Lt. Governor

Opening Fall Enrollment, Fall 2015¹

- The total headcount enrollment at all Maryland institutions is 358,348, a decrease of 1,635 (0.5%) from the Fall 2014 enrollment of 359,983 (Figure 1). The Fall 2015 enrollment is 4.0% (15,011) below the all-time peak of 373,359 in Fall 2011, and just above the five-year low of 357,036 in Fall 2013.

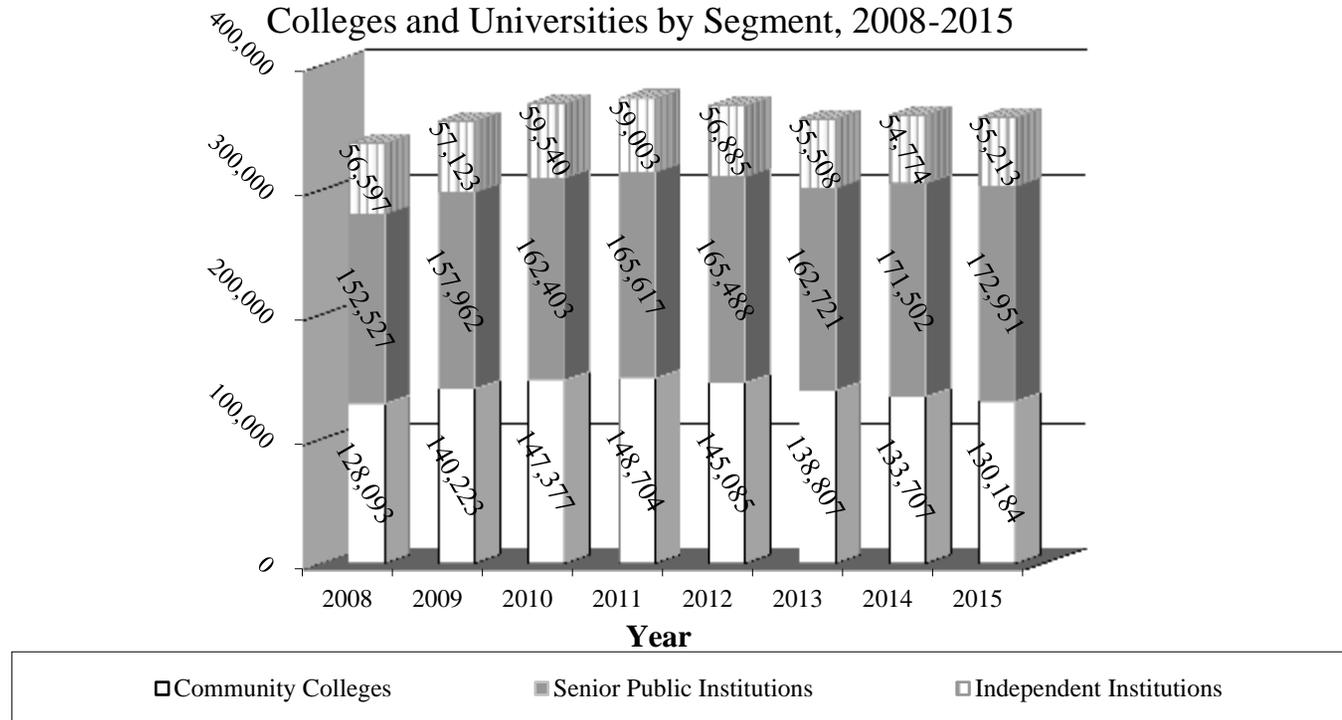

Figure 1. Opening Enrollment in Maryland Colleges and Universities, 1990-2015

¹This report highlights preliminary data on fall enrollment submitted by Maryland colleges and universities. Final enrollment figures presented later in the term may differ slightly from those included in this report.

- Undergraduate enrollment declined by 2,978 (1.0%), from 291,797 to 288,819. Graduate enrollment increased by 1,343 (2.0%), from 68,186 to 69,529.
- As shown in Figure 2, changes in enrollment varied by sector. The number of students enrolling at community colleges continued to decline from 133,707 to 130,181, a decrease of 2.6 %. Fall 2015 enrollment is 1.6% above the Fall 2008 level of 128,093, before the significant enrollment increase associated with the recession. In 2015, 12 of the 16 community colleges experienced enrollment declines. Four community colleges showed slight growth in Fall 2015: Cecil College (from 2,551 to 2,586, an increase of 35 or 1.4%); Frederick Community College (from 6,031 to 6,197, an increase of 166 or 2.8%); Howard Community College (from 9,920 to 9,935, an increase of 15 or 0.2%); and Wor-Wic Community College (from 3,104 to 3,137, an increase of 33 or 1.1%).

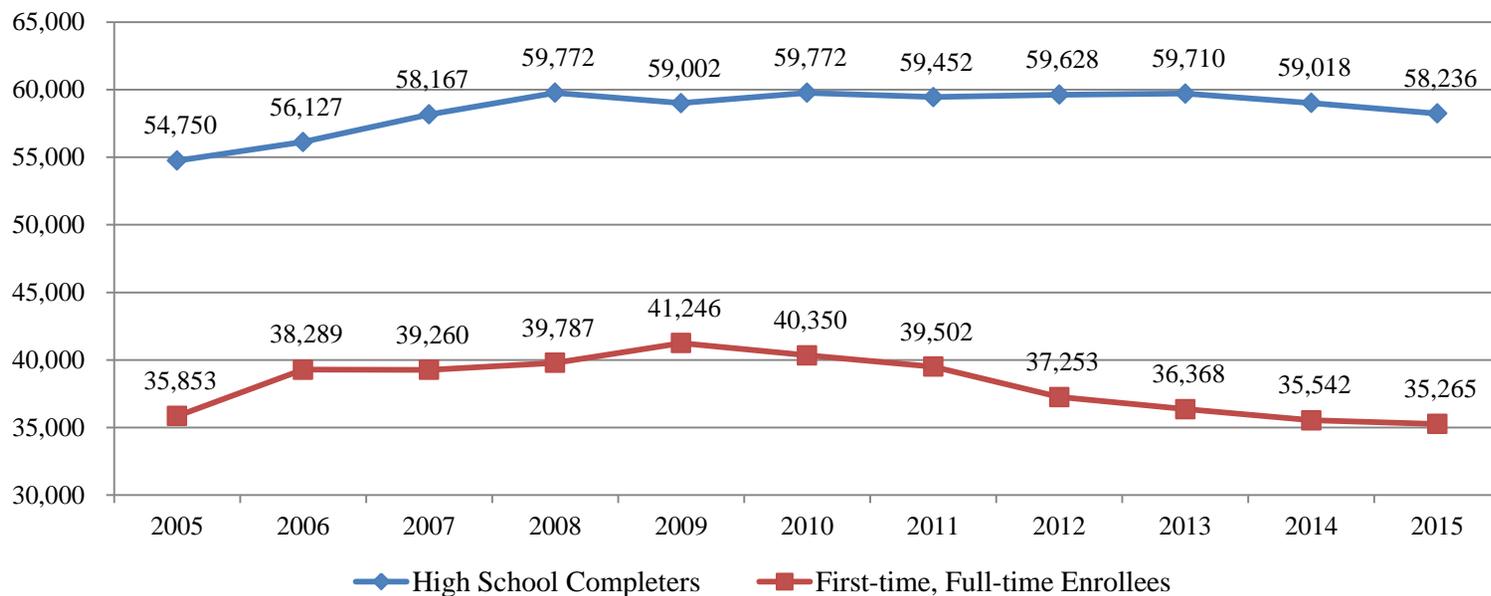

Figure 2. Growth in Enrollment at Maryland Colleges and Universities by Segment, 2008-2015

- Enrollment at public four-year institutions grew by 0.8%, from 171,502 to 172,951. This increase is due to a growth in part-time undergraduate students and full-time graduate students. The number of part-time undergraduates at public four-year institutions rose from 38,448 to 39,650, an increase of 1,202 or 3.1%. The number of full-time graduate students also increased by 1.9% from 18,418 to 18,775. Enrollment increased at six of thirteen institutions in this sector, while decreasing at six others, and remaining essentially unchanged at one. Most of the increases across institutions were relatively small, ranging from 0.4% at Morgan State University to 4.3% at the University of Maryland Eastern Shore, which had the largest percentage increase in part-time undergraduate students (from 378 to 451, an increase of 73 or 19.3%).
- Enrollment at private and independent institutions increased slightly by 439 (0.8%). This reflects the closure of Sojourner Douglass College (which enrolled 705 students in Fall 2014) and the opening of the newly approved Bais HaMedrash and Mesivta of Baltimore (which enrolled 58 students in Fall 2015). When these institutions are removed from the enrollment totals, and only institutions operating in both 2014 and 2015 are considered, the increase for the sector is 1,086 or 2.0%. Enrollment at independent (i.e., state-aided not-for-profit private) institutions declined from 51,388 to 51,145, a decrease of 243 or 0.5%, while at other Maryland private institutions, enrollment increased from 3,386 to 4,068, an increase of 682 or 20.1%.

- The number of first-time, full-time students has declined for the sixth consecutive year (shown in Figure 3). In Fall 2015, 35,265 first-time, full-time students enrolled, down by 277 (0.8%) from the Fall 2014 enrollment of 35,542. The community college sector saw its enrollment of first-time, full-time students increase by 1.0% (from 14,301 to 14,447), while the four-year public sector saw its enrollment decrease by 0.6% (from 14,074 to 13,996). The state-aided independent sector saw its enrollment of first-time, full-time students decline by 3.3% (from 6,144 to 5,940), while all other private institutions saw a decrease of 13.8% (from 1,023 to 882). Data from the Maryland State Department of Education (MSDE) indicate that the number of high school completers decreased from 59,018 in 2013-2014 to 58,236 in 2014-2015, a decrease of 1.3%. This is similar to the decrease between 2012-2013 and 2013-2014 (from 59,710 to 59,018 or 1.2%). However, beginning in 2012, first-time, full-time students decreased even without a decrease in high school completers. One potential explanation for this is external economic changes, such as the improving economic climate or the end of the tuition freeze at four-year institutions. As more data become available, MHEC will conduct additional research to identify changes in college-going patterns.
