Lt. Governor

Opening Fall Enrollment, Fall 2014¹

- The total headcount enrollment at all Maryland institutions is 360,043, an increase of 3,007 (0.8%) above the Fall 2013 enrollment of 357,036. This growth follows two years of decline from the all-time peak of 373,359 students enrolled in Fall 2011.

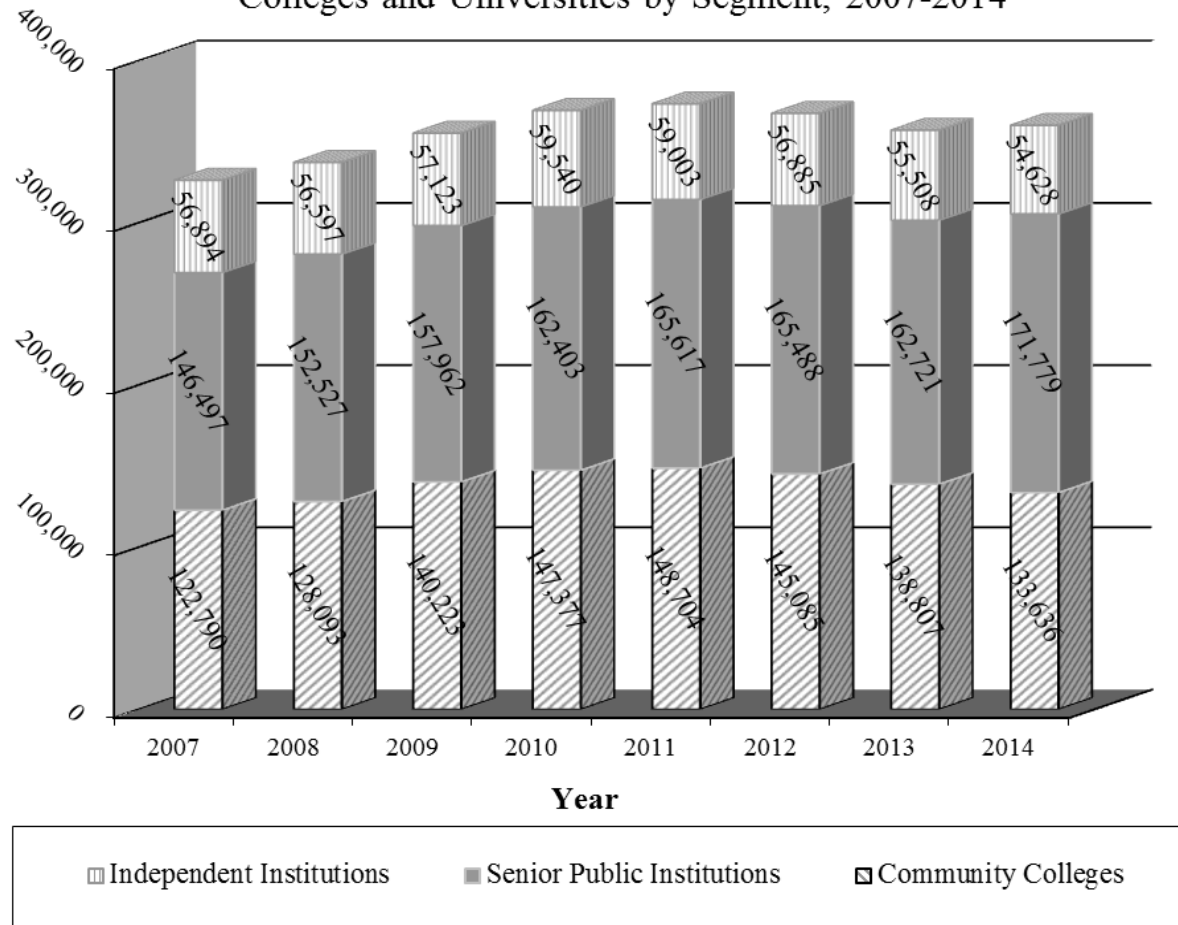

Figure 1. Opening Enrollment in Maryland Colleges and Universities, 1989-2014

¹This report highlights preliminary data on fall enrollment submitted by Maryland colleges and universities. Final enrollment figures presented later in the term may differ slightly from those included in this report.

- Undergraduate enrollment increased by 3,276 (1.1%), from 288,720 to 291,996. Graduate enrollment was essentially unchanged, decreasing by 269 (0.4%), from 68,316 to 68,047.

Figure 2. Growth in Enrollment at Maryland Colleges and Universities by Segment, 2007-2014

- As shown in Figure 2, enrollment growth varied by sector. The number of students enrolling at community colleges declined from 138,807 to 133,636, a decrease of 3.7%. This is similar to the 4.1% decrease seen in Fall 2013. Enrollment remains 4.3% above the Fall 2008 level of 128,093, before the significant enrollment increase associated with the recession. In 2014, fourteen of the sixteen community colleges experienced enrollment declines. The only colleges to grow in Fall 2014 were Allegany College of Maryland (from 3,191 to 3,221, an increase of 30 or 0.9%) and Howard Community College (from 9,969 to 10,184, an increase of 215 or 2.2%). Howard Community College was the only community college to see an increase in Fall 2013.
- Enrollment at public four-year institutions grew by 5.6%, from 162,721 to 171,779. This increase was driven largely by a notable growth in part-time undergraduate students, almost all of which occurred at the University of Maryland University College. The number of part-time undergraduates at public four-year institutions rose from 32,251 to 39,871, an increase of 7,620 or 23.6%, and UMUC accounted for 7,494 of that total. Enrollment increased at eight of thirteen institutions in this sector, while decreasing at the other five. The largest percentage increases, after UMUC (21.8%), occurred at Frostburg State University (3.1%, mostly in part-time undergraduates) and Bowie State University (2.4%, mostly in full-time undergraduate and graduate students). The largest percentage decrease occurred at Coppin State University, which decreased by 7.4% after decreasing 6.1% a year earlier.
- Enrollment at private and independent institutions declined by 800 (1.6%), but most of that decline is attributable to the closure of National Labor College, which enrolled 558 students in Fall 2013. When National Labor College is removed from the 2013 enrollment total, the decrease for the sector is 0.6%. Enrollment at independent (i.e., state-aided not-for-profit private) institutions declined from 51,617 to 51,208, a decrease of 409 or 0.8%, while at other Maryland private institutions, enrollment increased from 3,333 to 3,420, an increase of 87 or 2.6%.
- The number of first-time full-time students has declined for the fifth consecutive year. 35,133 first-time, full-time students enrolled in Fall 2014, down 1,235 (3.4%) from the Fall 2013 total of 36,368, and down 14.8% from the Fall 2009 total of 41,246. While the Maryland State Department of Education (MSDE) has not released the number of high school graduates for 2013-2014, the number of high school graduates has remained fairly steady from 2007-2008 through 2012-2013, averaging 59,556 during that period. National Student Clearinghouse data cited by MSDE suggests that the college-going rate for recent high school graduates has been fairly constant during that period, which would suggest that Maryland may be losing college-going high school graduates to other states. At the same time, the general increase in enrollment during this period suggests that Maryland institutions are increasing enrollment among returning and adult students.
