Introduction

This report presents data on the retention and graduation rates of first-time, full-time undergraduate students in the state of Maryland. The first section of this report presents data on undergraduate students entering Maryland's public four-year colleges and universities¹ from 1989 to 2009. For the second year, this report includes retention data for the University of Baltimore (UB). Before 2007, UB did not enroll first-time undergraduate students. Graduation rates for the University of Baltimore will be presented for the first time in the next edition of this report. The second section of this report presents the retention and graduation rates for Maryland residents who entered one of the state's independent postsecondary institutions from 2004 to 2009.

During the 2008-2009 academic year, a total of 26,684 bachelor's degrees were awarded at Maryland public and independent institutions. The largest proportions of these degrees were awarded to white (58.5 percent), African American (19.4 percent) and Asian (8.3 percent) students. Hispanic and Native American students accounted for 3.5 percent and 0.4 percent, respectively, of all degrees awarded.

The ten year graduation trends (1999-2009) in this report include undergraduate students who remained and graduated from the campus at which they initially enrolled, as well as those who transferred to and then graduated from any of the four-year colleges or universities, including independent institutions, in the state of Maryland. The retention rates are institution-specific. The data presented in this report are for the 2004 cohort of undergraduate students enrolled in Maryland's public and independent four-year institutions, and are disaggregated by gender, racial/ethnic group, and institution.

Since the entering class of 1996, MHEC has aligned its retention and graduation reporting with the IPEDS Federal Graduation Rate Survey² (GRS), which includes the data collection and reporting requirements listed below:

- The method used to match student enrollment and degree attainment is based on the federal GRS procedures and on the recommendations of an inter-segmental workgroup.

¹ While included in the aggregate statewide tables, individual institution data for the University of Maryland, Baltimore and the University of Maryland University College have been excluded. The University of Maryland, Baltimore is excluded because it does not enroll first-time students. The University of Maryland University College is excluded due to its mission to serve the adult, part-time population.

² **IPEDS Federal Graduation Rate Survey (GRS):** In 1990, Congress enacted the Student Right-to-Know Act (SRTK) which requires colleges and universities to disclose the rate students complete academic programs at postsecondary education institutions. The GRS is the federal data collection instrument for four-year postsecondary institutions.

- Prior to the 1996 cohort, students who enrolled at multiple institutions were reported at only one campus on a randomly selected basis. Currently, cross-enrolled students are included more than once within a cohort.
- When institutions report a new social security number for a student, the student is tracked on the basis of the *new* number. In earlier cohorts, students with new social security numbers were treated as no longer enrolled or dropped from an institution. This process mostly affects institutions enrolling a large number of international students, who often are assigned “dummy” social security numbers upon initial enrollment.

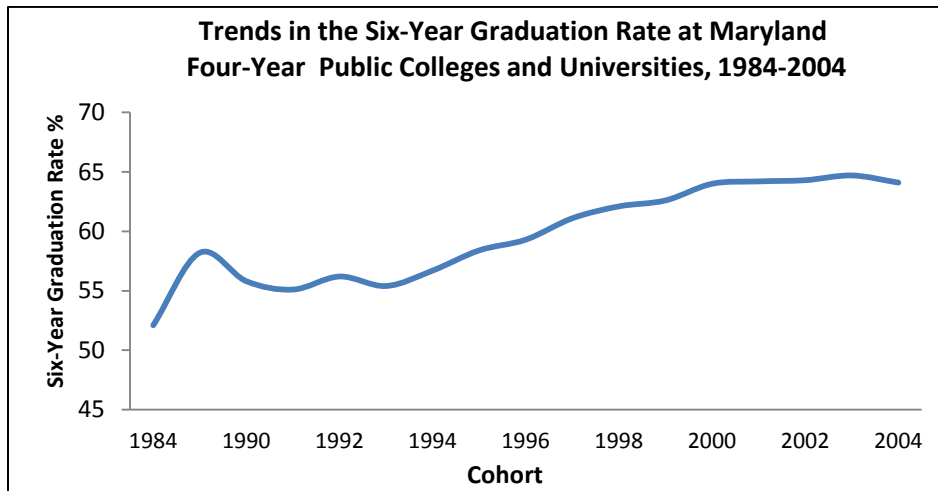

Analyses and Discussion

Maryland Four-Year Public Colleges and Universities

Six-Year Graduation Rates

- The six-year graduation rate for the 2004 cohort of first-time, full-time students declined slightly to 64.1 percent from 64.7 percent (see Figure 1).
- The six-year graduation rate decreased at all public four-year institutions except Coppin State University and Salisbury University.
- Among four-year public institutions, the following institutions had the highest six-year graduation rates for the 2004 cohort: the University of Maryland College Park (82.6 percent), St. Mary's College of Maryland (82.1 percent), Salisbury University (76.6 percent) and Towson University (72.6 percent).

Figure 1

Source: MHEC Enrollment and Degree Information Systems

Graduation Rates by Race and Ethnicity

- The six-year graduation rate for African American students declined from 43.2 percent for the 2003 cohort to 41.1 percent for the 2004 cohort. This marks the fifth consecutive year in which the graduation rate for African Americans has decreased.
- African American students achieved the highest six-year graduation rate at the following public four-year institutions: St. Mary’s College of Maryland (80.6 percent), Towson University (76.9 percent), the University of Maryland College Park (71.1 percent), the University of Maryland Baltimore County (65.6 percent) and Salisbury University (60 percent).
- Across all racial and ethnic groups, graduation rates were highest for white (75.7 percent) and Asian (75.5 percent) students. However, the graduation rates for these groups also declined slightly over the last year – from 76.4 percent to 75.7 percent for white students, and from 77 percent to 75.5 percent for Asian students.

Table 1

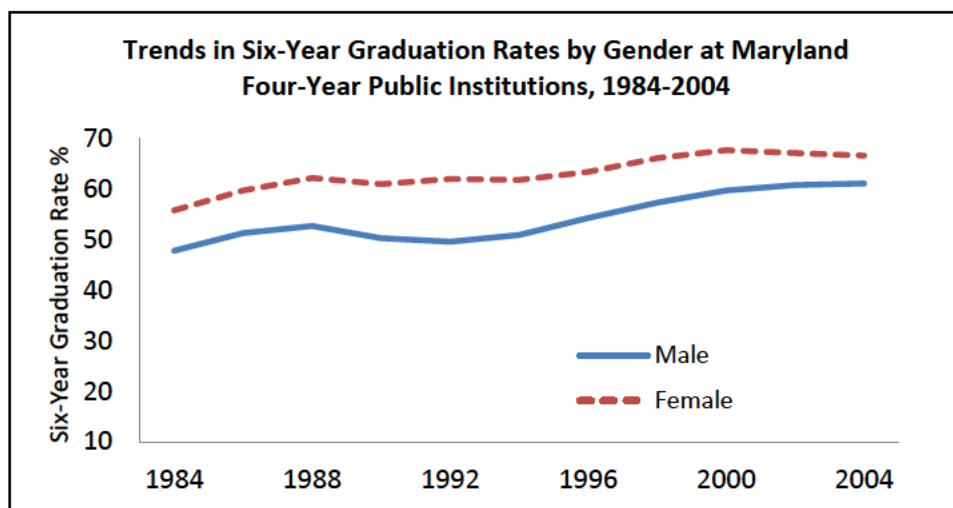

Trends in Six-Year Graduation Rates at Maryland Four-Year Public Institutions by Race and Ethnicity, 1984-2004							
	1984	1989	1994	1999	2004	5 yr. change	20 yr. change
All Students	52.1%	58.2%	56.7%	62.6%	64.1%	+1.5	+12.0
African American	29.7%	39.1%	43.3%	47.5%	41.1%	- 6.4	+11.4
Asian	56.6%	69.6%	62.5%	70.9%	75.5%	+4.6	+18.9
Hispanic	48.7%	55.5%	54.5%	58.7%	66.1%	+7.4	+17.4
White	59.3%	66.8%	64.6%	69.6%	75.7%	+6.1	+16.4

Source: MHEC Enrollment and Degree Information Systems

Graduation Rates by Gender

- Consistent with the national trend, the 66.6 percent graduation rate for female undergraduates attending public four-year universities in Maryland outpaced the 61.1 percent rate achieved by their male peers.
- For both men and women, the rates for students in the 2004 cohort were lower than the rates for the prior cohort. The 2004 graduation rate for male students was 61.1 percent, a slight decline from last year's rate of 61.6 percent. The graduation rate for female students was 66.6 percent, a slight decline from 67.1 percent the previous year.

Figure 2

Source: MHEC Enrollment and Degree Information Systems

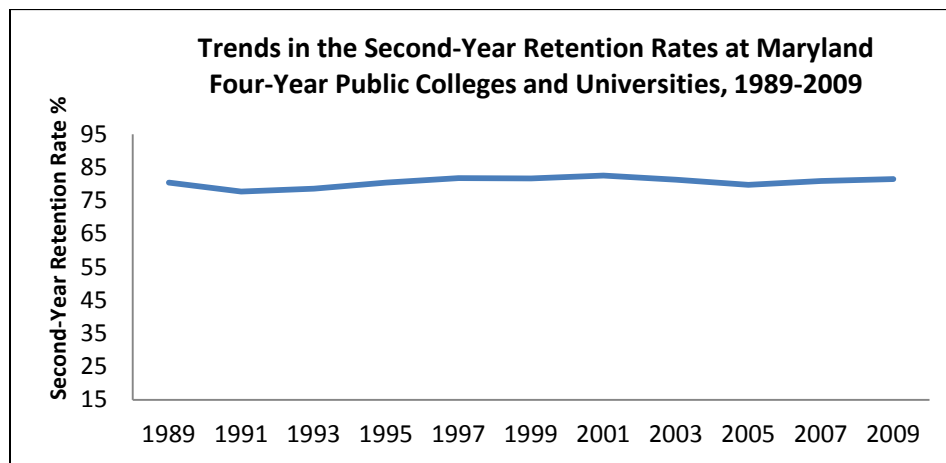

- A decade of graduation trend data has revealed that the gap between male and female students in the state has been gradually narrowing. For example, a 10.9 percentage point difference separated female and male students in the 1994 cohort. However, by 2004, the graduation rate difference between genders was reduced by half to 5.5 percentage points (66.6 percent for female students and 61.1 percent for male students).
- The six-year graduation rate for African American males decreased to 36.4 percent from last year's rate of 38.1 percent. The graduation rate for African American female students also decreased by 2.3 percentage points to 44.1 percent.

- The six-year graduation rate for the 2004 cohort of Hispanic females increased by 2 percentage points from 71.4 percent to 73.4 percent. The rate for Hispanic males decreased by 2.3 percentage points from 46.4 percent to 44.1 percent.

Second-Year Retention Rates

- The second-year retention rate for first-time, full-time undergraduates at public institutions in Maryland was 81.5 percent for the 2009 cohort, which was a slight increase from the 2008 cohort’s rate of 80.8 percent.

Figure 4

Source: MHEC Enrollment and Degree Information Systems

- The four-year public institution with the highest second-year retention rate for the 2009 cohort was the University of Maryland College Park. UMCP’s retention rate of 94.8 percent marked the University’s highest retention rate on record.
- Five of Maryland’s public four-year institutions experienced gains in their second-year retention rates: Frostburg State University (71.9 percent to 73.8 percent), Salisbury University (79.9 percent to 80.5 percent), the University of Baltimore (81.6 percent to 83.4 percent), Towson University (83.0 percent to 84.7 percent), and the University of Maryland College Park (93.0 percent to 94.8 percent).

Table 2

Trends in Second-Year Retention Rates at Public Four-Year Institutions by Racial/Ethnic Group 1989-2009					
	1989	1994	1999	2004	2009
All Students	80.5%	78.9%	81.7%	80.8%	81.5%
African American	74.5%	75.0%	77.0%	72.3%	71.8%
Asian	88.2%	87.3%	85.1%	86.2%	90.1%
Hispanic	81.5%	80.0%	80.2%	83.8%	84.8%
White	83.1%	80.6%	83.9%	84.7%	86.5%

Source: MHEC Enrollment and Degree Information Systems

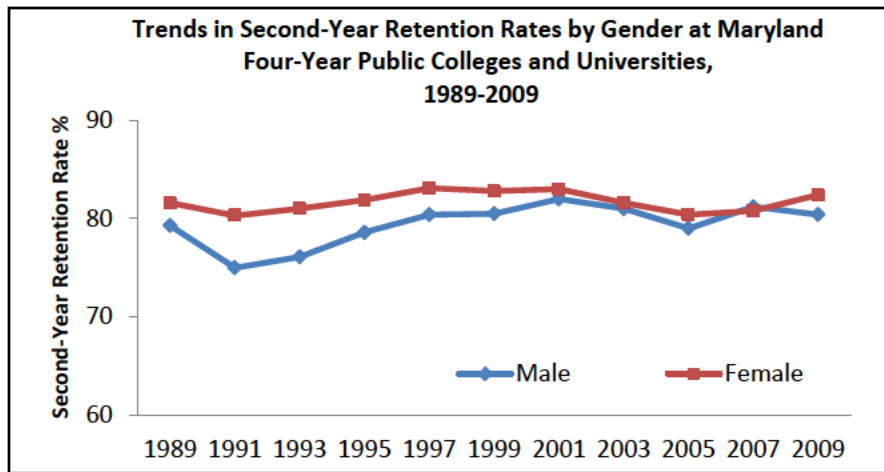

Second-Year Retention Rates by Race and Ethnicity

- In the 2009 cohort, Asian students achieved the highest second-year retention rate (90.1 percent) of all racial and ethnic groups.
- The second-year retention rate for white students increased to 86.5 percent from 85.2 percent. Similarly, the retention rate for Hispanic students, who represented 3.9 percent of enrolled undergraduates in 2009, increased from 81 percent to 84.8 percent.
- The second-year retention rate for African American students in the 2009 cohort decreased from 72.8 percent to 71.8 percent. African American students who attended St. Mary's College of Maryland (97.6 percent), the University of Maryland College Park (94.5 percent), and the University of Maryland Baltimore County (90.3 percent), experienced the highest second-year retention rates.
- The retention rates for African Americans attending Maryland's historically Black institutions (HBIs) declined as follows: from 69.6 percent to 65.7 percent at the University of Maryland Eastern Shore; from 61.0 percent to 59.7 percent at Coppin State University; from 68.5 percent to 67.3 percent at Morgan State University, and: from 71 percent to 70.8 percent at Bowie State University.

Second-Year Retention Rates by Gender

- With the exception of students in the 2007 cohort, female students have consistently attained higher second-year retention rates than their male peers. In the 2009 cohort, the female retention rate was 82.4 percent, compared to the rate for males which was 80.4 percent.

Figure 5

Source: MHEC Enrollment and Degree Information Systems

- Similar to the overall statewide trend, African American females continued to achieve higher second-year retention rates than African American males. The retention rate for African American female students in the 2009 cohort was 73.5 percent, compared to rate for their male counterparts which was 69.3 percent.

Maryland State-Aided Independent Institutions

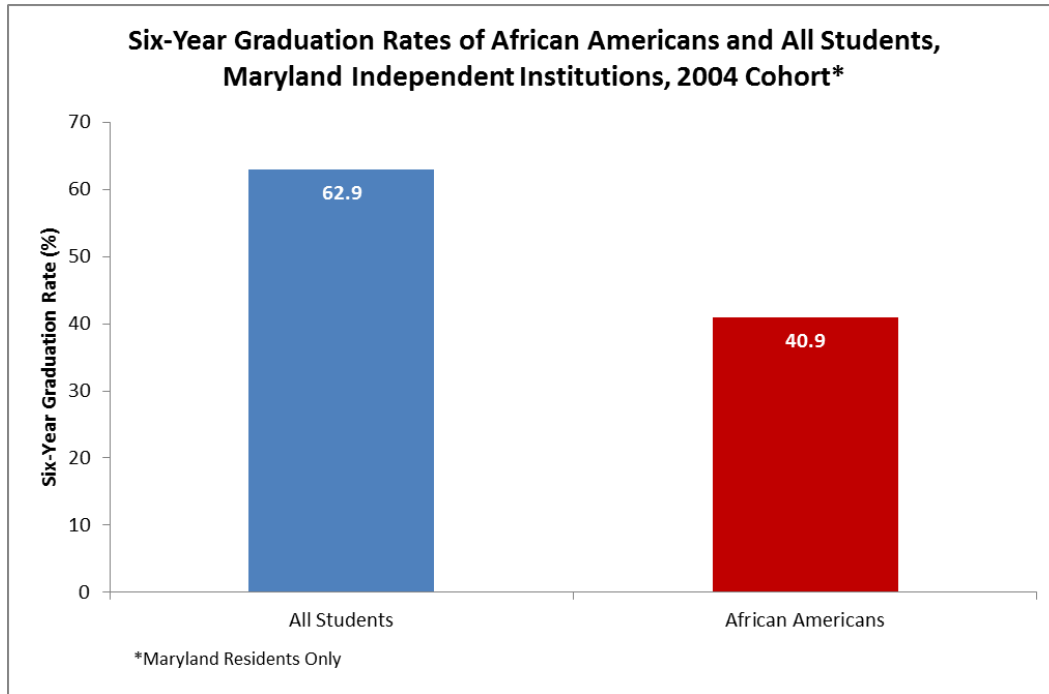

The final section of this report examines the six-year graduation rate and second-year retention rate data for Maryland residents who began their academic careers at one of the state's independent institutions.³ The overall graduation and retention rates at the independent state institutions differ from the overall rates for Maryland public institutions, and therefore do not permit direct comparisons between these two institutional types. **Again, the statements below apply only to Maryland residents.**

Six-Year Graduation Rate

- The six-year graduation rate for the 2004 cohort of new, full-time Maryland residents at independent institutions was 62.9 percent. The independent campuses with the highest six-year graduation rates for Maryland residents were Johns Hopkins University (86.7 percent), Loyola University Maryland (79.2 percent), Washington College (72.8 percent), and McDaniel College (67.7 percent).
- The six-year graduation rate for African American students in the 2004 cohort was 40.9 percent.
- The graduation rate gap between African American students and other students attending independent institutions was more than 20 percentage points (see Figure 6).
- Female students had a slightly higher six-year graduation rate than their male peers (63.7 percent versus 61.4 percent).

³ Most of the state's independent institutions began providing MHEC with student-level information about the enrollment and degree completion patterns of Maryland residents in fall 2004.

Figure 6

Source: MHEC Enrollment and Degree Information Systems

Second-Year Retention Rates

- The 2009 second-year retention rate for students attending Maryland independent institutions decreased by 2.6 percentage points, from 78.8 percent to 76.2 percent.
- The second-year retention rate for African American students in the 2009 cohort decreased by 4.9 percentage points (from 71.6 percent to 66.7 percent) when compared to the same rate for the 2008 cohort.
- The second year retention rate for female students was slightly higher than the rate for their male peers (76.8 percent compare to 75.2 percent).

Conclusion

Maryland remains one of the top states in the nation with regard to the percentage of students attaining a bachelor's degree within six years of initial enrollment. The six-year graduation rate for the most recent cohort of students entering Maryland's public institutions was 64.1 percent.

Although there have been real gains in educational attainment in the last several years, these gains have been distributed unevenly among all groups. Since the 1990 cohort, the graduation rate for Hispanic students has increased about 17 percentage points, from approximately 50 percent to approximately 67 percent. For white students, the rate has increased about 11 percentage points, from approximately 64 percent to approximately 75 percent. For African American students, however, the rate increased by about 9 percentage points, from 38.6 percent for the 1990 cohort to a peak of 47.5 percent for the 1999 cohort- but this was followed by six years of decline to the current rate of 41.1 percent. Colleges and universities are committed to redressing this imbalance. For example, the University System of Maryland is in the midst of its Closing the Achievement Gap Initiative and Towson University has eliminated the gaps in graduation rates among its students. Extending and consolidating these gains across all groups and throughout the state remains a significant challenge.

The report also highlighted slight increases in the six-year graduation rates for male students. Since 2001, data have indicated that the gap may be gradually closing between male and female students. While this is encouraging news on increases in graduation rates for men, women continue to lead in both college enrollments and graduation rates. A 2010 study by the National Center for Education Statistics projected that by 2019 women would still account for 59 percent of the total undergraduate enrollment and 61 percent of total post baccalaureate enrollment at the nation's colleges and universities.

At 81.5 percent, the statewide second year-retention rate reached its highest level since 2001. The impact of this increased rate should result in higher graduation rates over the next several years.

Maryland's higher education system continues to show excellence in student retention but also seeks to improve its system to ensure that all students acquire the high quality education needed for the new knowledge-based economy. The State recognizes that all students are not achieving at the levels needed for academic success. The 2009 Maryland State Plan for Postsecondary Education report emphasized the continuing need for broad statewide efforts to close any gaps in achievement between groups of students, particularly for low-income, first-generation, and underrepresented minority students.

The plan stated that Maryland should consider associate and baccalaureate degree completion and/or transfer from a community college, as opposed to just enrollment, as the principal metrics of success of higher education in meeting the needs of the citizens of the State. This topic will undoubtedly be more fully considered in the months ahead.
