics of hypothesis testing, measurement scales, frequency distributions, and probability concepts. Students are introduced to univariate, bivariate, and multivariate statistical testing methods. Students learn how to use data visualization to present data and how to interpret statistical tests and present results.

HSA 365 - Epidemiology

Prerequisite: HSA 360

This course is designed to introduce students to the basic principles and concepts of epidemiology including epidemiological terms. Students learn about the history and early pioneers that contributed to the field of epidemiology. Topics include experimental and observational epidemiological study designs. Descriptive and analytical epidemiological study designs are presented in the course and students learn how to conduct a disease outbreak investigation, manage epidemiological data, and interpret results. Students are introduced to epidemiological subspecialties including chronic disease and clinical epidemiology.

HSA 405 - Healthcare Policy and Law

Prerequisite: HSA 300

This course provides an overview of healthcare policy, regulation and law. Topics include sources of common, statutory and constitutional law; contracts and intentional torts; the organization and management of a corporate healthcare organization (HCO); for-profit and nonprofit HCOs; liability issues for individuals and HCOs; admission and discharge issues; medical staff appointments and privileges; emergency care issues; consent issues for treatment; taxation; and antitrust issues. Current issues in fraud, abuse and corporate compliance programs are also covered.

HSA 410 - Health IT Applications

Prerequisite: HSA 350

This course will introduce students to software applications and how they are used in the US Healthcare System. Students will study data collection design, grouping, analyzing, and presenting information. Additionally, students will have the opportunity to have hands-on experience using software applications and explore the use of artificial intelligence in healthcare.

HSA 412 - Data Application and Presentation in Healthcare

Prerequisite: HSA 350

In this course, students will explore how to use and present information in a meaningful and efficient manner. Topics will include using data to create an infographic, summarizing data into a pictograph, collecting and grouping data for presenting, and utilizing data visualization tools. Additionally, students will explore how data is used in quality improvement and evidence-based research. Students will explore different types of data presentation methods based on the intended audience.

HSA 420 - Disease Prevention

Prerequisite: HSA 360

Theoretical and practical approaches for health promotion, disease prevention, and lifestyle concepts are presented in this course. Students learn about differences in community health and determinants of community health with an emphasis on health promotion. Topics include healthy lifestyle behaviors and technology and health promotion. Disease prevention topics include obesity, cardiovascular disease, cancer, Type 2 diabetes, and mental health.

HSA 422 - Emergency Management & Preparedness

Prerequisite: HSA 360

The purpose of this course is to introduce students to public health preparedness and emergency management. Regulations, policy development, and legislation are addressed from the public health perspective. Students learn the steps for managing an emergency and how to craft emergency management plans. Natural disasters, biological, chemical, and nuclear weapons, and biosecurity threats are presented in the course. An emphasis is placed on a coordinated approach among public health professionals and other first responders.

HSA 475 - Innovation, Research, and Data Analytics

Prerequisite: MAT 210 or MAT 300

This course introduces students to types and sources of healthcare data, data selection, basic statistics using statistical software, as well as research methods. Emphasis is placed on familiarizing students with research and data analytics so they can assess access and quality making data driven decisions in healthcare management and propose innovative solutions.

HSA 499 - Undergraduate Health Services Administration Capstone

The course is designed to be a culminating experience for the Bachelor of Science in Health Services Administration program. Students will demonstrate critical thinking, communication, and application of knowledge gained from across the program to real world problems relevant to healthcare management.

Course residency requirement: This course must be taken as last or next-to-last class; it is not eligible for transfer credit and must be taken at Strayer University.

Graduate Health Services Administration Courses

HSA 501 - Management in Healthcare

This course focuses on management practices in healthcare organizations by addressing concepts that are consistent across organization types, such as organization design, effective communication, power and politics and establishing strategic alliances. Key concepts include exploring the challenges associated with delivering value in healthcare systems.

HSA 505 - Health Services Strategic Marketing

This course examines the principles and concepts of marketing as they apply to healthcare organizations. Areas discussed include the nature of marketing strategy, the environment in which marketing operates, the consumer decision-making process, market research, the market mix (product, price, place and promotion), and monitoring and controlling the marketing process.

HSA 510 - Health Economics

Provides a complete understanding of health economics by applying fundamental microeconomic concepts to the analysis of the healthcare market and the study of the organization and delivery of medical care services. Topics of study include an analysis of the demand of healthcare and health insurance, the supply of medical care by physicians and healthcare

organizations and the rationale for government intervention in the medical market.

HSA 515 - Healthcare Policy, Law and Ethics

Surveys the legal environment of the health services industry from a policy perspective, with emphasis on the tensions and trade-offs between quality and cost. Uses case law, statutory and regulatory analysis, and trends in health services delivery law to focus on the overall legal relationships among physicians, personnel, patients and healthcare institutions. Topics include access to healthcare, antitrust law, personnel licensure and institutional accreditation, malpractice, professional and institutional liability, cost containment regulation and cost controls in government programs. Also discusses the philosophical and managerial implications of ethical issues, including professional codes, resource allocation, decisions concerning impaired professionals, end-of-life decisions, experimentation and biotechnology.

HSA 520 - Health Information Systems

Provides an overview of modern information technologies for locating health statistics and covers basic concepts of data quality and presentation. Familiarizes students with the scope and range of data systems and explores important health indicators with emphasis on decision-making needs. Will also explore the collection, analysis and reporting of data.

HSA 525 - Health Financial Management

This course will provide students with theory, tools and practical experience in healthcare financial management. It examines payment sources and reimbursement arrangements; the public and private financing of healthcare service organizations from both a theoretical and practical perspective; and discusses emerging trends in the healthcare industry that affect financial decision-making. Topics of study include capital and debt financing, capital structure, financial planning, operating revenue, working capital, resource allocation and financial analysis of the industry. A case-study method will be used to provide students with the opportunity to analyze a working healthcare organization.

HSA 530 - Health Services Human Resource Management

Explores the management of human resources, with particular focus on healthcare services environments. It is designed to provide an understanding of the key concepts, principles and practices of Human Resource Management. Topics include recruitment, selection and retention practices; performance evaluation; employee training and development; compensation and benefits issues; promotion; job design and analysis; legal issues affecting the healthcare workplace; management/labor relations; and workplace safety within contemporary healthcare services organizations. Trends in human resource management in healthcare are also addressed.

HSA 535 - Managerial Epidemiology

This course provides a comprehensive introduction to epidemiology. Epidemiology concepts and tools are examined as they relate to the improvement of decisions about the management of health services. Basic principles are presented and reinforced with healthcare management applications and case studies.

HSA 540 - Healthcare Operations Management

This course is designed to expose students to healthcare services and the related administrative and management functions within hospital and professional office settings as organized delivery systems. Key concepts covered include the management of hospital reimbursements, ambulatory care and resource utilization that are essential operational functions within the healthcare system in the United States.

HSA 545 - Long-Term Care Management

This course is designed to expose students to the internal and external realities of the managerial challenges presented to long-term care organizations while providing opportunities to apply the concepts to real-world cases. The course focus includes the leadership and administrative aspects unique to this type of healthcare provider to meet today's challenges related to quality care delivery strategies.

HSA 546 - Physician's Practice Management

This course focuses on the key areas of management for the physician's practice sector of the healthcare delivery system. The course focus includes the leadership and administrative aspects unique to this type of healthcare provider to meet today's challenges related to quality care delivery strategies.

HSA 550 - Public Health Management

This course is designed to develop management skills and knowledge needed to effectively address the complexities associated with public health department and agency management. Key concepts covered in the course range from fiscal operation considerations to governance with opportunities for practical application.

HSA 551 - Environmental Health Management

This course is designed to expose students to consequences of modern life and environmental exposures. Traditional management tasks such as planning, controlling and influencing will be applied to the environmental health sector as this field requires managers to be able to do more with less.

HSA 599 - Health Services Administration Capstone

Examines the strategic management process and implementation of successful strategies in healthcare organizations. This course is the capstone course for the Health Services Administration program. Analytic, integrative and decision-making skills will be exercised through the use of case analysis and decision-making.

A grade of B or higher is required for satisfactory course completion.

Course residency requirement: This course must be taken as last or next-to-last class; it is not eligible for transfer credit and must be taken at Strayer University.

HTM – Hospitality and Tourism Management

Undergraduate Hospitality and Tourism Management Courses

HTM 100 - Principles of Hospitality and Tourism Management

Provides an overview of the hospitality industry, career opportunities, international perspective on the travel and tourism industry, and a comprehensive look at each department in the food service, lodging and travel industries. Basic management theories will also be explored within the context of the industry.

HTM 150 - Quality Service Assurance

This course focuses on the management of service quality and improvement within all operational segments of the hospitality and tourism industry. Topics contained in the course include introduction to quality management systems, managing teams, assessing an organization's service strengths and weaknesses, servicing the customer, developing and implementing quality service and management leadership. The course will prepare students to understand the importance of service quality and how to implement service quality plans within an organization.

HTM 250 - Purchasing and Cost Control

Introduces students to the study of product selection, purchase and storage of hospitality supplies. Students will learn to survey purveyors, write specifications, place orders, evaluate quality vs. cost and keep purchasing financial records. This course also provides students with a wide range of knowledge and specific solutions needed to keep costs low and margins high. Students will be able to apply technology to cost control and employ manager-developed excel spreadsheets and Internet access. Content will examine uniform systems of accounts for restaurants, menu analysis and cost/volume/profit analysis menu pricing and strategy.

HTM 280 - Lodging Operations Management

Presents a detailed study of lodging management and front office management systems by detailing the flow of operational procedures for the total hotel organization. Students will examine the various elements of effective front office management, paying particular attention to the planning and evaluation of front office operations, human resources management and guest services. Course content will include interdepartmental communications, computer applications, managerial reporting and a review of the current and future trends in technology. Students will be able to interpret statistical analyses in areas of price structure, occupancy patterns and income. These analyses will serve as the bases for improving decision-making and for policy and procedure implementation.

HTM 310 - Food and Beverage Operations Management

Reviews the development and operation of food service facilities of varying operational segments. Special attention will be applied to concept development, menu management, human resource management, legal issues in the industry, managerial accounting,

management of internal operations and marketing initiatives. Students will also be exposed to the various food service segments that compose the industry. Students will become sufficient in understanding food service operations and management of the industry.

HUM – Humanities

HUM 106 - Experience of Modern Art

Discusses aesthetic theory and provides critical analysis of examples from modern art in poetry, painting and music. Also discusses the arts of photography, dance, architecture, sculpture, theater and film.

HUM 111 - World Cultures I

Surveys the arts, literature, belief systems and major events in the development of cultures around the globe from ancient times to the period of the European Renaissance.

HUM 112 - World Cultures II

Surveys the arts, literature, belief systems and major events in the development of cultures around the globe from the European Renaissance to the contemporary period.

HUM 201 - Exploring Cultures: Adapting in a Global World

Prerequisite: SOC 100 or SOC 101

We are becoming a globally connected world and bringing together different cultural backgrounds allow us to be more innovative and creative than ever. In this course, you'll explore various cultures and groups from around the globe and learn how to utilize new perspectives to improve your interactions, your work and the world around you.

ITB – International Business

ITB 300 - Fundamentals of Global Management

Prerequisite: BUS 302

Examines major theories of management and their implications for multinational and/or transnational corporations. Provides an insight into the nature and scope of international management. Focuses on strategic planning, negotiations, managerial styles and human resources in international organizations in the context of globalization.

JGR – Joe Gibbs Performance Management

Undergraduate Joe Gibbs Performance Management Courses

JGR 100 - Finding Your Leadership Purpose

What is leadership purpose, and why do you need it to succeed? This course will help you determine your unique leadership purpose by looking at your values, abilities and experiences. Coach Joe Gibbs will share stories, advice and hard-won insights that will equip you with the strategies to create your own personal

game plan. Get ready to lead your life and career with purpose.

JGR 200 - The Power of People

Prerequisite: ENG 115 or ENG 116 and JGR 100

What makes a successful team? This course will break down the ingredients every team needs to succeed—organization, a strategy and a target. Through Coach Joe Gibbs' stories and lessons, you will develop the skills needed to both effectively contribute to teams and lead them to success.

JGR 210 - Motivating Teams

Prerequisite: JGR 200

How do you motivate your team to reach your shared goals? In this course, you will learn how to get the best performance from teams. Coach Joe Gibbs will share foundational practices that have enabled his teams to win time and time again. You will learn how to create a culture that champions commitment, motivates individuals, and uses evaluation processes to maximize your team's success.

JGR 300 - Performing Under Pressure

Prerequisite: JGR 210

How do you keep your team's performance on track in challenging situations? In this course, you will learn the secrets to succeeding in dynamic environments. Coach Joe Gibbs is a master of reinventing teams and building new careers. He'll share techniques and strategies to keep your team laser-focused on goals so you can thrive in adversity, adapt quickly to overcome setbacks and embrace a winning mindset.

JGR 310 - The Right Way to Win

Prerequisite: JGR 300

How will you define your success? In this course, you will take a deep dive into what it means to be successful. According to Coach Joe Gibbs, success is not defined by how much money you make or your position within an organization, but instead by your ability to effect positive change in your community and have a positive influence on those around you. You will learn the techniques to prioritize your life in a way that will enable you to leave a lasting impact.

JWI – Jack Welch Management Institute

JWI 505 - Business Communications and Executive Presence

Your career and ability to lead depends on effective communication. Communication is a learned skill that everyone can improve. This course will teach you techniques, often reserved for high potential executives, to advance your leadership presence, strategic communication, professional relationships, presentation performance and workplace crisis management. You will sharpen your leadership communication with targeted learning, practice and coaching. Additionally, you will have the opportunity to optimize your online presence through strategic updates to your LinkedIn profile and peer feedback.

JWI 510 - Leadership in the 21st Century

Leadership is different from management. Managers get predictable things done predictably. Leaders inspire action and adaptability in an unpredictable world. This course delves into the concepts, tools and skills leaders need today. It combines theory and practice to examine such topics as strengthening emotional intelligence, motivating people to achieve strong results, managing conflict, leading change, aligning teams and eliciting support from colleagues and bosses. In addition, this course lays out Jack Welch's time-tested techniques for high-performance team leadership.

JWI 515 - Managerial Economics

This course examines how managers can use economic tools and techniques in solving problems and making business decisions. Managerial economics analyzes supply and demand, profit optimization, cost minimization and pricing practices. It also examines the impact of economic indicators on business performance. This course teaches managers how to analyze risk and apply the analysis in making prudent business decisions. Primary emphasis will be on understanding and applying concepts, and the implications of analysis on managerial decision-making.

JWI 518 - Marketing in a Global Environment

Marketing is the process of turning wants and needs into decisions and actions. It involves a range of activities designed to convey a persuasive message to a target audience. The course covers marketing plans, qualitative and quantitative research, consumer psychology, product positioning and strategy, pricing, packaging, brand equity, advertising, the marketing mix, customer value and business-to-business global marketing. This course focuses on strategic marketing decision-making in a global environment. It reviews concepts of marketing theory, select analytic tools and the dynamics of the marketing mix. The primary focus is on developing skills to design and implement an effective marketing mix and to resolve marketing issues in a given situation. Course objectives are accomplished through case analysis and discussions reflecting a global perspective and assessed through the development and presentation of a marketing plan in a group setting.

JWI 519 - The Business of AI: Navigating the Digital Economy

What do the emerging technologies of generative AI mean for the future of the economy, business and leadership? How can managers leverage these tools to improve performance and stay ahead of the competition in a global environment? This course approaches AI not as a replacement for core business knowledge, but as a multiplier of skills and capacity. We focus on understanding the managerial aspects of AI, such as aligning AI strategies with business goals, and managing risks associated with AI systems.

JWI 520 - People Management

Early on in your career, professional success depends on your innate talents, how you develop those talents, and your initial career decisions. But once you become a manager, your ability to select, develop, promote and manage the right people becomes the most important determinant of success. In this course,

students explore two general areas of people management: hiring and positioning the right players for organizational needs and managing people once the players are in place. Specific topics include sourcing and integrating new talent, managing strategic talent inventory, working with HR and organized labor, performance evaluations and reward systems.

JWI 521 - Recruit, Develop, Assess, Reward, Retain

Learn to attract the best people, reward the right behaviors and develop better leaders within your organization and see how the principles of differentiation, trust and candor drive winning results. This course is an introduction to people management, with a focus on putting people before numbers, nurturing talent and practicing fair and balanced management. You will explore the concept of differentiation in employee management, examine ways to enhance the employee experience and determine the best metrics to track to achieve organizational goals.

JWI 522 - Strategic Partnering with the C-Suite

Human resources encompasses much more than benefits and birthdays. Leaders must find ways to navigate past this perception and position themselves with not only a seat at the table, but as an independent confidant to the CEO. Students will explore how to align the competencies and behaviors of the workforce with the strategic goals of the organization. In addition, human resource leaders need to develop themselves as the in-house experts on dealing with complex ethical and legal issues facing employers today. Students will examine the various regulatory agencies, policies and guidelines impacting the workforce, and identify ways to ensure compliance while driving results. Students will learn about the impact of federal and state regulations as they pertain to employee relations, compensation, hiring and terminations.

JWI 530 - Financial Management I

Financial accounting is the language of business. Leaders must develop fluency in financial concepts, principles and tools in order to understand and drive effective organizational decisions. In this course, you will learn to read, understand and analyze financial data as well as apply managerial accounting concepts such as costing, variance analysis, forecasting and capital budgeting. Maximize the impact of your financial decisions by learning to speak with numbers.

JWI 531 - Financial Management II

Prerequisite: JWI 530

A continued exploration of corporate finance, this course focuses on the advanced financial management skills required to evaluate assets and manage risk in a global market. Students learn such analytical approaches as capital budgeting and the weighted average cost of capital, and then apply them to resource decisions involving domestic and international projects. They also gain a deeper understanding of the movement of exchange rates, interest rates and other factors that influence capital markets. In today's competitive business environment, companies must find innovative and creative ways to facilitate quick and sustainable growth. This course has been designed to develop skills to achieve this goal. The course covers such topics as managing relationships between stakeholders and evaluating mergers and acquisitions bids and the companies behind them. The course

focuses on the knowledge, skills and abilities needed to succeed in today's fast-paced business world.

JWI 533 - Saving Money, Saving Lives

There is a cost to saving lives. Deciding where to invest in technology is critical, whether you are choosing between technology to protect patient records or technology that will save more lives. Business leaders need to stay ahead of the game and balance the risks associated with these costly decisions. You will explore the role of information technology in the success of the delivery system and other important healthcare processes and understand what it means to manage information technology to accomplish delivery system objectives.

JWI 540 - Strategy

Prerequisite: JWI 531 and JWI 550

This course focuses on the skills needed by leaders and managers to understand and develop business strategies. A primary emphasis of the course is Jack Welch's approach to developing and evaluating a strategy compared and contrasted with traditional and theoretical approaches. The course describes the various stages in the strategic planning process, including an analysis of the external environment and internal organizational capabilities. The course explores criteria for, and the impact of, mergers and acquisitions and analyzes organic growth strategies to achieve a competitive advantage. The overriding goal of the course is to enable students to effectively use strategy to develop an overall plan of action designed to achieve the higher-level goals of an organization.

JWI 548 - Applying AI Strategies to Win in Business

Jack Welch said, "If the rate of change outside the organization is faster than the rate of change on the inside, the end is near." In a global marketplace, organizations that once firmly held significant defensible shares of the market are being continuously threatened by new innovations from their competitors. This course explores how AI can promote new ways of thinking and improve strategic decision-making. Students will learn about AI-enabled innovation processes, such as generative design, deep learning, reinforcement learning, and advanced analytics. Students will work on real-world projects to apply AI techniques to solve strategic business challenges.

JWI 550 - Operational Excellence

The focus of this course is on the pursuit of operational excellence as a means for increasing competitive strength. The goal is to provide students with the understanding and tools necessary to identify areas of opportunity for improving the effectiveness and efficiency of processes. This course includes topics such as value stream mapping, process mapping, process analysis, customer-focused design, Six Sigma and Lean.

JWI 551 - It's All About the Patient – Improve the Patient Experience

Learn to improve the patient experience, reduce costs and build better leaders within the healthcare landscape. See how the principles of Six Sigma and Differentiation permeate throughout healthcare. This course will be an introduction into the healthcare sector, with a focus on comprehending the core concepts of service delivery, payment, insurance and business models within

the healthcare sector. You will explore the concept of defining quality in patient care and examine ways to enhance the patient experience and improve processes against the need to streamline costs in the sector.

JWI 552 - Getting Your Customers What They Need

This course provides students with an understanding of the strategies, planning and analytical tools needed for meeting customer demand and for managing supply chains. It equips students to understand the complexities of the movement of goods and services and the handoff from one owner/organization to the next. The course covers the topics of forecasting, capacity planning, operations planning and scheduling, inventory management, Lean systems, supply chain management and logistics and the movement of goods and services across international borders, including the regulations and requirements associated with managing a global supply chain.

JWI 553 - Harnessing AI for Performance Optimization

Artificial Intelligence can be a powerful tool to uncover and address operational inefficiencies that lead to underperformance. This course is not just for operations managers – it's for any leader committed to finding a better way every day. The course explores the use of AI tools to improve performance in the areas of workflow, productivity, and quality. By focusing on the planning and implementation of AI-supported initiatives, students will learn how to develop more effective and efficient operational practices that are aligned with business goals and overcome common challenges associated with AI adoption.

JWI 554 - Delivering Quality

This course provides a foundation for understanding and applying quality principles, tools and statistical methods for quality and performance excellence from an enterprise perspective. It covers the topics of quality planning in the development of new products and services, quality improvement methods such as Six Sigma to minimize variation and improve quality, and quality control to ensure quality is achieved on a sustainable basis.

JWI 555 - Organizational Change and Culture

From the rapid advance of technology to the steady march of globalization, powerful forces of change are shaping today's business landscape. As leaders grapple with these forces, they also face enormous resistance to change. In this course, students learn a powerful framework for understanding and marshalling change. They also hear real stories and concrete strategies from the trenches at major organizations like GE—including Work-Out, Rapid Results, and Six Sigma—and learn when to use each tool. Ultimately, you will understand the importance of a leader's ability to drive change through persuasive communication, simplifying structures, performance management and cultural alignment.

JWI 556 - Leading Change by Putting People First

As Jack Welch states, "Every time you talk about changing, you have to put together the rationale for the change. You have to answer the question of what's in it for the people who are forced to do something different than they are used to doing." Business leaders need to stay ahead of the game and help people within their organization understand that change is constant and

effective change management is needed to win. Students will explore the role of human resources in executing successful change management initiatives within an organization.

JWI 557 - Leading Operational Change

This course focuses on the role of senior leadership in driving change initiatives to implement operational improvements. It covers the topics of operations strategy, process strategy, and the Baldrige framework for performance excellence. We examine how operational leaders must learn to communicate using data in ways that non-specialists can understand in order to get the workforce aligned. It also examines how to leverage the frameworks of operational excellence to strengthen the connection among performance objectives, performance reviews and team management practices.

JWI 570 - Leading through the Bureaucracy in Healthcare

Healthcare is complex and bureaucratic. Leaders find ways to navigate through the bureaucracy and use it to their advantage. You will understand the various regulatory agencies, policies and guidelines within the healthcare industry and identify ways to maneuver through it and drive results. You will learn about the impact of the Affordable Care Act and attempts to reform the U.S. healthcare system from a federal and state perspective. This course will explore various laws governing healthcare institutions and dilemmas faced by managers in the industry.

JWI 575 - New Business Ventures and Entrepreneurship

Prerequisite: JWI 540

Anyone can display an entrepreneurial streak, but not everyone can be an entrepreneur. In this course, students learn what makes an entrepreneur tick, and then walk through the stages of planning, financing and launching a new business. The course covers business plan development, market analysis, competitive positioning, business models, funding sources, company formation, intellectual property, sales, marketing and hiring. The insights gained will also give learners a leg-up in launching new projects or new ventures within existing businesses.

JWI 581 - Healthcare Informatics

Prerequisite: JWI 570

Learn how healthcare information can drive improvements in the quality and safety of patient care. Explore how data relates to population health management. Take on quantitative concepts and use tools to solve and analyze complex data sets to drive decisions in healthcare.

Course duration: This course is five weeks in length.

JWI 596 - Operations Capstone

Prerequisite: JWI 557

The final course in the MBA program for the Operations Management concentration is a capstone course in which a real-world project will be undertaken to develop an operations strategy supported by a detailed operations plan to improve a mission-critical process in the student's chosen organization. The course will require the use of data analysis and business analytics for evaluating the business and financial impact of the proposed improvement(s), and the development of an implementation plan

that includes the means to measure outcomes using KPIs and other quantifiable metrics.

JWI 597 - Graduate Healthcare Capstone

This course ties together everything students have learned in their graduate program and healthcare concentration. They will choose a healthcare organization with a real-world leadership challenge and create a strategic leadership plan. Successfully completing this final course will demonstrate a student's ability to analyze, interpret, synthesize and communicate with a CEO mindset firmly in place.

Course duration: This course is five weeks in length.

JWI 599 - Business Analytics and Capstone

Prerequisite: JWI 575

This course is where it all comes together. Students will synthesize and apply all they have learned during their JWMI MBA program. They will complete a Capstone Project in which they will prepare and present a well-researched strategic plan to take their organization to a more profitable and sustainable position of market leadership. Because business leaders, especially CEOs, cannot just act on hunches, the first half of this course will be focused on business analytics. This will include an overview of powerful quantitative strategies and techniques used to analyze business data in any organization and improve decision outcomes across all business functions. Students will use these same techniques to identify, collect and analyze the data needed to support their strategic plan.

Course residency requirement: This course must be taken in the student's final term in the program. It is not eligible for transfer credit and must be taken at Strayer University.

LEG – Legal Studies

Undergraduate Legal Studies Courses

LEG 100 - Business Law I

Prerequisite: ENG 115 or ENG 116

Examines the legal environment of today's businesses, the sources of American law, and ethics and corporate social responsibility. Provides an overview of constitutional, statutory, administrative and common law, tort law, agency, contracts, cyber law and privacy, LLCs, corporations, and bankruptcy, intellectual property, securities, consumer protection and environmental law, intellectual property, real property, international law and the federal and state courts.

LEG 305 - The Legal Environment of Business

Prerequisite: LEG 100

This course expands the student's knowledge on business law topics, including agency, contract-law, creditor-debtor interactions, governmental regulations of financial transaction and the uniform commercial code.

LEG 320 - Criminal Law

Prerequisite: CRJ 220

This course familiarizes students with the origins of criminal law and explores its historical development into modern American crimes codes. Each lesson introduces students to substantive criminal law and associated legal principles and terminology. This course contrasts elements of crimes against persons, crimes against property, cybercrime, white collar crime and other types of crime. Early and modern approaches to identifying, deterring, preventing, detecting, prosecuting and punishing criminal behavior are also examined.

LEG 420 - U.S. Courts

Prerequisite: CRJ 220

This course examines the American judicial system to include federal, state and local courts. The professional courtroom work group, nonprofessional courtroom participants, the trial process and challenges to the trial process are described. The activities of lawyers, judges and related occupations and professions are reviewed. An overview of the juvenile court system is included.

LEG 440 - Procurement and Contract Law

Examines legal and regulatory aspects associated with federal acquisition and administration of contracts under the Federal Acquisition Regulation. Topics include contract formation and award protests, standards of conduct, governmental liability, the dispute process and administrative and judicial methods of resolution of procurement and contract disputes.

Graduate Legal Studies Courses

LEG 500 - Law, Ethics and Corporate Governance

Examines and evaluates the legal environment and ethical challenges of management and organizations. Reviews approaches to enhance corporate accountability, foster an ethical work environment, ensure legal compliance and provide effective leadership in an organization. Analyzes the impact of management decisions, corporate governance and the leader's individual conduct on a firm's ability to meet its obligations to stakeholders. Evaluates alternative courses of action from an economic, legal and ethical perspective to ensure management meets corporate responsibilities to create wealth, obey the law and observe society's ethical standards. Examines the key elements of effective corporate governance, the predominate schools of ethical thought in relation to strategic management and the ethical consideration for global operations.

LEG 505 - Government Contract Law

Prerequisite: BUS 501

Presents the management considerations (government and contractor) and processes for addressing legal issues associated with federal acquisition and administration of contracts under the Federal Acquisition Regulation. Topics include contract formation and award protests, standards of conduct, governmental liability, the dispute process and administrative and judicial methods of resolution of procurement and contract disputes.

LEG 565 - Commercial Law

Analyzes the legal environment in which business must operate. Examines key provisions of the major federal laws related to labor, consumer protection, property rights, securities, bankruptcy

and environmental protection. Reviews the various forms of business and the topic of corporate governance. Examines contracts and the UCC, product liabilities, torts and issues associated with intellectual property. Discusses legal issues associated with international business.

MAT – Mathematics

Undergraduate Mathematics Courses

MAT 104 - Algebra with Applications

This course emphasizes the applications of algebra to a variety of fields including probability, statistics and finance. It also covers mathematical modeling and set theory.

A grade of C or higher is required for satisfactory course completion.

MAT 110 - Using Math to Inform Your World

Altering a recipe, planning a road trip, buying a car and financing college—what do all of these things have in common? An understanding of numbers and how to use and interpret them. In the workplace, business, technology and criminal justice professionals all use math. In this course you will learn how to approach mathematics in a way that will positively inform your world. Learn how to use an easily understandable approach for basic math and algebra to create meaning and see the world in a new way.

A grade of C or higher is required for satisfactory course completion.

MAT 200 - Precalculus

Prerequisite: MAT 104 or MAT 110

Reviews algebraic techniques. Includes selected advanced topics such as matrices and determinants as techniques for solving linear systems in three or more variables, elementary concepts of analytic geometry and logarithms. Emphasizes business-related word problems.

MAT 210 - Data-Driven Decisions

Prerequisite: MAT 104 or MAT 110

Decisions are made every day that are backed by mathematics to ensure those decisions are valid and reliable. Learn how to harness this powerful skill and apply it to real-world scenarios. This course emphasizes the applications of statistics to a variety of fields. Develop mathematical reasoning, quantitative analysis and quantitative communication skills that will prepare you for future academic coursework and professional endeavors.

MAT 300 - Statistics

Prerequisite: MAT 104 or MAT 110

This course examines the principles of probability and descriptive and inferential statistics. Topics include probability concepts, measures of central tendency, normal distributions and sampling techniques. The application of these principles to simple hypothesis testing methods and to confidence intervals is also covered. The application of these topics in solving problems encountered in personal and professional settings is also

discussed.

MAT 311 - Discrete Math

Prerequisite: MAT 200

This course provides an introduction to discrete mathematics. The course introduces formal logic and its applications. It also develops relational thinking through the study of sets, relations, functions and graphs. The concept of recursion and its applications is also covered. It also develops quantitative thinking through the study of permutations, combinations and counting operations in algorithms. Finally, this course shows how these concepts can be applied toward analyzing the accuracy and efficiency of algorithms.

Graduate Mathematics Courses

MAT 510 - Business Statistics

This course explores how business leaders can apply statistical thinking to improving business process and performance. The course presents concepts related to statistical thinking within a business environment, statistical tools and techniques and formalized statistical methods.

MAT 540 - Quantitative Methods

Prerequisite: MAT 210 or MAT 300

Applies quantitative methods to systems management (Decision Theory), and/or methods of decision-making, with respect to sampling, organizing and analyzing empirical data.

MAT 543 - Quantitative Methods for Health Services

This course is designed to develop and strengthen quantitative skills in order to be applied in healthcare management. Key concepts covered in the course help to increase students' ability to solve fiscal matters, develop strategic solutions and increase efficiency across the board within health services organizations.

MGT – Management

MGT 500 - Modern Management

This course emphasizes the foundation of management principles and the integration into modern management theory. The primary functions of managers, which include planning, organizing, leading and controlling, will be addressed along with demonstrating how effective management can lead to a competitive advantage that sustains the organization.

MGT 505 - Managerial and Business Communication

This course examines communication concepts and issues from various fields such as marketing, public relations, management and organizational communication. The focus is on providing basic knowledge and a broad overview of communication practices in the workplace along with providing an understanding that communication is essential to decision-making and fundamental to success in a global marketplace.

MGT 510 - Global Business Management

This course examines management theories and practices in the context of global and international organizations. Emphasis is

placed on essential management areas, including strategic planning, management styles, negotiations and human resources management in a global organization.

MGT 522 - Women in Leadership

Prerequisite: MGT 500

This course examines women in leadership with a focus on the unique challenges related to women in leadership roles. Leadership competencies, personality and styles, along with gender related issues that affect leadership, will be examined.

MGT 550 - Leadership Strategies

This course will examine and analyze leadership theories and practices in today's organizational environment to include challenges of management in organizations. Emphasis will be placed on present leadership strategies to enhance both individual and corporate productivity that foster a cohesive work environment through improved employee relations.

MGT 599 - Management Capstone

This course is the capstone course for the Master of Science in Management (MSM) program. It examines the strategic management process including the development and implementation of successful organizational strategies that deliver business results. The course requires students to synthesize and integrate management, leadership, project management and marketing theory and practice from prior courses through the whole MSM program. Students are able to apply and exercise the analytic, integrative and decision-making skills through the use of the case analysis and projects, which involve core management functions, leadership challenges and organizational performance considerations and prepares students for the real-world management challenges.

A grade of B or higher is required for satisfactory course completion.

Course residency requirement: This course must be taken as last or next-to-last class; it is not eligible for transfer credit and must be taken at Strayer University.

MKT – Marketing

Undergraduate Marketing Courses

MKT 100 - Principles of Marketing

Marketing is everywhere. It drives the growth of an organization. In today's world, companies compete to find the best way to reach their customers through various outlets, from television to social media. This course explores a business's core marketing principles as it evolves and adapts to the competitive environment. Students will develop a marketing plan using the major components of the marketing mix—product, price, promotion, and place—and they will learn how effective marketing helps an organization navigate change, drive growth, and achieve sustainability.

MKT 305 - Consumer Behavior

Presents the processes for performing the analysis of customer behavior in order to develop effective marketing strategy.

Examines the principles of individual, group and social dynamics influencing consumer behavior. Reviews the consumer decision-making process and marketing approaches that can be used to improve consumer sales performance and customer satisfaction. This course also introduces the impact and influence of social and digital media on consumption choices.

MKT 310 - Retail Management

Examines the strategic management of retail operations using various forms of store-based, online and nonstore-based retailing. Reviews critical principles, such as strategic planning considerations, the structure of retail firms, consumer behavior, market research and location considerations. Examines the key functional areas of managing retail operations, including merchandising, finance, human resource management, operations management, logistics, retail image and atmosphere and the marketing functions of pricing and promotion.

MKT 312 - Marketing Communications

This course explores the essential elements of marketing communication. Topics covered include media and messages, branding concepts, word-of-mouth, social media, digital marketing and the ever-changing communication market. Selecting appropriate communication channels to highlight products, brands and services to sustain a competitive advantage will be highlighted.

MKT 315 - Business Logistics Management

Examines the components and configuration of supply chains in support of marketing and retailing operations. Reviews the considerations for aligning the supply chain configuration to the overall marketing strategy. Analyzes considerations for material sourcing; inventory management; distribution channel configuration; forecasting; and supply network coordination, channel performance monitoring, technology applications and supply chain design options.

MKT 320 - International Marketing

Provides an overview of the concepts and practices of global marketing and the modifications and adaptations required to meet the different opportunities and challenges involved. Explores related issues, such as the digital revolution, marketing communications, physical distribution, integrated strategy and brand and products decisions from a global perspective.

MKT 325 - Social Media Marketing

Prerequisite: MKT 100

Examines how social media marketing is used to build relationships with customers, enhance company branding and increase sales. Topics include social networks, blogs, media sharing sites, podcasts, microblogging and other social media technologies. Explores how these technologies can be used to pursue various marketing objectives.

MKT 330 - Marketing Research and Digital Analysis

Prerequisite: MKT 312

Focuses on using research data to make effective marketing decisions, with an emphasis on interpreting data collected from the firm's digital marketing activities. Topics include common

uses of marketing data, formulation of research projects, data collection techniques, analysis and interpretation of data and insightful data reporting.

MKT 402 - Strategic Market Pricing

Analyzes the critical factors in making pricing decisions and presents a process for cost and pricing analysis. Reviews the concept of value creation and examines a variety of pricing policies and techniques that can be incorporated into a marketing strategy to achieve stated objectives. Examines pricing strategy over the life cycle of products.

MKT 465 - Social Media Strategy

Prerequisite: MKT 330

Prepares social media managers to launch and monitor social media marketing campaigns across the organization. Topics include aligning social media to business goals, strategy planning, campaign management and measuring return on investment of social media activities. Includes discussion of organic and paid tactics for communicating with a target audience.

MKT 475 - Strategic Marketing

This course focuses on the strategic elements of marketing, including responses to new challenges that organizations need to effectively compete in today's business environment. Tools will be presented for use with gathering and analyzing marketing data, strategic market segmentation, market-driven program development, targeting and positioning choices, strategic decision-making and implementation/control. Digital advances will also be explored along with their related impact on the marketing environment, competitiveness and customer information.

MKT 478 - Social Media Campaign

Prerequisite: MKT 465

Students will develop and execute on a social media campaign. Using all their social media profiles, social media tools and networks, media content (blogs, white papers) and websites, students will be required to develop a social media campaign to market and grow their brand/profile. This course will use the Dragon Fly Effect method to track campaign performance.

Graduate Marketing Courses

MKT 500 - Marketing Management

Applies the major elements of the marketing process, including domestic and foreign market assessment, strategic planning and the development of an effective marketing mix (product, price, promotion and distribution) to create customer value. Analyzes key marketing concepts, such as consumer/business buying behavior, market research, brand management, product development, pricing strategies and the design of marketing channels (promotion and distribution). Examines the integration of marketing with other functions in a business organization.

MKT 505 - International Marketing

Reviews the organization for international marketing, foreign demand analysis, product development and policies, trade channels, promotion policies, pricing and legal aspects. Emphasis

is on development of effective international marketing strategy addressing the major global market areas (Europe, Africa, Asia and the Americas).

MKT 510 - Consumer Behavior

Analyzes the concepts and principles of consumer behavior in relation to marketing decision-making. Examines the psychological processes of consumer decision-making and how they impact purchasing decisions and customer satisfaction. Emphasis will be placed on consumer behavior and the different marketing approaches and their implications on marketing strategies.

MKT 515 - Global Marketing Management

This course explores how business managers create global marketing strategies within a competitive environment. Key concepts presented include understanding the global cultural environment and buying behavior, marketing research and global marketing strategies related to products, pricing and logistics.

MKT 520 - Social Media Marketing

This course explores the use of social media marketing as a key marketing strategy within an organization. The focus of the course will include creating media goals, strategies, target audiences and prime social media channels and then implementing a platform-specific tactical plan. Qualitative and quantitative measurements will be explored to measure the return on investment from social media marketing activities.

NUR - Nursing

NUR 100 - Introduction to the Role of the Licensed Practical Nurse

This course provides a comprehensive overview of the Licensed Practical Nurse (LPN) role within the healthcare system. Students will develop a foundational understanding of the LPN's responsibilities, scope of practice, and the ethical and legal framework governing nursing care. Students will explore the importance of ethical decision-making, patient rights, and the legal implications of nursing practice. Additionally, the course will cover the principles of delegation and supervision, empowering LPNs to effectively manage patient care assignments. Upon completion, students will be prepared to enter the LPN program with a solid foundation in the profession.

This course is 3 credit hours.

NUR 120 - Fundamentals of Nursing

This course provides a foundational understanding of nursing principles and skills essential for entry-level practical nursing practice. Students will develop the knowledge and abilities to contribute effectively to the healthcare team, address diverse patient needs, and foster lifelong professional growth. Course content encompasses the nursing process, patient-centered care, safety, infection prevention, communication, and cultural competency. Students will explore topics such as medical terminology, medication administration, patient education, and critical thinking skills. A strong emphasis is placed on developing a patient-centered approach to care, incorporating evidence-based

practices, and adhering to professional standards.

This course is 3 credit hours.

NUR 250 - Medical Surgical Nursing I

Prerequisite: NUR 120, SCI 220

This course delves into the complexities of caring for clients across the lifespan, with a particular emphasis on the unique needs of older adults. Students will explore gerontological theories and concepts to understand the physical, emotional, social, and spiritual dimensions of aging. The course combines a body systems approach with a focus on the pathophysiology of common medical-surgical conditions, integrating safety, infection prevention, and health promotion principles.

Students will develop critical thinking skills to apply the nursing process to complex patient care situations, addressing the developmental, psychosocial, and physiological challenges faced by older adults. Clinical laboratory experiences will reinforce theoretical knowledge through hands-on practice and the application of the nursing process.

This course is 7 credit hours.

NUR 280 - Pharmacology I

This course provides a comprehensive foundation in pharmacology and medication administration. Students will develop critical thinking skills, mathematical proficiency, and clinical judgment essential for safe and effective drug therapy. Course content includes a review of fundamental mathematical concepts applied to medication dosage calculations, followed by an exploration of pharmacodynamics, pharmacokinetics, and the therapeutic applications of various drug classifications. Students will gain hands-on experience in medication administration techniques and safety protocols through simulated clinical scenarios. Specific drug classes covered encompass the integumentary, cardiovascular, respiratory, gastrointestinal, sensory, musculoskeletal, and psychiatric systems. Additionally, perioperative medications and their nursing implications will be addressed. Legal and ethical responsibilities related to medication administration are integrated throughout the course.

This course emphasizes patient-centered care, age-specific considerations, and cultural sensitivity in the delivery of drug therapy.

This course is 2 credit hours.

NUR 350 - Medical Surgical Nursing II

Prerequisite: NUR 250, NUR 280, SCI 221

This course expands upon the foundational knowledge acquired in Medical-Surgical Nursing I. It emphasizes critical thinking and the application of the nursing process to address the diverse healthcare needs of clients across the lifespan including the acute level patient. A body systems framework is utilized to explore advanced medical-surgical conditions and their associated pathophysiology.

Course content encompasses a broad spectrum of nursing care, including safety, infection prevention, health promotion, and the

management of complex patient conditions. Emphasis is placed on holistic care, considering the physical, emotional, spiritual, and cultural dimensions of patient experience. A robust blend of theoretical learning and virtual simulation is integrated throughout the curriculum.

This course is 7 credit hours.

NUR 360 - Exploring Nursing Environments

This course provides an overview of various healthcare settings where Licensed Practical Nurses (LPNs) practice. Students will explore the roles and responsibilities of the LPN within different healthcare environments, including hospitals, long-term care facilities, ambulatory care settings, and community health. The course will emphasize the importance of interprofessional collaboration, patient-centered care, and the impact of healthcare policy on nursing practice. Students will develop an understanding of the unique challenges and opportunities presented in each setting.

The course will also cover healthcare delivery systems, technology, quality improvement initiatives, and disaster preparedness.

This course is 2 credit hours.

NUR 380 - Pharmacology II

Prerequisite: NUR 280

This course expands upon the foundational principles of pharmacology introduced in Pharmacology I. Students will delve deeper into pharmacodynamics, pharmacokinetics, and the therapeutic applications of various drug classifications across diverse patient populations. A comprehensive exploration of medications affecting the endocrine, nervous, renal, urinary, hematological, and lymphatic systems is included. The course also addresses the unique pharmacological considerations for obstetrical and pediatric patients and the management of cancer patients. Additionally, students will gain proficiency in parenteral and intravenous therapy, fluid and electrolyte balance, and the legal and ethical implications of medication administration.

This course is 2 credit hours.

NUR 420 - Nursing of Mothers and Children

Prerequisite: NUR 350, NUR 380, SCI 221

This course provides a comprehensive overview of the childbearing experience, encompassing antepartum, intrapartum, and postpartum care. Students will explore the physiological and psychological changes associated with pregnancy, childbirth, and the postpartum period. Emphasis is placed on family-centered care and the application of the nursing process to promote optimal maternal and child health outcomes. Additionally, the course introduces the principles of child growth and development, from birth through adolescence. Students will learn about common childhood illnesses, developmental milestones, and the role of the nurse in promoting child health and well-being.

This course is 6 credit hours.

NUR 450 - Mental Health Nursing

This course introduces fundamental concepts of personality

development and common psychiatric disorders. Students will explore the complexities of mental functioning and dysfunction, as well as the behavioral management strategies for individuals experiencing acute and chronic mental illness. Course content includes the nursing care of clients with mental, emotional, and behavioral health disorders, including those affected by substance abuse, neglect, and abuse. Legal and ethical considerations within the field of mental health will also be addressed.

This course is 3 credit hours.

NUR 498 - LPN Success Strategies

The LPN Success Strategies course is designed to culminate the student's nursing education, preparing them for entry-level practice. This course integrates previous nursing knowledge and skills into complex patient care situations. Students will refine critical thinking, clinical judgment, and decision-making abilities through a combination of classroom instruction, simulation, and clinical experiences. A strong emphasis is placed on patient-centered care, evidence-based practice, and interprofessional collaboration.

This course is 2 credit hours.

PAD – Public Administration

PAD 500 - Modern Public Administration: Managing Public and Nonprofit Organizations

This course examines theoretical and practical aspects of public administration and the historical development of the field. Students examine the structure, functions and evolution of federal agencies and their relationship to state and local governments and organizations that administer public policy and resources. Management and leadership issues within public administration agencies and organizations are explored in addition to the relationships between agencies and organizations and the larger community.

PAD 501 - Grantsmanship in Public Administration

Prerequisite: HSA 501 or PAD 500

Public administration is primarily involved with public service and policy, which may involve managing and securing funds through grants. This course will provide strategies for approaching foundational and governmental grants and guide the student through every phase of creating a successful grant, from preparation through post-submittal follow up.

PAD 505 - Public Budgeting and Finance

Examines key financial institutions, processes and techniques relating to public budgeting, revenue and expenditure. Covers analytical techniques appropriate for the analysis of revenue, spending and debt issuance. Reviews stages of the budget process and related actors and analytical techniques using the federal budget process as a case study. Discusses performance-laden budget reforms, governmental accounting, debt management and financial reporting. Reviews principles of taxation and evaluates major sources of revenue and their significance.

PAD 510 - Introduction to Public Policy Analysis

Prerequisite: PAD 500

This course is the foundation of public policy analysis. Explores the interrelationships among politics, policy formulation and implementation, and ethics and values, with emphasis on the public sector in the United States. Examines how political parties, key stakeholders, interest groups and public opinion influences public policy; its role and issues in federal, state, local and nonprofit agencies; and how public bureaucracies implement policy through decision-making, planning, organizing and other administrative processes.

PAD 515 - Leadership and Conflict Resolution

Examines models of and societal and personal assumptions about leadership. Elements, factors and processes that give rise to effective executive and managerial leadership are discussed and applied to large, complex organizations. Addresses the theory, concepts, research and practice in conflict analysis and resolution. The roles of private and public-sector leaders in conceptualizing, planning and managing innovation and change, and in mediating conflicts are explored, as are the theoretical bases of various decision-making and problem-solving strategies.

PAD 520 - Policy Analysis and Program Evaluation

Reviews the political, social and economic factors influencing policy analysis and planning for analyzing, solving and resolving practical problems designed for policy issues facing federal, state, local and nonprofit sectors. Examines quantitative and qualitative methods, processes and concepts of public policy analysis and develops skills in applying critical-thinking, analytical techniques and various forms of structured analytical writing and communications. The role and ethical dimensions of policy analysis in the policy-making process are discussed.

PAD 522 - Urban Planning and Management

This course will provide the skills to planning, organizing the complex roles and functions of planning in the development of urban settlements including transportation, business districts, neighborhoods, green space and more.

PAD 525 - Constitutional and Administrative Law

This course examines U.S. public administration within the U.S. Constitution and U.S. legal system as the foundation for all laws in the public, nonprofit and private sectors in a constitutional, regulatory and administrative legal framework. It uses the federal government as the context for analyzing administrative agencies and the public sector administrator's legal responsibility and accountability of public goods while applying legal principles, concepts and processes needed to address legal subjects most relevant to public administration. Accordingly, the course explores how the legal system addresses critical issues faced by public officials and how the law is designed to work. The course also explores the relationship between public administration and law, and specifically how the law is upheld in the decision-making process.

PAD 530 - Public Personnel Management

Analyzes basic principles and functions of personnel administration in the public service; reviews roles of personnel management, recruitment, placement, wage and salary management, valuing and managing talent, training, retirement

and other personnel functions. Provides an overview of workplace policies and procedures related to conflict resolution, employee conduct, hiring practices, and employment standards.

PAD 540 - International Public Administration

This course examines the global context of public administration policies, procedures and stakeholders and the impact on geo-economic and geopolitical systems. Students examine public administration controversies from the local and global perspective and learn how to evaluate policy alternatives. Case studies are used to analyze efficacy of solutions and the nature of shifting global policy.

PAD 599 - Public Administration Capstone

This course integrates theory into application presented in a portfolio, demonstrating core competencies in the areas of corporate governance, public personnel administration, public budgeting and finance, constitutional law, public policy, program evaluation and public leadership in the public or nonprofit sector. The objective of the portfolio focuses on the application of knowledge, skills and abilities of a public or nonprofit manager and its role and responsibilities in the public and/or nonprofit sector. The portfolio consists of approved research position papers, PowerPoint presentations, role-playing in the various roles of public officials and administrators, and competency exams.

A grade of B or higher is required for satisfactory course completion.

Course residency requirement: This course must be taken as last or next-to-last class; it is not eligible for transfer credit and must be taken at Strayer University.

PHI – Philosophy

PHI 201 - Thinking it Through

Prerequisite: HUM 111 or HUM 112 or HUM 201

When you're presented with new ideas and perspectives, how do you process that information? Like assembling a complicated puzzle, critical thinking involves an inventory of the pieces, an understanding of how things do (or do not) fit, and finding a way to reach goals. In this course, you will learn how to use a structured process to evaluate information, think through issues, and determine solutions.

PHI 210 - Critical Thinking

Develops ability to identify, analyze and evaluate reasoning in everyday discourse. Examines the elements of good reasoning from both a formal and informal perspective. Introduces some formal techniques of the basic concepts of deductive and inductive reasoning. Promotes reasoning skills through examining arguments from literature, politics, business and the media. Enables students to identify common fallacies, to reflect on the use of language for the purpose of persuasion, and to think critically about the sources and preconceptions of the vast quantity of information that confronts us in the Information Age.

PHI 220 - Ethics

Focuses on the application of ethics to everyday life. Examines

classical and contemporary writings concerning such matters as courage, pride, compassion, honor and self-respect; and the negative sides of this behavior, such as hypocrisy, self-deception, jealousy and narcissism.

POL – Political Science

POL 110 - U.S. Government

This course serves as an introduction to American government and politics. It is designed to familiarize students with the origins and evolution of American national government, its basic institutions and its fundamental decision-making processes with regard to domestic and foreign policy. It covers the basic terms and facts relating to government, the functions and development of the U.S. branches of government, including the role of parties and interest groups, and the value preferences within American society that affect the formation of public policy. It also develops a basic understanding of how federal, state and local governments interact in the U.S. political system.

PSY – Psychology

PSY 101 - Smarter Decisions through Psychology

Why do you think, behave, and make decisions in the way that you do? Psychology is a human and scientific endeavor that uncovers the mysteries of thought and behavior. In this course, you will explore concepts such as learning, motivation, development, emotion and personality and how you can use that knowledge to make smarter decisions for your future.

PSY 105 - Introduction to Psychology

Introduces psychology as a human and scientific endeavor. Includes examination of concepts and methods in learning, motivation, development, personality and social behavior.

REL – Religion

REL 212 - World Religions

This course presents a conceptual, historical and cultural survey of the major world religions and a comparative approach to religious world views. Examines major religious practices and belief systems. This course prepares students to analyze the impact of religion on global cultures, societies and workplaces as well as in their own lives.

SAL – Sales

SAL 500 - Understanding Sales

Examine the fundamental skills needed to be an informed and proactive sales professional. Learn how to identify stakeholders, build and maintain professional relationships, listen for/identify customer needs and perform relevant and timely market/client research. Work with case studies and simulations to solve customer issues related to product quality, supply chain management and the uptake of new products.

SAL 510 - Sales Strategy

Prerequisite: SAL 500

Learn to gather and analyze customer data, identify trends and work within a customer's business strategy to take advantage of opportunities to drive sales. Explore various business and supply chain models and how they factor into customer needs and circumstances. Present a simulated data-driven proposal to help fulfill a customer need.

SAL 520 - Sales Communications

Prerequisite: SAL 510

Explore written and spoken communication skills needed to be a sales professional. Apply these skills to a group capstone project simulating how to develop a sales strategy for a new product. Examine how to effectively structure written and spoken sales pitches, leverage team resources, collaborate with peers/supervisors and manage project timelines. Work with classmates to build and present pitches/proposals to a specific type of business audience (e.g., sales teams, product managers, financial analysts, etc.), including a relevant go-to-market sales strategy.

SCI – Science

SCI 110 - Introduction to Physical Science

Introduces students to basic concepts from the physical sciences such as motion, force, energy, heat, electricity, magnetism and the atomic theory of matter. Discusses the scientific principles that underlie everyday phenomena, modern technologies and planetary processes. Examines how the various branches of science, such as physics, chemistry, geology, meteorology and astronomy, relate to each other. Lab portion of the course reinforces basic concepts.

SCI 115 - Introduction to Biology

Provides an overview of fundamental concepts in biology, as well as the process of biological inquiry using the scientific method. Covers the properties and characteristics of living cells, organisms and ecosystems, and the relevance of this knowledge for contemporary issues in medicine, agriculture and the environment. Lab portion of the course reinforces basic concepts.

SCI 201 - Unlocking the Secrets of Science and Innovation

Prerequisite: SOC 100 or SOC 101

Scientific advancements have dramatically shaped the way we live, work and interact as a society. Understanding how scientists think about the world can help you think more holistically about the ways that science impacts your family, work, health and life. In this course, you will apply concepts from the physical and biological sciences as you explore the impact science has on innovation in how we live and work as a society. The lab portion will help you develop critical thinking, scientific reasoning and research skills that will help you become a better consumer of science.

SCI 220 - Anatomy and Physiology I

Anatomy and Physiology I is an introductory course designed to

provide a comprehensive understanding of the human body's structure and function at the cellular, tissue, and organ levels. Students will explore the fundamental principles of anatomy, including the terminology, regional anatomy, and systemic anatomy of the human body.

The course will delve into the physiological processes that underlie the functions of various organ systems, such as the integumentary, skeletal, muscular, nervous, and endocrine systems. Through lectures, laboratory exercises, and practical applications, students will develop a strong foundation in human anatomy and physiology, preparing them for further studies in healthcare or related fields.

This course is 4.5 credit hours.

SCI 221 - Anatomy and Physiology II

Prerequisite: SCI 220

Anatomy and Physiology II is a continuation of the study of the human body, building upon the foundational knowledge acquired in Anatomy and Physiology I. This course delves deeper into the structure and function of the cardiovascular, lymphatic, immune, respiratory, digestive, urinary, and reproductive systems. Students will explore the intricate relationships between these systems and their vital roles in maintaining homeostasis. Through lectures, laboratory exercises, and case studies, students will develop a comprehensive understanding of the human body's complex physiological processes.

This course is 4.5 credit hours.

SCI 231 - Nutrition

This course provides a foundational understanding of nutrition and its impact on human health across the lifespan. Students will explore the scientific principles underlying nutrient function, digestion, absorption, and metabolism. Emphasis is placed on the role of nutrition in promoting optimal health, preventing disease, and managing chronic conditions. The course also covers food safety, nutrition labeling, and the influence of media and culture on dietary choices. Practical applications of nutrition knowledge are integrated throughout the curriculum.

This course is 3 credit hours.

SEC – Security

SEC 310 - Homeland Security Organization and Administration

This course examines the organization and practices of the Department Homeland Security and the threats it faces. Topics include agency structure and history, law, risk management, intelligence, security, and threat response and recovery.

SEC 315 - Security Assessment and Solutions

This course covers the basic assessment skills and solutions needed to proactively deliver security services, namely the prevention of security incidents and the detection of those that occur. Emphasis is placed on both line-level skills and managerial skills required to conduct security tasks to facilitate the prevention and detection of crime, with a special focus on the

technologies and technological skills needed to perform these tasks in all forms of security work.

SEC 340 - Computer Forensic Technology

Prerequisite: CIS 175 or CIS 332 or CIS 333 or CIS 337

This is a lab-based course that provides the knowledge and skills to identify, track and prosecute cybercriminals. Students are presented an understanding of computer forensics, creating a secure lab and the process for forensic investigation, including first responder response techniques, incident management and reports used by computer forensic investigators. The course covers a broad base of topics designed to detect attacks and collect evidence in a forensically sound manner. Topics also include the preparatory steps to identify evidence in computer-related crime and abuse cases as well as track a hacker's path through a client system.

Certification offering: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

SEC 405 - Computer Crime Investigation

Prerequisite: CIS 333

This course explores and identifies various computer crimes and their associated criminal investigations. Students will be introduced to the field of computer crime, computer forensics, litigation related to computer crime, computer crimes that affect individuals and techniques that cybercriminals use to infiltrate computer systems.

SEC 420 - Perimeter Defense Techniques

Prerequisite: CIS 332 or CIS 333 or SEC 340

This is a lab-based course that covers topics in offensive network security, ethical hacking, network defense and countermeasures. The course provides an understanding of the tactics and tools used by hackers and methods to prepare strong countermeasures and defensive systems to protect an organization's critical infrastructure and information. Topics include perimeter defense techniques, scanning and attacking simulated networks with a variety of tools, viruses and malware.

Certification availability: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

SEC 435 - Network Penetration Testing

Prerequisite: SEC 420

This is a lab-based course that covers topics in advanced penetration testing and information security analysis. Students are exposed to methodologies in conducting thorough information

security analysis and advanced penetration testing techniques to effectively identify and mitigate risks to the security of an organization's infrastructure.

Certification availability: Certification availability is subject to change.

Course preparation requirements: Course may require that prerequisites are satisfied through completion of a course at Strayer University, transfer credit or review of previous certifications earned. Contact a dean, advisor or coach for additional information.

SOC – Sociology

SOC 100 - Introduction to Sociology

Provides a critical survey of contemporary social, political and economic problems facing American society. Emphasizes the urban crisis, military-industrial complex, racism and distribution of income.

SOC 101 - The Story of Us: Embracing Society and Collaboration

Sociology tells the story of us and how we are all shaped by society. In this course, you will collaborate with others to explore various communities and interpret sociological research that will help you better understand and impact your world.

SOC 105 - Society and the Media

Studies the ways in which the media provide information and entertainment to the public. Critically examines various programs in order to discover how these programs are presented by the media and manipulated according to the interests of owners and advertisers. Examines certain radio and television programs, newspapers and magazines, and examples from popular fiction and popular music, both in terms of what they mirror about ourselves and what they attempt to control in us.

SOC 205 - Society, Law and Government

Prerequisite: CRJ 100

This course examines the function of the American court system in its operational role within the government, the rule of law and society. The criminal court process and the role of the judiciary are explained from a policy-making perspective that reveals the impact of the courts on society and the rule of law in the evolution of social change.

SOC 210 - Social Intelligence

This course explores social intelligence and the ability to effectively navigate and manage social interactions and relationships. Students will come to a deep understanding of how social situations foster meaningful connections and impact personal and professional goals. In this course, students will experience perspectives other than their own and engage in thoughtful, respectful dialogue about controversial issues to gain proficiency in civil discourse. In so doing, students will further develop self and social awareness, problem solving and communication skills.

SOC 400 - Sociology of Class, Gender, Ethnicity, and Race

Prerequisite: SOC 100 or SOC 101

Provides a thorough discussion of the impact of social stratification on the relationships of Americans and those living in other countries. Develops a theoretical understanding of how class, gender, ethnicity and race shape interrelationships.

SOC 450 - Solutions to Global Issues

Prerequisite: ENG 201 or ENG 215, MAT 210 or MAT 300 or MAT 311, PHI 201 or PHI 210, SOC 100 or SOC 101

The general education component capstone course is designed as a culminating and integrative review of a student's learning experiences in the general education component. Students will demonstrate a mastery of core general education competencies to include communication, critical-thinking, collaboration and quantitative reasoning.

Course residency requirement: This course must be taken as the last or next-to-the last general studies course. This course is not eligible for transfer credit and must be taken at Strayer University.

WRK – Workforce Skills

WRK 090 - Workforce Readiness

Workforce Readiness is an introductory course to prepare workforce entrants and early careerists with the basic skills necessary to be successful in the workplace. Over the 5-week course, students will engage with media, articles, activities, case studies and assignments that will encourage and prepare them for an entry level position with the necessary skills to succeed in the workforce. Credit for this course is not applicable toward graduation and is not offered for academic credit.

WRK 100 - Preparing for the Future of Work

What does it take to be competitive in the modern workforce? What qualities do you have that a robot can't replace? And how can *you* take control of your own success?

In this course, we will introduce you to a set of essential skills for excelling in school, work and life. You will explore the application of these key competencies and behaviors. Learning these skills will build the foundation for your educational journey at Strayer and your future career path.

Course residency requirement: This course is not eligible for transfer credit and must be taken at Strayer.

WRK 110 - The Confidence Advantage

Confidence is one of the essential skills employers are looking for in today's workforce. Learning to cultivate and apply your confidence will give you a critical advantage on your path to career success. In this course, Queen Latifah and a host of other instructors will teach you how to use confidence to overcome setbacks, take risks and make decisions that will help you achieve your professional dreams. Join us to get The Confidence Advantage with Queen Latifah.

Non-Degree/Non-Credit Offerings

Devmountain Offerings

Devmountain was founded with a mission to offer the most accessible and impactful coding programs in the country. Devmountain began in the heart of the Wasatch Mountains in 2013, founded by fellow coders in Provo, UT. In 2019, Devmountain became part of Strayer University. Strayer University is proud to offer Devmountain non-degree/non-credit programs online, and at its campuses in Lehi, UT and Dallas, TX.

Through our non-degree/non-credit Devmountain programs, Strayer University brings affordability to the highest quality, hands-on education focused on the technical skills needed for today's fast-paced high-tech industries. Our instructors are passionate about sharing their craft and empowering the next wave of programmers, entrepreneurs and designers. Our high impact, hands-on, project-based curriculum supports students in attaining the foundational knowledge to launch their careers, build their startups and achieve their goals.

Strayer offers the following Devmountain non-degree/non-credit programs full-time, part-time, in-person and online:

- Cybersecurity (560 total clock hours)
- Data Analytics (560 total clock hours)
- iOS App Development (560 total clock hours)
- Software Engineering (Java) (560 total clock hours)
- Software Engineering (Python) (560 total clock hours)
- Web Development (560 total clock hours)
- UX Design (*offered part-time/online only*) (176 total clock hours)
- Software QA (*offered part-time/online only*) (90 total clock hours)

For detailed information on Strayer's non-degree/non-credit Devmountain offerings, including admission requirements, description of the offerings, tuition and policies applicable to the Devmountain offerings, please see the Devmountain catalog or devmountain.com. Information is subject to change, please ensure that you reference the Devmountain catalog for the most current information.

Strayer University's Devmountain programs are not eligible for federal or state financial aid.

Hackbright Offerings

In 2021, Hackbright Academy became part of Strayer University. Hackbright Academy was founded in 2012 with the mission to advance educational opportunities in the engineering and technology industry. Since its founding, Hackbright has continued to focus on empowering students to master the skills and knowledge they need to begin a new career in tech.

Hackbright offerings are:

- Software Engineering Full-Time (420 total clock hours)
- Software Engineering Part-Time (338 total clock hours)
- Software Engineering Prep (40 total clock hours)

For detailed information on Strayer's non-credit/non-degree Hackbright offerings, including, but not limited to, admission requirements, description of the offerings, tuition, and policies applicable to the Hackbright offerings, please see the Hackbright catalog or hackbrightacademy.com. Information is subject to change, please ensure that you reference the Hackbright catalog for the most current information.

Strayer University's Hackbright offerings are not eligible for federal or state financial aid.

University Directory

University Administration

Legal control of the university is vested in the board of trustees elected by the university's sole shareholder, Strategic Education, Inc.

The university's annual financial budget and overall academic decisions are directed by its board of trustees.

Following the parameters of the academic and financial direction set by the board of trustees, those responsible for the academic and instructional quality of Strayer University include the university president and the university provost and their direct reports. The university president is responsible for the overall administration of the university, serving as the campus point of contact for faculty and students. The Senior Vice President, Operations, and the Vice President, Admissions, oversee operational matters. All of these administrators are responsible for implementing board of trustees' policy.

Faculty members are managed by assistant vice provosts.

Board of Trustees Biographies

Antoinette Farmer-Thompson, D.H.Ed, Ex officio

Dr. Antoinette Farmer-Thompson was appointed as the 18th President of Strayer University in April 2024, following her role as the Provost and Chief Academic Officer, which she began in November of 2021. A distinguished leader in higher education, with over 16 years of experience, her previous roles include Chief Financial Officer and Chief Operations Officer of Educational Outreach and Student Services at Arizona State University, and Senior Vice President of Institutional Effectiveness and founding Honors College Dean at Grand Canyon University. Dr. Farmer-Thompson holds a Doctor of Health Education in Health Sciences from A.T. Still University, a Master of Business Administration in Healthcare from Grand Canyon University, a Master of Arts in Education from the University of Phoenix and a Bachelor of Science in Criminal Justice from Arizona State University. She also holds an Artificial Intelligence in Business Strategies and Applications Certificate from the University of California Berkeley, and an Executive Women in Leadership Certificate from Cornell University. Dr. Farmer-Thompson's research interests focus on innovation in education to enhance economic mobility, organizational transformation through analytics and institutional effectiveness, and the development of women in leadership.

Charlotte F. Beason, Ed.D., Chair

Dr. Beason is the chairwoman of the board of trustees. She has served as a member of the board of trustees since 1996. She has extensive experience in education, distance learning and the accreditation of education programs. She was executive director of the Kentucky Board of Nursing from 2005 to 2012. From 2000

to 2003, Dr. Beason was chair and vice chair of the Commission on Collegiate Nursing Education (an autonomous agency accrediting baccalaureate and graduate programs in nursing). She is an evaluator for the Commission on Collegiate Nursing Education. From 1988 to 2004, Dr. Beason was with the Department of Veterans Affairs, first as director of Health Professions Education Service and the Health Professional Scholarship Program, and then as program director, Office of Nursing Services. Dr. Beason has served on the Board since 1996 and is a member of the Nominating Committee. Dr. Beason holds a bachelor's degree in nursing from Berea College, a master's degree in psychiatric nursing from Boston University and a doctorate in clinical psychology and public practice from Harvard University.

Jonathan Gueverra, Ed.D.

Dr. Gueverra was elected to the board of trustees in 2012. He now serves as the president and chief executive officer of Florida Keys Community College. Prior to this appointment, he was the founding chief executive officer of the Community College of the District of Columbia, the first community college in Washington, DC. With more than 25 years of higher education experience, Dr. Gueverra has served in a variety of administrative and faculty positions in two-year and four-year colleges and universities along the nation's east coast. In 2015, he was elected to the board of trustees for the Southern Association of Schools and Colleges, Commission on Colleges. Prior to this, he served as a member of the board of the American Association for Community Colleges and co-chaired the Commission on Workforce Development. In addition, Dr. Gueverra serves on the steering committee and the communications committee for the Council of Presidents for the Florida College System. Dr. Gueverra holds an associate degree from Newbury College, a bachelor's degree from Providence College, a master's degree in business administration and a doctorate in education both from the University of Massachusetts.

Leslie Hitch, Ed.D.

Dr. Hitch was elected to the board of trustees in 2018. She is currently teaching faculty at William James College and has been associate teaching professor, Northeastern University and visiting fellow at Swinburne Institute of Technology, Melbourne, Australia. She has designed curriculum and taught in master's and doctoral programs in Leadership, Global Studies, and Higher Education Administration and for the Federal Bureau of Investigation (FBI). In addition to her faculty position in Australia, she has extensive teaching experience internationally in Hong Kong and Vietnam. Her higher education administrative experience includes director of academic technology services at Northeastern University; vice president, Harcourt, Inc.; program director at Simmons College; and director of executive education at Babson College. She, and her co-author Shreshthi Mehta, received second prize in the Ivey-Publishing/Indian Business School Global Case Writing competition in 2015 and honorable mention in 2017. She is a member of the board for the Center for Independent Documentary and a trustee of the Newton Cultural Alliance. She holds a B.A. and M.B.A. from Simmons College,

certificate in management and leadership in education from Harvard School of Education, and an Ed.D. in higher education administration from the University of Massachusetts, Boston.

William C. Reha, M.D.

Dr. Reha has served as a member of the board of trustees since 2007 and is chair of its Alumni and Student Affairs Committee. He is a board-certified urologic surgeon in Woodbridge, Virginia. Dr. Reha is active in Strayer University alumni affairs and is the 2005 Outstanding Alumni Award winner. Dr. Reha has served as president of the Prince William County Medical Society, the Potomac Hospital Medical Staff, and the Virginia Urological Society. He was also speaker and is a former president of the Medical Society of Virginia. He serves as chair of the Virginia Delegation to the American Medical Association and is president-elect for the American Association of Clinical Urologists. Dr. Reha is a fellow of the Claude Moore Physician Leadership Institute and holds a bachelor's degree in biochemistry from Binghamton University, an M.D. from New York Medical College, and a master's in business administration from Strayer University. He completed his residency in surgery/urology at Georgetown University.

Peter D. Salins, Ph.D.

Dr. Salins has served as a member of the board of trustees since 2002 and is chair of its Curriculum and Assessment Committee. Having served as provost and vice chancellor for academic affairs of the State University of New York (SUNY) system from 1997 to 2006, he is currently university professor of political science at SUNY, Stony Brook University and director of its graduate program in public policy. Dr. Salins is a fellow of the American Institute of Certified Planners and a director of the Citizens Housing and Planning Council of New York. Dr. Salins holds a bachelor's degree in architecture, a master's degree in regional planning and a doctorate in metropolitan studies and regional planning, all from Syracuse University.

Mr. Joe Schaefer, M.B.A.

Mr. Schaefer has served as a member of the board of trustees since 2018. He is currently the chief technology officer of Strategic Education, Inc. Prior to that, for more than 10 years, he held multiple senior leadership positions at Strayer University, including chief technology and innovation officer, senior vice president of academic operations and chief information officer. Prior to joining Strayer University, Mr. Schaefer held various technology leadership positions at Accenture, one of the world's leading consulting companies. Mr. Schaefer holds a bachelor's degree in mechanical engineering from Virginia Tech and a master's degree in business administration from the University of Virginia Darden School of Business.

Carol Shapiro, M.D.

Dr. Shapiro has served as a member of the Board of Trustees since 2015. Dr. Shapiro, a plastic surgeon, is the medical director of the Wound Healing Center of Sentara Northern Virginia Medical Center. She has served as president of the medical staff of the two hospitals in the county in which she practices. She has also served as president of the Prince William County Medical Society and was the first woman to be elected president of the

Medical Society of Virginia. She chaired the Virginia Delegation of the American Medical Association. Dr. Shapiro served as president of the National Capital Society of Plastic Surgeons and was appointed to serve on the Ethics and Judicial Committees of the American Society of Plastic Surgeons. Additionally, she has served on the Board of Trustees of the Prince William Hospital and Potomac Hospital. Currently, she is the vice chair of the Potomac Health Foundation and chair of the Grants Committee, and serves on the Board of Trustees of Sentara Northern Virginia Medical Center. She recently completed a 12-year term on the Board of Visitors of Virginia Commonwealth University. Dr. Shapiro did her undergraduate work at the University of Pittsburgh and earned her M.D. at the Woman's Medical College in Philadelphia. After completing a residency in general surgery and plastic surgery at Georgetown University, she started a solo practice in Woodbridge, Virginia. For several years, Dr. Shapiro was a clinical instructor at Georgetown University Department of Plastic Surgery. In 1996, she earned an M.B.A. from George Mason University

J. Chris Toe, Ph.D.

Dr. Toe has served as a member of the board of trustees since 2003. He served as president of Strayer University from 2003 to April 2006 and as minister of agriculture of the Republic of Liberia from 2006 to 2009. Dr. Toe now serves as executive chairman of Agrifore Advisory & Investment Services (AAIS), Incorporated in Liberia and senior advisory for Country Strategic Planning for the World Food Programme in Rome, Italy. Dr. Toe holds a bachelor's degree in economics from the University of Liberia, a master's degree in agricultural economics and a doctorate in economics, both from Texas Tech University.

Mr. Andrew Watt

Mr. Andrew E. Watt is chief operating officer of Strategic Education, Inc. Mr. Watt previously served as senior vice president of postsecondary education to Strategic Education, Inc., and previously under the same title to Capella Education Company. Prior to service as senior vice president of postsecondary education, Mr. Watt served as vice president of colleges and university operations and Capella University's chief operations officer from 2014 to 2019. He has held a variety of leadership positions across Capella University, including roles in operations, finance, analytics and its markets and products team. Before joining Capella, he worked in transaction advisory services at both Deloitte & Touche LLP and Arthur Andersen LLP. Mr. Watt graduated from the University of St. Thomas with a bachelor's degree in finance and accounting.

Michael E. Wooten, Ed.D.

Dr. Michael E. Wooten is a small business owner and a Marine Corps veteran of Afghanistan. He is a former board chair for Northern Virginia Community College and was recently appointed to the board of the Virginia Community College System by Governor Glenn Youngkin. After his 20-year Marine Corps career, his assignments include Professor of Contract Management at Defense Acquisition University, Deputy Chief Procurement Officer for the District of Columbia, Acting Assistant Secretary at U.S. Department of Education, and Administrator for Federal Procurement Policy at the Office of Management and Budget. In this role, he was the U.S.

procurement policy chief. Dr. Wooten holds a doctorate from the University of Pennsylvania, masters degrees from The George Washington University, the U.S. Naval Postgraduate School, and Norwich University. He received his bachelor's degree from Chapman University.

A letter from the president

Welcome to Strayer

I'm truly honored that you're considering earning your degree with Strayer University. Founded in 1892, Strayer has over 130 years of experience educating students and lifting economic mobility.

At Strayer, we understand that pursuing higher education is a significant step, and we're here to support you every step of the way. We're committed to advancing education in our rapidly evolving world with a high-quality approach that offers skills-based curriculum and innovative courseroom technology. This guide provides an overview of our rich history of excellence, while also looking ahead to a cutting-edge future. I want you to know that your success and well-being are our top priorities.

Education advances individuals, families and community. Our 150,000+ graduates all began their journeys like you, by taking that first step. Whether your goal is to jump-start your current career, embark on a new one, pursue the dream of starting your own business or simply enjoy the benefits of lifelong learning, Strayer is here to support you in making it happen every step of the way.

Education is intended to help people and drives mobility. We believe in – and care about – nurturing your academic aspirations, personal development and professional goals.

Thank you for considering Strayer University. We look forward to welcoming you into our community. We're Strayer Strong and Strayer Proud, and we support your academic and personal growth.

Heartfelt wishes for your success,

A handwritten signature in black ink, appearing to read 'Toni Farmer-Thompson', with a long horizontal line extending to the right.

Dr. Antoinette "Toni" Farmer-Thompson
President, Strayer University

As Horace Mann, a pioneer of higher education, wisely stated, "Education can truly be the great equalizer." Education has transformed countless lives, providing economic mobility not only for individuals but also for families and entire communities.

Dr. Antoinette "Toni" Farmer-Thompson
President, Strayer University

Let's get
started.

Education reimaged

At Strayer, we push education forward. We provide an experience that lets you control how you learn – day or night, online or at one of our campuses throughout the U.S. Because this time, school is different. We've taken higher education and reimaged it to work in today's world – your world.

We go above and beyond to assist you with every class, every course registration and every question you may have. Why? Because we want you to graduate. And we've got the teams, tools and technology to help put you on the path to success.

Whether you're looking to pursue new career goals or make a career change, we're here to assist you with what you need.

For those looking to level up their skills or explore career opportunities in leadership, the **Jack Welch Management Institute (JWMI)** at Strayer University has MBA and certificate programs to help build skills to help you make an impact at your organization.

We welcome students from around the world with unforgettable **course content**, admissions officers, **coaches and instructors** who make sure your degree path works for you, and a virtual assistant that helps you find answers fast.

Strayer University is an accredited institution and a member of the Middle States Commission on Higher Education (MSCHE or the Commission) www.msche.org. Strayer University's accreditation status is accreditation reaffirmed. The Commission's most recent action on the institution's accreditation status in June 2017 was to reaffirm accreditation. MSCHE is recognized by the U.S. Secretary of Education to conduct accreditation and pre-accreditation (candidate status) activities for institutions of higher education including distance, correspondence education, and direct assessment programs offered at those institutions. The Commission's geographic area of accrediting activities is throughout the United States.

Strayer has over 130 years of experience reinventing education to be more affordable, accessible and attainable. We know what it takes to provide a flexible education, and we use our expertise and penchant for innovation to help every student succeed, wherever they are.

Take the
first step.

Support from start to finish

Admissions officers

Your journey at Strayer begins with our admissions officers, who provide support, encouragement and answers. They're here to help you navigate the enrollment process, pointing you in the right direction to solve issues that might arise in your first quarter.

They strive to help you:

- Enroll in the program of your choice
- Understand ways to pay for your degree
- Structure your course schedule to fit your life
- Pursue goals in your current career or work toward a new one

They'll get you on the path to your degree ASAP, answering questions like:

- Can I transfer credits from another school?
- What are the steps to completing enrollment?
- What resources are available to help me succeed academically?

[Connect with an admissions officer →](#)

Guidance through graduation

Your student services coach

As your first quarter wraps up, we'll assign a member of our coaching team to work with you for the remainder of your academic career. Part counselor, part cheerleader, your student services coach will motivate and guide you as you work toward completing your degree.

Student services coaches help you:

- Choose the best courses to take and when
- Set benchmarks for academic success
- Connect with tutors and study groups
- Navigate course-related and financial aid challenges

Faculty who help you pursue new goals

Educational support

If you feel stuck or can't understand something you're learning in class, your professors can help. Our deans, faculty and staff are easy to reach and responsive, so you can get answers when you need them.

Real-world experience

Our faculty brings industry experience, knowledge and expertise to guide interactive lessons and coursework. They understand that you're more than a student; you're a motivated professional, earning your degree in a modern way. They're available to help you pursue new goals in your career and in your life.

“Number one, I can help people reach their goals. Being able to help people change their lives is exciting and rewarding. Students often reach back and request to meet at graduation. It’s even more of a thrill when students tell me they were about to give up, then they received an inspiring communication from me that motivated them to continue their journey. Working at Strayer allows me to make an impact in the world one student at a time.”

Jimmie Manning

Dynamic course content

A new way to learn

Strayer Studios began with a singular mission – to move away from a traditional lecture and discussion format and develop an entirely new learning experience that engages and inspires students. Strayer Studios turns real people’s stories into cinematic course content and produces short, documentary-style films connected to classroom concepts.

Strayer Studios enhances courses with three dynamic components:

- Videos to shape learning materials as a story
- Readings to build on the video content
- Discussion boards for students to discuss important topics with classmates

Stream your way to success →

Supporting the whole you

Earning a degree at Strayer takes more than academic ability; you'll need to balance your coursework with your job, family, finances, community and your personal health. Finding that balance is what the Center for Well-Being is all about. It's an online space for Strayer students to get academic, professional and personal support, whenever you need it, and at no additional cost.

Six dimensions of well-being

Academics

Develop your learning strengths

- Tutoring
- Writing Center
- Research/library

Career

Showcase your talent and skills

- Resume support
- Search jobs
- Strayer Career Center

Essential needs

Access services, goods and resources

- Community resources
- Disability services
- Internet connectivity

Finances

Maximize your educational investment

- Financial aid process
- Financial aid dashboard
- My borrowing support

Mind and body

Take care of your whole self

- Emotional support
- Disability services
- School-life referrals

Social connection

Build and maintain healthy relationships

- Peer-to-peer mentoring
- Career communities
- iCampus communities

An affordable education

Your education doesn't have to break the bank. We understand earning a degree is an investment, and we don't want cost to keep you from pursuing new goals in your career and life. We have many tuition-saving offerings to make your degree more affordable – so you can focus on building your future.

Ways to save on your degree

Strayer Learn and Earn Scholarship

At Strayer, hard work pays off, with up to 25% off your bachelor's degree with the Strayer Learn and Earn Scholarship. For every three courses you pass, earn one on us, tuition-free, to be redeemed near the end of your program. Eligible bachelor's students are automatically enrolled so you can start saving right away. [Get the details](#) about the Strayer Learn and Earn Scholarship. Connect with us for details.

Eligibility and participation rules apply.

Transfer credits

Your bachelor's degree could be 70% complete – transfer up to 28 classes to Strayer and finish what you started. We make transferring credits easy so you can focus on what matters most – earning your degree and creating a future you're proud of. [Transfer to save.](#)

Scholarships

We want to support your success academically and financially, which is why we offer a number of scholarships to eligible students and alumni. Several of our scholarships can be combined to make your degree even more affordable, helping you focus less on your expenses and more on your degree. [See scholarship details.](#)

\$5K Bachelor's Transfer Credit Scholarship

Ready to transfer credits and save on a bachelor's degree? If you have 18+ transfer credits, you may be eligible for a \$5,000 scholarship. You can also combine this offer with no-cost gen eds through our affiliate, Sophia Learning, and the Strayer Learn and Earn Scholarship to maximize your savings.

Eligibility and participating rules apply.

Employer Tuition Assistance

More than 500 organizations invest in their employees by partnering with Strayer University to offer access to tuition savings and other educational benefits. If your employer is a corporate partner, you may qualify for programs that can help you discover career pathways in your field. [Find your employer.](#)

No-cost general education courses

Save up to \$15,250 on your Strayer bachelor's degree by accessing your general education courses through our affiliate, Sophia. Complete your general education courses through Sophia, then apply successfully completed courses toward a Strayer degree program.

Discover how [Sophia Learning](#) can get you closer to meeting your goals.

Savings assumes transferring 10 courses taken at Strayer affiliate Sophia. Eligibility rules apply. Connect with us for details.

Credit for experience

We recognize the value of experience and know our students have a lot of it. That's why we've made it possible for you to earn credit for prior education, industry certifications, work experience, proven skills and more. This credit beyond the classroom can help you reduce the cost of your degree and the time it takes to finish.

We also offer various challenge exams and online courses with partner organizations to help your degree stay within your budget. [Apply your experience.](#)

Active-duty service members and veterans

Strayer participates in programs for active-duty service members and veterans like GoArmyEd, Navy College Program Distance Learning Partnership, and Air University Associate-to-Baccalaureate Cooperative. We're approved for veterans' educational benefits and participate in the Yellow Ribbon program. [Get the details.](#)

National service participants

[AmeriCorps](#), [the Peace Corps](#) and [the National Health Services Corps](#) all offer college money in exchange for a service commitment. For more information, visit their sites.

Advance your career goals with a flexible, online MBA

Built with time-tested business practices from legendary CEO Jack Welch's decades of expertise, the **Jack Welch Management Institute (JWMI)** MBA program at Strayer University provides you with the confidence and skills to get ahead.

Mission

At JWMI, we strive to transform our students' lives by giving them the tools they need to become better leaders, build great teams and help their organizations win. The JWMI MBA helps students make an immediate impact at work and level up their leadership skills.

A top 10 ranked online MBA

JWMI was named a top 10 ranked online MBA program by The Princeton Review and Poets&Quants.

Your MBA. Your terms.

- Flexible, career-focused programs
- Engaging online learning
- Scholarship opportunities
- Enrollment and career support

A world-class education with student satisfaction to match

98%

of alumni rated their overall experience in the program as good or excellent.*

98%

of alumni would recommend the program to others.*

90%

of alumni said their confidence as a leader has increased.*

**Based on 2024 Graduate Survey*

What JWMI alumni say

“Learn today, apply tomorrow is the motto of the entire curriculum, emphasizing the practicality and relevance of all the materials. Each module has positively impacted me, my team and my workplace.”

Olga Shakirova
CFO, MEDSI Group
Class of 2023

“The JWMI curriculum has helped me become a better people manager and sales leader. Through the program, I’ve had the chance to take on additional responsibilities and was promoted.”

Lokesh Ramu
Sr. Sales Director, Honeywell
Class of 2023

Accreditation

When it comes to your education and career, choosing an accredited university is essential. The JWMI MBA is programmatically accredited by the Accreditation Council for Business Schools and Programs (ACBSP).

The Jack Welch Management Institute is part of Strayer University. Strayer University is certified to operate in Virginia by SCHEV and has many campuses, including at 2121 15th St. N. in Arlington, VA.

A degree for life

Our programs evolve as workplaces and industries change. Strayer can help you grow with a program that fits your life and goals.

¹³This program is available in an online only format in Alabama, Arkansas, Delaware, Maryland, New Jersey, North Carolina, Oklahoma, Pennsylvania, South Carolina, Tennessee and Virginia.

¹⁴This program is not available at the New Jersey campus, and is available in an online-only format to New Jersey students.

¹⁵This program is not available at campus locations and is available in an online-only format.

State restrictions and policies

Some concentrations are only available online. State restrictions and policies may apply. See the Strayer University Course Catalog for concentration details and any policies or restrictions that may apply.

Not all programs are available in all modalities in all states. Depending on the state, your program of choice may only be available in an online-only version or not at all. Please check individual program pages in this catalog for the most up-to-date information on program availability. All courses within a program will not be available for on-ground delivery at most campus locations. Due to availability, students are required to take at least some (and in certain cases, all) courses in an online format in order to complete a degree program. If you have any questions about availability of programs or courses, please contact your admissions officer, coach or dean. Strayer University has been certified to operate in Virginia by SCHEV. Strayer University has locations in Arlington at 2121 15th Street North, Arlington, VA 22201, and 6 other locations throughout the Commonwealth. Strayer University's Morrow campus is located at 3000 Corporate Center Dr. Suite 100, Morrow, GA 30260, and we have seven other campuses in the State of Georgia.

Select courses may be available at other nearby Strayer campuses.

¹ Not available at the Center City, PA or South Charlotte, NC, campuses.

² Not available at the Arlington, VA; Chamblee, GA; Miramar, FL; North Dallas, TX; and Northwest Houston, TX campuses.

Studying outside the U.S.

We offer 100% online degree programs for international students wanting to study outside of the U.S. You'll have access to quality education and dedicated support, all conveniently online.³

Tuition savings and support

International Student Scholarships

Depending on your home country or territory, we offer a 25% or 50% off tuition scholarship for eligible international, non-U.S. citizen students, including F-1 visa students in the U.S. or non-U.S. citizens living overseas who enroll in select online degree programs.⁴

Student support

Dedicated admissions officers and coaches are trained in the unique requirements of international students, including F-1 visas, to ensure you receive the guidance and support you need. They can help you:

- Complete transcript evaluation offered through The Evaluation Company (TEC), which may be complimentary for eligible students.
- Strayer offers access to testing. We also accept Cambridge English, Duolingo, IELTS, Pearson and TOEFL test scores.

³Online classes require an internet connection. Connect with us for details.

⁴Eligibility and participation rules apply.

⁵Application terms and conditions apply. Connect with us for full details.

Optional Practical Training (OPT)

Strayer supports OPT requests for eligible students. OPT allows you to work and earn income in an area related to your major field of study while you are attending school or after you graduate. CPT not offered. OPT and STEM OPT (for STEM-designated degree programs) may be available, subject to U.S. Citizenship and Immigration Services (USCIS) approval.⁵

Designated School Officials (DSO)

Strayer DSOs are committed to making themselves available to you whenever you need them, both before and after enrollment.

The Middle States Commission on Higher Education
Institutional accreditation

The Accreditation Council for Business Schools and Programs
Specialized programmatic accreditation for Strayer University business degree programs, including JWMI

The Society for Human Resource Management
Student chapter

The National Security Agency (NSA) and a committee of academic peers named Strayer University as a National Center of Academic Excellence in Cyber Defense (CAE-CD) and validated the Master of Science in Cybersecurity program.

Strayer University is an accredited institution and a member of the Middle States Commission on Higher Education (MSCHE or the Commission) www.msche.org. Strayer University's accreditation status is accreditation reaffirmed. The Commission's most recent action on the institution's accreditation status in June 2017 was to reaffirm accreditation. MSCHE is recognized by the U.S. Secretary of Education to conduct accreditation and pre-accreditation (candidate status) activities for institutions of higher education including distance, correspondence education, and direct assessment programs offered at those institutions. The Commission's geographic area of accrediting activities is throughout the United States.

Strayer does not represent or guarantee that its degree programs are accredited, recognized or likely to be accredited, recognized or granted equivalency or validation by any non-U.S. country, non-U.S. educational authority, or any other educational institution. Recognition, equivalency and validation of Strayer degrees are determined on a country-by-country basis by each country's educational authorities, and by each individual institution at which students seek equivalency. You are advised to independently review the degree recognition, equivalency and validation procedures with the relevant organizations in your country and any other institution you may consider attending to determine if Strayer credits/degrees would be recognized.

We're ready for you

We believe we're the best university for you. Why? Because we've been reimagining education for more than 130 years. We offer cutting-edge degree options with courses delivered through modern technologies and backed by world-class support.
