## Enrollment at Maryland's Colleges and Universities Peaks Again

*The following report highlights preliminary enrollment data submitted for fall 2011 by the State's colleges and universities. Final enrollment figures which are reported later in the term may vary slightly from those included in this report.*

- **Headcount enrollment for 2011 is 373,324, an increase of 1.1 percent over 2010.** This figure reflects a gain of 4,004 students since last year. **This is the fifteenth consecutive year in which enrollment increased, and the eleventh consecutive year in which the total represents a record high for the State's postsecondary institutions.**
- Since 1991, total enrollment in Maryland's degree-granting postsecondary institutions has grown by more than 39 percent, or over 105,000 students.
- Maryland's four-year public institutions experienced the largest percentage gains of any higher education sector. Enrollment at four-year institutions increased by 3,214 students, or 2.0 percent over 2010. Four-year public institutions accounted for 80.3 percent of the State's enrollment growth in 2011, and posted an increase for the sixth consecutive year. Enrollment at four-year institutions has grown by 21.0 percent since 2005.

- Community college enrollments increased by 1,327 students, a gain of 0.9 percent, or 33.1 percent of the State’s enrollment growth. Despite this smaller rate of increase in 2011, community colleges have been the fastest-growing sector for the last five years, growing by 24.2 percent since 2006.
- Enrollment at independent institutions, which peaked at 59,540 in 2010, declined by 537 students to 59,003, a loss of 0.9 percent. This represents -13.4 percent of the statewide total growth.

- Total enrollment for the University System of Maryland increased by 3,026 students (2.0 percent) to 155,607, and enrollment at Morgan State University increased by 213 students (2.7 percent) to 8,018 students. St. Mary’s College of Maryland enrollment declined by 25 students, or a decrease of 1.2 percent.
- Full-time undergraduate enrollment in the State’s colleges and universities decreased slightly to 169,126 students. This is a decline of 131 students (0.1 percent). This is the first year since 1993 that the number of full-time undergraduates enrolled in the State has failed to grow. Full-time undergraduate enrollment increased by 1,833 students at public four-year institutions, but decreased by 1,629 students at community colleges and 335 at independent institutions.

- For the second consecutive year, first-time full-time undergraduate enrollments decreased. While 40,342 first-time full-time students enrolled in fall 2010, 39,559 students enrolled in fall 2011, a decrease of 783 students (1.9 percent). This is consistent

with US Department of Education data, which projects a decline in the number of high school graduates of 1.3 percent from 2009-10 to 2010-11. (Maryland State Department of Education data for the Class of 2011 are not yet available.) The number of first-time, full-time students decreased by 518 students (3.6 percent) at the State's public four-year institutions and by 458 students (2.6 percent) at community colleges. The number of first-time full-time students enrolling at independent colleges and universities increased by 193 (2.2 percent).

- Part-time undergraduate headcount enrollment increased by 3,709 over 2010 (2.9 percent). Part-time undergraduate growth was strongest at community colleges, which grew by 2,956 students (3.2 percent), and at four-year institutions, which grew by 778 students (2.4 percent). Independent colleges and universities experienced a slight decrease in part-time undergraduate enrollments, losing 25 students (0.6 percent).
- Full-time graduate student enrollments increased by 4.0 percent to 28,682 students, while part-time graduate student enrollments decreased by 1.5 percent to 42,791. Overall, 71,473 students enrolled in graduate study at Maryland's colleges and universities, an increase of 426 students or 0.6 percent over 2010. Since 1991, graduate enrollment has increased by 71.9 percent, or just under 30,000 students.
- Half of all community colleges experienced overall enrollment gains, and half experienced enrollment losses. At most community colleges, 2011 enrollments were within one or two percentage points of 2010 enrollments. Cecil College experienced the largest increase in terms of *percentage* (7.2 percent, or 174 students), followed by Garrett College (6.1 percent, or 52 students) and Howard Community College (5.4 percent, or 514 students). Montgomery College saw the largest increase in terms of *number* of students (981 students, or 3.8 percent). Allegany College of Maryland saw the largest decrease in both number and percentage of students (298 students, 7.3 percent).
- Total enrollment (undergraduate and graduate combined) increased at 7 of the 13 public four-year colleges and universities, although enrollments changed by more than 2 percent at only 4 institutions. Enrollments at the University of Maryland University College saw the largest increase in both *number* and *percentage* of students (2,970 students, 7.5 percent), while enrollments also increased at the University of Maryland Baltimore County (311 students, 2.4 percent), Morgan State University (213 students, 2.7 percent), and Salisbury University (209 students, 2.5 percent).
- Total headcount enrollments increased at 14 independent colleges and universities, decreased at 14 others, and were unchanged at Ner Israel Rabbinical College. Stevenson University saw the largest increase in *number* of students (353 students, 9.0 percent), while Fortis College experienced the largest *percentage* increase (47.4 percent, 137 students).

- Women continue to outnumber men in all sectors of Maryland's colleges and universities, and represent 57.5 percent of all students enrolled. However, enrollment increases for men once again outpaced increases for women (1.6 percent vs. 0.7 percent).
